	Stephen Tu, Associate Planner, <a href="mailto:stephen.tu@montgomeryplanning.org">stephen.tu@montgomeryplanning.org</a> , 301-495-4639
	Jon Ryder, Associate Planner, <a href="mailto:jon.ryder@montgomeryplanning.org">jon.ryder@montgomeryplanning.org</a> , 301-495-4596
	Tom Autrey, Supervisor, <a href="mailto:thomas.autrey@montgomeryplanning.org">thomas.autrey@montgomeryplanning.org</a> , 301-495-4533
	Pam Dunn, Chief, <a href="mailto:pamela.dunn@montgomeryplanning.org">pamela.dunn@montgomeryplanning.org</a> , 301-650-5649

Completed: 07/06/2017

---

### RECOMMENDATION

Receive a briefing on 1) outreach efforts for the Bicycle Master Plan's preliminary bikeway recommendations, and 2) the Bicycle Facility Design Toolkit.

### SUMMARY

Public Outreach: Staff will provide an overview of the public outreach efforts that occurred between June 1, 2017 and July 17, 2017 as the Bicycle Master Plan team sought community feedback on its preliminary bikeway recommendations. This included five public meetings in Bethesda, Burtonsville, Olney, Silver Spring and Wheaton, and the launching of an online feedback map called the Bikeway ReactMap. This map is available at: [www.mcatlas.org/bikereact](http://www.mcatlas.org/bikereact)

Bicycle Facility Design Toolkit: Staff will summarize the toolkit, which is intended to provide guidance to designers and planners on best practices in bicycle facility design as described in the following guides:

- National Association of Cities and Transportation Officials (NACTO) Urban Bikeway Design Guide, 2nd Edition
- Federal Highway (FHWA) Separated Bike Lane Planning and Design Guide
- Massachusetts Department of Transportation (MassDOT) Separated Bike Lane Planning and Design Guide
- American Association of State Highway Transportation Officials (AASHTO) Guide for the Development of Bicycle Facilities, 4th Edition.
