Description

ZTA No. 17-14 would revise, under certain circumstance, the provisions that allow fences and walls to be exempt from setback standards.

Summary

Staff recommends approval of ZTA 17-14, to revise, under certain circumstance, the provisions that allow fences and walls to be exempt from setback standards.

Background/Analysis

Currently, the Zoning Ordinance exempts fences and walls from setback requirements if the height of the structure is 6.5 feet or lower. (Exceptions are granted for deer fencing or other fences located in the Agricultural or Rural Residential zones or are 8 feet or less in height and located on land that is farmed and agriculturally assessed). A landowner who wants a higher fence is either required to meet the setback requirement or to apply for a variance. The sponsor believes that when the owner of residentially zoned property abuts a non-residentially zoned property (in Commercial/Residential, Employment, or Industrial zones), an 8-foot fence should be allowed without a setback or a variance.

Staff has no objection to ZTA 17-14 given that the relaxation of the height standard could assist homeowners in residential zones in minimizing possible visual and audible obtrusions associated with adjacent non-residential uses (headlights from larger vehicles, sounds from machinery, etc.). Staff has highlighted the applicable ZTA language below for the Board’s convenience.
