1 This Resolution constitutes the written opinion of the Board in this matter and satisfies any requirement under the Montgomery County Code for a written opinion.
NOW, THEREFORE, BE IT RESOLVED THAT, pursuant to the relevant provisions of Montgomery County Code Chapter 50, the Planning Board approved Preliminary Plan Amendment No. 12004109A to revise Condition #6 of the corrected opinion dated March 21, 2006, as follows:

1) Previous condition #6, shall be amended as follows:

6) Construct an eight-foot-wide shared-use path and an eight-foot-wide tree panel on US 29A (Burtonsville Boulevard) along the entire Property frontage. Extend this shared-use path and tree panel further north from the property line to the PEPCO power line right-of-way (or to the Patuxent Trail [PB-41]). The shared-use path shall be offset two feet from the property line.

2) All other previous conditions of approval as contained in the Planning Board corrected Opinion dated March 21, 2006 remain in full force and effect.

BE IT FURTHER RESOLVED, that, having given full consideration to the recommendations and findings of its Staff, which the Board hereby adopts and incorporates by reference, and upon consideration of the entire record, the Montgomery County Planning Board FINDS, with the conditions of approval, that:

1. The Preliminary Plan substantially conforms to the master plan.

   The revision does not substantially change the plan. As determined by the Planning Board at the initial hearing for this project, the plan is in conformance with the land use recommendations of the Fairland Master Plan.

2. Public facilities will be adequate to support and service the area of the proposed subdivision.

   By virtue of a thorough review and recommendations of approval from all agencies including the Montgomery County Department of Public Works and Transportation, the Montgomery County Department of Permitting Services, the Maryland State Highway Administration and the Montgomery County Department of Fire and Rescue Services, this plan will be adequately served by public facilities.
3. The size, width, shape, and orientation of the proposed lots are appropriate for the location of the subdivision.

The configuration of the lots was not changed as part of this plan revision. Lot shape, size, width and orientation remain in compliance with Chapter 50.

4. The Application satisfies all the applicable requirements of the Forest Conservation Law, Montgomery County Code, Chapter 22A.

At the initial hearing, the plan was reviewed for compliance with Chapter 22A of the Montgomery County Code and found to comply with all requirements of that Chapter by the Planning Board. The revision required no changes to the forest conservation plan.

5. The Application meets all applicable stormwater management requirements and will provide adequate control of stormwater runoff from the site. This finding is based on the determination by the Montgomery County Department of Permitting Services ("MCDPS") that the Stormwater Management Concept Plan meets MCDPS' standards.

The Montgomery County Department of Permitting Services reviewed and approved a stormwater management concept for the entire project at the initial review. The concept was not changed as part of this revision and remains valid.

BE IT FURTHER RESOLVED, that the date of this Resolution is [date] (which is the date that this Resolution is mailed to all parties of record); and

BE IT FURTHER RESOLVED, that any party authorized by law to take an administrative appeal must initiate such an appeal within thirty days of the date of this Resolution, consistent with the procedural rules for the judicial review of administrative agency decisions in Circuit Court (Rule 7-203, Maryland Rules).
