Subject: Deadline for Final Submittals in Clarksburg

Dear Rose,

After meeting with my clients late today, I understand that several of the items that we requested of you will not be made available until tomorrow, November 15th. I understand that you will provide us tomorrow the record of fees for amendments to site plans, copies of files pertaining to environmental issues, and a transcript of the developer/builder presentations on November 3rd that is not in final useable shape. We are still attempting to get an electronic version of that presentation and understand that you have not obtained one either.

Based on the fact that receipt of these materials was anticipated last week, and that they are mandatory to completion of our detailed submission to the Board (now due on Friday, November 18th), I do not believe we have adequate time to complete the task under the current deadline. I therefore request that both sides be informed that the deadline is extended two business days, to close of business on Tuesday, November 22.

Thank you in advance for your prompt confirmation of the submission date extension.

Dave Brown
