**REVIEW TYPE:** Zoning Text Amendment  
**PURPOSE:** To allow the sale of farm produce by Certified Agricultural Producers in residential zones, under certain circumstances

**TEXT AMENDMENT:** No. 09-11  
**REVIEW BASIS:** Advisory to the County Council sitting as the District Council, Chapter 59 of the Zoning Ordinance  
**INTRODUCED BY:** Councilmember Berliner  
**INTRODUCED DATE:** November 17, 2009  
**PLANNING BOARD REVIEW:** January 7, 2010  
**PUBLIC HEARING:** January 12, 2010; 1:30 PM

**STAFF RECOMMENDATION:** APPROVAL to allow the sale of farm produce by Certified Agricultural Producers by right in residential zones, under certain circumstances.

**BACKGROUND/ANALYSIS**

The proposed text amendment, as sponsored by Councilmember Berliner, would allow what residents might typically refer to as “farmers’ markets”. However, although similar to farmers’ markets in many respects, “agricultural vending” as proposed under ZTA 09-11 has somewhat broader application in that it could be established in most one-family residential zones if: (1) located on a lot or parcel greater than 4 acres that is also used for non-residential purposes other than agricultural vending; (2) the lot or parcel abuts a roadway with 4 or more lanes, and (3) the structure or vehicle used for sales remains in the same location for less than 24 hours. Other limitations are proposed to regulate potential impacts in the smaller lot residential zones. Only a Certified Agricultural Producer would be allowed to sell products. Agricultural vending must be located at least 100 feet from any dwelling.

County regulations require that a Certified Agricultural Producer be a vendor of regionally grown products. Regionally grown products are those produced within the five state areas of Maryland, Virginia, West Virginia, Delaware, and Pennsylvania and the

city of Washington, DC. A Certified Agricultural Producer must comply with the following requirements.

- (a) A Certified Agricultural Producer must sell only fresh fruits, vegetables, herbs, cut flowers, small trees, or plants produced by the Agricultural Producer.
- (b) A Certified Agricultural Producer may sell non-potentially hazardous prepackaged goods and eggs. These products must be approved by the Montgomery County Health Department.
- (c) A point of sale license must be obtained before operating.
- (d) Regionally grown products must be sold only by the agricultural producer or a representative of the agricultural producer.
- (e) A Certified Agricultural Producer must be responsible for the conduct of anyone operating under a Point of Sale License issued by the Department of Permitting Services.

Although most, if not all, residents refer to agricultural vending as “farmers’ markets”, the Zoning Ordinance is very restrictive in its definition of a farm market:

***Farm market:** The display and retail sale from a farm of: (1) agricultural products produced on the farm where the farm market is located, or (2) agricultural products produced on another farm under the control of the owner or operator of that farm market. A farm market includes the display and sale of farm food products certified as non-potentially hazardous by the Department of Health and Human Services. Up to 25 percent of the farm market display and sales area may be used for display and sale of agricultural products not produced on a farm under the control of the owner or operator of the farm market. In the event of crop failure due to drought, insect damage, disease, or other cause beyond the control of the owner or operator of the farm market, the Department of Permitting Services upon the recommendation of the Department of Economic Development and the Montgomery County Agricultural Advisory Committee may allow for a limited period of time more than 25 percent of the farm market display and sales area to be used for agricultural products from off the farm where the farm market is located.*

One of the key differences between the “agricultural vending” in the proposed new zoning category “agricultural vending” and a “farm market” is that the display and retail sale of agricultural products for a farm market must occur on a farm. In the one-family residential zones, a farm market is a permitted use in the RE-2, RE-2C, RE-1 and R-200 zones—zones with a typical minimum lot size ranging from 20,000 square feet to 2 acres. An agricultural vending use would be inclusive of the aforementioned zones as well as the R-60, R-90 and R-150 zones—with a caveat that the lot or parcel be a minimum size

of 4 acres. To further minimize the impact of an agricultural vending establishment on residential neighborhoods, such establishments could only be located on parcels or lots along major roadways of 4 lanes or greater (not typical of an internal subdivision street). Further, agricultural vending could not occur within 100 feet of any dwelling and the structure or vehicle used for sales cannot remain in the same location for more than 24 hours. Staff believes that the parameters proposed for the establishment of agricultural vending help to mitigate any possible adverse impacts on surrounding residential development while also allowing Certified Agricultural Producers to provide healthy, fresh local produce and goods for area residents.

### **RECOMMENDATION**

For the reasons stated above, staff recommends approval of the zoning text amendment to allow the sale of farm produce by Certified Agricultural Producers in residential zones, under certain circumstances.
