¹ For the purpose of these conditions, the term “Applicant” shall also mean the developer, the owner or any successor(s) in interest to the terms of this approval.

BE IT FURTHER RESOLVED that having considered the recommendations and findings of its Staff as presented at the hearing and set forth in the Staff Report, which the Board hereby adopts and incorporates by reference (except as modified herein), and upon consideration of the entire record, the Planning Board FINDS, with the conditions of approval, that:

(1) The site plan conforms to all non-illustrative elements of a development plan or diagrammatic plan, and all binding elements of a schematic development plan, certified by the Hearing Examiner under Section 59-D-1.64, or is consistent with an approved project plan for the optional method of development, if required, unless the Planning Board expressly modifies any element of the project plan;

(3) The locations of building and structures, open spaces, landscaping, recreation facilities, and pedestrian and vehicular circulation systems are adequate, safe, and efficient;

The Amendment will only alter the size and configuration of the park pavilion building. The pavilion building will be increased by 255 square feet for a restroom addition and its height will be reduced from two to one story. There will be landscaping and design changes in the park, including the addition of sculpture benches. These changes will make the park more attractive and comfortable for users. Towne Road will now include a two-way separated bike lane and new streetscaping. These improvements will make the road more attractive to both bicyclists and pedestrians. These modifications to the pavilion area and to Towne Road do not change the Board’s previous finding that the location of buildings and structures, open space, landscaping, recreation facilities, and pedestrian and vehicular circulation systems are adequate, safe, and efficient.

(4) Each structure and use is compatible with other uses and other site plans, and with existing and proposed adjacent development;

The new pavilion building is slightly larger than the previously approved pavilion/kiosk design but its height will be reduced to one story. The new pavilion is still compatible with the surrounding high density residential and commercial developments in the area. All the other structures will continue to be compatible with other uses, other site plans, and existing and proposed adjacent developments.
(5) The site plan meets all applicable requirements of Chapter 22A regarding forest conservation, Chapter 19 regarding water resources protection, and any other applicable law.

The Site Plan's previous forest conservation and water resources approvals remain in full effect, and the Board's previous finding stands.

BE IT FURTHER RESOLVED, that this Resolution incorporates by reference all evidence of record, including maps, drawings, memoranda, correspondence, and other information; and

BE IT FURTHER RESOLVED, that this Site Plan shall remain valid as provided in Montgomery County Code § 59-D-3.8; and

BE IT FURTHER RESOLVED, that this Resolution constitutes the written opinion of the Board in this matter, and the date of this Resolution is OCT 19 2016 (which is the date that this resolution is mailed to all parties of record); and

BE IT FURTHER RESOLVED, that any party authorized by law to take an administrative appeal must initiate such an appeal within thirty days of the date of this Resolution, consistent with the procedural rules for the judicial review of administrative agency decisions in Circuit Court (Rule 7-203, Maryland Rules).
