The following record plats are recommended for APPROVAL, subject to the appropriate conditions of approval of the preliminary plan and site plan, if applicable, and conditioned on conformance with all requirements of Chapter 50 of the Montgomery County Code. Staff recommends approval of this minor subdivision plat pursuant to Section 50.7.1.F. of the Subdivision Regulations, which states:

F. **Plat of correction.** A plat of correction may be used for any of the following:

1. to correct inaccurate or incomplete information shown on a previously recorded plat, such as drafting or dimensional errors on the drawing; failure to include a required note, dedication, easement or other restriction; incorrect or omitted signatures; or other information normally required to be shown on a recorded plat. All owners and trustees of the land affected by the correction must sign the revised plat. In addition, the plat of correction must identify the original plat and contain a note identifying the nature of the correction;

2. to revise easements to reflect a Board action;

3. to improve clarity and legibility, the owner of any lands shown on a record plat may record an exact copy of the plat, except for necessary change of scale and the addition of any other necessary elements to make the plat conform to the requirements of this Chapter. The new plat must indicate that it is an exact copy of the original plat except for the changes made under this Subsection.

Staff notes for the Board that the subject plat is being submitted solely to effectuate Condition No. 6 of Preliminary Plan Resolution 18-056 for Preliminary Plan 11991045C which requires a new Record Plat to reference and graphically delineate the amended Conservation Easement.

Staff applied the above-noted minor subdivision criteria for the property included in this application and concludes that the proposed subdivision complies with the requirements of Section 50.7.1.F. and supports this minor subdivision record plat.
