Date of Report: 5/16/19

Staff Recommendation: Review and approve the Bethesda Downtown Sector Plan Annual Monitoring Report and transmit to the County Council.

Summary

The Bethesda Downtown Sector Plan is comprised of many complex elements, each of which depends upon the success of other Plan elements. In recognition of this complexity, the Sector Plan recommends an annual review of schools, parks, and transportation.

This second edition provides a detailed review of the Plan's implementation since the publication of the first edition published May 2018, including development approvals, key monitoring updates, schools, existing and recommended parks and open spaces, transportation, and recommendations to further the implementation of the Plan.
