Chairman Anderson,

I am submitting this comment regarding the FY2021 Annual School Test scheduled for review on June 25, 2020 (Agenda Item #8).

The program capacity for Bethesda ES includes capacity for a hypothetical addition at the school funding for which is uncertain. In the interest of transparency, BE should reflect that the numbers are based on the hypothetical addition and should be listed as open conditionally.

Thank you for considering this comment.

Sincerely,  
Stacy Kobrick
