RESOLUTION

WHEREAS, under Montgomery County Code Chapter 22A, the Montgomery County Planning Board is authorized to review forest conservation plan applications; and

WHEREAS, on January 31, 2020, Montgomery County Department of Technology Services (DTS) ("Applicant") filed an application for approval of a forest conservation plan on approximately 166.83 acres of land located at 4301 Brookeville Road ("Subject Property") in the Rural East Policy Area and 2005 Olney Master Plan ("Master Plan") area; and

WHEREAS, Applicant’s forest conservation plan application was designated Forest Conservation Plan No. MR2020012, PSSM at Brookeville ("Forest Conservation Plan" or "Application"); and

WHEREAS, following review and analysis of the Application by Planning Board Staff ("Staff") and other governmental agencies, Staff issued a memorandum to the Planning Board dated February 14, 2020, setting forth its analysis and recommendation for approval of the Application, subject to certain conditions ("Staff Report"); and

WHEREAS, on February 27, 2020, the Planning Board held a public hearing on the Application at which it heard testimony and received evidence submitted for the record on the Application; and

WHEREAS, at the hearing, the Planning Board approved the Application subject to certain conditions, by the vote certified below.
NOW, THEREFORE, BE IT RESOLVED that the Planning Board APPROVES Forest Conservation Plan No. MR2020012 on the Subject Property, subject to the following conditions:

1. The Applicant must record an M-NCPPC approved Certificate of Compliance in an M-NCPPC approved forest bank for the total afforestation/reforestation requirement prior to any clearing, grading or demolition on the project site.

2. The Applicant must install permanent Conservation Easement signage along the perimeter of the conservation easements.

3. The Final Sediment Control Plan must depict the limits of disturbance (LOD) identical to the LOD on the approved Final Forest Conservation Plan.

4. The Applicant must comply with all tree protection and tree save measures shown on the approved Final Forest Conservation Plan. Tree save measures not specified on the approved Final Forest Conservation Plan may be required by the M-NCPPC forest conservation inspector.

BE IT FURTHER RESOLVED that having given full consideration to the recommendations and findings of its Staff as presented at the hearing and as set forth in the Staff Report, which the Board hereby adopts and incorporates by reference (except as modified herein), and upon consideration of the entire record, the Planning Board FINDS, with the conditions of approval, that:

1. The Application satisfies all the applicable requirements of the Forest Conservation Law, Montgomery County Code Chapter 22A, and ensures the protection of environmentally sensitive features.

A. Forest Conservation

The Board finds that as conditioned, the Forest Conservation Plan complies with the requirements of the Forest Conservation Law.

The FCP proposes .08 acres of forest clearing and no forest retention. The net tract area for the Application, for purposes of Chapter 22A is 0.11 acres, 166.72 acres will remain in agriculture and is exempt from forest conservation. The proposed development on the Site generates a 0.12-acre planting requirement. The Applicant proposes to meet the planting requirement through Mitigation Credit in an offsite forest conservation bank.

---

1 For the purpose of these conditions, the term "Applicant" shall also mean the developer, the owner, or any successor in interest to the terms of this approval.
B. Forest Conservation Variance

Section 22A-12(b)(3) of the Forest Conservation Law identifies certain individual trees as high priority for retention and protection ("Protected Trees"). Any impact to these Protected Trees, including removal or any disturbance within a Protected Tree’s critical root zone ("CRZ"), requires a variance under Section 22A-12(b)(3) ("Variance"). Otherwise such resources must be left in an undisturbed condition.

This Application will require the removal or CRZ impact to one Protected Trees as identified in the Staff Report. In accordance with Section 22A-21(a), the Applicant requested a Variance, and the Board agrees that the Applicant would suffer unwarranted hardship by being denied reasonable and significant use of the Subject Property without the Variance.

The Board makes the following findings necessary to grant the Variance:

1. **Granting the Variance will not confer on the Applicant a special privilege that would be denied to other applicants.**
   Granting the variance will not confer a special privilege on the Applicant as the disturbance to the Protected Tree is due to the need to connect the public safety tower into the existing power grid already being utilized by the existing telecommunications tower. Granting of this variance is not a special privilege that would be denied to other applicants.

2. **The need for the Variance is not based on conditions or circumstances which are the result of the actions by the Applicant.**
   The need for the variance is not based on conditions or circumstances which are the result of actions by the Applicant. The requested variance is based on existing site conditions, including the location of the Protected Trees in relation to access the existing power grid.

3. **The need for the Variance is not based on a condition related to land or building use, either permitted or non-conforming, on a neighboring property.**
   The surrounding land uses do not have any inherent characteristics or conditions that have created or contributed to this need for a variance.

4. **Granting the Variance will not violate State water quality standards or cause measurable degradation in water quality.**
The variance will not violate State water quality standards or cause measurable degradation in water quality. No Protected Trees are being removed.

Mitigation for the Variance is at a rate that approximates the form and function of the Protected Trees removed. No mitigation is required for Protected Trees impacted but retained.

BE IT FURTHER RESOLVED that this Resolution constitutes the written opinion of the Planning Board in this matter, and the date of this Resolution is MAR 04 2020 (which is the date that this Resolution is mailed to all parties of record); and

BE IT FURTHER RESOLVED that any party authorized by law to take an administrative appeal must initiate such an appeal within thirty days of the date of this Resolution, consistent with the procedural rules for the judicial review of administrative agency decisions in Circuit Court (Rule 7-203, Maryland Rules).
