**Development Standards**

The Subject Property was developed prior to October 30, 2014 under the C-2 Zone standards. Therefore, under Section 7.7.1.B.3.b of the current Zoning Ordinance, the Application was reviewed under the development standards and procedures of the Subject Property’s zoning in effect on October 29, 2014, (C-2) in the former Zoning Ordinance.

The purpose of the C-2 Zone is to provide locations for general commercial uses representing various types of retail trades, businesses and services for a regional or local area. The Amendment is in conformance with the purpose of the C-2 Zone.

The Amendment will also meet the development standards in the C-2 Zone as shown in the table below. Off-Street parking standards in Section 59-E-1 are applicable, including provision for an off-street loading space, bicycle spaces or lockers and motorcycle parking stalls.

**Development Standards Data Table - C-2 Zone**

<b>Off-Street Parking -Retail, general</b> Sec. 59-E-3.7. (metric:) 5 spaces per 1,000 SF of GFA	641 spaces	698 spaces
<b>Internal Landscaping of surface parking facility</b> Sec. 59-E-2.73.	5%	7.6%

The Amendment will provide approximately 16 percent green area on the Subject Property. Sidewalks and walkways shall be protected from vehicular encroachment by wheel stops, curbs or other methods in between a parking bay for pedestrian safety.

3. *The location of buildings and structures, open spaces, landscaping, recreational facilities, and pedestrian and vehicular circulation systems area adequate, safe and efficient;*

a. Location of Buildings and Structures

The Application's scope of work is limited to removal of approximately 15,870 square feet of existing retail space at the west side of the strip commercial shopping center behind Home Depot to expand and regrade to reconfigure the existing parking lot for 65 new parking spaces. No new buildings are proposed in this application; the 15,870 square feet of vacant retail space has been demolished.

b. Open Spaces

The Landscape Plan shows that the required green area will be provided in landscape islands throughout the two parking lots and on a portion of the USPS property.

c. Landscape and Lighting Plan

The Landscape Plan includes removal of 14 existing trees around the parking lot with 11 new trees to be planted at the north end/new parking lot edge. The minimum five percent internal landscaping is met as demonstrated in the Landscape Plan in an exhibit with 7.6 percent.

New light poles, building-mounted fixtures and several relocated light poles are included in the parking lot expansion area.

d. Recreation Facilities

Because no residential use is proposed at the Subject Property, recreational facilities are not required.

e. Pedestrian and Vehicular Circulation Systems

When the Subject Property was originally developed, pedestrian, bicycle and motorcycle facilities were not required. A Pedestrian and Vehicular Circulation Plan shows new pedestrian connections with sidewalks, painted crosswalks, and ADA-compliant features in both parking lots. The Applicant has requested a parking waiver per Sec. 59-E-4.5, to provide no bike spaces or lockers and motorcycle stalls.

Although the Board does not fully support the Applicant's request, it finds that bicycle and motorcycle parking should be calculated based on the number of new parking spaces. This results in a requirement of three bicycle spaces or lockers and one motorcycle stall. These additional facilities will be sufficient to serve the relatively few patrons and employees of Home Depot, the retail uses, and the USPS property that ride a bike or a motorcycle to these traditionally auto-centric uses. Given the auto-centric nature of these uses, full compliance with the parking standards are not necessary to accomplish the objectives in Section 59-E-4.2.

With the proposed parking lot improvements, recommended conditions of approval, and the parking waiver, the Board finds that the Application's circulation systems will be adequate, safe and efficient.

4. *Each structure and use is compatible with other uses and other site plans and existing and proposed adjacent development.*

Removal of 15,870 square feet of the north part of the shopping center and regrading for reconfiguration of the parking lot to improve vehicular and pedestrian circulation and safety is compatible with similar existing commercial uses with off-street parking lots surrounding the Subject Property.

5. *The site plan meets all applicable requirements of Chapter 22A regarding forest conservation, Chapter 19 regarding water resources protection, and any other applicable law.*

On September 1, 2015, Staff issued an exemption of Chapter 22A, Forest Conservation, for the proposed application (No. 42016023E for modifications to existing non-residential developed property). Therefore, the Applicant is not required to submit a Forest Conservation Plan.

BE IT FURTHER RESOLVED that this Resolution incorporates by reference all evidence of record, including maps, drawings, memoranda, correspondence, and other information; and

BE IT FURTHER RESOLVED, that this Amendment shall remain valid as provided in Montgomery County Code § 59-D-3.8; and

BE IT FURTHER RESOLVED that this Resolution constitutes the written opinion of the Board in this matter, and the date of this Resolution is JUL 03 2018 (which is the date that this resolution is mailed to all parties of record); and

BE IT FURTHER RESOLVED, that any party authorized by law to take an administrative appeal must initiate such an appeal within thirty days of the date of the mailing date of the original resolution, or, if the appeal relates to the corrected portion of this resolution, within thirty days of the date of this Corrected Resolution, consistent

with the procedural rules for the judicial review of administrative agency decisions in Circuit Court (Rule 7-203, Maryland Rules).
