**Note:** Direct quotes are italicized, summarized comments are not italicized

### General comments, overall organization and introduction of the Plan (Revised Draft—Section 1: Why we need a new comprehensive plan for the county)

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Organization of the Plan and need to make it concise	<p>Various comments about the first fifty pages of the Plan (<i>Introduction, Rationale and Context, Trends and Challenges, Major Themes</i>):</p> <p>The intro section is too long and very difficult to use; some of the topics need to be combined; needs substantial revision to make it clear and set the stage for the goals and policies that follow; use easy to understand wording; need the big important main points to be at the beginning; need clear statements about how the plan will carve a path to the desired outcomes and prevent undesirable and unintended outcomes; need a logically cohesive and compelling complimentary set of policies; reduce redundancies; goals, policies, and actions related to a given topic should be contained in a single chapter rather than scattered throughout multiple chapters. A number of the goals, policies, and actions seem too detailed for a general plan and could also “date” the plan. Suggest removing actions from the Plan and putting them in an appendix. Change or eliminate certain words or phrases.</p>	<p>Dan Wilhelm for Greater Colesville Civic Association, Scott Plumer for Darnestown Civic Association, Melanie Rose White, Chair Citizens Coordinating Committee on Friendship Heights, Jane Lyons for Coalition for Smarter Growth; Deborah Ingram, Shruti Bhatnagar, Chair, Sierra Club Montgomery County, MD;</p>	<p>Staff concurs that the draft Plan needs to be modified as indicated in these comments and as instructed by the Planning Board on October 1, 2020. These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.</p>

	Evolution of 1964 Wedges & Corridors concept to Web of Corridors & Centers in 2020	<p><i>A reader of the first 50 pages of the report could easily take away the message that this plan is a course correction in an already successful plan, intended only to update in the light of new developments. That is not so.</i></p> <p><i>The great success of the 1964 plan is the wedge - the Agricultural Reserve. But the corridors have succeeded by growing very differently from how that plan foresaw them. The 1964 plan envisioned high-</i></p>	Benjamin Ross	<p>Thrive Montgomery acknowledges both the successes and failures of the '64 Plan. It recognizes that the original W&amp;C concept has changed through market forces and planning initiatives to reflect the needs of last 50 years.</p> <p>The W&amp;C concept does not exist in its purest form. The footprint of the development today is a hybrid of the original W&amp;C concept and</p>

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p><i>density urbanized centers built on greenfields outside the Beltway. Downtown Bethesda and Silver Spring were to remain low-density commercial districts serving the surrounding neighborhoods.</i></p> <p><i>Despite verbal nods to transit, the plan foresaw a county designed around automobile travel. The corridor cities are pictured like denser versions of Tysons Corner, built with wide streets around expressways. The plan needs to explicitly acknowledge the failures that we inherit from that orientation. One of them is office parks along I-270 that are full of empty space.</i></p>		subsequent amendments. It is a reality that cannot be denied. Figure 1 on page 10 of the Draft Plan reflects that reality. Just as the '93 Plan reflected where the county was in '93, the "web of corridors" map proposed by the Draft Plan reflects where we are in 2020.
		<p><i>Our vision for 2050 is a County that has maintained the green Wedges &amp; Corridors structure from the current General Plan rather than being "disappeared" from the current draft document. It is stated that "Thrive Montgomery 2050 proposes to reinforce this web of centers and corridors by focusing growth around transit stations and along the major corridors."</i></p> <p><i>Where exactly are the corridors and centers? The first time that specific roads are identified as being corridors is on p.76, but it is unclear if these are all the proposed corridors.</i></p> <p><i>It appears that we are doomed to a County of all corridors and no Wedges. So, what</i></p>	Kenneth Bawer for West Montgomery County Citizens Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>happened to the green Wedges? If the wedges have disappeared, does that mean that the County completely disregarded the principles of the existing General Plan? Does this mean that, no matter what is said in the Thrive Montgomery 2050 plan, the County will disregard this plan as well? We need to go back to the Wedges &amp; Corridors concept which more clearly delineates areas of development.</i>		
		<i>The 1964 Wedges and Corridors General Plan had a profound effect on the growth of both Gaithersburg and Germantown, as did the creation of the Agricultural Reserve. Those planning decisions created the Upcounty as a great place to live and raise a family. The 1964 General Plan and subsequent area Master Plans envisioned a strong commercial corridor along with a balance of residential and retail land use. While the residential and retail components have come to fruition, the balance of commercial enterprise is still lacking.</i>  <i>Given the new direction of the THRIVE General Plan to focus on urban areas with ready access to transit, the question remains as to how the suburban communities in the upper areas of Montgomery County will “thrive”.</i>	Marilyn Balcombe for Germantown Chamber of Commerce	
		<i>Our County General Plan should be thinking about expanding its Revenue and housing sources, it should be encouraging as a main emphasis the completion to the Satellite</i>	Cary Lamari	

Attachment 4: Summary of Public Comments

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Cities approach in the Wedges and Corridors Plan. It should bolster investment in Germantown, Clarksburg as new major employment resources. The Plan should highly emphasize the County and State commitment to promote infrastructure and services into these areas so as to balance our economic reliance on our Down County Area all the while building more affordable housing within these communities.</i>		
		<i>We also appreciate recognition of the need to change from “wedges and corridors” to a complete community concept that includes compact development, and we should focus on other factors as well -- such as encouraging healthier living (with reduced reliance on cars), protecting wildlife, limiting light pollution, encouraging local food production via the agricultural reserve, and better managing forest conservation.</i>	League of Women Voters of Montgomery County	
		<i>The continuation of the Wedges and Corridors structure of the General Plan - - the current draft creates confusion with its use of the term “web of corridors.”</i>	TAME Coalition	
	Relationship to the 1964 General Plan of Wedges and Corridors	<i>The 1964 General Plan and its amendments set goals for the purchase of thousands of acres of parkland, mapped our land uses, and planned for our future. Thrive Montgomery 2050 would best serve current and future county residents by identifying our needs—amenities in our east county communities, affordable housing in our cost prohibitive</i>	County Executive	The “64 Plan proposed broad goals (total of 10 goals) and relied upon subsequent plans and actions to implement those policies. For example, it relied on the then parks plan and the “park and open space acquisition program” to implement its recommendations for acquisition of parkland.

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>communities, and improved transportation to bring our residents closer to jobs and closer to each other, and then lay out a plan to accomplish these goals.</i>		Thrive Montgomery 2050, as a high-level General Plan, identifies the county's challenges and needs for the next 30 years and proposes policy recommendations that will be implemented through more detailed future master and facility plans and targeted actions. These future plans and actions will identify the specific strategies and locations to provide adequate amenities for our communities, affordable housing, and improved transportation in a most sustainable and equitable manner.
	Requests to delay the Project due to the Coronavirus pandemic	The project should be delayed (various timeframes suggested, ranging from two months to until we learn the consequences of the pandemic). People have not been able to participate in the process due to the Coronavirus pandemic; uncertainty about pandemic-related trend for people desiring lower density living continues; residents are coping with major disruptions to their lives and do not have the time to participate fully in the review and comment on this new master plan; the long-term consequences of the pandemic are unknown, people's preferences may change; residents of Montgomery County deserve the opportunity to review these changes before the Plan moves on to the County Council; need for in-depth public	County Executive, Coalition of incorporated municipalities and community organizations, TAME Coalition, Cary Lamari, Andy O'Hare for EBCA, Ken Bawer for West Montgomery Citizens Association, Cloverly Civic Association,	The Planning Department's work program and schedule is set by the County Council. Our work program was most recently discussed by the Council during our SemiAnnual Report in November. The Council did <u>not</u> change the schedule for the Thrive Montgomery 2050 project. The Council was informed in their decision by several points: <ul style="list-style-type: none"> <li>• It will be a long time before we know the full impact of the COVID-19 pandemic and how it will change out our long-term planning framework.</li> <li>• Delaying Thrive Montgomery 2050, which is a long term policy document, does not make sense</li> </ul>

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p>understanding and input to craft the Vision for Montgomery County for 2050.</p> <p>A 5-year review should be conducted in order to document the lasting impacts stemming from the pandemic.</p>	<p>Robert Oshel, Harold Pfohl, Alan Bowser, Carol Toth, Montgomery County Civic Federation, Kristy Daphnis, M. Allen, Donna R. Savage, Takoma Park Mobilization Environment Committee., Aspen Hill Advocates, Phyllis Edelman, Herb Simmens, Climate Mobilization Montgomery County Chapter</p>	<p>given that many of issues highlighted by the pandemic, such as an increased emphasis on equity and access to affordable housing, existed prior to the current crisis. We need to start laying out the groundwork to be address these ongoing issues and be more resilient in the face of disruptions.</p> <ul style="list-style-type: none"> <li>• The COVID-19 pandemic has not curtailed community participation in this project. The Planning Department has done a great deal of outreach over the past 18 months. The outreach has continued throughout the pandemic and we believe it has been very effective in reaching both people who typically participate in planning activities as well as people who have not participated in the past. We have conducted multiple virtual community and agency partner outreach activities over the Spring, Summer and Fall to gain feedback on earlier draft goals, policies and actions. This feedback helped to inform the development of the Working Draft Plan released in September.</li> </ul>

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Requests NOT to delay the project due to the Coronavirus pandemic	<i>we cannot delay the work that this document details... If COVID has taught us anything, it is the need to remain flexible and nimble. I would urge you to not chain yourself to a long list of prescriptions. Trust the sector plan process, and the hearings that follow, to do what they are designed to do. I certainly do at this point. Let the planners that come after you in the ensuing decades be inspired by concepts and ideals. Don't shackle them to tightly prescribed parameters... We need to get started now. There is no sense in waiting until some perfect moment arrives and an encyclopedia-like document has been completed. Let's go, let's dig in. Let's begin to THRIVE right now.</i>	Alison Gillespie	Staff concurs
	Relationship to the '93 Plan	There are numerous similarities between the 1993 plan refinements and the Public Hearing Draft Plan, but many important protections have been dropped from the PH Draft Plan. <i>The new plan promotes many more desirable paths forward than its predecessors and if implemented take pressure off sensitive and strategic protected areas. Promoting preferred practices is not enough. Harmful practices must be banned or required to meet extremely difficult hurdles to be approved. Promoting infill and compaction near transit is not enough, you also have to</i>	Scott Plumer for Darnestown Civic Association	Thrive Montgomery 2050 articulates a long-term vision and a set of goals and policies to achieve that vision. It emphasizes the discontinuance and mitigation of past land use practices that created a pattern of sprawl. The detailed controls and guidelines to prohibit undesirable practices are contained in the regulatory framework including the Zoning Ordinance and other parts of the County Code. Thrive Montgomery contains multiple actions to update these regulations to help address a number of issues resulting from earlier land use practices.

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>protect against sprawl where it is likely to occur.</i>		
	Provision of infrastructure to support new growth	<i>With the passage of the new Subdivision Staging Policy on Monday, November 16 (now called the Growth and Infrastructure Policy), development may proceed without assuring adequate public facilities. Absent a timing or staging requirement to coordinate new infrastructure with new development, we have no way of assuring that public facilities will keep pace with future growth.</i>	County Executive	Thrive Montgomery 2050 recommendations will be implemented through subsequent area master plans, countywide functional master plans and related sectional map amendments, district map amendments, zoning text amendments or other mechanisms approved by the County Council. Developments will be subject to local area master plan compliance and the Growth and Infrastructure Policy (GIP) requirements and guidelines, as amended by future Council Councils. Any specific assurances for timely provision of infrastructure and public services should be analyzed and included in the future master plans and GIP updates.
	Lack of discussion of the suburbs or rural areas.	<i>The draft does not explain why this plan omits any discussion of the suburbs or rural areas. Will suburban and large lot rural areas still exist in 30 years, or is this plan proposing that for the next 30 years all development will be compact and dense? In the next draft, please clarify whether this plan still supports the geographic areas of Suburban Communities and the Rural Wedge as part of the future of this County. If not, what does the plan support for those geographic areas? The plan should include a schematic map.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	Thrive Montgomery 2050 proposes to direct all future growth to transit station nodes along major corridors that have the infrastructure and other amenities to support this growth, instead of to rural and other low-density areas of the county. See the “web of corridors” graphic on page 10 of the draft Plan. All other suburban and rural residential areas beyond the 15-minute walking distance of these transit nodes will continue to exist. The idea of

No.	Issue/Topic Area	Comment	Commenter	Staff Response
				compact development applies to any new construction or redevelopment (upgrade of a strip shopping center, e.g.) in order to better utilize the limited land available for infill development outside of rural and other constrained parts of the county. The Planning Board Draft Plan will further elaborate on what is envisioned for suburban and rural areas.
	Provide a map of future growth areas	The plan should include a schematic map to clarify whether this plan still supports the geographic areas of Suburban Communities and the Rural Wedge as part of the future of this County. A map that spotlights which proportion of urban, suburban and rural communities are to become Complete Communities with Missing Middle housing would be helpful.	County Executive, Jane Lyons, East Bethesda Citizens Association	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.
		The draft needs to clearly identify new policies originating in this draft. Right now, it is difficult to tell whether a policy recommendation is brand new or already being implemented.	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	Thrive Montgomery 2050 will incorporate best practices in planning policies reflected in recent master plans such as the Bicycle Master Plan as well as brand new innovative policies and action recommendations.
		<i>Support the Thrive draft plan, especially the goals of compact growth, inclusion, and the corridors. More compact growth will allow for the population increase and support 15-</i>	Tina Slater	Staff concurs

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>minute living. The 15-minute living concept promotes the growing senior population, reduces auto use, and can be executed in all areas. Inclusion in diversifying neighborhoods is the key to promoting equity, and we should promote a range of housing types to accommodate that. Growth corridors are good for transit and density. Living, working, and going to school with people from different backgrounds is an advantage.</i>		
	Need for an advisory committee	<i>In this time of a pandemic, however, it is difficult to have an interactive dialogue about such issues that deeply impact our communities. Perhaps there could be an advisory committee formed to discuss specific issues that would affect those neighborhoods where Thrive Montgomery would have the greatest impact?</i>	Melanie Rose White, Chair Citizens Coordinating Committee on Friendship Heights	Staff believes that the outreach and engagement process employed to get community feedback for Thrive Montgomery reached a large and diverse audience, especially those who are typically not involved in land use planning. The Plan's detailed impacts on local communities will be discussed during the subsequent master plans which will be main vehicle for implementation of the Plan's recommendations.
	Possibility of severely constrained budget in the near future	The Plan should design for the likelihood that the County's budget will be severely constrained for some years to come – something that no number of PPPs will remedy.	Irene N. Lane, Councilmember, Town of Chevy Chase, Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	The implementation of this 30-year Plan over multiple decades will need to adjust to economic and fiscal realities of the current and future disruptions and growth cycles. Thrive Montgomery 2050 already anticipates that new funding sources will need to be identified to help implement its policies and includes several action recommendations to explore those opportunities. The

No.	Issue/Topic Area	Comment	Commenter	Staff Response
				plan's implementation chapter recognizes that the Capital Improvements Program, facility planning and other implementation tools will manage decisions about funding availability at the time of implementation.
	Plan's relationship to underlying master plans.	What is the relationship of the new General Plan to the underlying previously adopted functional plans, master plan, and sector plans? Does the draft Plan supersede the underlying plan's goals, policies, and actions? If so, it may be helpful to citizens and the development community to explain this relationship.	Maryland Department of Planning (MDP)	Thrive Montgomery 2050 is an amendment to the county's current General Plan of 1969 as amended by all subsequent master plans. However, as a long-term policy document it does not amend any of the specific recommendations of the underlying master plans already in place. The "Abstract" on page 2 of the draft Plan states, " <i>None of the plan's zoning-related recommendations can be implemented without a sectional map amendment, district map amendment, or a zoning text amendment approved by the County Council.</i> "
	All suburban areas to become urban?	<i>The plan seems intent on transforming Montgomery County, except for the Agricultural Reserve, into a more dense urban area rather than the suburban environment that led us to decide to live in Montgomery County.</i>	Robert Oshel, Silver Spring	Thrive Montgomery 2050 does not recommend eliminating suburban and rural areas. It recommends allowing more diverse housing types near transit stations to meet its housing affordability, climate change, equity, and environmental sustainability goals. Thrive Montgomery also recommends providing neighborhood amenities

No.	Issue/Topic Area	Comment	Commenter	Staff Response
				within suburban and rural areas closer to residents' homes to increase access to these services and reduce driving for suburban and rural residents.
	Overall density caps for master plans	<i>The concept of overall density caps for master plans should be done away with within the general plan. Markets already regulate density, a cap set by available infrastructure gives legislators an avenue to prevent population growth. If infrastructure becomes overburdened then the solution is to improve the infrastructure rather than limit the ability of new residents to move to an area.</i>	Michael Dutka	Staff believes that the draft Plan should not constrain underlying master plans from determining the most appropriate tools for planning and managing the county's growth. The determination of maximum growth in each master plan area is a useful tool to direct growth in desirable locations and help estimate the long-term needs for infrastructure and public services to support that amount of growth. The county's Growth and Infrastructure Policy is another tool to manage interaction between desirable growth and the provision of infrastructure.
	Need for updates of the Four Corners Master Plan and the Kemp Mill Master Plans	<i>An in-depth planning effort to evaluate community-specific issues and update the Four Corners Master Plan and the Kemp Mill Master Plan, in our view, is a critical predicate to the TM 2050 planning exercise.</i>	Sharon Canavan for Northwood Four Corners Civic Association (NFCCA)	Thrive Montgomery 2050 will serve as the foundation to inform future master plan updates. Its role is to provide high-level policy direction that will be implemented in a more detailed way by master plans that respond to the needs of specific communities.
	Local municipalities should continue to retain regulatory authority over building regulations for all types of residential housing within their jurisdictions	Need to make sure that residents fully support the Plan, and that the Plan is implemented in a manner compatible with the features and characteristics of local neighborhoods that communities cherish.	Coalition of Incorporated Municipalities and Community Organizations;	Although Thrive Montgomery 2050's recommendations will not apply to the municipalities that have their own planning and zoning authority, the Plan sets a common vision for the

Attachment 4: Summary of Public Comments

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		The draft Plan should expressly recognize and state that local municipalities will continue to retain regulatory authority over building regulations for all types of residential housing within their jurisdictions, including Missing Middle housing and that unincorporated neighborhoods have a real say about the physical changes that are made within their boundaries.	Melanie Rose White, Chair Citizens Coordinating Committee on Friendship Heights, Irene N. Lane, Town Councilmember, Town of Chevy Chase	entire county and hopes to work cooperatively with all jurisdictions within and outside the county to achieve our common goals and aspirations. .
		I applaud the shift from preservation to creation of a better place, which improves quality of life for all; and to plan for the interests of the entire county, not insular neighborhood interests; shifting from planning for cars to planning for people; changing equity in schools to equity in the larger community; and removing the emphasis on single family homes to create a wide range of housing options.	David Sears, Bethesda	Comment noted.

## PREFACE

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	With most of Montgomery County's available land built out, we need to accommodate the projected new population growth of 200,000 people over the next 30 years. The way we think about growth needs to change. We need to reconsider sites where growth was previously not deemed possible. We need to use new growth and redevelopment to create places with greater social capital and connectedness among residents from different backgrounds. (Page 6 of the Public Hearing Draft Plan)	<p>The Preface states that "...we need to accommodate the projected new population growth of 200,000 people over the next 30 years." This is presented without evidence. Who is projecting this population growth, and what are the underlying assumptions for this projection? The plan treats population growth as an expectation, rather than as either a desired goal or a potential problem. The plan assumes we have no control over our own destiny. If it is assumed that population growth will occur, then it is reasonable to plan to limit sprawl and concentrate growth. Were residents surveyed on their opinion? Would a higher population lead to a lower quality of life, regardless of where in the County they live? Would current residents prefer to set goals of sustainable growth including sustainable population growth, sustainable economic growth, sustainable/increased natural resources protection, and sustainable/increased quality of life?</p> <p><i>WMCCA recommends gathering citizen input on this issue, perhaps with a county-wide survey of residents. And, of course, a survey should be crafted so as to not lead to a desired response.</i></p>	Kenneth Bawer for West Montgomery County Citizens Association, Herb Simmens, Climate Mobilization Montgomery County Chapter	<p>The estimate of population growth of approximately 200,000 people by 2045 is based on the Metropolitan Washington Council of Government's (MWCOG) long-term cooperative forecasts for all jurisdictions in the Washington DC region. Population forecasts are developed through a collaborative process involving MWCOG and all jurisdictions in the region.</p> <p>Montgomery County along with other jurisdictions in the region with expected future population growth proactively plan for the expected future growth to make sure it is done in a sustainable manner consistent with the jurisdiction's vision and aspirations. Putting artificial limits on growth is neither practical nor desirable for a number of reasons. For example, since we cannot stop people from coming to this region, limiting growth in the county will make housing increasingly more expensive and exacerbate inequities and other issues. Additionally, communities with population decline also typically experience economic decline.</p>

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Growth projections	<i>The plan projects that we will need to accommodate 200,000 people in the future, we need to be careful that this projection does not become a cap... Specific projections on future population numbers should be removed.</i>	Michael Dutka	The future population projections are estimates only, not a cap. They are updated periodically to reflect the latest data to prepare for the estimated growth and adjust our planning framework, if needed.
	...The way we think about growth needs to change.” (p. 6)	<i>WMCCA Comment: We agree. The focus should be on sustainable growth, not simply growth, given that we have finite resources (both natural and economic). Instead of saying, “The way we think about growth needs to change,” which is true as far as it goes, we should make a more declarative statement such as, “We need to think in terms of sustainable growth. Sustainable growth is defined as growth that both enhances the quality of life for residents but also enhances the environmental health of our remaining natural areas.” For each “item” in the plan, is the above reflected? See the UN’s Sustainable Development Goals (<a href="https://en.wikipedia.org/wiki/Sustainable_Development_Goals">https://en.wikipedia.org/wiki/Sustainable_Development_Goals</a>)</i>	Kenneth Bawer for West Montgomery County Citizens Association	Staff concurs that all growth must be sustainable.
	The Plan recognizes that our quality of life depends on the ability to attract and retain employers and the employees they need.	<i>WMCCA Comment: Change to read, “The Plan recognizes that our quality of life depends not only on the principle of full employment with living wages, but also on maintaining and enhancing our environment to provide clean air and water, natural areas for plant and animal life, and passive recreation.</i>	Kenneth Bawer for West Montgomery County Citizens Association	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.

## INTRODUCTION

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	<b>WHY UPDATE THE GENERAL PLAN</b> (p. 11) "... we also are struggling to attract businesses, grappling with a legacy of racial and economic inequities, and fighting to protect the natural environment."	<i>WMCCA Comment: What is the evidence that we are struggling to attract businesses and why is this a problem? Simply saying that we lag behind other jurisdictions such as Fairfax in the number of businesses attracted in a given time frame does not necessarily make this a problem if the overriding concern is sustainable growth.</i>	Kenneth Bawer for West Montgomery County Citizens Association	There is plenty of evidence, documented by the research and studies conducted by the Planning Department as well as outside sources to demonstrate that the county has been struggling with attracting jobs for some time.

## PLANNING CONTEXT

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	<b>Trends and Challenges</b>			
	Incomplete information	<i>In the discussion that follows, the portrait of Montgomery County is not always complete, and the identified problems are without context, even though these problems are found throughout the country. It would be helpful to know whether the County is doing better or worse than the rest of Maryland, the region, and/or comparable counties throughout the country. This introduction needs more context and more facts, so that the County can more easily assess its weaknesses and strengths, and then address them.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	Trends and challenges section is based on a series of other reports and documents (see the 2019 Montgomery County <a href="#">Trends Report</a> and the February 2020 Thrive Montgomery 2050 <a href="#">Issues Report</a> ) that provide more detailed data and references to support the statements in the draft Plan.
	Need to identify the financial challenges posed by the recommendations of this Plan	<i>It is essential that Thrive Montgomery 2050 identify the financial challenges posed by the recommendations of this Plan. During the last 12 years, growth was supposed to accompany the massive up-zoning of the County – and nothing happened. There is no analysis here of what the impediments are to businesses locating here. We are zoned for millions of square feet of new office, we have at least 10 million square feet of vacant commercial that's been sitting here since the onset of the last recession so space is not the problem, rents are not out of line regionally, and taxes on new development are possibly the lowest in the region.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	Montgomery Planning has conducted research and studies to document the economic challenges facing the county (Montgomery County Trends: A Look at People, Housing and Jobs Since 1990, January 2019; Montgomery County Retail Strategy, September 2017; and Office Market Assessment, Montgomery County, MD, June 2015)  Thrive Montgomery 2050 highlights challenges the county faces that have been identified in earlier studies and proposes broad policy recommendations to set the stage for the next detailed level of analyses

No.	Issue/Topic Area	Comment	Commenter	Staff Response
				and actions, including the financial implications of implementation. For example, Thrive Montgomery 2050 includes a policy about reusing underutilized office space; this policy will shape further work to determine specific solutions.
	Affordable housing needs to be balanced by better paying jobs	<i>The Argument for Change section characterizes the General Plan update as residential and transit environmental oriented, without adequately addressing the critical need to integrate employment planning in order to address the income side of the housing cost/burden challenge. The focus on residential identifies the challenges and solutions as: i) limited land available for production due to current zoning; ii) cost burdens and equitable access to ownership and amenities as a function of supply limitations, and iii) increasing the younger population for economic vibrancy.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	The draft Plan includes a dedicated chapter focused on improving the county's economy and growing job opportunities for county residents.
	How the Plan will be funded	<i>All prior plans have recognized that their recommendations should be considered within the County's ability to provide the necessary funding, albeit over a long period of time—30 years. Funding will be addressed in the financial impact statement that the County Executive is required to prepare within 60 days of the Planning Board's transmittal of its draft to the District Council. It is difficult for OMB to quantify the fiscal impact of this General Plan. It is not clear if</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	Thrive Montgomery 2050 does not specify its implementation costs because the full range of actions to implement its recommendations cannot be determined today. Other tools and actions will be added to the list as more detail plans are developed to flesh out its recommendations. Therefore, any attempt to determine the full cost of the plan now will be an incomplete exercise

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>the implementation plan will have more detail. The fiscal analysis of this draft appears to involve both additional costs as well as some possible revenue impacts.</i>		
	Need for more data	<i>It's unclear why the median household income declined (e.g. are more people retiring, are more lower income households moving into the County, has household size declined?). Understanding the answers to these questions might lead to different definitions of problems to be solved. Have the incomes of County residents over the last 10-20 years skewed in a different direction from incomes in surrounding counties? What is the mismatch between jobs available and the skill level of residents?</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	Montgomery Planning has conducted research and studies to document the existing conditions and trends. See <a href="#">Montgomery County Trends: A Look at People, Housing and Jobs Since 1990, January 2019</a>
	The county's overall diversity is not reflected at the neighborhood level. Our neighborhoods are largely separated along income and racial lines (ATTACHMENT 1), which has far-reaching implications for people of color at the lower-income levels as well as the county as a whole. This geographic separation also keeps people of different ethnic/racial and economic backgrounds from interacting with each other as neighbors on a daily basis outside of work. (from the 6-11-20 report, Trends and challenges, page 6)	<i>Is this different from any place else in the region? How do we compare? How do Park and Planning and zoning policies which focus on expensive high-rise development around metros continue to foster economic and racial segregation? (OMB: It would be useful to have maps that show income distributions)</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	Thrive Montgomery 2050 acknowledges that past planning practices have contributed to current state of inequity and geographic segregation of the county's neighborhoods along racial and income lines. This is a problem throughout the DC region and other parts of the United States. Thrive Montgomery 2050 elevates equity as one of three of the Plan's major outcomes, and proposes to address racial justice and inequity through a number of goals and policies.
	The county's demographics are changing in other ways as well. For example, the percentage of householders living alone	<i>How much of this is rooted in the millennial wave having hit strong economic headwinds that studies show have delayed</i>	County Executive, 8-14-20 (This	Please see <a href="#">Montgomery County Trends: A Look at People, Housing and Jobs Since 1990, January 2019</a> ,

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	has increased from 7% in 1960 to 25% in 2018 (ATTACHMENT 2). This trend has huge implications for the kind of housing that is needed in the future as well as services and amenities to support a different mix of household types in the past. (from the 6-11-20 report, Trends and challenges, page 6)	<i>marriage or other committed relationships and child-bearing? It's not safe to extrapolate the increased percentage of people living alone as a permanent condition, when it may only reflect a delay in family formation.</i>	comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	<a href="https://www.arcgis.com/apps/Cascade/index.html?appid=f02d34e190f54db4bd1d584b94a8482c">Also see a summary presentation of the Trends report at https://www.arcgis.com/apps/Cascade/index.html?appid=f02d34e190f54db4bd1d584b94a8482c</a>
	The county is growing at a slower rate than in the past, but it will still add more than 200,000 residents in the next 25-30 years. (P. 13)	<i>Trend 1. It should be explained why the first identified trend (adding 200,000 residents over the next 25-30 years) is happening, as well as make the argument for why it is good for our economy and climate goals that this trend is happening in Montgomery County.</i>	Jane Lyons for Coalition for Smarter Growth	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.
	The amount of unconstrained land available for growth is very limited.  The county must shift its focus to redevelopment and reuse of underdeveloped land, which requires a different set of public policies and approaches to growth than those that have guided the county over the past decades. (P. 13)	<i>WMCCA Comment: What does "underdeveloped" land mean? As written, the implication is that it is a mistake to have lower density land because there is money to be made by overdevelopment. We disagree with that premise. The county must shift its focus from growth which benefits primarily developers to only allowing growth either 1) in those areas where more environmental damage (e.g. to stream water quality) will not be inflicted, or 2) in areas which are designated as stormwater control zones which require, for example, containment of stormwater from 100 year (or greater) storm events</i>	Kenneth Bawer for West Montgomery County Citizens Association	The Plan states that there is less land available for development today than in the past, so future development will need to occur as infill and redevelopment of existing sites. Underdeveloped land means the land is already developed under current zoning but could accommodate additional development. Redevelopment of already developed land is generally considered more sustainable and therefore more desirable than development of virgin land.
	The county is becoming older. The aging population may put downward pressure on household incomes. ...An	<i>WMCCA Comment: The baby boom bubble of older people is a temporary phenomenon. Expenses such as "retirement</i>	Kenneth Bawer for West Montgomery	Please see the 2019 Montgomery County <a href="#">Trends Report</a> ; <a href="#">Older Adults Housing Study</a> , 2018; and the

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	aging population, without a commensurate increase in younger workers, means lower average household incomes and changing needs for social services. (P. 16)	<i>programs for old people” may be more than offset by the lower need for public education expenses.</i>	County Citizens Association	February 2020 Thrive Montgomery 2050 <a href="#">Issues Report</a> ) that provide more detailed data and references to support the statements in the draft Plan.
	We are not producing enough housing in accessible locations to meet our needs. (Page 21.)	<i>The MDOT MTA supports the inclusion that the development of a new bus rapid transit network should be complemented by land use and zoning changes to create more attainable and affordable housing along those corridors. Additionally, identifying and referencing the relationship between reliable and efficient transit and affordable housing is significant.</i>	MDOT	Comment noted.
	Recent sluggish economic growth requires that the county strengthen its competitive advantages in the global economy. (P. 21)	<i>WMCCA Comment: The emphasis should not be on job growth, but rather sustainability and quality of life. Fairfax County emphasized attracting more businesses for job growth (to “broaden the tax base”) and look at what happened. Taxes never went down, and the only ones who benefitted were landowners, realtors, and builders, not the average citizen.</i>	Kenneth Bawer for West Montgomery County Citizens Association	Thrive Montgomery 2050 contains numerous goals, policies and actions focused on increasing sustainability and quality of life, in chapters such as Complete Communities, Sustainable Environment and Adaptable Growth.
	11. Declining trends in public health and well-being indicate a growing need for a healthier more active lifestyle. (Page 24)	<i>The MDOT MTA supports the attention paid to the intersection of public health and transit.</i>	MDOT	Comment noted.
	12. Climate change threatens all aspects of life. (P. 24.)	<i>Page 23, Trend 12. It would be helpful to identify which climate change impacts Montgomery County is projected to be the most at-risk for.</i>	Jane Lyons for Coalition for Smarter Growth	The County’s Draft Climate Action Plan, to be released in December, will identify the climate change hazards for which Montgomery County is most at risk. This information can be incorporated into Thrive Montgomery. Thrive Montgomery 2050 lays out long-term adaptation

No.	Issue/Topic Area	Comment	Commenter	Staff Response
				ideas to be more resilient to the impacts of climate change.
	Why do we need to accommodate projected growth.	<p><i>The last major revision to the master plan was in 1964 and there were eight public hearings. Most residents have not experienced a master plan revision in their lifetime and do not even understand the significance of a General Master Plan.</i></p> <p><i>Unfortunately, the County has been overtaken by decisions that have resulted in urban sprawl.</i></p> <p><i>The general master plan and Cloverly Master Plan have served the residents well.</i></p> <p><i>Can a development plan create desirable places or make us economically resilient? Probably not!</i></p> <p><i>Why should we be growing the County at all? Build it better! Our schools need improvement, the public transportation system needs improvement, there are a lot of vacant buildings in the county, improvement of aging utility systems, etc. Much of the unconstrained area is land that is not buildable. Have you considered a Net Zero Growth Option?</i></p> <p><i>Why is infill required? Why expand urban sprawl?</i></p>	Quentin Remein for Cloverly Civic Association	<p>These comments are based on the staff's PowerPoint presentation to the Planning Board on October 1, 2020.</p> <p>The estimate of population growth of approximately 200,000 people by 2045 is based on the Metropolitan Washington Council of Government's (MWCOG) long-term cooperative forecasts for all jurisdictions in the Washington DC region. Population forecasts are developed through a collaborative process involving MWCOG and all jurisdictions in the region.</p> <p>Montgomery County, like other jurisdictions in the region experiencing population growth, must proactively plan to direct that growth to ensure the county can avoid future sprawl. Infill and redevelopment take advantage of sites that are already built, which minimizes sprawl development on greenfield sites and leverages infrastructure already in place.</p> <p>Thrive Montgomery 2050 promotes providing a variety of housing choices to meet different households needs.</p>

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p><i>The development changes have already been done under the existing Master Plan. Why is more urban and growth needed? Why can't this be done under the current plan?</i></p> <p><i>Why congest corridors with urban growth? The current master plan provides all these types of housing</i></p> <p><i>First-generation immigrant residents often seek out and feel more secure and comfortable in communities of their ethnic background. Not everyone sees diversity as their strength.</i></p> <p><i>A new revamped Master Plan is not required if we accept Net Zero Growth and make incremental changes to the plan to offer more possibilities to people without requiring everyone to give up their cars and housing choices. Covid has made it clear that many people can work at home reducing rush hours, and that urban lifestyles make control of pandemics more difficult.</i></p>		
	Planning contexts and challenges	<p><i>Additional planning contexts and challenges should include: 1) Montgomery County's racial and economic segregation and 2) Montgomery County's greenhouse gas emissions by sector, and how both of these trends have changed over time.</i></p>	Jane Lyons for Coalition for Smarter Growth	<p>These comments will be discussed further during the Planning Board worksessions.</p> <p>Additionally, the county's Draft Climate Action Plan being released in December will include detailed</p>

				analysis and data about greenhouse gas emissions by sector.

## A PLAN TO THRIVE

No.	Issue/Topic Area	Comment	Commenter	Staff Response
<b>Rationale and Context</b>				
	Ag Reserve must benefit the entire county	<p><i>The walkable, bikeable, transit-oriented “15 minute living” advocated for in the Thrive Montgomery 2050 plan where racial and social equity, economic competitiveness and environmental sustainability are all paramount makes eminent sense and has my full support.</i></p> <p><i>My primary criticism of the draft plan is that it doesn’t sufficiently acknowledge the Ag Reserve must benefit the entire county and not just those who live there. One reasonable and necessary use of the Ag Reserve is to accommodate commercial solar farms that comply with appropriate restrictions and requirements such as contained in a text amendment now under consideration by the County Council.</i></p>	Brian Ditzler. Silver Spring	<p>Staff concurs with the comment about acknowledging that the Ag Reserve is for the benefit of the entire county.</p> <p>The proposed solar farm zoning text amendment is undergoing a separate review process outside of the scope the General Plan Update process.</p>
	Figure 20: Pike & Rose in White Flint, before and after redevelopment. (p. 34)	<p><i>WMCCA Comment: The redevelopment of the 8.78-acre shopping center site with housing, shops, offices and open spaces reduced its stormwater runoff by 77%.”</i></p> <p><i>This is a misleading “victory”, since the Pike and Rose site before development was mostly just a large parking lot. The implication is that we need higher density development to reduce stormwater runoff. What is needed is more stringent stormwater control regulations and elimination of waivers.</i></p>	Kenneth Bawer for West Montgomery County Citizens Association	Staff disagrees. The graphic is provided to illustrate the benefits of redevelopment, which can provide more up to date stormwater management improvements where none existed before.

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Rural communities	<p><i>Proposed Addition to the introductory pages of the general plan:</i></p> <p><i>Communities outside of the sewer envelope represent a viable, desirable, vital, wholly appropriate, important type of development, place making, and way of life. Rural living is resilient, healthy, equitable living in a sustainable, harmonious coexistence with the natural environment and heritage sites. Stewardship of all ecosystem components, especially regionally critical systemic components such as native plants, watersheds, groundwater and soils is the prime guiding factor in planning human activities in Rural Communities. Curation of heritage sites and their surrounds is an exceptional feature of Rural Communities. Open spaces, low levels of impervious surfaces, and low occupancy densities span the entirety of Rural Communities. Rural Communities strive for sufficiency in production and consumption of water, food, energy, and waste disposal, first and foremost with local resources.</i></p>	Scott Plumer for Darnestown Civic Association	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.
	Rural communities	<p><i>[Submitted] two must have items for the proposed new plan simply titled “Two Must-Have Items”. The first item seeks to control development and traffic outside the sewer envelope to protect the environment and reduce sprawl. The second item seeks acknowledgement of Rural Communities as a viable, desirable, vital, wholly</i></p>	Scott Plumer for Darnestown Civic Association	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.

		<i>appropriate, important type of development, place making, and way of life.</i>		
	Lack of attention to mid-county and upcounty areas	<p><i>One example of the failings in this plan is the lack of respect to the lack of equity between the up County, Mid County and the Down County. Traditionally in the Wedges and Corridors Plan it put emphasis in the urban core, the satellite cities and chose to protect suburbia and our semi-rural and rural areas. This Plan focuses on specific transit corridors most within the down county area and promotes the lion's portion of investment in perpetuity or at least 30 years into these areas...</i></p> <p><i>Today and for the last couple of decades our County has invested much in re-inventing Silver Spring and other down county areas because as the Down County goes so does Montgomery. These efforts however have put a strain on the rest of our County. By supporting the up county in an effort to make it a major economic engine for the County and the State we balance our needs for economic growth and with that balance we also create balance for some of the transportation needs of our County by reducing commute time and creating jobs closer in for many residents.</i></p>	Cary Lamari	Thrive Montgomery 2050 proposes to update the pattern of development already established by the W&C concept and as amended by subsequent master plan amendments. It proposes future growth where it can be supported by the current infrastructure and transit, but it does not ignore other areas of the county. The idea of Complete Communities will require significant investment in existing suburban and rural communities to make them more desirable place to live and work. It recommends new transit to places of employment that currently do not have transit.
	Support major concepts of the draft Plan	<i>Equitable housing and food access, environmental protection, and an inclusive, vibrant economy are critical to a resilient</i>	Alex Keller	Staff concurs.

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>future for our communities. In particular, I support the prioritization of walkable and bikeable spaces, decreased reliance on car transportation, public transit accessibility of affordable housing, and an overarching ethic of environmentally responsible development.</i>		
	Three Major Outcomes of the Plan (P. 36)	<i>The text on page 35 covering the three overarching outcomes should be deleted since these outcomes are the three major challenges.</i>	Dan Wilhelm for Greater Colesville Civic Association	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.

## Major Themes

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>For each of the themes, text needs to be added to explain how it relates to the trends and addresses the challenges. Every challenge needs to be addressed by at least one theme. The linkage is largely missing.</i>  <i>The major themes on pages 36-44 need to be linked back to the five challenges and form the basis for the elements that follow.</i>	Dan Wilhelm for Greater Colesville Civic Association	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.
	Three Major Outcomes of the Plan (P. 36)	<i>We believe the major themes of THRIVE are accurate descriptors of where the county needs to move over the coming decades. THRIVE advocates for a robust future that includes compact development, creation of diverse neighborhoods to promote racial justice and equity, growth concentrated around transit, a wider range of housing options throughout the county,</i>	Shruti Bhatnagar, Chair, Sierra Club Montgomery County, MD	Comment noted, no response needed.

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>transportation that focuses on moving people, not cars, and eradication of greenhouse gas emissions. Equally important is the vision of complete communities connected also by green corridors. These corridors serve as critical natural infrastructure because they increase resilience to the impacts of climate change and protect water quality.</i>		
	Three Major Outcomes of the Plan	<p><i>Page 36. The three outcome statements are a mixture of expected outcomes and background information. Given their importance we suggest the statements be rewritten as follows:</i></p> <p><b>Equity:</b> <i>'All residents have equal access to attainable housing, healthy foods, employment, transportation, education, safe, healthy and complete communities and more.'</i></p> <p><b>Economic Health:</b> <i>Our well-being depends upon a having a diverse, resilient and competitive economy supported by a healthy mix of large and small employers and growing federal campuses, whose talents attract entrepreneurial enterprises, all with a diverse and skilled workforce.</i></p> <p><i>Others</i></p> <p><b>Environmental Resilience:</b> <i>Montgomery County will reduce its GHG emissions by 80% by 2027 and 100% by 2035 while supporting the removal of large quantities of carbon dioxide from the atmosphere. The county will make its</i></p>	Herb Simmens	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>natural and infrastructure systems as resilient as possible by climate proofing homes, businesses, and all public and private natural and constructed systems and property. The county will support a wide variety of peer, professional and community support and connectedness services to minimize the physical, social, economic and psychological harms resulting from increasingly severe direct and indirect climate impacts.</i>		
	Complete Communities through compact form of development and urbanism. (P. 37)	<i>Dense development with ready access to Metro stops makes a great deal of sense. But value of such property is so great; how do you incorporate parks, trails and open space? And by the way, how much of that is coming into existence as a result of the incredibly dense development occurring in downtown Bethesda?</i>	Harold Pfohl, Sumner Village	The need for local parks, trails and other public amenities is determined during the local master plan update process, which will be guided by the updated General Plan.
	This additional density will require change in existing single-family neighborhoods through the introduction of ‘missing middle’ housing, such as duplexes, triplexes, townhouses, live-work units and small multi-family structures in areas where a moderate degree of intensification is appropriate. (Page 37.)	<i>In addition to small multi-family structures, this section should also identify mid-rise multi-family structures as desirable along major transit corridors and high-capacity transit centers.</i>	Jane Lyons for Coalition for Smarter Growth	Staff concurs. The scale of new construction in each location along major transit corridors will be determined through a more detailed analysis of its location, context and transition to the surrounding residential neighborhoods during subsequent local master plan amendments.
	Corridors are the place for new growth (p. 38)	<i>We don’t agree that there should be a lot of growth between these communities along the corridors (page 37). The existing single family housing between the centers will largely remain unchanged since large numbers of individual homeowners will not</i>	Dan Wilhelm for Greater Colesville Civic Association	Thrive Montgomery 2050 is a 30-year plan, and in some cases, its policies will continue to affect the change even after 30 years. It may not be feasible to redevelop single-family houses along major transit corridors

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>be converting them. The redevelopment will largely occur in existing retail centers or older multifamily housing. Since these locations today are of varying sizes, the centers will need to be of different sizes. The bulk of the redevelopment should occur in the larger centers. The number of illustrations (pages 38-40) should be reduced.</i>		in the near future. But the market dynamics may change over the long run creating opportunities and tools that are not available or hard to imagine today.
	The graphic on page 39—possible future scenario of Rt 29 corridor at New Hampshire Avenue.	<i>Page 39 - The “possible future” should eliminate the cloverleaf.</i>	Benjamin Ross	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.
	Eradicate greenhouse gases emissions (p. 42)	<i>change “eradiate” to “reduce”. This needs to include improved building standards. This theme needs to be expanded to include other environment elements.</i>	Dan Wilhelm for Greater Colesville Civic Association	Montgomery County has adopted a goal of zero GHG emissions by 2035 and is developing the Climate Action Plan with strategies to meet this goal, including building standards. Thrive Montgomery 2050 is a complementary plan that will support the county’s GHG elimination goal. .
	Walkable communities	<i>I realize that my area of Montgomery County is very different from other areas, and I appreciate that Thrive 2050 must take into account all of our different needs, but walkable communities that allow for people of all incomes to live well and for people to age in place with dignity need to be a priority. Population growth is not going away. We need to build for the future that is coming, not the suburban ideal of 1950 that proved to be unsustainable.</i>	Elizabeth Merlo, Silver Spring	Staff concurs

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Safety, walkability and connectivity in less urban areas.	<i>As it pertains to Live Work Space, and the ability to create functional community synergy in areas where it is less urban, it is equally important to ensure the connectivity of those neighborhoods as well, where there are safe walking and biking paths, that will allow residents to commute without a vehicle to the grocer, coffee shops or local restaurants within the community. In doing this, it will encourage a boost in small business development within those communities, created by the residents of those communities. The ability to safely walk to recreational spaces, and schools is also one that is key in the redevelopment of areas that do not fall into the Urban plan.</i>	Charisse Callender-Scott	Staff concurs
	Racial justice and equity (p. 44)	<i>Support “Racial justice and equity” as a theme. Other comments on equity should be included or referenced here.</i>	Dan Wilhelm for Greater Colesville Civic Association	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.
	Racial justice and equity	<i>But we also need to make racial equity and economic justice priorities for our future. I currently live in downtown Silver Spring, but for the seven years prior I lived on Flower Avenue where it intersects with Piney Branch Road. Every time I passed the Purple Line stop construction, I wondered whether Universal Supermarket, where I got most of my groceries, would get replaced by a 7-11; whether Beijing Delight would get replaced with a Panda Express. I worried that gentrification would drive out my</i>	Katie Nolan, Silver Spring,	Staff concurs.

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p><i>neighbors, many of whom were Spanish-speaking immigrants.</i></p> <p><i>Historically, "growth" without racial equity has led to the destruction of Black and Brown communities. In the 1950s and 1960s, "growth" along River Road in Bethesda led to the annihilation of River Road's African American community. My friend Harvey's childhood home is now a Whole Foods. Another friend's home is now a Bank of America. Because of "growth," County Executive Elrich has ignored Macedonia Baptist Church's calls for justice and allowed Bethesda Self-Storage to continue the desecration of a cemetery that predates the Civil War.</i></p> <p><i>On the County Council's website for Bill 27-19, it says: "Racial equity and social justice are urgent moral and socioeconomic endeavors for our community. Our county's population has changed, both in numbers and in diversity, and this did not happen overnight. Addressing issues of racial equity is not only an ethical obligation; it is essential to ensure the continued economic vitality of our community."</i></p>		
	Racial justice and equity (p. 44)	<i>Emphasize racial justice: We commend including the section about the history of redlining and other discriminatory housing practices. However, we believe the plan can better tell the story of segregation, identifying both past mistakes and</i>	Jane Lyons for Coalition for Smarter Growth	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>successes so that we can better identify solutions for the future. Therefore, we also believe the goal of integration could be woven into the plan's vision and goals more.</i>		
	Racial justice and equity (p. 44)	<i>This section should make the case that racial and economic integration is the best way to promote social mobility, achieve equitable outcomes, and shared prosperity.</i>	Jane Lyons for Coalition for Smarter Growth	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.
	Climate change, racial justice and equity	<i>Sierra Club believes that America's most critical environmental issue is climate change and our most critical social issue is racial justice and equity. We also understand that we cannot address one without addressing the other. So Sierra Club fully understands that the various themes of THRIVE are intimately interconnected. For instance, enabling more kids to walk or bike to equitable and diverse neighborhood schools is only going to work when we have created, across the county, neighborhoods with a wide variety of housing types and costs.</i>	Shruti Bhatnagar, Chair, Sierra Club Montgomery County, MD	Comment noted.
	Racial justice and equity	<i>We applaud that the plan looks at every policy with an equity and justice lens. The plan aims to ensure that everyone has equal access to benefits and opportunities in the county, and that these are carefully evaluated at key steppingstones. We support the creation of civic lead community engagement processes at every</i>	Denisse Guitarra for Advocate Audubon Naturalist Society	Comment noted.

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>planning decision, especially of those individuals who have been historically underrepresented in land use and planning decision making process.</i>		
	Great design and the importance of place (p. 44)	<i>“The great design and the importance of place”. Eliminate this as a theme since it should be part of the Complete Community theme.</i>	Dan Wilhelm for Greater Colesville Civic Association	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.
	Regional solutions and strategies (p. 45)	<i>“Regional solutions and strategies”. Eliminate this as a theme since it is not at the same level as the others. It should be included in the elements.</i>	Dan Wilhelm for Greater Colesville Civic Association	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.
	Regional solutions and strategies	<i>Growth in the metropolitan D.C. area has also been sporadic and uneven due to the multiplicity of governments competing for growth...This has resulted in a great daily westward exodus of traffic from Montgomery County to job centers such as Tysons Corner and a daily eastward commute from Fairfax County to Montgomery and Prince Georges County after work in the afternoon. Preference for large job centers should be placed elsewhere. There are nearby areas in Prince Georges, Howard and even Anne Arundel Counties which contain large areas which can and should be developed instead of concentrating growth in Fairfax and Arlington. Increased cooperation among the various</i>	Bruce Shulman	Staff concurs.

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>government units in the D.C. area is absolutely necessary to prevent this situation from getting worse or occurring in different parts of the metropolitan area.</i>		

## The Plan Vision

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	The Plan Vision	<i>The section on pages 45-47 entitled “plan vision” needs to be deleted. A vision is another term for theme and those were covered above and under challenges. The ideas listed are not visions but are intended outcomes.</i>	Dan Wilhelm for Greater Colesville Civic Association	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.
	Page 46 – Regarding “Resilient.”	<i>The MDOT MTA supports the inclusion of multimodal transportation within this context and suggests adding that individuals experience more resilient lives if they have lower-cost transit options for travel. This is especially significant for those who cannot utilize their normal mode of transportation while experiencing periods of economic hardship and disability.</i>	MDOT	Comment noted.
	Thrive Montgomery 2050 envisions a county that is more urban, more diverse, and more connected, providing a high quality of life for existing residents while also welcoming new residents and new ideas. (p. 46)	<i>WMCCA Comment: The envisioning of the county being more urban should be the decision of residents, not the authors of the General Plan or developer interests.</i>	Kenneth Bawer for West Montgomery County Citizens Association	Thrive Montgomery 2050 is being developed with the help and feedback of the residents.
	Safe: More options for walking, cycling, and transit reduce the need for a car. Pedestrian lives are prioritized over speed. Neighbors know each other and look out for each other. A mix of populations of different ages, household types cultures, and a mix of uses has contributed to reduced crime and an increased sense of security day and night. (P. 47)	<i>This section should establish the vision that safety is enjoyed more equally by all; whereas currently, safety is experienced unequally by people of color, women, the elderly, people with disabilities, and people with non-conforming gender identities or expressions.</i>	Jane Lyons for Coalition for Smarter Growth	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Resilient: “Our actions reduce greenhouse gas emissions and air and water pollution.” (P. 47)	<i>We suggest this be changed to read: “Our action eliminated greenhouse gas emissions and minimized air and water pollution.”</i>	Jane Lyons for Coalition for Smarter Growth	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.
	Competitive: “We embrace the cultural, racial/ethnic, and linguistic diversity of our community as a competitive advantage, particularly in attracting employers recruiting staff who want to live and work in a diverse community.” (P. 47)	<i>While diversity is certainly a strength, it should not be the primary edge to our economic competitiveness.</i>	Jane Lyons for Coalition for Smarter Growth	The Plan is recognizing that diversity adds to the county’s economic advantage. The full statement of the “Competitive” vision reads: <i>The county retains and attracts large companies, small businesses, and high- quality educational institutions. We embrace the cultural, racial/ethnic, and linguistic diversity of our community as a competitive advantage, particularly in attracting employers recruiting staff who want to live and work in a diverse community. Montgomery County’s forward-looking economy offers a variety of stable and well-paying jobs. All residents have the education and economic opportunities to develop skills and obtain work that sustains them and their families.</i>
	This vision respects the original 1964 “Wedges and Corridors” General Plan, with a greater emphasis on a compact form of development and the role of corridors as places to grow. It continues to protect and honor the Agricultural Reserve—a nationally recognized planning landmark that provides economic and environmental benefits. (P. 47, 48)	<i>WMCCA Comment: See our comments on the Green Wedge at the top. The term “compact form of development” should be replaced by “higher density development” to avoid euphemisms</i>	Kenneth Bawer for West Montgomery County Citizens Association	Staff disagrees. Compact form of development can be low-, medium- or high density. It is a way to organize the building volumes close together on a given piece of land. One version of compact development in the current Zoning Ordinance is called “cluster method of development,” which has been applied to single family

No.	Issue/Topic Area	Comment	Commenter	Staff Response
				developments to save sensitive environmental resources on a site.
	We will need to make tradeoffs that may not be easy. (P. 48)	<i>We urge you not to use language posing change as requiring tradeoffs. It is possible to make changes that grow the pie and result in a higher quality of life for all.</i>	Jane Lyons for Coalition for Smarter Growth	These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft plan.

## PLAN ELEMENTS

### Affordability and Attainability (Revised--Theme #4: Affordable and attainable housing: more of everything)

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>The title of section 5 must include the word “Housing.” The title “Affordability and Attainability” is not sufficient for statements about housing.</i>	League of Women Voters of Montgomery County	
	Missing Middle housing is not affordable housing	<i>Thrive Montgomery 2050 is in essence a plan for more market rate housing, more specifically Missing Middle housing. Because there are no prerequisites for this additional housing, the rezoning and building of compact dense housing could occur much before schools and transportation are built. And it is unlikely the housing will be affordable to the residents who need it most—those in the lowest income ranges. Furthermore, the housing may not be affordable for those with moderate incomes in the areas of the County where land is the most expensive, thus negating the equity goals that are a central tenet of this plan. This plan needs to explain how it will achieve the admirable goals it strives for, and focus more attention on the housing needs of our most vulnerable residents.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	
	Increased production of all types of housing	<i>I am open to all housing types, market rate or otherwise, but the focus should be on housing for those with the greatest need. I do not agree with MNCPPC that merely building more market rate housing will let the County achieve its Equity goals. I am committed to achieving Equity in housing,</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals,

		<i>education, and jobs through a variety of funding and planning tools. These goals have been at the core of my public service.</i>	Policies and Actions)	
	Need for retention of single-family houses and creation of more family-sized units	<i>A zoning policy that prefers the creation of small units unsuitable for raising children exacerbates pressure on the existing housing stock if young families seek larger homes as their family grows. Simultaneously acting to reduce the supply of single-family homes only further adds to the competition for what remains in that portion of the housing stock. Evidence is that families leave the County to find single-family homes and townhouses in more affordable areas and if there is market demand for 3 or 4 bedroom apartment units it is not evident given the lack of new supply. In fact, 3 and 4 bedroom apartments in new development are more expensive than buying a house with a yard in most of the County.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	
	The high cost of housing makes it challenging to attract younger workers to replace the baby boomers who are leaving the workforce.	<i>Our zoning policies preclude affordable housing for young workers, particularly those who are not in the higher paid professions, and we require only MPDUs which don't address the most pressing housing needs. As a result, households with incomes below 65% of AMI wind up occupying the lowest priced housing available, often the MPDU priced housing (though most is market affordable rather than controlled). They compete for these units, often spending 50% or more of their</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>income, with households that can afford that price range.</i>		
	The car-oriented land use pattern of the past few decades reinforced the suburban pattern of neighborhoods separated and defined by income, limiting diversity in our interactions. Knowing your neighbors and having a diverse and robust social network with opportunity for interaction contribute to a feeling of welcome, safety and support.	<i>Montgomery County seems like every other area in the region (if not the country). The problems identified with “built environments” exist in both DC and Baltimore, true cities, despite being far more urban and less car-oriented than we are. Home prices and rental costs remain the great dividers today, long after we’ve eliminated the discriminatory housing practices of the past. That said, we have many diverse mixed income single-family neighborhoods, both in areas built in the 1950s and since then. They should be valued not only for their diversity but also for their relative affordability.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	
	85% of the County’s land area is constrained by environmental and human-made factors	<i>The statistic that 85% of the County’s land area is constrained by environmental and human-made factors is confusing. What are human-made factors? It appears to be single family homes, attached and detached, town houses, and the roads that serve them. This land is not constrained in the true sense. In fact, much of it is being redeveloped with new single family homes—at least 848 new homes have been built to replace teardowns in the down county.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	
	Need to create more opportunities for diverse housing	<i>No analysis of existing zoning. The capacity to house people already exists and is primarily along existing and planned transit lines – both rail and BRT.</i>	County Executive, 8-14-20 (This comment was made on the 6-	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>One ought to look at the market and what it's telling you. First zoning was the problem so we up-zoned. Up-zoning drove up land costs, higher land costs drove the need for higher yields and made building smaller, less expensive units undesirable given that the land cost is based on the zoned potential and won't get adjusted if one decides to build less than the maximum.</i>	11-20 draft of Vision, Goals, Policies and Actions)	
	Attainable housing v affordable housing	<i>Attainable housing is market rate housing. (The County has tried the "trickle down" approach to housing supply, and that has not worked.)</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	
	Housing affordability is one of the biggest issues facing Montgomery County. As previously mentioned, median household income is slowly recovering from the Great Recession of 2008. Annual growth in construction costs increased in the range of 3% to 4% per year during the past five years. Annual building permits issued since 2015 continue to drop below 4,200 permitted units, approaching recession levels. This combination of stagnant income growth, high construction costs, lack of new housing supply, and the high cost of housing has impacted cost burden and	<i>What is driving the high construction costs, and how feasible is it to help bring these costs down? Are costs tied into materials transport, and expanding local production sources might assist? Or are costs a result of fitting within limited right-of-way in dense areas, or a lack of staging areas? How do regulations and the time from submittal to approval affect costs? How much has zoning contributed to rising construction costs, by encouraging developers to defer utilization of land until prices support this more expensive development model. The increase in land prices that flows from increasing the</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	homeownership rates. (from the 6-11-20 staff report)	<i>development potential of land, leads to more expensive construction techniques and ultimately higher consumer prices, which in turn fosters economic segregation. There is no balance in the kind of housing stock we try to create in urban areas when the singular focus is on density.</i>		
		<i>The objectives of ensuring available housing in walkable compact development for our full range of incomes (price points) is important. The challenge of ensuring that availability is how to ensure our full range of incomes and workers will be accommodated. The developments will need more than current MPDU level incomes and required distribution of 12.5-15%. The development of market rate mid-rise and smaller multi-unit buildings will be lower cost development and provides the potential for a lower starting point for the subsidies that are needed to address the full range of incomes represented by our employment distribution. The goal of ensuring a full range of incomes having access and opportunity in these compact developments needs affirmation. CE: Market rate “missing middle” housing is not affordable to the lowest range of incomes in Montgomery County. The plan needs to emphasize the County’s commitment to providing housing for those most in need throughout the County, rather than relying on market rate housing to produce equity.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Need for more housing	<i>Montgomery County continues to need more housing, especially low-income and “missing middle” housing designed for low- and middle-income households. (“Missing middle” includes garden apartments, plexes of various types, and other low-rise, smaller, more affordable units.)</i>	League of Women Voters of Montgomery County	
	Need to retain existing affordable housing	<i>Clearly, building new housing to accommodate the increase in the number of residents with incomes less than \$50,000 is necessary, but retaining current housing at affordable levels is also important. Many of the policies and actions on pages 86-95 provide a blueprint for how the county can provide more affordable housing. I applaud the policies for using office parks, shopping centers and other underutilized properties as sites for building these properties and with working with faith-based institutions and nonprofits to finance this housing</i>	Phyllis Edelman	
	Need more affordable housing	<i>New housing IS needed in the County. MORE AFFORDABLE housing is needed even more. This plan does not accommodate that 2nd goal. As a new homeowner in the County, I was dismayed by the lack of homeownership opportunities for our lower income residents. Simply creating multi-unit housing does not solve that problem. What we need is access to existing affordable housing, opportunities for homeownership for multi- income levels and a greater accessible multi-modal transit system.</i>	Asma M.	

Attachment 4: Summary of Public Comments

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Does the Plan eliminate all single-family housing in urban areas?	<i>Page 46. Urban Single-family housing is not even mentioned. Is the goal to eliminate all single-family housing in urban parts of the county?</i>	Herb Simmens	
	More protections for renters, less emphasis on homeownership.	<i>we need better protections for renters, less of an obsession with home-ownership, more housing stock diversity, better rates of unit growth, and a policy of reviewing (perhaps every 5 years) the practices governing these things to keep pace with changes on the ground. Feeding back into the "connectedness" dimension, there need to be channels for people to express concerns, make observations, comment on changes, etc; that are utilized by a representative slice of the affected populations.</i>	Edmund Morris	
		<i>Rezoning the single-family zones in the entire county to allow market-rate townhouses, duplexes, triplexes, and apartment buildings by right throughout the single-family neighborhoods does not give residents the diversity to live in neighborhoods of their choice. When purchasing a home residents consider many factors including schools, commuting distance to employment, nearness to shopping, living close to friends and family, and many other issues.</i>	Quentin Remein, Michele Albornoz, Linda and Gay Mullings	
	Three overarching outcomes-- Equity	<i>Nothing is proposed to deal with the specific shortfalls in affordable housing, instead it's a version of the market will solve this – the DC region has been talking about a crisis in affordable housing since</i>	County Executive, 8-14-20 (This comment was made on the 6-

		<i>the 1980s, and no amount of building in any or all jurisdictions has succeeded in stemming the loss of affordable housing.</i>	11-20 draft of Vision, Goals, Policies and Actions)	
	Need for more affordable housing	<i>Montgomery County is in the midst of a severe affordable housing crisis, and unless housing supply of all shapes and sizes is added in great number, Moderately Priced Dwelling Units (MPDUs) and other affordable housing support are continued and expanded, and existing affordable housing stock preserved to the greatest extent that is economically feasible, this county will continue to become unaffordable for all but the most fortunate. That said, I am happy to see many of the wonderful ideas and proposals laid out in the current Thrive 2050 draft, particularly the acknowledgement of the affordable housing crisis, and the support for adding needed supply, including missing middle housing. If you take away only one thing from my testimony, either in writing or in person, let it be that the final draft of this plan absolutely must maintain this strong focus and expand upon it, otherwise this will cease to be the wonderful and welcoming county I have come to love. I would also like to stress that both renter and owner supply must be added. Even in DTSS, condo buildings, and other ownership opportunities near downtown that aren't outrageously priced single family homes are relatively rare, so while rental supply</i>	Michael English, Silver Spring	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>must be added, room must be made for those seeking to purchase a home as well.</i>		
	Home ownership	<i>While I understand the concern my fellow homeowners have about “protecting their investment” with increased property values, to me, owning a home is meant to provide some sense of financial and residential stability, and the ability to build forced savings through equity. It is not an entitlement to an ever growing return on investment.</i>	Michael English, Silver Spring	
	Historical districts	<i>Historical districts and other types of SFH exclusive zoning are simply the current manifestation of explicitly racist policies such as redlining in the past. Just because people don’t mean for something to be racist doesn’t mean it isn’t so. “Character of the neighborhood” is another way of saying “we don’t want ‘those kinds of people’ living here”. It’s fear mongering, and it has no place in our country, let alone our progressive county.</i>	Michael English, Silver Spring	
	Need for more information about creating more diverse housing types	<i>There needs to be more specificity when suggesting a transformation of single-family neighborhoods. What different housing types, and where? Are the housing types compatible with existing homes? A duplex, for example, might be while a high-rise would not. Have you assessed the potential impacts of changes on homeowners who choose to retain their property as is? Has this been done in other jurisdictions similar to Montgomery County? If yes, with what results? There are</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>many single-family neighborhoods in the County – which should be changed? . Why is this approach more effective than using land use and zoning powers to provide more – and more affordable – housing near already existing infrastructure?</i>		
	Need more information about Missing Middle Housing	<i>In order to add Missing Middle Housing, the plan recommends rezoning parts of the single family neighborhoods without being clear about the location, other than a preference for being near transit. The plan is vague, too vague, not only on location, but also on specifics on how the County resolves the stubborn issue of Equity. There needs to be a bigger conversation than the narrow focus presented in the plan. The plan needs to identify generally where this new housing will be located, and then the County needs to come together to put its resources toward making the Equity goal a reality over the next 30 years.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	
		<i>While encouraging development along corridors and near transit is key, there also needs to be policies that allow missing middle type housing throughout the County. In order for supply to meet housing demand over the next 30 years, multiple tools and approaches are required.</i>	Stacy Silber	
	More housing affordable to all	I would like Thrive 2050 to provide a better explanation of incorporating housing affordable to all socioeconomic backgrounds into our community, and to guarantee affordable housing to those even with the lowest of incomes.	Medhini Murali, Germantown	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Need for more affordable housing	<i>Affordable housing is emphasized a lot but is not adequately defined. Previous rental programs and current homeownership programs do not adequately help to solve the issue. Lower income and high housing costs are especially prohibiting if you have a disability with additional healthcare costs. Despite all my privileges as a White person born in Silver Spring, raised middle class, benefitting from generational wealth, I am struggling to get ahead in housing at a moderate income level and hitting a wall with county support. If I can't make it, I wonder about my neighbors, people of color, immigrants, also struggling to live here.</i>	Misha Clive, Silver Spring	
	Need for more diverse housing types	This is a great plan, and great plans should aim high or they will never be realized. While we have made great progress, single family zoning is keeping us in the past. Diversity in housing types used to be more commonplace, it provided affordable options for people who wanted to settle down, but today in Montgomery County it is restrictive and unaffordable. To move forward, the plan must sever ties to things keeping us in the past.	William Kirwan III, Silver Spring	
	Urgent need to address housing affordability and equity.	The plan talks about the need for more outreach and education about planning, and changing single family zoning to give people more access to affordable homes near jobs and other needs. I am losing patience for people who claim to care	Dan Reed, Silver Spring	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		about diversity or equity but oppose any change. Let's move forward with this plan.		
	Need more transit-oriented development with diverse and affordable housing.	Broadly support Thrive 2050. Transit-oriented development is a great focus, with attention to redev, reuse, and infill. We should be as big and bold as possible, especially with housing. Economic health, equity, and environmental resilience are dependent upon more housing. Missing middle housing is key to diversifying and densifying neighborhoods and increasing transit ridership.	James Hedrick, Action Committee for Transit, Rockville	
	Need to address exclusionary zoning and other practices.	Exclusionary zoning has explicitly racist origins and single family zoning must be addressed. It is also classist and ageist. Growth is slowing because we are not building enough housing for millennials and younger adults. Covenants are also extremely discriminatory, with minimum list prices, setbacks, uses, and racial discrimination. Thrive should include concrete actions to address zoning and other exclusionary practices countywide.	Gray Kimbrough	
	Need for more housing	<i>As the Building Industry Association, we are particularly pleased to see yet another acknowledgment that the County is not producing enough housing and that we need solutions to achieve the social, economic and fiscal objectives necessary for a healthy County in the future.</i>	Griffin Benton, MBIA	
	More affordable housing near transit	Graduating college soon and entering the job market in the county, so it's important for the county to have affordable housing	Siena Fouse, Silver Spring	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		options for all income levels. Incentivize smart growth around transit and provide convenient amenities. The plan should prioritize mass transit, provide housing, and specifically more housing around public transit.		
	Relationship of inequity in housing and education to restrictive zoning and housing policies	Segregation in schools built on restrictive zoning and housing policies. Schools with highest mobility rates are most often schools with majority students of color. For too long, the wealth gap that starts with barriers to homeownership has fallen on the backs of our black families who historically have been precluded from owning homes and still dictates who gets to live where today.	Jill Ortman-Fouse	
	Need to increase housing supply	I strongly support the housing goals of Thrive 2050, especially additional density in single family areas. The lack of market rate housing has reached a crisis point in Silver Spring, which has been building for many years. There are no options for empty nesters to downsize, so they stay in their oversized homes. Small homeowners don't have larger homes to buy so they expand theirs. Small homes torn down and replaced by million dollar homes. I agree with Thrive 2050's goals to remove impediments to increasing the housing supply, a will to change current policies when necessary, and acceptance by all the more housing and new residents are a benefit to all.	Liz Brent, Go Brent Real Estate & Silver Spring Cares	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	More diverse housing in all areas of the county	The plan targets residential neighborhoods but did not do enough to prioritize adding housing in existing higher income residential areas, or consider what changes to current residential development regulations could help achieve its goals.	Katherine Lucas McKay	
	Need for more diverse housing and transportation opportunities	I support Thrive 2050, especially diversifying housing and creating equitable home and transportation opportunities. I moved to Montgomery County to work in the theater industry and education in Bethesda, and was able to do so because of my family support and privilege. My wages alone would not be able to support my rent, but thankfully my roommate made enough to cover the costs. Many other people who do not have my privilege would not have been able to rely on their roommate or family. In addition, the lack of reliable transit between Silver Spring and Bethesda means I would either ride the Red Line for an hour or drive. The Purple Line is a great step in the right direction, but additional transit is necessary if we want people of all economic backgrounds to live and work here. Many higher income families take advantage of the county's world class education, and I would love to see more families of mixed income be able to benefit from it as well.	Rosie Alger, Silver Spring	
	Housing segregation in the county	I have been impacted by housing segregation in the county. I have grown up in a predominantly white community, and it was rare to see people who looked like	Mauricio Quintero-Aviles	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		me. It is impossible to promote diversity when our county is so segregated by housing. Affordable housing should be available in all parts of the county.		
	Evolution of single family neighborhoods near transit	I have come out to support attainable housing for all income levels and the evolution of single family neighborhoods near transit. My roommates and I don't see a future in Montgomery County without moving up the highway corridor or away from the Metro, getting a car, or changing my career to earn more money. It would take over 25 years just to save for a down payment on houses in our neighborhood, given wages and home prices stay flat. Duplexes and triplexes would open up opportunities to a variety of professionals. More affordable places in the county are a possibility but require a car and leave no savings.	Benjamin Keel, Silver Spring	
	Do walkable complete communities near transit bring jobs to the area?	<i>The goal for Thrive Montgomery is to produce more housing that is affordable and attainable with the idea that the ability to live equitably will attract businesses and will bring jobs to the area. The idea is that Complete Communities with mass transit and walkability will attract young people who will come and jobs will follow. It doesn't work that way.</i>	Patricia Depuy Johnson	
	The additional density of Missing Middle Housing will put a strain on already antiquated infrastructure.	<i>The key to Thrive Montgomery seems to be in "missing middle housing" that will create economic growth (and somehow jobs), fix deficits and equalize inequity. Many listening and unable to speak, think</i>	Patricia Depuy Johnson	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p><i>this is a simplistic solution that looks like a Global ZTA that will override a General Plan. We already see a ZTA proposed by Councilmember Jawando, which looks to invade the R60 neighborhoods. We know that the Planning Staff is not an author of this ZTA. Though Chair Anderson stated that “missing middle housing” is just a “small piece of it”, that doesn’t ring true. Those of us that live in single family homes are afraid that we will wake up one day to find a townhouse development, duplex or triplex springing up next door where a single home has been torn down. The impact to infrastructure is real. The additional density of “missing middle housing” puts a strain on already antiquated electrical grids, sewage and water supplies, garbage collection, storm water management, internet capacities, and roads in need of repair</i></p>		
	<p>3. Over one-third of the county is used for single-family homes (detached and townhouses). A recommendation of Thrive Montgomery is to build on the concept of focusing growth along corridors, even if this may require changes to land use and densities along these corridors.</p>	<p><i>WMCCA Comment: As written Thrive Montgomery is declaring war on single-family homes. If we follow the money, who stands to profit from this? Not the residents. To meet our objective of sustainable growth, for every up-zoned area, there should be an equal down-zoned area. The down-zoned areas should be given Transfer of Developable Rights (TDRs), similar to what happened in the Ag Reserve, that can be sold to developers in the up-zoned areas. Without a balance between up-zoning and down-zoning, the</i></p>	<p>Kenneth Bawer for West Montgomery County Citizens Association</p>	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>overall density in the County will continued ratcheting up.</i>		
	<p>This additional density will require change in existing single-family neighborhoods through the introduction of “missing middle” housing, such as duplexes, triplexes, townhouses, live-work units and small multi-family structures in areas where a moderate degree of intensification is appropriate. (p.38)</p> <p>What is Thrive Montgomery 2050 proposing regarding single-family zoning? ...Specifically, Thrive Montgomery 2050 recommends increasing densities along corridors especially those served by transit. These densities should be commensurate with context of the surrounding areas. In some cases, this will involve increasing densities in areas that have been historically characterized by single-family housing and could include duplexes, triplexes and small multi-family buildings. (p.42)</p>	<i>WMCCA Comment: To meet our objective of sustainable growth, for every up-zoned area, there should be an equivalent down-zoned area. The down-zones areas should be given TDRs (similar to what happened in the Ag Reserve) that can be sold to developers in the up-zoned areas.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	<p>Housing attainability and affordability is an economic as well as an equity issue. Unless we grow our housing supply to make room for the projected 200,000 new residents moving to the county by 2045, our existing communities will become more expensive, less diverse, and integrated, and it will be difficult to</p>	<i>WMCCA Comment: See our comments above. We don't see the projection of 200,000 new residents as a fait accompli. If the housing supply is not grown, there will be no place for new residents to move into, and the county's population will not grow as projected. This is a decision for residents to make, not the authors of the General Plan or developer interests.</i>	Kenneth Bawer for West Montgomery County Citizens Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	attract and retain a skilled workforce. (P. 42)			
	Single-family neighborhoods near employment centers and transit need to have a greater mix of housing types that provide less expensive options for our growing population and for existing residents, making our communities more affordable and equitable. This will require a comprehensive review of impediments to increasing the housing supply; a will to change current policies when necessary, such as reexamining our zoning and other controls to create a greater mix of housing types in new and existing communities; and an acceptance by all that more housing and new residents are a benefit to the county and the region.(p.43)	<i>WMCCA Comment: To meet our objective of sustainable growth, for every up-zoned area, there should be an equal down-zoned area. The acceptance of more housing and new residents should be the decision of residents, not the authors of the General Plan or developer interests. See above comments on population growth. In addition, tax breaks (such as multi-year tax abatements) should not be given to developers - they need to pay their own way and not be subsidized by taxpayers.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Figure 25: Lining corridors with appropriate densities provides housing options. (p. 48)	<i>WMCCA Comment: The “before” image of a tree-lined street with a fully wooded forest on the right is replaced with cheek-to-jowl buildings in the computer graphic image at the bottom. While this may represent a cash cow for developers, it represents a horror show for residents whose local woodland has been clear cut. This is just another example of the developer-centric vision represented by the Thrive 2050 document in its current form.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Definition of single-family housing	<i>What housing types will be considered single-family housing? The draft Plan refers to attached single-family, semi-detached single family, and detached single-family</i>	Todd Hoffman for Coalition of Incorporated Municipalities	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>housing, but does not define what housing types these terms include. Please add definitions for these to the Glossary.</i>	and Community Organizations	
	The exclusionary nature of Euclidean single-family zoning	<i>The plan should highlight the original intent of single family zoning, currently the supreme court case Euclidean vs. Ambler is not even mentioned once. Euclidean zoning was created to promote racial/economic segregation. If one of the chief goals of the new general plan is to reduce racial/economic segregation then the plan needs to launch an all out attack on the entire concept of Euclidean zoning and make a strong argument as to why we need to do something different now.</i>	Michael Dutka	
	Diversity of housing types in all areas of the county, not just near transit.	<i>Rethink single family zoning, not just around transit: We need to allow and encourage a range of housing types in neighborhoods near transit. However, we should not limit zoning reform to these areas. This has the potential to spark opposition to new transit, if single family homeowners know that new transit goes hand in hand with zoning reform. This also has the potential to leave out areas of the county that are predominantly white and high income — the kinds of places that are still exclusive today due to racist policies of the past, which will not be undone without intentional planning otherwise. While our priority for growth should be near high-capacity transit, we must include other measures to diversify housing options in</i>	Jane Lyons for Coalition for Smarter Growth,	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>other neighborhoods while also extending transit.</i>		
	Evolution of single-family neighborhood near transit	<i>“Evolution of single-family neighborhood” should not be included as a separate theme since it is included in other themes.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	Evolution of single-family neighborhood near transit	<i>With the shortage of open, buildable land and affordable housing in the county now, we need to allow (and encourage) a mix of housing types in areas near transit, including areas now zoned for single family homes.</i>	Brian Ditzler. Silver Spring	
	Evolution of single-family neighborhood near transit	<i>Thrive Montgomery recommends rezoning single family neighborhoods and corridors over the next 30 years to allow new housing types in the single family zones, starting with neighborhoods near transit. Thrive Montgomery, however, does not restrict the rezoning to neighborhoods near transit, and it takes no position on when the rezoning would occur. As a result, the Council may—through a single zoning text amendment--rezone the single family zones in the entire county (primarily R-60, R-90, R-200) to allow market rate townhouses, duplexes, triplexes, and apartment buildings by right throughout the single family neighborhoods, requiring only a building permit to move forward. The rezoning of our single family neighborhoods and our corridors to permit new market rate housing types could occur at any time, long before the other recommended elements for Complete</i>	County Executive	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Communities and 15-minute living are in place, and with no guarantee that these elements —new parks, new sidewalks and bike trails, new street grids, and completion of our transportation plans for transit are feasible in all areas or will ever be built. It also could be done without sufficient engagement from the communities themselves.</i>		
	Missing Middle Housing overwhelm existing neighborhoods?	Adding duplexes or triplexes might not result in much of a change given that ADUs are already allowed. Allowing small multifamily structure of up to 20 units on a single family lot would completely overwhelm the infrastructure in existing single family neighborhoods.	Robert Oshel, Silver Spring	
	Support for Missing Middle Housing	<i>I have no desire to see old neighborhoods torn down in favor of massive housing complexes, which is why I support Montgomery for All's approach of adding in the missing middle by supporting ADUs and low-rise, smaller housing units. This is smart growth.</i>	Elizabeth Merlo, Silver Spring	
	Visions--Affordable ...Housing closer to workplaces and safe, affordable transit options save time and money and reduce greenhouse gases. (P.45)	<i>We urge you to change "housing closer to workplaces" to "housing closer to job centers, amenities, and other destinations."</i>	Jane Lyons for Coalition for Smarter Growth	
	Conformance of the housing chapter to the requirements of the State law HB-1045.	<i>Planning [MDP] recommends that the county evaluate its Affordable &amp; Attainability Chapter relating to the housing element (pages 88-93) for conformance to the requirements of HB-</i>	MDP

		<i>especially with work-from-home becoming a new norm... Buying a house in an "affordable" neighborhood would mean an hour+ commute for me and my husband for days we have to go into work.</i>		
		I love Montgomery County and I want to put roots down here, but when the average home prices is over half a million dollars, it's not exactly affordable. That's why I am excited this plan calls for diverse housing types, projects near transit, and distributing affordable housing evenly across the county, including wealthy areas. That said, I'd like to see more emphasis on socioeconomic integration and addressing barriers to missing middle housing. Additionally, there should be bolder action on rent stabilization, eviction protection, and affordable housing.	Berk Ehrmantraut	
		<i>We encourage the County to consider increasing and diversifying areas for Missing Middle housing as well as provide more housing for essential workers and leverage naturally occurring affordable housing options including adaptive re-use of malls and other retail/office buildings which post COVID-19 may no longer be viable for their original and intended use; however the premise that we will need to house 200,000 more residents is based on pre-COVID-19 assumptions and providing Missing Middle housing is not ipso facto affordable.</i>	Andy O'Hare, President EBCA

		<i>stations/centers and service establishments.</i>		
	What is Thrive Montgomery 2050 proposing regarding single-family zoning? ... Thrive Montgomery 2050 proposes to increase the production of different types of housing near transit, including in existing single family zones. This is an important step toward addressing past inequities in housing choice, while also creating more options for affordable and attainable housing. Specifically, Thrive Montgomery 2050 recommends increasing densities along corridors especially those served by transit...	<p>Encourage further boldness. We should not merely be recommending duplexes and triplexes - the general plan needs to be clear that in the future, all communities in Montgomery County are going to be complete communities-- where people can get to all their household needs, including mass transit, by foot or bike safely within 15 min.</p> <p>Suggest making a plan to build transit and encouraging walkable retail right now, in 2020. And where we have existing shopping, workplaces, and transit, we need to be building more housing. it should be legal to build a duplex or fourplex by right to ensure that we are building sustainable, complete communities everywhere we would allow construction to occur in the county.</p> <p>This is not to prohibit single family homes. but areas should not be exclusively for only single family homes. That way lies the path to segregation, inequities, and housing shortages.</p> <p>We must make room for people of all incomes and means to live in existing communities - all our existing communities- - where housing is a right, and is legal everywhere.</p>	Sanjida Rangwala Silver Spring, Jenna Bauer	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Communities have become highly adept at using the public process to block new housing and solving the county's housing shortage will require a shared vision throughout Montgomery County. (p. 87)	<i>This statement is inappropriate and should be removed from the document. Rather than criticizing the right of communities to protect their quality of life and provide input via the public process, planners should listen to the will of the people.</i>	Community Coalition Letter; Melanie Rose White, Chair Citizens Coordinating Committee on Friendship Heights, Ken Bawer for WMCCA	
		<i>Will HOAs be excluded from ZTAs or will their covenants override?</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
		<i>Clarify in Thrive that "attainable housing" does not equal "affordable housing." Attainable housing is a phrase that misleads the non-professional.</i>	Jean Cavanaugh, Silver Spring	
		<i>AIM agrees that the MPDU program should be strengthened. In particular, MPDU requirements should be tweaked to incentivize more creation of three bedroom (or more) units. Payments in Lieu of Taxes (PILOTS) should be used where necessary to ensure the development of affordable housing and the HIF should be expanded and leveraged to produce more affordable housing. In that regard, the HIF can be used in conjunction with use of the County's bonding authority both to support new construction and to preserve existing</i>	James W. Olson, Action in Montgomery

		<i>market-rate affordable housing, with particular attention to properties near the Purple Line. The ability of the Housing Opportunities Commission to preserve existing market rate affordable housing should also be enhanced.</i>		
		<p><i>We are also concerned that the draft Plan also barely mentions, much less includes, specific strategies to achieve much needed affordable housing through the County. Despite its stated goals that focus on “Equity” considerations, affordable housing is given short shrift in the draft Plan.</i></p> <p><i>CCCFH has long supported preservation and protection of the “naturally occurring” existing affordable housing units within and surrounding the County’s business districts. The Plan’s failure to seriously address this aspect of the County’s housing needs over the next 30 years is both glaring and inexplicable.</i></p> <p><i>Instead, a major focus and goal of Thrive Montgomery 2050 is to encourage inclusion of market rate "missing middle housing" in the form of multi-unit housing projects, including duplexes, triplexes, townhouses and apartment units, into what are now single-family residential detached zones throughout the County.</i></p>	Melanie Rose White, Chair Citizens Coordinating Committee on Friendship Heights	
		<i>AIM also believes that the proposal to create an inventory of all vacant and underutilized public lands (including</i>	James W. Olson, Action in Montgomery	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>parking facilities) is long overdue and should be undertaken, with priority being given to considering the use of such land for affordable housing. Public agencies should also be required to consider possibilities for co-location of affordable housing when deciding to build. In addition, the County should develop mechanisms to encourage and support the development of affordable housing by faith-based institutions and other non-profits. Another potentially useful idea is to encourage adaptive reuse of existing high-vacancy retail and office space, with some of that reuse dedicated to affordable housing.</i>		
		<i>AIM also supports the draft General Plan's suggestion that zoning should be changed to encourage creative housing options such as multi-generational housing, single-room occupancy units, shared housing, etc. and that the County should look for ways to further support the creation of accessory dwelling units (ADU).</i>	James W. Olson, Action in Montgomery	
		<i>Improving conditions in low income and vulnerable communities is not enough. Montgomery County needs to end racial, economic, and ethnic segregation to achieve full equity. This means a mechanism to override NIMBIES who work to keep low-income housing out of their neighborhoods.</i>	Ethan Goffman, Rockville	
	Need smaller housing types to drive down prices	<i>A chief goal of the plan should be to make sure the median price of a home should decline. Montgomery county is already</i>	Michael Dutka	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>unaffordable, this needs to change. This can be accomplished by adding a greater variety of smaller housing types.</i>		
	Expand Missing Middle Housing options to areas other than transit stations	<i>Increase and Diversify Areas for Missing Middle Housing. We recommend that the draft Plan increase and diversify the areas where Missing Middle Housing could be located. The draft Plan's focus on putting infill development in existing neighborhoods within one half-mile of rail stations and BRT routes is too narrow and, in most places, the land is expensive, which may not achieve the stated goals. Putting Missing Middle Housing in these neighborhoods is likely to result in some additional housing if the market finds it profitable to build this type of housing there, but it is highly unlikely that the new market-rate housing units will be affordable or attainable by the income cohorts that the Plan seeks to help...Allowing Missing Middle Housing in neighborhoods that are accessible via other public transit (e.g., Ride On bus and other bus routes on non-BRT routes) could produce additional housing that is far more realistically affordable. This change and expansion of focus and criteria would benefit underserved and disadvantaged communities and populations as the County's housing stock overall is diversified in an upward direction.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations, Seth Grimes	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Missing Middle Housing first on vacant and underutilized properties, and then in single family neighborhoods	<i>Montgomery County's single-family home neighborhoods are, along with the Agricultural Reserve, part of our county's jewels. Rather than nibbling away at single-family home neighborhoods, missing middle housing should first be considered on public properties, on underutilized parking lots in commercial areas or current office parks, which may end up being abandoned properties after the pandemic with so many people working from home.</i>	Phyllis Edelman	
	Add a map of where Missing Middle housing can be located	<i>Some incorporated municipalities (e.g., Rockville, Gaithersburg, Takoma Park) and HOAs will not be impacted by Thrive Montgomery's push to add Missing Middle housing types to existing single family neighborhoods, potentially creating a disparate impact. Please add a map that shows where Missing Middle Housing could be located.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
	Need to further define Missing Middle Housing	<i>Here's my thought on Missing Middle - It is not defined in the zoning code yet. Specifically, threeplexes and quadplexes are not in zoning code. Zoning code could add to descriptions of existing Missing Middle building types (cluster housing?, townhouses, duplexes) that they are Missing Middle. I am not sure where small apartment buildings fit it, but they might need a new housing type like "mansion" which might include up to 6 or 8 apartments and have a defined outward appearance that includes house-like features like roof slope, set backs, 30% lot</i>	Jean Cavanaugh, Silver Spring	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>coverage max. I am not sure how to address the look of a building in the Thrive framework. But I am sure that missing middle is not a codified thing. I would like to see missing middle promote reduced lot coverage to allow for green space and tree canopy instead of models that fill a height and FAR and setback envelope. I know I am mixing zoning code and General Plan, but the General Plan can push the zoning code in a better direction.</i>		
	Allow Missing Middle Housing countywide	<i>Even for a more localized DTSS sector plan to be bold, it needs a strong general plan to support it. Further, in order to truly move the needle on affordability in Montgomery County tactics like adding missing middle housing will need to be deployed county wide. I would urge the planning board to expand missing middle housing into more single family home exclusive zoned neighborhoods throughout our county, particularly in areas accessible to transit, as they can better handle the density, and will help make transit accessible to those who need it most.</i>	Michael English, Silver Spring	
	Equity Financing instead of Missing Middle Housing for Middle-Income Folks	Thrive Montgomery 2050 poses solutions for low-income residents to live in Montgomery County, but does not address unaffordability for middle-income residents. Municipalities pose that added Missing Middle housing would still be unattainable for middle-income folks. Introducing equity financing, where the risk of depreciation is shared between the	Robin A. Barr Council member, Town of Somerset	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		lender and borrower. The lender then carries some of the risk but also can gain. However, this could increase the demand for homes without expanding the supply. This could be managed by tying it to new developments.		
		<p><i>For the purposes of creating and preserving affordable housing I think our County should consider ways to limit speculation on land value. While the MPDU program is a great step in this direction, preserving properties in perpetuity through Community Land Trusts would be another strategy to consider.</i></p> <p><i>Why I find the CLT strategy particularly compelling is that it enables limited-equity in the sale of residential and commercial properties (based on investments) but prevents inflation beyond this (which is largely related to proximity to public assets). This would prevent the flipping of properties as we have seen recently, for example, in frequent numbers in the East Silver Spring neighborhood (which has proximity to a permanently preserved urban farm and downtown silver spring shops).</i></p>	Hannah Sholder	
	Need to address increased racial and economic integration in the County's housing pattern.	<i>More emphasis should be given to the provision of decent housing as a right for all citizens of the County. In addition, the Plan should more explicitly address the need for increased racial and economic integration in the County's housing pattern. As it is</i>	James W. Olson, Action in Montgomery	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p><i>today, most areas of the County are highly segregated both racially and by income. One possible step toward remedying this situation would be to amend the zoning code to allow more “missing middle” housing (duplexes, triplexes, fourplexes, cottage courts, courtyard buildings, etc.) to be built throughout the County. The draft General Plan speaks of expanding such housing options near high-capacity transit, but that language should be expanded to reach beyond such zones.</i></p>		
	<p>Need for more affordable housing, especially for the homeless.</p>	<p><i>Montgomery County has always been a place where people want to live. We have nice neighborhoods, great parklands, and among the best public schools in the country. Unfortunately, we do not have enough housing, particularly affordable housing, for all the folks who want to live among these amenities. If we continue to have a housing shortage, those who can least afford to live here will be disproportionately impacted and be forced to live elsewhere, typically further away from jobs and services, adding to the traffic and absorbing the additional commuting costs. As long as we have a homeless population, we are not thriving. The county should be actively searching for properties that can be used as housing for those coming out of homelessness. We need to look at how we can turn surface parking lots and former office space into new forms of residential / retail offerings. The MPDU requirement</i></p>	<p>Don Slater, Silver Spring</p>	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>should be increased. This should be happening across all of our currently developed areas, particularly near transit hubs.</i>		
	Need for more permanent supportive housing	There are a few areas where the plan must give greater attention: shelter space, permanent supportive housing, and rental assistance. Thrive 2050 must ensure sufficient planning is dedicated to shelter capacity. Permanent supportive housing is a critical element of the housing continuum to support residents with no to low incomes. We need to ensure sufficient permanent housing stock for these residents. African Americans, Latinx and other people of color are overrepresented in our shelters and affordable housing. We hope the county's racial equity and social justice program will ensure that those who are most marginalized will get the attention and resources needed.	Jeffrey Mosley, Montgomery County Coalition for the Homeless, Coalition Homes	
	Need for bolder vision to address housing affordability	We commend the plan's housing goals and actions around adaptive reuse, incentivizing accessible housing through non-tax incentives, flexible zoning, and financial and administrative help for affordable housing developers. We feel that Thrive can take an even stronger position on housing to ensure that county neighborhoods are affordable to households of all incomes, especially low income households. The need for affordable housing is projected to increase even more especially for households with	Mary Kolar, Montgomery Housing Alliance	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p>incomes at or below 50% AMI. In order to meet housing needs, the county must have a bolder vision that goes beyond existing programs</p> <p>In order to meet housing needs, the county must have a bolder vision that goes beyond existing programs. Thrive should include more explicit messaging around subsidized housing and meeting the needs of low income residents through expansion of shelter space, permanent supportive housing, and rental assistance programs.</p>		
	Protecting renters from rent increases and evictions	<i>Now that we have talked about getting people into housing, we have to address keeping them in housing and protecting them from rent increases and evictions. The county should adopt rent indexing as a means of stabilizing rental costs. No one should have to face an eviction without legal representation. The county should seriously consider programs to provide financial assistance and counseling to first time home buyers.</i>	Don Slater, Silver Spring	
	Provide Housing for Essential Workers	<i>We recommend that the draft Plan add a policy and action item of providing convenient and affordable housing for public and other essential workers who provide essential services to communities.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
	Benefits and challenges of creating more affordable housing	<i>The provision of housing units far lags population growth, resulting in high housing costs. The well-enough-off manage, and we take care of some of the</i>	Mark Pierzchala, Rockville councilmember	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p><i>poor, but we harm those in between. These are people who, 40 years ago, would have found reasonably priced housing in Montgomery County. Now, they pay too much, live marginally, or live elsewhere. We are not providing for teachers, health-care workers, first responders, or even our own children.</i></p> <p><i>By transforming our many decrepit commercial properties into livable walkable communities near transit, we would get many wins and few negatives. Wins include reduced car trips, better transit, lower energy usage, more stormwater management, prosperity, higher tax base, money for school construction, and human-sized communities with local shops. So, what is the problem?</i></p> <p><i>There is a political problem, and it has been around for years. There is a visceral reaction from many homeowners whenever and wherever high-density projects are proposed. Many anticipate more traffic, congestion, and overcrowded schools. Opposition can be loud, ugly, and classist. These opponents vote in numbers and in blocs, and they have long memories.</i></p>	testifying as an individual	
	Naturally Occurring Affordable Housing	<i>Leverage Naturally Occurring Affordable Housing. The draft Plan should include some Goals, Policies, and Actions regarding naturally occurring affordable housing and adaptive rehousing. The draft Plan focuses</i>	Todd Hoffman for Coalition of Incorporated Municipalities	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>on creating new housing without adequately considering retaining naturally occurring affordable housing (including possible upgrades to older housing) and repurposing of non-residential properties (COVID-19 has made this particularly relevant). Further analysis should be done to determine current and potential future naturally occurring affordable housing, structural and system (wiring, plumbing, etc.) lifespans, and cost of retrofitting to extend the lifespan of existing structures.</i>	and Community Organizations	
	Affordable housing bonus density, especially near transit	<i>Although we understand that Montgomery County already has an existing MPDU program, we would have liked to see more discussion of how to expand this tool. In particular, we encourage the county to consider raising the 22% bonus density cap for 100% affordable housing projects, particularly those near transit. We would also like to see further discussion on neighborhoods where affordable housing bonus density might be available, such as current low-density areas near transit corridors. Given their complex financing structure, affordable housing projects are difficult and expensive to build no matter the size. Because of this, APAH has found that our biggest projects are also often the most cost efficient. Such projects would not have been possible without generous bonus density programs.</i>	Nina Janopaul, President Arlington Partnership for Affordable Housing	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		The county should create policies to limit displacement in redeveloping areas. We cannot afford to build out more sprawling exurbs. Eliminating single family zoning countywide is a promising strategy. We need to eliminate barriers to missing middle housing, and parking minimums. I would like to see bolder goals and tactics in the final plan.	Eyal Li, Takoma Park	
	Build More Housing, of More Types, in More Ways Montgomery County needs to build more housing. Declining production and increased development costs have resulted in rising housing costs and an increase in the number of cost-burdened households. Without an appropriate range of housing types at attainable price points, the county will be unable to attract and retain the employment base necessary to support our economic well being. (p.86)	<i>WMCCA Comment: To say, “Montgomery County needs to build more housing” begs the question, “When will Montgomery County have enough housing?” The current population is now about one million people. Do we want to plan for a county where the population is 10 million or 25 million people? The current draft Plan treats population growth as an expectation, rather than either a desired goal or a potential problem. Job and business growth must only be pursued on a sustainable basis, that is, only if they can be attained without negatively impacting quality of life (including, for example, air and water quality, traffic, and yes, our happiness rating) and without negatively impacting the environmental quality of our natural areas (for example, no stormwater or other water quality impacts, no ecological degradation, etc.).</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	The county needs housing growth in transit accessible locations including current and planned rail and bus rapid transit corridors. Predominantly single-	<i>WMCCA Comment: Up-zoning (density increases) in these areas need to be balanced by down-zoning (density decreases) in other areas</i>	Kenneth Bawer for West Montgomery	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	family detached houses currently line these transit corridors limited by zoning that only allows only this type of housing. Low to moderate density increases would allow the introduction of more housing types near transit to serve a mix of incomes and household types. (p. 86)		County Citizens Association	
	<p>Trends and Challenges</p> <p>7. We are not producing enough housing in accessible locations to meet our needs. While the number of housing units in Montgomery County increased 32% from 295,723 in 1990 to 390,673 in 2018, this increase was lower than the 53% increase in the region.</p> <p>But we cannot continue to rely on a few, high-density Metro station areas to provide enough housing to bring down costs. We need other locations where lower land prices will support low- to medium-density residential building types.</p>	<p><i>WMCCA Comment: Why are we using the “must keep up with the Joneses” mentality? We need to focus on sustainability. If you want to compare us with other parts of the region, we need to ask what has the housing increase in those regions done for their quality of life and the environment. Moving construction to areas with lower land prices has been the driver of suburban sprawl for decades.</i></p>	Kenneth Bawer for West Montgomery County Citizens Association	
	Rent stabilization	Actions should be added on rent stabilization and protecting legal rights of tenants.	Andrew Saundry, Jenna Bauer, Berk Ehrmantraut, Frank Fritz	
	Goal 5.1: Provide and produce housing units that meet the diverse household sizes and needs of all Montgomery County residents in terms of type, size, accessibility, affordability, and location. (p. 87)	<p><i>WMCCA Comment: Add: “This will take place primarily through the slow conversion of existing housing units without necessarily increasing the total number of housing units.”</i></p>	Kenneth Bawer for West Montgomery County Citizens Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Page 86, Policy 5.1.1. “Encourage the production of a broad variety of housing types to achieve attainable price ranges.”	<i>The actions associated with this policy should not only address breaking down zoning barriers, but also other land use regulations that make middle housing types difficult to build.</i>	Jane Lyons for Coalition for Smarter Growth	
	Page 86, Action 5.1.1.a	<i>We urge you to include “small apartment buildings,” in addition to “duplexes, triplexes, and quadruplexes.”</i>	Jane Lyons for Coalition for Smarter Growth	
	Action 5.1.1.a: Expand housing options in detached residential areas near high-capacity transit by modifying the zoning code to allow duplexes, triplexes, and quadruplexes, residential types by-right and with smaller lot areas.(p. 87)	<i>WMCCA Comment: Add, “Any up-zoning must be balanced by down-zoning in other areas of the county.”</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Action 5.1.2.b: Establish incentives to encourage conversion of existing high-vacancy office and retail sites into residential uses through adaptive reuse or redevelopment of the site. Create flexible zoning incentives for conversion of planned and existing office and retail sites to residential uses, including allowing properties to reallocate their nonresidential Floor Area Ratio to residential use. (p.87)	<i>WMCCA Comment: We object to the concept of “flexible regulations and zoning controls” and “flexible zoning initiatives”. We don’t have flexible speed limits for a reason. We don’t want an officer to say, “The speed limit is 25, but I’ll be flexible and make it 45 for you, Mr. Jones.” Regulations and zoning controls should be fixed, not flexible. The implication is that the Planning Board can change regulations and zoning controls based on a whim or developer influence.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Policy 5.1.7: Provide family-sized housing units in new multi-family housing developments.	<i>Policy 5.1.7. The zoning ordinance should be changed to allow increased density when additional bedrooms are built for multifamily units. See the SSP staff report for 10/30/2020 for information that relates number of bedrooms to the revenue the building owner receives.</i>	Dan Wilhelm for Greater Colesville Civic Association

	Regarding Goal 5.2/Policy 5.2.1.	<i>The MDOT MTA supports the inclusion of accessible, affordable housing for older adults and people with disabilities near high-capacity transit and encourages Montgomery County to coordinate with the Maryland Department of Disabilities to ensure mutually beneficial efforts.</i>	MDOT	
	Regarding Goal 5.2/Policy 5.2.1.	<i>WMCCA Comment: Add, “Any up-zoning must be balanced by down-zoning in other areas of the county.”</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Action 5.2.1.b: Provide incentives to encourage county employers and property owners to develop mixed-income housing at employment centers by redeveloping surface parking lots and underutilized property.	Action 5.2.1.b should be expanded beyond just mixed income housing and employment centers. This could apply to the adaptive reuse of office parks such as Rock Spring.	Seth Grimes	
	Page 89, Goal 5.3. “Continue to promote the policy of mixed-income housing development through the implementation of county policies, programs, regulations, and other tools and incentives.”	This goal’s associated policies and actions are too reliant on the moderately priced dwelling unit (MPDU) program. Montgomery County needs a strategic, targeted approach to intentionally create mixed-income neighborhoods, of which the MPDU program should only be one part.	Jane Lyons for Coalition for Smarter Growth	
	Action 5.4.2.a: Explore changes to the zoning code to support the creation of permanent supportive housing units like Single-Room Occupancy (SRO) or Personal Living Quarter (PLQ) units by-right in all residential and mixed-use zones.	<i>The other area of the report we’d like to comment on pertains to the recommendation that the Planning Board explore changes to the zoning code to support the creation of single room occupancy (SRO) or personal living quarters (PLQ) by-right in all residential zones. Our association has provided input to the county as to how best to regulate and</i>	Barry Wides, President, North White Oak Civic Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>oversee unlicensed single-family rentals, which these SROs and PLQs would be. The county typically does not license these rentals and has nowhere near the resources today to inspect these properties for which an owner does apply for a license. Major increases in county resources and strengthening of the county's rental housing code would be needed to ensure the health and safety of residents of these units.</i>		
	Page 90, Goal 5.5. "Minimize displacement of people, especially among low-income residents, people of color, people with disabilities and older adults."	<i>This goal should include rent stabilization and just cause eviction in the associated policies and actions.</i>	Jane Lyons for Coalition for Smarter Growth	
	Policy 5.5.12: Use the county's Subdivision Staging Policy to monitor the secondary effects of targeted growth policies, including loss of market-rate affordable housing and displacement.	<i>Policy 5.5.12. The SSP is not the correct vehicle for monitoring growth housing trends.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	<b>Goal 5.5: Minimize displacement of people</b> , especially among low-income residents, people of color, people with disabilities and older adults.  Goal 5.6: Expand housing access through elimination of fair housing barriers and enforcement of fair housing laws to protect residents from discrimination.	<i>Goals 5.5 and 5.6. Move these goals to the proposed equity element.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	Page 93, Goal 5.6. "Expand housing access through elimination of fair housing barriers and enforcement of fair housing laws to protect residents from discrimination."	<i>This goal should include a right to legal counsel for people facing eviction in the associated policies and actions.</i>	Jane Lyons for Coalition for Smarter Growth	

**Safe and Efficient Travel (Revised-- Theme #3: Transportation and communication networks: connecting people, places and ideas)**

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>The Safe and Efficient Travel chapter addresses the transportation element as required in the LUA. Planning [MDP] staff is pleased to see the county proposes a transformative and bold transportation vision and associated goals and policies that emphasize non-single-occupancy-vehicle (SOV) transportation such as transit, walking, and biking...The Draft Plan effectively integrates planning issues such as safe and efficient travel with economics, equity, and environmental resilience.</i>	MDP	
		<i>Specific to transportation issues, page 73 provides a good summary of major challenges facing the county's transportation system. Planning suggests that the Draft Plan also discuss how the county's increasingly aging population (page 16) will impact the demands on and adaptability of its transportation network. The county should also consider a brief discussion of emerging transportation technologies such as shared transportation, zero emissions vehicles, and connected and automated vehicles. These issues and challenges will also influence the development of transportation goals and policies.</i>	MDP	
		<i>Page 75 (Goal 4.1): Bus Rapid Transit (BRT), a more frequent bus service for peak and non-peak periods, is different from a</i>	MDP	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>commuter/express bus service which focuses on serving peak periods. A commuter or express bus service may be more appropriate for certain potential regional bus services such as to Tysons, VA and Columbia, Howard County. The county may want to add “commuter/express service” in transit policy statements if it is appropriate.</i>		
		<i>The county may want to develop a policy to address improving walking and biking in rural villages and communities. To assist small towns and rural communities to plan incremental bicycle and pedestrian facility improvements, the Federal Highway Administration published “Small Town and Rural Multimodal Networks,” a resource guide for pedestrian and bicycle facility design guidelines and best practices in a rural setting.</i>	MDP	
		<p>Page 34 – Regarding first mile/last mile problem. The MDOT MTA supports the focus on the significance of non-SOV access to transit.</p> <ul style="list-style-type: none"> <li>Page 34 – Regarding Figure 21: Map of the Bus Rapid Transit (BRT) system. It may be valuable to overlay the existing MARC / WMATA system and stations on this map to further demonstrate the connectivity of the system.</li> </ul>	MDOT	
		<i>Prioritizing transit will have a major effect on equity, the environment, population growth, health, and our economy. The county is making strides, but LWVMC</i>	League of Women Voters of Montgomery County	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>encourages a more coordinated effort across all transit modes to produce a greater impact. Retrofitting an existing environment is difficult and working with our diverse population poses many challenges, but transit will be key to resolving many issues in the coming years.</i>		
		<i>The entire general plan is directed toward walking, bicycling, and the use of transit. The use of an automobile is anathema. In order for this to succeed the network served by public buses needs to increase astronomically along with the number of buses. The cost of that is huge. Not long ago there was a move to decrease the number of buses serving various lines due to cost. And now?</i>	Harold Pfohl, Summner Village	
		<i>The Thrive Montgomery 2050 Draft Plan's assumption of good public transit is unrealistic. The Thrive Montgomery 2050 Draft Plan fails to assure that the needs of lower income workers will be met.</i>	Lloyd Guerci	
		<i>It is impossible to overstate the importance of people being able to travel by transit, cycle, or foot - individual and public health benefits abound, certainly, as do economic activity and social integration - and so it is imperative that the County focus on creating as equitably accessible and effectively navigable spaces as possible. I'd like to add, however, that one of the missed opportunities is to build transit-first, or to build transit in concert.</i>	Edmund Morris	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>To dis-incentivize the use of automobiles the plan proposes to reduce public parking and increase the cost of remaining public parking to market rates. Diversity and inclusion are core to the plan. If people in single-family residential neighborhoods need to walk 15 minutes to bus stop, wait for a bus to downtown Bethesda in order to shop, enjoy dining there or take in a movie the odds are that the plan will effectively have excluded them from Bethesda by making it arduous to get there. How much will the plan exclude people? What are the unintended consequences?</i>	Harold Pfohl, Summner Village	
		<i>Pedestrian and bicycle safety receives great emphasis. Nowhere is there any plan dealing with the great danger that bicyclists pose to others in their nearly complete disregard of traffic laws whether on a street or on a trail.</i>	Harold Pfohl, Summner Village	
		Safety and equity should be assigned as a higher priority; currently they are pretty far down the list. Pedestrian and bicycle injuries are up nationwide and disproportionally impact low income and vulnerable populations. These goals should be front and center.	Kristy Daphnis, Montgomery County Pedestrian, Bicycle, and Traffic Safety Advisory Committee	
		A separate and specific action should be added to create transportation metrics to gauge efficiency. For example, measuring the cost and time differences between transit and car travel per trip, and comparing them across different	Kristy Daphnis, Montgomery County Pedestrian, Bicycle, and Traffic Safety	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		communities. Adding a more specific time element as a measure of convenience of mobility would put more focus on eliminating long and inconvenient transit trips, which deter people from using transit.	Advisory Committee	
		Cyclist safety is a major issue for residents; Rebecca was struck riding her bike in Downtown Silver Spring. Combining cycling and transit is an effective way to solve the last mile problem: adding bike racks, allowing bikes on the Metro, and increasing the number of protected bike lanes. The county must make a comprehensive interwoven network of protected bike lanes so that all residents can easily connect to rail and BRT.	Nadiya Kutischeva & Rebecca Mann	
		We are in a climate crisis, and any project to increase driving is climate denial. My family has recently gotten rid of our car, but my mom has been hesitant to bike to Downtown Silver Spring since she was hit by a car last April. If we are serious about getting people out of cars, the county must make it easier to take alternate modes of transport and harder to drive.	Eyal Li, Takoma Park Resident	
		<i>Restricting the use of cars only makes life more difficult. People need more routes to work than can be efficiently provided by public transportation. Tradesmen need to use vehicles to get to job sites and parking to do their jobs. Families need cars to transport children to schools and after school sports and other activities. Planning</i>	Quentin Remein for Cloverly Civic Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>for people involves planning for cars needed by people for shopping, visiting friends and loved ones, and attending churches and other activities.</i>		
		<i>Supporting public transit options with an aging community does not make sense, since they depend more heavily on cars.</i>	Andy Leon Harney, Village Manager for Section 3 of Chevy Chase	
		<i>Unsure if the plan indicates a 15-minute city means not driving but walking. Short driving trips must be eliminated and more transit options would especially benefit the elderly and handicapped who cannot drive. I admire the plan's emphasis on transport. We currently have all the road capacity we need and this plan has great transit goals.</i>	Zach Weinstein, Downtown Silver Spring	
		<i>One of the areas where our community has been shortchanged pertains to transportation. Since the 1981 White Oak Master Plan, there had been recommendations for separated lanes on US 29 for bus transit. While we pleased to see the launch of the Flash bus, we look forward to the County addressing ways the US 29 can be reconfigured to allow the Flash bus by-pass rush hour congestion.</i>	Barry Wides, President, North White Oak Civic Association	
		<i>We wholeheartedly support the recommendation for the county to develop an interconnected web of transportation and green corridors focused on pedestrians and bicyclists. We would welcome the opportunity to work with the Planning Board, County Council, and County</i>	Barry Wides, President, North White Oak Civic Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Executive to identify transportation and green corridors in White Oak and develop an action plan to link stream valleys, natural lands, parks, open spaces with trails for walking and biking and to link Paint Branch and Northwest Branch as described in footnote 1.</i>		
		<i>Thirdly, a thorough appreciation of personal "agency" should be a hallmark of the Thrive Montgomery 2050 Plan. Personal "agency" at all levels of development is huge motivational and dignified value that both the individual and many cultures esteem throughout our society. Why would you take away this personal "agency" from our beloved senior population which will make up more than 21% of the County population, just to consign them to living cramped with few transportation options, from jammed buses to potentially crowded thoroughfares? Confinement of living spaces for our seniors is like asking them to live in a group home mentality. Such an honored generation should be appreciated for their years of contribution to the Montgomery County tax base and wisdom and knowledge they've conveyed to successive generations. Why would they want to be told that the community they lived in for decades may be re-zoned and they would have to resort to a limited quality of life option? Equally, it's hard to envision a Thrive Montgomery 2050 Plan</i>	M. Allen	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>limited to foot traffic, bicycles and buses when the car made the American Dream a reality and a journey of epic personal evolution.</i>		
		<i>In a previous draft of the plan, the largest number of comments were on public transit and “retrofitting existing communities” should be the first priority of improving public transit. In the nearly 30 years I’ve lived in Montgomery County (the length of this plan), public transit has declined, not improved. WMATA bus routes have been cut and headway between buses has increased.</i>	Phyllis Edelman	
		<i>Include planning for public transportation along I-270 to access Germantown efficiently.</i>	Martha A. Schoonmaker, and Margaret Latimer	
		<i>The Thrive Montgomery Plan recommending reduced usage of automobiles does not recognize the transportation needs and importance of the automobile. We do need to provide for better commuter transportation, but people still need to use cars for shopping, visiting friends, attending evening and weekend activities, and activities in nearby communities not served by public transportation. Many residents, especially low-income residents, have jobs that require them to work in the evenings and night, at locations not served by public transportation. Also they have</i>	Quentin Remein, Michele Albornoz, Linda and Gay Mullings	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>service jobs that require them to travel to different locations during the day, or need tools and materials that need to be taken to the worksite. The plan disadvantages them by limiting their use of cars and access to parking.</i>		
	Trends and challenges 9. We need to stop planning for cars and emphasize transit, walking and biking	<i>WMCCA Comment: We wholeheartedly agree with this.</i>	Ken Bawer for WMCCA	
	Stop planning for cars	<i>A goal of Thrive Montgomery is to stop planning for cars and even to make it difficult for people to get around using a car. This is not a good goal for this Plan. A reasonable and more realistic goal would be to plan more for pedestrians and cyclists and to make it easier for people to move around without using their cars. But the county is too large and too connected with the greater metropolitan area, people are moving within and through the county in so many directions, making trips for so many diverse reasons, that making it hard for them to do so will be detrimental to our residents, the county's economy, and the region as a whole.</i>	Deborah Ingram, Chevy Chase	
	11. Declining trends in public health and well-being indicate a growing need for a healthier more active lifestyle. ...all residents can benefit from a more active lifestyle supported by a renewed emphasis on transit, walking, and biking.	<i>WMCCA Comment: We agree on the need to emphasize transit, walking, and biking. However, the County has done an extremely poor job of promoting safe walking and biking in the past. Especially in the lower density areas, many roads have no sidewalks or trails alongside them. Even the lack of bicycle racks at retail centers sends the message, "Bikes are not welcome</i>	Kenneth Bawer for West Montgomery County Citizens Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>here.” This is not only a public health issue, it is a climate change issue - walking and biking to destinations means less automobile exhaust.</i>		
	Equally useful as opportunities for connection, we must enhance and connect the growth corridors with trails in the stream valley corridors at their intersections to expand active transportation options via walking and cycling. (p. 38 of the Public Hearing Draft Plan)	<i>WMCCA Comment: Trails for bicycles should be built along all existing and planned rail and bus rapid transit (BRT) corridors. Bicycle trails should be separated with jersey-type barriers, for example, to completely shield bicycles from vehicular traffic. Trails in the stream valleys should natural surface only so as to not add to impervious surface coverage.</i>	Ken Bawer for WMCCA, Kathleen Mihm	
		<i>This is overstated. As noted before, there are times when cars are more practical. In addition, transit will also be using roads as well as some microtransit options (e.g. Uber, neighborhood transit) and mail order delivery trucks.</i>  <i>Public transit should be prioritized over walking and biking for the non-15 minute travel.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	
	Trends in public health and well-being indicate a growing need for a healthier lifestyle.	<i>Better health and well-being are worthy goals, but it isn’t clear how this plan proposes to change what is already on the ground in a county that is mostly built out. We should take a realistic look at how we can provide additional transit, biking, and walking opportunities in areas where it makes sense without conveying the idea that residents living in areas that require trips by car are somehow problematic.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Plan for people not cars	<i>“Plan for people not cars”, we agree with providing more transit, walking and biking alternatives.</i>	Dan Wilhelm for Greater Colesville Civic Association	
		<i>Biking is simply not practical for older residents, residents who must travel some distance to their jobs, residents with disabilities, and residents with young children. Bicycles also do not work well for anyone in adverse weather conditions. Most people cannot walk to buy and carry home a week’s supply of groceries on foot or by bike, even if a grocery store is only fifteen minutes away. Indeed, I would bet that every member of the Planning Board lives within 3 miles of a food store. Do any of you regularly bicycle when you buy the bulk of your groceries, or when you drop off and pick up your laundry? I am convinced that if you asked the public you would find that most of us do NOT want to live only in a Complete Community, bicycling to the grocery. A wonderful thing about living in Montgomery County is the great variety of parks, restaurants, entertainment venues, and stores that are more than 3 miles away and not easily accessible by public transport. Automobiles are an essential component of life in Montgomery County.</i>	David S. Forman, Bethesda, Peter Rizik, Josh Silverstein, Randolph Civic Association	
		<i>The county population must reduce its dependency on automobiles. The county should incentivize the use of mass transit (including busses) and incentivize the use of electric vehicles (EVs) over fossil fuel ones</i>	Don Slater, Silver Spring	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>At the turn of the 20th century, much of the country was farmland and rural commerce centered on the small towns within that landscape. All of those little towns were connected to each other, and often to a larger city, by some kind of rail system. Most of those interurban rail lines are gone, but good bus service can take their place and provide that same level of connectivity without having to resort to a car with one person in it.</i>	Don Slater, Silver Spring	
		<i>In order to provide for this goal, we must work very hard to reduce our addiction to the fossil fuel automobile. Reduced car traffic is one of the keys to success for Vision Zero. Biking and walking are also risky in high traffic areas. For many in our lower income populations, a car is not an option and good bus service is critical. To accomplish this objective, we should build the entire Bus Rapid Transit (BRT) network as quickly as possible. It is likely that the new administration will be more amenable to providing funding for this.</i>	Don Slater, Silver Spring	
		There is no recognition of Vision Zero. We recommend adding additional context setting to connect this master plan to Vision Zero plan, and additional context on the county and state's joint complete streets program and guidance. This discussion would help connect where we are now to where we need to be in the future.	Kristy Daphnis, Montgomery County Pedestrian, Bicycle, and Traffic Safety Advisory Committee	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		We'd like to see options that would allow for more pilot projects and demonstration programs around transit and micro-mobility, and walking and biking infrastructure	Kristy Daphnis, Montgomery County Pedestrian, Bicycle, and Traffic Safety Advisory Committee	
		<i>We have a hidden transportation gem running through the county in the form of the MARC Brunswick Line. The county should work with MTA and USDOT to provide reverse service, weekend service, and midday service on this line. Like all mass transit, dependable and frequent service quickly creates ridership.</i>	Don Slater, Silver Spring	
		<i>We encourage the County to develop a broader approach focused on BRT, specify how transit-centric transportation will be staged given COVID-19 realities, flexibly plan for traffic and technology advancements, integrate with other regional transportation plans, and accommodate demographics including aging, disabled, and young families that cannot always use public transit; also, coordination with MDOT will be essential along with the recognition that many County residents and visitors will use their cars.</i>	Andy O'Hare, President EBCA	
	Transit is unrealistic	<i>This Plan expects that Transit is and will be the main form of transportation and this plan goes so far to claim we must stop planning for the Automobile. While these</i>	Cary Lamari	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>goals may be notable, I suggest they are unrealistic in a 500 square mile County While relying on Transit as our ultimate mode of transportation we must acknowledge that according to planning data the best years of transit only 5.6% of commuters over the age of 16 rely on buses.</i>		
		<i>Page 76 and 77 (Refer to Action 4.1.2.a and Action 4.2.2.a): The Draft Plan should add “total” as “the total number of through-lanes” in the action statements, to clarify the accommodation of two through-lanes in each direction of a rail or BRT corridor.</i>	MDP	
		<i>Page 78 (Goal 4.5): Planning suggests that the county consider adding a policy to address the needs of teleworkers, ridesharing and park &amp; ride facilities, and other Transportation Demand Management (TDM) strategies.</i>	MDP	
		<i>Page 78 (Refer to Action 4.4.1.b): Planning suggests that the county prioritize BRT corridors for access management planning.</i>	MDP	
		<i>Page 78 (Refer to Policy 4.5.3): The county may want to consider an action item to address all levels of electric vehicle (EV)-ready requirements, i.e., EV-capable, EV Supply Equipment (ES)-ready outlet, and EVES-Installed, for residential, commercial, and public buildings developments.</i>	MDP	
		<i>Page 80 (Goal 4.8):</i>	MDP	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<ul style="list-style-type: none"> <li><i>o Please add “the state” in policy statements to indicate the state should be a partner for county’s transportation needs.</i></li> <li><i>o The Draft Plan could include a policy to address existing interstate highways. Although the system is operated and maintained by the state, a county policy would help the state to develop plans for future improvements. Since the county is shifting its transportation focus on transit and non-single occupancy vehicle transportation, perhaps, the county will promote a multimodal transportation system and emphasize people, instead of the vehicle, throughout the interstate highway system in the county.</i></li> </ul>		
		<i>Page 80 (Refer to Policy 4.8.3): Planning suggests adding “safety, economic, and environmental” to the policy statement to clarify the goals for connected and automated vehicles consideration.</i>	MDP	
		<i>A major goal of the draft Plan is to change the culture and use of County transportation modes, by getting people out of cars and instead focusing on mass transit and walkability. This set of goals underpins many of the recommendations in other parts of the draft Plan, such as Complete Communities. This ambitious goal, while laudable in some respects, does not recognize the substantive disconnect between the County’s current transit infrastructure and the transportation</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>network that would be needed to realize this goal. The draft Plan's focus is both unrealistic, not consistent with the transportation realities of other parts of the DMV, and not appropriate or equitable for many County businesses and residents.</i>		
	Focus on Developing Transit but with a Broader Approach	<i>The draft Plan focuses on improving mass transit through adding bus rapid transit (BRT) routes and to a lesser degree rail service. Other forms of transit should be considered and incorporated</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
	Specify How an Evolution from Car-centric Transportation to Transit-centric Transportation Will be Staged and Managed	<i>The draft Plan does not adequately consider interim stages between the County's transportation situation as it exists now and as it may become over time. This evolution and its timing for items such as sidewalk and bicycle route installations or improvements as well as ADUs and infill development's demand for on-street parking are of particular interest given the large investment of public funds that would be needed and the uncertainties in obtaining funding.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
	Continue to Plan for Traffic	<i>The proposed BRT and rail options, even when added to existing Metro and bus lines (and the future Purple Line and planned BRT routes), will not create a transit network sufficient to get most County residents out of cars and hence to reduce traffic. The County's size, current settlement patterns, diverse population, and demographics require continued planning for vehicles and traffic, and the</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>draft Plan should include strategies to do so. The County must maintain policy goals that include the realities of vehicular mobility and support acceptable motor vehicle levels of service. Traffic impacts everyone and planning for motor vehicle traffic still matters. The draft Plan now ignores the vehicular traffic needs of both small businesses and apartment developers, who tell us that they need to provide parking.</i>		
		<i>The Thrive Montgomery plan does not take into consideration residents who rely on automobiles for transport to their jobs. While improved commuter transportation is of value, commuter options are not a one size fits all alternative. For example, I often work late hours at my job on Washington, D.C.; I am not comfortable using mass transit late at night and prefer to use my own automobile. The plan reduces parking options and limits the use of automobiles for residents who rely on them for a variety of activity.</i>	Patria A. Thomas	
	Reevaluate Transit Needs in Light of Lessons from the Pandemic	<i>The spread of COVID-19 and subsequent changes to all areas of work, retail, delivery services, and family life are an object lesson in changing needs. The information already gleaned from changes to travel and telecommuting patterns should be incorporated into the draft Plan.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
	Provide Flexibility for Future Developments	<i>The draft Plan is not poised to accommodate future transportation solutions, which are constantly evolving.</i>	Todd Hoffman for Coalition of Incorporated	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>The impacts of conversion to electric vehicles over the next 25 years, growth in private multi-passenger services (e.g. Uber and Lyft), and new forms of transportation that are likely to become available soon, such as autonomous vehicles, are not considered. Development in areas near transportation hubs will progress and impose new transportation needs, and the ongoing pandemic will change transportation needs in ways that cannot yet be predicted. The draft Plan should exhibit adequate flexibility to respond to current conditions or adapt to changing conditions over its time frame.</i>	Municipalities and Community Organizations	
	Integrate with Other Jurisdictions from the Outset	<i>Despite recognizing these realities, the draft Plan does not adequately consider that State and Federal roads crisscross the County and will not be subject to the draft Plan, nor the need to integrate the County's transportation modes with other adjacent jurisdictions. It is unclear whether MDOT was consulted with on this draft Plan. Also, County residents and non-residents will still routinely need cars to travel to other parts of the County, to other parts of Maryland, to DC, and to Northern Virginia. Commercial traffic and delivery vehicles will continue to use, and depend, on adequate roadways and traffic control within the County.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
	Accommodate Many Groups Who Cannot Use Mass Transit	<i>While the draft Plan focuses on equity, if the County does not plan for cars and insists on 'road diets', one direct</i>	Todd Hoffman for Coalition of Incorporated	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p><i>consequence would be a significant negative impact on many groups of County residents, for whom the draft Plan would create inequities including:</i></p> <ul style="list-style-type: none"> <li>• <i>Low income residents;</i></li> <li>• <i>Senior citizens;</i></li> <li>• <i>People with many types of disabilities.</i></li> </ul>	Municipalities and Community Organizations	
		<p><i>Some municipalities in other states are not exclusively dedicating one lane to BRT; rather the lane becomes dedicated during certain traffic conditions. What novel ways could streets be repurposed for BRT?</i></p>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
		<p><i>The draft Plan mentions developing a “logistics plan to facilitate increasing volumes of ecommerce-related deliveries.” However, downtowns and town centers are slated for more density. How will the increase in delivery vehicles factor into lane reduction, parking decreases, and zero emissions?</i></p>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
		<p><i>The October 2020 draft plan promotes use of autonomous vehicles and a network of urban sensors, new technologies that would require so-called “5G” radiofrequency cellular networks. The General Plan Update should not promote this highly questionable change. Residents’ input on this major change, along with that of public health experts familiar with the international scientific literature on radiofrequency exposures must be sought and thoroughly examined.</i></p>	TAME Coalition	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		A great sidewalk or bikeway that we don't build is a lost opportunity to reduce car traffic. We need to start looking at them the same way we look at trees. Walkable, bikeable, transit-oriented communities are healthy communities. They are good for our hearts, minds, souls, friendships, and our planet.	Ronit Dancis, Alain Norman, Silver Spring	
		<i>The county should find ways to charge for the many problems associated with car use, such as congestion, traffic accidents, and air pollution. Drivers should pay for the problems they cause. If possible, the county should institute a congestion charge. Another alternative would be a county-wide parking fee, since localities tend to provide free parking to get people to patronize their businesses, creating a kind of free-parking bidding war.</i>	Ethan Goffman, Rockville	
		<i>The county should discourage SUVs and oversized cars, which not only have a disproportionate environmental impact but kill pedestrians at twice the rate of sedans. Perhaps some sort of health impact fee on these vehicles could be implemented? An educational campaign about the problems with SUVs would also be helpful.</i>	Ethan Goffman, Rockville	
		<i>We basically need four transportation networks, one for public transit, one for cars, one for pedestrians, one for bicycles and other small vehicles that go under 15 mph. Cars have by far the greatest environmental and health impact and should stop receiving priority.</i>	Ethan Goffman, Rockville	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>This chapter still does not mention demand management policies, promoting pilot projects, or the importance of frequent transit — all of which are critical to achieve the outlined vision.</i>	Jane Lyons for Coalition for Smarter Growth	
		<i>I believe that further development in Montgomery County to supply jobs, housing, shopping, restaurants and other commercial establishments is necessary to ensure that the County has sufficient resources to fund the government and for other purposes. However, the manner in which growth is being handled is clearly unsustainable because there is little or no room left to build additional roads for increased traffic. I believe that truly “smart growth” can limit or slow increases in the volume of automobile and truck traffic on our roads, which is the key issue in ensuring that Montgomery County is able to grow and prosper in the future.</i>	Bruce Shulman	
		<i>We need better public transportation. Before my roommate lost her job, she sometimes spent more time in transit than she did at work, despite the fact that her job was a mere seven minute drive from our apartment. People can't sustain their lives like that.</i>	Katie Nolan, Silver Spring	
		<i>safety for all users is MDOT SHA's top priority...MDOT SHA is implementing its “Context Driven – Access and Mobility for All Users” guide that focuses MDOT SHA on</i>	MDOT	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p><i>creating a safe, accessible, and balanced multimodal transportation system. A core tenet reestablished in this guide is the need to appropriately balance accessibility and mobility...One of the approaches MDOT SHA now is taking is reducing roadway speed in Maryland's most urban areas, an approach that has been shown to reduce the likelihood and severity of pedestrian crashes... In the near-term, MDOT SHA is evaluating opportunities to implement other low-cost, high-impact proactive treatments such as leading pedestrian intervals, lane reductions, continental crosswalks, right-turn on red restrictions, and improved lighting where appropriate.</i></p>		
		<p><i>We try to be the type of family you hope to encourage with the Thrive plan. We chose our home to be in a walkable location, and frequently walk, bike, and take a variety of mass transit. My husband (who signs below with me) has biked to work downtown for 26 years. We can (and often do) walk: 5 minutes to access buses that go to the Metro, Bethesda, and downtown DC; 10-30 minutes to three strip mall centers with a variety of services; 25 minutes to the library; 30 minutes to Friendship Heights &amp; Metro; and 60 minutes to Bethesda. Over the past 35 years, we have owned only one car, except for 10 years when our girls were in school, when we owned two. Our use of a car and other types of travel is shown in a chart attached to this statement, designed</i></p>	<p>Susan Spock and Caldwell Harrop, Bethesda</p>	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>to demonstrate that even though we live in a somewhat connected community, we still rely heavily on our car. The draft of Thrive Montgomery 2050 ignores this reality of many people’s lives: no matter how much they may walk, bike, or take transit, they still need to use a car, especially in parts of Montgomery County that are much less accessible than ours.</i>		
		<i>Bike trail availability may not substantially change commuting patterns, and while good for the powerful bike lobby, may not be a practical commuting option for the overwhelming majority of residents</i>	Susan Spock and Caldwell Harrop, Bethesda	
		<i>Transit will never be reliable, frequent, and universal: It is highly unlikely that various forms of transit other than cars will ever be able to satisfy the needs of people living throughout our large, spread-out county—it is far too expensive for the county to afford.</i>	Susan Spock and Caldwell Harrop, Bethesda	
		<i>Urban areas still need parking: While an “urban” center like downtown Bethesda could attract some people to live there without frequent use of cars, it still needs parking for visitors from other areas and for its residents to reach parts of the metropolitan area not conveniently accessed by transit.</i>	Susan Spock and Caldwell Harrop, Bethesda	
		<i>Employers need to provide easy access for employees: I do not have data on this point, but if I were an employer, easy access, including car travel and parking, would be a priority for me in deciding where to locate.</i>	Susan Spock and Caldwell Harrop, Bethesda	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Has the county thoroughly researched the needs of future employers? Job growth is essential to allow the county to thrive.</i>		
		<i>Traffic congestion before the pandemic was already a problem, and Thrive may help, but will also hurt: Thrive calls for fewer lanes of traffic, and fewer left-turn lanes. While it is important that we be able to cross roads safely, it is also critical that left-turn lanes be used where necessary to prevent serious travel delays. Thrive calls for dramatic reductions in parking, but the lack of parking spaces in areas that need them will back up traffic as drivers circle, looking for a space, adding to climate problems. People will not stop driving just because there is no parking. They will become angry and frustrated, or go to another location. The zoning code already restricts parking in ways that are hard to understand and that harm working families. For example, my in-laws live at Fox Hill, a Bethesda retirement community that was approved with so few parking spaces that employees have to park at a nearby church and take a shuttle—certainly not anticipated under the zoning code. Even then, there are so many aides and visitors to the site, and so few spaces, that many people park in fire zones. There is also very poor transit to the site. My easy 12-minute drive would take at least 40-minutes by transit, using two buses and walking—</i>	Susan Spock and Caldwell Harrop, Bethesda

		<i>hardly how I would choose to drop off groceries or pay a quick visit.</i>		
		<i>We also note that the draft Thrive Montgomery Plan is anti-automobile. That is a noble goal given the need to adopt strategies to thwart climate change. However, the vast majority of county residents of necessity now rely on motor vehicles, and the infrastructure, including a huge mass transit system, are unlikely to exist even by 2050, given the incredible costs and questionable demand. Implementation would necessarily discriminate against large numbers of County residents for whom vehicular travel is a necessity in circumstances in which walking and biking are not practical.</i>	Melanie Rose White, Chair Citizens Coordinating Committee on Friendship Heights	
		<i>When I moved to Montgomery County, I was excited to live near a Metro station. However, we still ended up relying on my car most of the time because necessities like grocery stores, pharmacies, and preschools were not readily accessible. A 10-15 minute car ride can turn into a 1-2 hour public transit trip. I am excited at the prospect of complete communities, and would like to see an even stronger emphasis on mass transit, buses, walking, and biking as the highest priority modes of transportation.</i>	Jessica Bronson, Gaithersburg	
		<i>The goal of more efficiently moving traffic along densely travelled major thoroughfares should not impact the quality of life in nearby communities. One</i>	Northwood Four Corners CA	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>of the primary goals of the TM 2050 planning process is to promote the concept of Connecting Communities so that “Every resident should have the opportunity to live, work, play, exercise, shop, learn, and make use of public amenities and services within a 15-minute walk or bike ride.” The need to move high traffic volume through the Four Corners Route 193/US 29 intersection should be balanced against the desire of local residents to enjoy a walkable community.</i>		
		<i>The Food Council also supports the Better Buses Platform, developed by the Coalition for Smarter Growth, which seeks to prioritize buses as the mode of choice, being fare-free and carbon neutral. By ensuring accessibility to critical food access points through public transportation routes, residents will become more likely to rely on public transportation, which tends to be more inclusive of people with physical disabilities than bike or walking pathways.</i>	Catherine Nardi and Heather Bruskin for MC Food Council	
	p. 35 “If most people have to drive to the Metro station or a bus stop to access transit, transit benefits are diminished.” Action 4.3.1.a: “Eliminate motor vehicle parking minimums for new development projects in downtowns, town centers, and rail and BRT corridors to encourage travel by walking, bicycling, and transit.”	<i>That may be, but there is no other easy way to access transit; and using transit is better than driving to distant areas...If the county wants to promote transit use, it should have parking and drop-offs at Metro stations and major bus stops.</i>	Susan Spock and Caldwell Harrop, Bethesda

	p. 76 “New micromobility solutions such as e-scooters and rideshare bicycles will provide new capabilities to solve the first mile/last mile problem to bring reliable daily access to high speed transit.”	<i>I cannot see myself or other older residents getting to the Metro either way, as I have osteopenia and can't afford to fall. These are also not good solutions in the rain, heat, snow, or ice, which occur often in this area.</i>	Susan Spock and Caldwell Harrop, Bethesda	
	Focus on Transit and Walkability These existing east-west corridors include the new Purple Line and the planned BRT along Randolph Road. (p. 76)	<i>WMCCA Comment: Remove Purple line now that construction has stopped?</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	For example, early conceptual planning and regulatory review stages have begun on the proposed highspeed superconducting magnetic levitation (maglev) system between Washington, DC, and Baltimore, and a proposed 35-mile underground tunnel/loop to move electric vehicles between Washington and Baltimore in 15 minutes. (p.76)	<i>WMCCA Comment: The County needs to come out against the maglev project due to the biodiversity, value, history, research and fossils on the federal, state, academic, and city land, refuges, and parklands that almost entirely comprise the footprint for the proposed maglev corporation's trainyards, trainlines, power stations, road realignments, powerline realignments, parking lots, and new roads.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Supporters of regional connectivity have also discussed a Purple Line extension to create suburb-to-suburb connection between Tysons in Fairfax County, VA, and Largo in Prince George's County. (p.76)	<i>WMCCA Comment: Change to “have also discussed a Purple Line extension, BRT, and monorail to create....”</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Goals, Policies and Actions (p. 76)	<i>WMCCA Comment: Add new Policy &amp; Action: Encourage people to move closer to their jobs by offering government subsidies for moving expenses, based on need, for people who wish to avoid long commutes by moving closer to their job.</i>	Kenneth Bawer for West Montgomery County Citizens Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Not only would this reduce demand for new road construction, but it would also take cars off the road. Our guess is that this would be less expensive than building/widening roads. It is a given that housing costs increase the closer-in you move. That is one of the trade-offs that someone has to make: a longer commute with a bigger house vs. a shorter commute with a smaller house or apartment/townhouse. The reason we have suburban sprawl was (and is) the lure of less expensive/larger houses coupled with relatively cheap (arguably government subsidized) gasoline and roads. Solving congestion is not a simple problem and there are many variables in the equation. Just to throw out one variable: what if gas was taxed the way it should be (as in Europe), say phasing in a tax of \$1 or more per gallon? This would have lots of possible repercussions: people buying smaller cars, moving closer-in, switching to transit, moving to Virginia (which may not be a bad thing), etc..</i>		
	Goal 4.1: Get people out of their cars and transform Montgomery County into a community of walkable, people-centric places. Make public transit, walking, and bicycling the preferred travel mode for daily trips and substantially reduce the need for personal vehicles.	<i>Goal 4.1 Delete the first sentence since it is not a goal, but rather an objective. The second sentence is a goal but reword it something like: Plan, design and implement the transportation system to encourage people to use public transit, walking and biking rather than the need to drive.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	Goal 4.1: Get people out of their cars and transform Montgomery County into a	<i>Instead, the goal should be to facilitate all transportation options so that residents can</i>	Robert E. Oshel, Silver Spring

	Goal 4.6: Create an equitable transportation system that provides affordable and accessible travel options to jobs, education, and services.	<i>Goal 4.6. Eliminate since actions dealing with funding priorities and fares don't belong in this document.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	Goal 4.7: Convert auto-centric transportation corridors into safe, people-centric multimodal streets with rail and BRT. Most travel to, from and within transportation corridors will occur via walking, bicycling, and transit.	<i>Goal 4.7. Eliminate since it is already covered under Goal 4.1</i>	Dan Wilhelm for Greater Colesville Civic Association	
		<i>Goal 4.7: ....Most travel to, from and within transportation corridors will occur via walking, bicycling, and transit – This is an “urban-centric” goal that doesn’t meet the reality of our existing communities.</i>	Marilyn Balcombe for Germantown Chamber of Commerce	
	Rustic roads	<p><i>Add the following policy and action:</i></p> <p><i>Policy 4.7.3: Ensure that the system of designated rustic roads is protected and maintained to preserve important historic, cultural, and natural features enabling a strong agritourism benefit to both farms and residents.</i></p> <p><i>Action 4.7.3.a: Montgomery County Planning Department in coordination with MCDOT, the Rustic Roads Advisory Committee, and producers and advocates for the Agricultural Reserve, review and recommend safety measures, such as reduced speed limits, for rustic roads and all roadways in the Agricultural Reserve with the goal of increasing safe travel for bicyclists and pedestrians, while continuing to protect rustic roads.</i></p>	Robert J. Tworkowski, Chair, Rustic Roads Advisory Committee	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Goal 4.8: Create a seamlessly integrated regional transportation system by coordinating transportation planning within the region and between neighboring jurisdictions.	<i>Goal 4.8. This goal is saying to form another COG, but it already exists. Are you proposing to create another COG? Coordination is also needed with Howard County and others counties north of Montgomery County.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	Goal 4.8	<i>The MDOT MTA supports the focus on integration between systems and throughout the region.</i>	MDOT	
		<i>Action 4.8.2a - Delete. This already exists in the Washington Suburban Transit Commission. Creation of a regional road-building authority would be directly contrary to the plan's aim of shifting transportation priorities.</i>	Benjamin Ross	
	Policy 4.8.3: Assemble a regional coalition of jurisdictions and other stakeholders to guide transportation technological change related to connected and autonomous vehicles in a way that supports our goals and that addresses the needs of disadvantaged populations.	<i>MDOT leads the statewide Maryland Connected and Automated Vehicle (CAV) Working Group, where all stakeholders can learn about CAV initiatives within the state and companies can submit an expression of interest form to test AVs in Maryland. For more information please email <a href="mailto:cavmaryland@mdot.maryland.gov">cavmaryland@mdot.maryland.gov</a>.</i>	MDOT	
	Policy 4.9.3: Design streetscapes to mitigate disruption from climate change, manage stormwater effectively, and provide tree canopy for shade and habitat. (p.82)	<i>WMCCA Comment: Add: Managing stormwater effectively in streetscape designs will eliminate the need for the destructive practice of so-called "stream restorations" in stream valleys.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
		This plan should define the County's transit choices, and not merely be a laundry list of possible projects.	County Exec	
	Goal 4.1	The policy recommendations for realignment and reconfiguration of roadways to accommodate increased	County Exec	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		pedestrian and bicycle traffic may negatively impact fire-rescue response times by inadvertently increasing vehicular traffic and congestion, while the narrowing of roadways will make turns more difficult for large fire-rescue apparatus. Similarly, the proposal for “a grid of streets and alleys” and smaller blocks with more crosswalks could also hinder response times.		
		The priority goal of the public transportation system is to get residents to their jobs and schools. There is interest in including schools in the Complete Communities by repurposing office buildings, but no clear plans for jobs.	County Exec	
	Action 4.1.1.b	This only makes sense if enough people can live near their jobs – which is not feasible for at least some significant subset of the population. Mass Transit projects require viable roads and are most efficient in transporting more people.	County Exec	
	Policy 4.1.2	Should we be capitalizing on our Amtrak access more? Do our Amtrak stations have significant needs? Are there positions we can advocate for toward improving the Capitol Limited service? Even if the plan ultimately doesn't suggest significant changes to the County's Amtrak access, it should at least acknowledge that it exists.	County Exec	
	Policy 4.1.2	Need to ensure this recognizes the need for bus depots & transit centers (particularly in locating & acquiring ROW). This should establish that a future Transit Functional	County Exec	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		Plan will identify these locations, for inclusion into future area master plans.		
	Policy 4.1.2	MARC needs to also be considered.	County Exec	
	Policy 4.1.2	Young millennials – due to the WMATA struggles and the advent of Uber and other transportation options – have largely abandoned the use of metro. This has significant implications for our future use of mass transit. This should be addressed.	County Exec	
	Action 4.1.2.b	IMPORTANT--Should not specify median. Policy 4.7.2 reads *preferably* in the median. This would be better language here.out	County Exec	
	Action 4.1.2.c	What is the expectation of connections to Baltimore? Would this be more along the lines of Express Bus via I-95? It would be difficult to implement BRT (and especially rail) unless managed lanes are included along I-95, which this phrasing might imply support for. Consider rephrasing if that is not the intent, or clarifying how else this might be achieved.	County Exec	
	Action 4.1.2.d	Consider expanding this action item with a suggestion that the Brunswick Line be considered for through-running into Virginia.	County Exec	
	Policy 4.1.4	This needs to establish a clearer implementation vision for low-density areas. I suggest defining the intent of shifting vehicle trips to transit as far upstream in a trip as able. As discussed w/ MNCPPC on 6/4/2020, consider a vision that supports the bullets below. The 2nd and 3rd bullets may affect the phrasing of	County Exec	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p>Policy 4.1.4.</p> <ul style="list-style-type: none"> <li>• Serve high-density areas (Red/Orange Policy Areas) with high-intensity transit &amp; walking/biking access. Strengthened public parking programs (PLDs) in Downtowns and Town Centers should focus on catching auto users at the periphery.</li> <li>• Serve lower-density areas (Orange/Yellow Policy Areas) with micro-transit, bikeways, &amp;/or Bike &amp; Ride facilities to concentrate these areas' ridership into the higher-intensity stops along a high-intensity transit network.</li> <li>• Serve lowest-density areas (Green Policy Areas) with Park &amp; Ride facilities at regional upstream points: likely focusing on in-line facilities along interstates / major highways, but not excluding the potential for neighborhood / area-focused P&amp;Rs. Should encourage out-of-County P&amp;Rs.</li> </ul>		
	Goal 4.2	Transit should be the highest priority since it has the potential to move the most people the most distance most cost-effectively. This order should be changed.	County Exec	
	Action 4.3.1.a	To the extent that utility relocations are required, costs could be significant.	County Exec	
	Action 4.3.1.b	If this is done, negative neighborhood impacts need to be mitigated.	County Exec	
	Goal 4.5	There are no policies or action items that address non-vehicular contributors, such as construction (particularly the production of	County Exec

		concrete/cement and asphalt) or the waste and recycling of vehicles, tires, batteries, etc. Without these actions: we will fail to eradicate GHGs & dangerous pollutants from the transportation system.		
	Policy 4.5.3	Should include an action item for electric charging infrastructure.	County Exec	
	Action 4.5.3.b	(3 above):The Executive supports the goals of reducing emissions and currently has several initiatives underway including EV vehicles towards meeting 2040 climate goals. Updating public and private fleets to zero emission vehicles is an aggressive objective that may not be feasible.	County Exec	
	Action 4.6.1.e:	Unclear what level of subsidy is to be considered. Would need to know that to adequately provide fiscal information.	County Exec	
	Action 4.8.1.b	What does “preserves our values” mean?	County Exec	

## Complete communities (Revised--Theme #2: Complete communities: mix of uses and forms)

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Thrive advocates not just for housing, but housing in Complete Communities, 15-minute living with lots of services within a 15-minute walk or bike ride. The cost of transforming—how many of our communities?--into 15-minute living is not mentioned, nor are the trade-offs. For Equity, are we better off with 15-minute living or investing in early childhood education and schools? This plan is silent on education and on how to assure that there is complete Equity in education, even though that's where the multi-generational benefit is.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	
		<i>There's an underlying assumption that "Complete Communities" are the answer to economic development, but that is not clear, demonstrated or proven. People want to work near where they live if possible, but they also want to live in areas/neighborhoods with good schools, recreation, parks and other amenities. The plan spends lots of time on Complete Communities without explaining where jobs are located, and how jobs are part of the 15-minute living. The plan needs to better explain how Complete Communities fit with our residents' employment.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	
		<i>Support the idea of complete communities but some changes are needed.</i>	Dan Wilhelm for Greater Colesville Civic Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p><i>The 15-minute Complete Community is not adequately described and fleshed out across the County.</i></p> <p><i>...the description of Complete Communities is in part unacceptable vague, which viewed another way, amounts to a lack of reasonable transparency on what is proposed.</i></p> <p><i>The Thrive Montgomery 2050 Draft Plan fails to show that Complete Communities are likely to be viable and workable across the County.</i></p> <p><i>The Thrive Montgomery 2050 Draft Plan fails to justify a core premise that there will be sufficient employment in Complete Communities to make them viable.</i></p> <p><i>The Thrive Montgomery 2050 Draft Plan fails to justify an economic assumption that Complete Communities will have viable commercial elements.</i></p> <p><i>The notion of local schools that children can walk to in Complete Communities is both wholly unrealistic and potentially socially problematic.</i></p> <p><i>As to zoning, if the Complete Communities are to be successful, they must have real public space and real open space. The Planning Board should recommend changes to the Zoning Ordinance on what counts as public use space and open space.</i></p>	Lloyd Guerri	
		<p><i>The land would fall into one of two categories: CBDs, Metro Policy areas, and town centers (which we just call town</i></p>	Dan Wilhelm for Greater	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>centers); and areas between them. There are many acres in urban and suburban areas that are not within a town center. The text reads as if everything is in a town center. The text needs to be changed to correct that impression.</i>	Colesville Civic Association	
	Healthy environments equal healthy communities, 15-minute living	<i>We support the approach and emphasis given in the plan to connect people to their environment and promote healthy and active lifestyles as stated in the “15-minute living” policy recommendation. We support increasing access to green spaces for all people while simultaneously working to eliminate structural barriers that prevent individuals from accessing nature.</i>		
		<i>The idea of Complete Communities with 15-minute living is the land use answer to many of the issues we are facing today including the racial and economic segregation of our communities, housing affordability, and increased greenhouse gas emissions from vehicle miles traveled. This is a remarkably sweeping assertion, yet one looks in vain for evidence or argument to support this statement. How many of the one million plus residents now experience 15-minute living, how many residents does Thrive aim to have 15-minute living, and what will it take to make it happen? Absent some even order of magnitude estimates, the 15-minute concept is little more than a planning slogan.</i>		

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p><i>Think of complete communities as investments in public health and public safety – communities that have access to quality services, recreation, diverse modes of transportation and economic opportunities, and can support people across income levels promote healthier, safer, and more trusting people. It's the communal experience that creates community, after all, not just the colocation.</i></p> <p><i>I want to explicitly highlight enthusiastic support for a transit-first planning ethos, and the abandonment of car-centric design. Likewise for the recognition that diversity in housing types is essential, and should not be limited to new development but ought to focus on making existing communities more adaptable.</i></p>		
		<p><i>b. Page 32-34. In general, the concept of Complete Communities needs more work. There is no standard definition and no explanation of how 15-minute living will be different in urban, suburban, and rural communities. There are certain critical amenities that are not mentioned, such as healthy food. We also believe it should be explicitly stated that no community is “complete” unless it is racially and economically diverse. There should be no enclaves of whiteness, wealth, or poverty in Montgomery County.</i></p>	Jane Lyons for Coalition for Smarter Growth	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	The goal is to create Complete Communities that are diverse and can provide most essential services within a 15-minute walk, bike ride, or drive. (p. 33)	<i>We urge you to remove driving from this definition of 15-minute living. The vast majority of county residents already live a 15-minute drive from their daily needs, rendering the Complete Communities a meaningless argument for embracing a more compact, mixed use, sustainable built environment. Moreover, the worldwide concept of the 15-minute neighborhood is specifically focused on walking and biking. changes that grow the pie and result in a higher quality of life for all.</i>	Jane Lyons for Coalition for Smarter Growth	
		<i>The draft Plan should also reflect the diversity of communities and neighborhoods that exist throughout the County by defining the different ways in which different types of neighborhoods can achieve the goals of Complete Communities. Montgomery County is not “one size fits all,” and the draft Plan should recognize the County’s differences by establishing separate parameters for determining what is a “Complete Community” in the urban, suburban, and rural parts of the County.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations; Melanie Rose White, Chair Citizens Coordinating Committee on Friendship Heights	
		<i>Specify the Proportion of the County that Could Evolve into Complete Communities and Better Consider Transportation Needs for the Other Areas. Many areas of the County will never become Complete Communities, and even those that do will have limits that cannot be circumvented</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>by walking, cycling, or using only mass transit.</i>		
		<i>The Complete Community is not sufficiently delineated in terms of needed infrastructure, likely business entry and costs. The evolution toward these communities is not fairly described and whether they or the transition toward them are economically and fiscally realistic is not documented. It is problematic that there isn't even one (although Kensington apparently approaches being one) in the county, yet the entire county is to be transformed to something unproven for the wide range of conditions (e.g, existing property ownership and uses, and state/county infrastructure that exist across our county, county fiscal condition). In fact, based on the vagaries of the draft plan we have no idea of approximately how many Complete Communities there would be and where they would likely be.</i>	Melanie Rose White, Chair Citizens Coordinating Committee on Friendship Heights	
		<i>The ideal of a "Complete Community" – a place where people of all ethnic, racial, religious, socioeconomic backgrounds and ages can live, work and relax within a 15-minute walk, bike or public transit ride – is worth supporting, but I am skeptical that it is realistic. Other than the characteristics I've just listed, the Planning Department has not completely defined these communities in other terms.</i>	Phyllis Edelman	
		<i>While building Complete Communities will ostensibly solve that issue for residents of</i>	Phyllis Edelman	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>those areas, what about those populations in our county who do not live in these Complete Communities? They, too, should be able to access a safe, public space to meet with friends and enjoy the fresh air in a green, natural environment. If we want to promote equity in all areas, we cannot leave behind any community within our County.</i>		
		<i>We are excited to see the concept of Complete Communities with 15-minute living in the Public Hearing Draft, including its emphasis on walking and biking for communities in areas like the Randolph Civic Association's. A consideration mentioned throughout the Public Hearing Draft, but not reemphasized in the Complete Communities Section is the importance of accessibility for those unable to walk or bike.</i>	Josh Silverstein, President, Randolph Civic Association	
	Access to food	<i>While public transportation, walkability, and bike accessibility are critical priorities to reduce emissions, special consideration should be made to address food access barriers for residents without access to a car and/or with physical disabilities. First, the "Complete Communities" goals should include multiple food access points conveniently located within communities, at which culturally-appropriate, affordable, and nutritious food options are available. We support the establishment of healthy corner stores, farmers markets, and other access points for federal benefits</i>	Catherine Nardi and Heather Bruskin for MC Food Council	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>usage in under-resourced communities as recommended in the 2017 Retail Trends Study.</i>		
		<i>Page 32 (Refer to Figure-19): Planning [MDP] suggests using an urban-to-rural transect to reflect the different contexts of complete communities.</i>	MDP	
	Cost of retrofitting existing communities	<i>Creation of Thrive Montgomery's Complete Communities within areas that are fully built out requires the acquisition, demolition and redevelopment of numerous residences. The cost of that is huge – will it be feasible? And the acquisition of land for trails? Parks?</i>	Harold Pfohl, Sumner Village	
	Provide a map of Complete Communities	This section should provide a map including different types of communities (urban, rural, suburban) and clarify whether or not Complete Communities will be located in the Agricultural Reserve	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
	Provide a map of Complete Communities	<i>We were pleased to see that the draft Plan considered Complete Communities but the inclusion of a map that spotlights which or what proportion of urban, suburban and rural communities are to become Complete Communities replete with Missing Middle housing would be helpful; additionally, there is a paucity of relevant national best practices, omission of any description as to how both incorporated and unincorporated communities will be a part of the redevelopment process that recognizes building and setback authority, a disconnect with MCPS' plans for larger or</i>	Andy O'Hare, President EBCA	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>magnet schools, and a lack of defined minimum amenities and metrics for determining a successful Complete Community with adequate public facilities, green space, transit infrastructure, and affordable housing. In short, the concept of, location of, and metrics for Complete Communities is incomplete.</i>		
	Define three types of Complete Communities.	<i>The Goals, Policies, and Actions for Complete Communities should describe what is required to be present in each of the three types of Complete Communities as well as how those areas of the County that will not be part of a Complete Community will be served.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations, Rachel Taylor, Clarksburg Resident	
		<i>Complete communities are a choice people can make under the existing master plan. If more complete communities are required, the marketplace can provide for them by the redevelopment of communities. People make choices to residential areas based on their own choices. Most retail/services are now available for delivery, so people do not even have to live near them. They can choose the type of exercise and play that they choose rather than being forced to accept walking and bike riding.</i>  <i>Again people can make their own choices for places for social gathering rather than</i>	Quentin Remein for Cloverly Civic Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>being restrained by what is in their neighborhood.</i>		
		<i>There are many residents (now and in the future) that will desire a bit more space and having an option to choose a single-family home should be provided, not discouraged. Please do not discriminate against residents who choose to live in single family homes and choose to own automobiles.</i>	Virginia Bunke, Silver Spring	
		<i>We are submitting a comment in respect of the Montgomery County Thrive 2050 initiative. We support a thoughtful approach to the issues outlined in the plan, but we represent a single family HOA community where people have invested themselves and their money in the belief that the commitment to that style of housing for our neighborhood was clear and absolute. Thus, we expect that any County honor that commitment to us and respect the community's status and authority as an HOA.</i>	<b>Mark Quinn</b> President, Heritage Walk Home Corporation (Windermere) HOA	
		<i>The Plan should specify the parameters for the diverse urban, suburban, and rural "Complete Communities" that exist throughout the County. In addition, in order to meet the County's affordable and attainable housing goals, we encourage you to increase and diversify the areas for Missing Middle housing as affordable housing is more realistically achievable in areas outside the one-half mile zones</i>	Irene Lane, Town of Chevy Chase Councilmember	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>around rail and BRT. Also, the Plan should leverage naturally occurring affordable housing options including adaptive re-use of malls and other retail/office buildings which post COVID-19 may no longer be viable for their original and intended use.</i>		
		Unclear if and how complete communities will be executed across the county, they seem better suited for small areas. Complete communities are still undefined which makes them difficult to assess. Urban, suburban, and rural complete communities should be defined better and specified where they will be located. Focusing on transit hubs seems inequitable since these areas are already populated with amenities, underserved areas should be improved first.	Deborah Ingram, Chevy Chase	
		There is concern around how Complete Communities will be implemented in rural communities such as Ashton. Projects are already being built that diminish Ashton's rural character, such as townhouse developments. Where does Ashton fit into the rural end of the transect?	Amy Medd for Sandy Spring Ashton Rural Preservation Consortium (SSARPC), President of Sandy Spring Ashton Rural Preservation Consortium	
		<i>[We] applaud the Plan's highlighting the trend/challenge number 9 (page 22), that the County needs to stop planning for cars and should emphasize transit, walking and biking. As we emerge from the COVID</i>	Peter Gray, Washington Area Bicyclist Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p><i>crisis, it is even more clear that we will not thrive, transportation-wise, if we do not emphasize non-auto alternatives to get around the County.</i></p> <p><i>In addition, the plan's emphasis on equity, means we should be planning and implementing ideas that allow County residents who cannot afford to use cars, to have reasonable and safe alternatives to the automobile. Moreover, WABA wholeheartedly endorses the Plan's commitment to a compact form of development which will facilitate the use of non-auto modes of transportation by placing more jobs and commercial activities in easier reach of County residents.</i></p> <p><i>As a resident of the Forest Estates neighborhood in Silver Spring, I am very fortunate to be a 10 minute walk from a metro station. But my neighbors and I still lack truly walkable commercial amenities, such as groceries and restaurants which development adjacent to the Forest Glen metro might bring. We also suffer from a lack of safe, walkable and bikeable connections from our neighborhood to the Silver Spring and Wheaton CBDs which are both only a few miles away. The neighborhood's children should also have a safe route to get to the public schools that they attend. These problems could be</i></p>		

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>resolved by a fulsome implementation of Goal 4, including a full buildout of the County Bike Master Plan and BRT implemented along Georgia Avenue.</i>		
		<i>We strongly recommend that Thrive Montgomery provide equal weight to the importance of job creation, transit, and housing and include strategies for how public revenue will substantially increase in order to fund the Complete Community concept with its decentralized public facilities, small local schools, and transit infrastructure projects. Essentially, there needs to be a plan for how the County will thrive economically by attracting new industries, companies and small businesses to the County.</i>	Irene N. Lane, Town Councilmember, Town of Chevy Chase	
		The Chamber supports compact development and complete communities. The 1964 Wedges & Corridors plan envisioned strong commercial corridor with residential and retail components. The commercial enterprise component is still lacking. We don't see how 15-minute communities can be executed in decentralized suburbs that depend on cars.  The complete communities vision and details need to be extended for suburban and rural communities. There are areas of the county that cannot meet our current transportation needs without increased road capacity.	Marilyn Balcombe, Gaithersburg-Germantown Chamber of Commerce	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		A major solution to housing, transportation, and jobs challenges to bring more jobs upcounty; more jobs in Germantown mean shorter commutes, less congestion, less emissions and the plan needs to explicitly support that goal.		
	Define Amenities and Features of Each Type of Complete Community.	<i>The draft Plan should spell out the minimal basic and specialized services and amenities that each of the three types of Complete Communities (urban, suburban, and rural) should contain.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations, Andrew Saundry	
	<i>Prioritize Green Space</i>	<i>The draft Plan should include a policy which requires that Complete Communities have access to nearby natural green space (i.e., no artificial turf and wherever possible unchanged natural landscape).</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
	<i>Assist Small Businesses</i>	<i>The draft Plan should acknowledge the need to make sure small businesses can afford to start, operate, and remain in the community as those communities redevelop.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
	<i>Retain Historic Preservation</i>	<i>The draft Plan should include a policy that requires that historic designations for commercial and residential properties located in Complete Communities will continue under current Historic Preservation laws and rules.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
		<i>The draft Plan proposes to grow commercial centers that are attractive as headquarters locations for large,</i>	Todd Hoffman for Coalition of Incorporated	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>multinational corporations, major regional businesses, federal agencies, and small and locally owned businesses. How do these commercial centers fit with the proposed Complete Communities?</i>	Municipalities and Community Organizations	
	How the concept of “complete communities” can be applied to a county that has a variety of spaces is not explained.	<i>The concept of “complete communities” is relatively new and is currently being applied in urban areas, many laid out with grids or within distinct relatively small neighborhoods. There is nothing comparable in Montgomery County. Nor does the draft plan provide any examples of how this might work here, or the likely differences in complete communities in our rural, suburban, or urban areas (actually semi-urban in contrast to those places, like Paris, Barcelona, and Houston TX already applying complete communities to land use plans). Without this information the plan’s vision is blurred and there is no way to measure success contextually.</i>	Naomi Spinrad, Chevy Chase West	
	The draft does not pay enough attention to improving disadvantaged neighborhoods.	<i>This is a serious flaw, given the goals of the plan. By improving I mean providing quality attainable housing to broaden the economic base of such communities, as well as convenient, reliable, affordable, and convenient transit so that it’s possible for residents to get to jobs more than 15 minutes away. While the challenge of gentrification must be addressed, enhancing the appeal of lower income communities to both potential residents and businesses should be as important as diversifying established communities.</i>	Naomi Spinrad, Chevy Chase West	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		East County is receiving a lot of attention (FDA consolidation, White Oak Master Plan, Science Gateway Master Plan) and gentrification is a real possibility for these residents, especially since it is a high-minority population. More needs to be done to protect these residents from being displaced.	Christopher Bolton	
		<i>The investment of areas that have been underfunded, like East County for over forty years is long overdue. The creation of walkable areas as well as bike transit I feel is pivotal for helping meet environmental goals as well as the creation of affordable housing. That being said, I feel that this plan needs to have a racial impact analysis of how this will help benefit the communities that for too long have been left on the margins. Those closest to the pain are the ones that need to be in power and those close to the problem are the ones close to the solution.</i>	Robert Stubblefield	
	Retain Historic Preservation	<i>The draft Plan should include a policy that requires that historic designations for commercial and residential properties located in Complete Communities will continue under current Historic Preservation laws and rules.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
		<i>The 15 –minute walk applies to larger town centers but not the areas between them.</i>	Dan Wilhelm for Greater Colesville Civic Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Consider modifying the definition of 15-minute living. Fifteen-minute living figures prominently throughout the draft Plan as a benefit of achieving Complete Communities. However, many areas of the County cannot realistically expect to experience this ill-defined concept...It is unclear [...] how this concept can be applied to rural, suburban, and urban Complete Communities.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
		<i>I suggest adding a 15 minute bus ride to complete community definition. I do not support adding a 15 minute car ride.</i>	Jean Cavanaugh, Silver Spring	
		<i>A fatal flaw in the Thrive Montgomery 2050 plan is its goal of achieving “15-minute” cities. Although in vogue among city planners, 15-minute cities are simply inappropriate for most of Montgomery County. The idea originated in Paris, where it makes some sense. People in Paris already live in densely populated multi-story apartment buildings in neighborhoods with streets that can't handle all the automobile traffic, and there are no supermarkets but instead people walk every day to the boulangerie on their block for their daily fresh baguette. But trying to recreate this in Montgomery county except in a few limited locations would be astronomically expensive, disruptive, and unwanted.</i>	David S. Forman	
		<i>The concept of 15-minute living also is not adequately defined and developed. We are</i>	Deborah Ingram, Chevy Chase	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>offered 15-minute living by walking, cycling, driving, and transit. This is all very vague and confusing. Many of the goals specifically talk about a 15-minute walk for all county residents which clearly is impractical. As for complete communities, the concept of 15-minute living does not appear to be a realistic one for a county as large and as sparsely settled as Montgomery County</i>		
		<i>Montgomery County is a large, geographically diverse area. We have well defined urban spaces, several large suburban swathes, conventional small towns, and a significant agricultural expanse. 15-minute living will not look the same in Aspen Hill as it does in Chevy Chase. The county can change the nature of the suburbs and get people out of their cars by creating town centers on transit lines. Small towns have always had a level of self-sufficiency that supports 15-minute living. The plan should acknowledge the differences in the existing communities and work within their boundaries</i>	Don Slater, Silver Spring	
		Car is the only way I can get around, my commute is five miles and takes seven minutes; public transit would take three hours and biking would take one hour. I do hope that we can execute 15-minute communities. This concept should maybe include housing for essential employees that currently rely on their cars for work. It should also go beyond to make sure	Sebastian Smoot, Burtonsville	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		there's a variety of housing options in every neighborhood.		
		<i>The county needs to work aggressively with the state to build schools in transit-oriented areas to facilitate smart growth. Lack of school capacity should not be a reason to stop dense, diverse, walkable, transit-oriented neighborhoods.</i>	Ethan Goffman, Rockville, Wendy Calhoun	
		The key to 15-minute living and better schools is the construction of more schools in disadvantaged areas. An action should be added on building new schools.	Andrew Saundry, Alain Norman, Silver Spring	
		<i>Fifteen Minute Complete Communities</i> has to be specifically redefined. As Chair Anderson said: "Fifteen minutes can mean many things in Montgomery County." It can mean walking to a neighborhood store, biking 5 miles or driving 15. It can mean "walking to the end of one's driveway." In bad weather (hot, cold, rain, snow) it can mean getting in a car to do simple errands. When buying a week's groceries it also means driving. As far as <i>old people</i> are concerned. We are not about to give up driving and move into a condo even "at 81" as Chair Anderson suggested. You underestimate the 'baby boomers'. We are independent, mobile, like to walk and bike, but depend on a car for vital necessities as well as entertainment. This Plan waves off a significant population in the county. It is not a representative plan.	Patricia Depuy Johnson	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>The services will exist in larger town centers, but few if any would exist between them. The area between centers is largely made up of single family housing and that will change little over the life of the plan</i>	Dan Wilhelm for Greater Colesville Civic Association	
		<i>The town centers should largely be along premium transit corridors (Metrorail, Purple Line or BRT). The few town centers elsewhere will have limited transit and much fewer services.</i>	Dan Wilhelm for Greater Colesville Civic Association	
		<i>Please modify or, better yet, delete the apparent value statement on the bottom of page 51. It is presumptuous to assume "most older adults" do or do not need or want "larger houses", or they are "forced" to live there.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	“Zoning techniques like minimum lot size requirements in single-family neighborhoods created uniform housing, which resulted in neighborhoods defined primarily by income.” (p. 52)	<i>WMCCA Comment: It would be more accurate to include the fact that minimum lot size requirements was used to protect drinking water supplies in some areas.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	“The lack of housing diversity by unit type and size is also a significant burden for the county’s older adults. Most would continue to live in the same neighborhood where they raised their families if there were options to downsize. However, the current pattern of development forces them to continue to stay in larger houses they don’t need or move to locations away from their	<i>WMCCA Comment: What is the evidence to support the above statements? What is the average distance from existing homes of older adults to the closest retirement community?</i>	Kenneth Bawer for West Montgomery County Citizens Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	families and social support network.” (p. 52)			
	“Today there are few remaining vacant properties to accommodate new growth. Approximately 85% of the county’s land area is constrained by existing development, environmental constraints and other factors, leaving only 15% of land available to accommodate growth (see Issues Report for details).”	<i>WMCCA Comment: There is too much emphasis on the need for new growth. It is never explained why growth is good for existing residents. What kind of growth are we talking about: jobs, population, number of buildings, etc.? The emphasis should be on sustainable growth.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Page 53, Policy 1.1.1. “Every resident should have the opportunity to live, work, play, exercise, shop, learn, and make up of public amenities and services within a 15-minute walk or bike ride.”	<i>This is contrary to the statement made about Complete Communities on page 32, which included driving. We prefer this definition.</i>	Jane Lyons for Coalition for Smarter Growth	
		<i>Goal 1.1 / Policy 1.1.1/ Action 1.1.1.a – the phrase at the very end of this sentence is the crux of my argument “....broad array of Complete Communities throughout the county within the urban, suburban, and rural context”. The draft plan does a great job of laying out the vision for the urban context, the vision needs to be extended for both suburban and rural communities.</i>	Marilyn Balcombe for Germantown Chamber of Commerce	
	Action 1.1.2.a: Review and revise the zoning categories and requirements in the Montgomery County Zoning Ordinance as needed to accommodate a variety of uses and densities within Complete Communities. (p. 55)	<i>WMCCA Comment: Add, “In conjunction with this, review and revise the zoning categories to 1) better protect our drinking water supplies in those watershed areas that feed into WSSC Water Filtration Plants and Little Seneca Lake (an emergency drinking water source) and 2) better protect rural and low-density</i>	Kenneth Bawer for West Montgomery County Citizens Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>areas outside the sewer envelope from sprawl.</i>		
	Policy 1.1.2	<i>Policy 1.1.2 - The necessary legalization of missing-middle neighborhood housing is a change of general policy. It should not and as a practical matter cannot be accomplished through individual master plans and rezonings. It requires a zoning text amendment that changes the allowable housing in existing residential zones based on proximity to transit.</i>	Benjamin Ross	
		<i>Goal 1.1 / Policy 1.1.3 – <b>Prioritize walking and bicycling as the highest priority mode of transportation... and funding of the CIP.</b> This policy will automatically pit the needs of urban areas against suburban and rural communities and downplays the very real need for increased road capacity in suburban areas of the County. I understand that may be the exact intention of the policy, but it doesn't meet the transportation needs of a large portion of the county population.</i>	Marilyn Balcombe for Germantown Chamber of Commerce	
	Policy 1.1.3: Prioritize walking and bicycling as the highest priority mode of transportation in communities and the most critical infrastructure needs through master plans, future development, and county funding of Capital Improvements Program (CIP) infrastructure projects.	<i>Auto traffic will continue to be a primary means of mobility outside town centers where premium transit is not available. Therefore, contrary to policy 1.1.3, walking and bicycling will not be the highest priority. A balanced approach for all modes of travel is needed. Outside of larger town centers, transit and auto are probably the highest priority for travel and walking/biking are largely for leisure.</i>	Dan Wilhelm for Greater Colesville Civic Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Page 54, Policy 1.1.3	<i>In addition to walking and bicycling, buses should also be considered the highest priority modes of transportation.</i>	Jane Lyons for Coalition for Smarter Growth	
	Action 1.1.4.a	<i>WMCCA Comment: For every up-zoned area, there should be an equal downzoned area. The down-zoned areas should be given Transfer of Developable Rights (TDRs), similar to what happened in the Ag Reserve, that can be sold to developers in the up-zoned areas. Without a balance between up-zoning and down-zoning, the overall density in the County will continued ratcheting up.</i>	Ken Bawer for WMCCA	
		<i>Local bus service will not be everywhere outside of town centers, but will exist in some urban and suburban areas.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	Page 54, Policy 1.1.5.	<i>Additional actions are required to ensure the co-location of essential services.</i>	Jane Lyons for Coalition for Smarter Growth	
	Goal 1.1: Retrofit existing communities and create new communities where people can meet their daily needs by walking, bicycling, or transit.	<i>In goal 1.1, change the word “communities” in two places to “town center” since community is a general area while town center is more defined.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	Goal 1.2: Orient communities around convenient social gathering places accessible to neighborhood residents by walking and biking.	<i>In goal 1.2, many town centers will not have any public building or in some cases a park. The County needs to guard against over specifying design, art and public benefits. The private sector needs freedom to innovate.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	Goal 1.3: Promote active lifestyles by making parks and open spaces a central element of the community.	<i>In goal 1.3, eliminate the first four words: “Promote active lifestyles by”.</i>	Dan Wilhelm for Greater Colesville Civic Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Policy 1.2.3 - Add: Preserve the integrity of historic preservation by preventing its use as a backdoor means of downzoning.</i>	Benjamin Ross	
	Policy 1.3.1	<i>WMCCA Comment: Add: Increase access to parks by asking for (possibly in exchange for a tax credit) or purchasing (via eminent domain) public access points (i.e., short connector trails between homes from a road or sidewalk to parks. There are miles of parkland that is not easily accessible within neighborhoods because there are extremely limited access trails. Examples include both Muddy Branch and Watts Branch SVPs. Note: Muddy Branch SVP does have a few access trails between homes, but these are signed as being private. It should not be allowed to have private access trails to public parks.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Policy 1.3.2	<i>WMCCA Comment: New Action: Move aggressively to acquire new park land through creative measures including the use of imminent domain and bond referendums (see Fairfax County). This must be done in all areas in the county, not primarily down county.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Goal 1.4: Equitably distribute the benefits of land use planning and public and private investment throughout. Ensure that no community is disadvantaged by a disproportionate share of adverse impacts from future land use decisions and investments.	<i>In goal 1.4, delete the first sentence so the second sentence becomes the goal. The idea of metrics is good but not to be used to monitor implementation, especially by the private sector. This goal might be moved to an equity element.</i>	Dan Wilhelm for Greater Colesville Civic Association	

## Connectedness

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		We support connectedness objectives of accessibility, transparency, and plain language. We support expansion of communications infrastructure in underserved parts of the county.	Josh Silverstein, Randolph Civic Association	
		By supporting diverse and adaptable growth, you can impact young student leaders like me that immigrated from their native country in Latin America to pursue the American Dream. Yet students like me are stunted by the segregation in MCPS schools and neighborhoods. My family made the decision to move from Bethesda to Silver Spring, which I am extremely thankful for. I wish to continue to challenge the status quo and realize Montgomery County should be for all, and Thrive 2050 should be for all.	Maria Salmeron Melendez, Silver Spring	
		I wish to live in a future where people of different races, backgrounds, and incomes can live together, when it is not a threat to see black people in a white neighborhood.	Avery Smedley, Silver Spring	
		<i>The Plan is cavalier in its depiction of restrictions and is an incomplete story. My community has not had restrictive covenants since the 1960's. In fact, it has organically grown diverse over the years. I also find it curious that the Planning Staff refers to racism and zoning at this time, when earlier, they consciously overlooked an African American cemetery buried beneath cement in their haste to give developers one more piece of property to</i>	Patricia Depuy Johnson	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>build on.</i>		
		<i>I'm sorry that many people have suffered from racism, segregation, and lack of inclusion. But plans cannot change these problems. These are matters of the heart of individual residents. I hope residents can work together to make real changes using love and respect of other and look forward—our community looks forward to continuing to serve others in our community.</i>	Quentin Remein, Cloverly Civic Association	
		<i>Over the years we have made strides in equity, but we have a long way to go, especially in providing equal and high quality education for all county students. But improving equity, which we must do, does not require increasing density in single family neighborhoods and forcing people to use less convenient modes of transportation to get to where they need to go.</i>	Robert Oshel, Silver Spring	
		<i>There is a statement that we need to make neighborhoods more diverse. In east county, are you saying that we need more white people? People are going to move where they decide and we don't think the government should be in the business of telling people where they should live. We recommend removing that statement. The implementation of complete communities will provide the interaction this element is after.</i>	Dan Wilhelm for Greater Colesville Civic Association	
		<i>Equity – in housing, transportation, education, access to public spaces both</i>	Phyllis Edelman	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>built and green – is a very important issue for our County, but in many specific areas, it's unclear how this plan provides that for all residents of our Montgomery County community.</i>		
		<b>Equity</b> : get baselines so we can measure how much we've improved, and gauge the difference between perceived disparities and structural ones. Remember there is a critical difference between "equal" (nominally the same) and "equitable" (proportionate). Remember there may be differences in the way a need must be satisfied, based on those being served. Use qualitative parameters and feedback, not just quantitative service metrics, in evaluation.	Edmund Morris	
		<i>One key element that needs to be highlighted over and over again is the need to ensure network connectivity as an infrastructure priority . Digital communications are great, but if there is not widespread access, it becomes a driver of inequity. Information access is the most critical element of our modern society, and is becoming more so. Ensuring every resident can actually access the internet regardless of where they are in the county should be a consideration.</i>	Edmund Morris	
	<b>Inclusive.</b> Various housing types at a mix of price points in Complete Communities and along rail and BRT corridors accommodate diverse populations and	<i>WMCCA Comment: While it sounds nice to imagine that planners will engage everyone in the decision making, our experience is that sometimes this engagement is merely to check off the box of public input. In</i>	Kenneth Bawer for West Montgomery County Citizens Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	help achieve equity and integration on a neighborhood scale. Residents have a say in how their neighborhoods look and feel. Planners engage everyone in decision making about the future of their communities. (p. 47)	<i>recent years, residents have their say and then planners do what they want, sometimes seeming to favoring development interests over the interests of residents. If this plan wants to give residents a say, then we suggest that residents, not the Planning Board, be allowed to vote on decisions in their communities. Alternatively, there could be equal numbers of Planning Board members and voting representatives from communities for each project.</i>		
	<b>Inclusive</b> “Residents have a say in how their neighborhoods look and feel.” (P. 47)	<i>While this is true, residents having the loudest voice in how their neighborhoods look and feel is what led to segregation and our housing shortage. Thrive needs to grapple with how to take residents’ concerns into consideration while also ensuring broader public involvement and pursuing the greater public good.</i>	Jane Lyons for Coalition for Smarter Growth	
		<i>Community education and outreach efforts, especially to residents in traditionally under-resourced neighborhoods with limited food access, should continue to be purposeful and focused, to ensure the inclusion of equitable food system support strategies within the Thrive 2050 Plan. These engagement efforts will effectively build relationships, strengthen trust, and foster partnerships within Montgomery County, and elevate the voices of community leaders seeking meaningful changes.</i>	Catherine Nardi and Heather Bruskin for MC Food Council	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Something not included at all is a commitment by the county to ensure development does not cause physical or cultural displacement to existing vulnerable communities. That is something the county has worked on and should make an explicit commitment to, through proactive engagement with community leaders from the start of the process and prioritizing BRT, making cycling and walking safer, and investing in housing preservation alongside housing growth. Inclusiveness is critical to future affordability and should be central to Thrive.</i>	Katherine Lucas McKay	
		<i>We encourage you to include goals, policies, and actions to actively pursue creating more public spaces, especially public meeting and event spaces. Additionally, we urge you to include actions for creating shared identity through signage, wayfinding, and other public communications, including to reflect the diversity of languages spoken in Montgomery County.</i>	Jane Lyons for Coalition for Smarter Growth	
	Goal 2.1: Create strong neighborhoods and communities that foster communication and interaction among residents and create a culture of inclusion.  Goal 2.3: Improve access to neighborhood-based services such as housing, jobs, professional and government services, educational	<i>Goals 2.1 and 2.3. Modify to say it applies to town centers. The policies and actions in them do not apply to other areas.</i>	Dan Wilhelm for Greater Colesville Civic Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	opportunities, and parks and open spaces at the local, county-wide, and regional level. Focus on county residents with the greatest socioeconomic needs and for those who are geographically isolated from these services.			
		<i>Goal 2.2 <b>Build civic capacity within communities and make government planning and decision-making processes accessible, transparent, and easy for everyone to participate in and understand.</b> This is critical, but has to be done in a way that reaches people who aren't already in the room. An interesting gauge of current reach would be to map out the home addresses of everyone who testifies or submits testimony on the THRIVE draft plan.</i>	Marilyn Balcombe for Germantown Chamber of Commerce	
		<i>Policy 2.2.2 - Actions should be more concrete and specific. Add: "Outreach to groups that are underrepresented in traditional planning meetings by collecting opinions at gathering points such as bus stops."</i>	Benjamin Ross	
		<i>Page 61. 2.2 Add Incorporate charrettes and Citizen Assemblies into design and planning processes</i>	Herb Simmens	
	Goal 2.4: Use technological innovation to increase community connectedness and resilience for all residents.	<i>Goal 2.4. Modify to say it is accomplished outside the master plan and development review process.</i>	Dan Wilhelm for Greater Colesville Civic Association	
		<i>Page 63. 2.4 Health impacts of technology should be included in any discussion of technology.</i>	Herb Simmens	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Goal 2.5: Assess racial equity and social justice impacts across all Montgomery Parks and Montgomery Planning initiatives.	<i>Goal 2.5 Move to the equity element.</i>	Dan Wilhelm for Greater Colesville Civic Association	

## Resilient Economy

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>The discussion on page 5 of stagnant wages is the only reference in this Introduction to the Diverse Economy goals and policies addressed later in the document. This section should discuss in greater detail the Diverse Economy goals and policies to clearly establish that wage and employment growth have equal priority with the other goals of this Plan.</i>	County Executive, 8-14-20 (This comment was made on the 6-11-20 draft of Vision, Goals, Policies and Actions)	
		<i>In the Resilient Economy chapter, Planning [MDP] recommends that the economic contribution of agriculture be included.</i>	MDP	
		<b>Economic Health:</b> <i>the age of having enough major employers to spread around is ending; consolidation in the most durable industries is eroding the ability of smaller players to expand. Focus less on attracting whales and more on nourishing minnows and trout. Being a diverse, vibrant place where people want to live will take care of enticing the big companies. Everyone else actually needs the investment.</i>	Edmund Morris	
		<i>I cannot separate these two elements [Adaptable growth and Resilient Economy] as cleanly as the draft plan does, because they are intrinsically intertwined in a way many of the other elements are not (quite). The popular notion that growth drives economic success misses the fact that growth is also a product of the success, and that courting businesses is less important than creating spaces in which people with</i>	Edmund Morris	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>options want to live - and in which everyone who lives feels like they have opportunity . Thus investing in artisanship, freelancers, pop-up retail, mobile service (including food trucks and the like) and building institutional architecture that allows for diversity of uses (and information architecture that allows for diversity of income).</i>		
	Name of the Chapter	<i>Change the name to “Strong Economy”. Strong is substantially different than resilient and that is what we need.</i>	Dan Wilhelm for Greater Colesville Civic Association	
		<i>it is clear that there is an understanding that economic health and economic disruption need to be drivers to effect change. The Plan identifies many issues and challenges that should be solved over the years. We submit that without the influx of private economic investment and public investment in infrastructure, the County will not be able to fully solve and address these issues. As such, the Thrive Plan must prioritize economic health for such will serve as a catalyst for attracting investment and in turn provide the necessary ingredients for the County to achieve its other goals of environmental resilience and community equity.</i>	Stacy Silber	
		<i>With construction costs continuing to rise and rents remaining flat, developers and investors no longer just evaluate whether to invest in Montgomery, Fairfax or DC.</i>	Stacy Silber	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p><i>Rather, they consider places like Charlotte and Atlanta that also have great needs for housing and the policies in place to attract businesses.</i></p> <p><i>Thus, to ensure economic investment in the County, the Plan needs to set a hierarchy of priorities so that Policies, which encourage investment in housing and commercial growth, are not inadvertently negated by other costly Policies and Actions that act as deterrents. To that end, certain Policies and/or Actions may need to be removed.</i></p>		
	Food Economy	<p><i>As climate and health emergencies continue to impact global food production and distribution, the local food supply will be increasingly important to feed our County and region; strengthening and supporting our local food production capacity should be a long-term goal. In addition to the goals set forth in the Thrive 2050 report, we recommend the following to further bolster our local food economy:</i></p> <ul style="list-style-type: none"> <li><i>● Shared use kitchens, cut and wash facilities and processing equipment for farm produce, meat, and grains, and aggregation and distribution infrastructure, as well as long-term access to affordable farmland and protected land leases, particularly for BIPOC and historically disadvantaged farmers, are needed for local businesses to meet these expanding market opportunities and address future crises.</i></li> </ul>	Catherine Nardi and Heather Bruskin for MC Food Council	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<ul style="list-style-type: none"> <li>● <i>County institutions, including government-facility food service operations, hospitals, and academic institutions, should prioritize a percentage of food procurement from hyperlocal sources, while balancing affordability for local consumers and the true value of the product to ensure economic sustainability for the producers. The Montgomery County Farm to Food Bank Program serves as a model for these sourcing partnerships to follow.</i></li> <li>● <i>Free programming and resources should be made available to all County residents in accordance with the recommendations of the Food Literacy Assessment , to increase awareness of the food production capabilities that lie within the 93,000 acre Agricultural Reserve and beyond, in various parts of the County and at various levels.</i></li> </ul>		
		<p><i>Page 69 (Refer to Action 3.4.1.a): Planning [MDP] suggests that the county coordinate with the Maryland Department of Transportation in the county-wide freight plan development process. The need for freight truck parking as it relates to I-270 and I-495 should also be addressed.</i></p>	MDP	
		<p><i>Page 70 (Refer to Action 3.7.1.b): The county may want to add “commuter/express bus” to the action statement [see the comment above re: Page 75 (Goal 4.1)].</i></p>	MDP	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>With respect to housing and economic development the plan takes the position that if affordable housing is available then business will come to Montgomery County. The County most certainly needs affordable housing, but insofar as attracting business is concerned and insofar as employment is concerned transportation is far and away the most important consideration. Finish the purple line and radically improve bus service, thereby improving access to jobs and correspondingly, improved income.</i>	Harold Pfohl, Summner Village	
		<i>There are four cornerstones to strategy: people, assets, time, and money. The County is suffering severe revenue shortfall as a result of the economic collapse due to Covid 19. Additionally there has been virtually no net new business formation over the past decade and hence very little increase in public revenue from business and little in the way of new job opportunities. The plan ignores the costs and at the end states that this will be dealt with on an individual project basis, and secondly that new resources and new solutions will be found.</i>	Harold Pfohl, Summner Village	
		<i>The authors posit that Thrive Montgomery 2050 is a necessary plan to deal with the unprecedented uncertainties we face. If so, where is the section dealing with the possibility of significant increase in population with no meaningful increase in employment/business? With long term diminished revenue? Proceeding with the</i>	Harold Pfohl, Summner Village	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>assumption that uncertainties are limited to whether conditions will improve greatly, or moderately ignores the possibility that things will get worse. If the plan must be adopted now, then the plan must consider how to proceed if negative conditions are prolonged.</i>		
		<i>This chapter needs more about protecting and encouraging small businesses, as well as allowing and supporting neighborhood retail.</i>	Jane Lyons for Coalition for Smarter Growth	
		<i>In order for small business to Thrive, and boost the economic development of our County's communities, it is pertinent that some reigns be put on commercial property management to allow or incentivize creative use of their spaces, and help bolster community engagement.</i>	Charisse Callender-Scott	
		<i>One major solution for the housing / transportation / jobs conundrum that exists County-wide is to bring more jobs to the Upcounty. If we had more jobs in Germantown, we would have much shorter commute times, less traffic congestion, and much less greenhouse gas emissions. I don't necessarily agree with the idea that "Priority should be given to placing jobs, schools, and retail within <b>walking distance</b> to homes" (p.35), but increasing jobs in the Upcounty will certainly put jobs closer to a large employment base.</i>	Marilyn Balcombe for Germantown Chamber of Commerce	
		<i>Economic development is barely addressed, particularly as it can improve and diversify communities.</i>	Naomi Spinrad, Chevy Chase West	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Although the draft plan speaks of minimizing the “negative externalities” of land development, it ignores the issue of locating beneficial economic development in or near communities that may be less attractive initially, but whose appeal can be improved with incentives.</i>		
		<i>Highlight the opportunities and need for business growth and development north of the Shady Grove Metro – bringing jobs to where people live. Without alternatives in place, “We Must Stop Planning for Cars,” disadvantages the Upcounty and other regions which were developed when a different culture and philosophy of growth was at work.</i>	Martha A. Schoonmaker, and Margaret Latimer,	
		<i>Too often, economic growth is given priority above all else. Equity and environmental sustainability should be more important objectives than economic growth.</i>	Ethan Goffman, Rockville	
	Bring quality jobs to the east county	<i>The county should strive to bring quality jobs to east county, to help end the east-west imbalance in jobs and housing.</i>	Ethan Goffman, Rockville	
	Prioritize Economic Growth	<i>The draft Plan should recognize economic growth as one of the County’s top challenges. The county’s sluggish economic growth should be listed in the draft Plan as, at least, one of the top 3 challenges the County is facing and job creation should be included as one of the major goals because good paying jobs will be significant in addressing the County’s economic inequities.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p>The county should look at market-oriented approaches to solve our problems, and the plan must explicitly recognize the role of redevelopment and achieving our environmental and equity goals in addition to improving our economic competitiveness.</p> <p>The Chamber Board members' greatest concern was accessing and retaining top talent, and this plan must create places where talent wants to live. This plan is not a one-size-fits-all solution and must be implemented differently in different places, but all need investments.</p> <p>A stronger economic vision of the Ag Reserve is needed, we must preserve the economic vitality of farming while also shaping it to serve our entire county.</p>	Tricia Swanson, Montgomery County Chamber of Commerce	
		<i>The County has not done a good job of dispersing economic equity throughout the County and has not given every part of the County equitable economic opportunities for all residents and families, parents, and children.</i>	Bernadine Karns, Acting President, Calverton Citizen Association	
	Lack of emphasis on upcounty commercial development	<i>A second highlight the Thrive Montgomery 2050 Plan is short on is the emphasis of Up-County Commercial development of the technology sector, long envisioned by many previous administrations. It is vital to the Up-County tax base and the livelihood of our well-educated citizenry to bring technology, including biotech, from</i>	M. Allen	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Rockville, all the way to Frederick, particularly in the much needed Germantown, MD area. By emphasizing an expansion of the tax base through Commercial enterprise, more and more of Montgomery's publicly-educated finest can take advantage of the quality of life that has sustained this region for decades. Commercial development in the tech sector should be a primary plank in the vision for Thrive Montgomery 2050.</i>		
		<i>The Plan is also fatally flawed without a county wide effort to generate new jobs. To pass this plan without an economic or employment blueprint, that is realistic, during this time of severe budgetary deficits, is not in the best interests of its citizens.</i>	Patricia Depuy Johnson	
	<b>Competitive.</b> The county retains and attracts large companies, small businesses, and high quality educational institutions. (P. 47)	<i>WMCCA Comment: Add to this: "...only insofar as they do not negatively impact our goal of environmental sustainability and improved quality of life. This includes having no negative impact on our natural areas, including streams. We will not sacrifice water and air quality, overcrowding of roads and schools, or other indicators of quality of life simply to add jobs.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Issues, first paragraph: ..."Slow job growth, limited new business formation, wage stagnation, rising economic and social inequity, a high cost of living and doing business, and	<i>The sentence in the middle of the first issues paragraph needs to be rewritten since it indicates that causes and effects are the same. Rather say: "The county is experiencing slow job growth, limited new business formation, wage stagnation, rising</i>	Dan Wilhelm for Greater Colesville Civic Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	increasing traffic congestion negatively affect economic activity.” ...	<i>economic and social inequity, a high cost of living and doing business”. Page 21 contains information about the slow job growth and wage decline. It is uneconomical for businesses to locate here except in high cost areas like Bethesda. Also the traffic congestion and the long/uncertain regulatory approval process negatively affects businesses ability and willingness to locate or expand in the county.”</i>		
	All Goals and Policies in this element.	<i>Throughout the policies in this element, eliminate reference to a good-paying job. While that is the desired outcome it is not something the county can directly control. Rather, the county can take actions which should lead to good-paying jobs.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	Growth	<i>The most important goal is not included. That goal/policy is to reduce the cost for building here. The existing SSP is a good start in achieving this goal including:</i> <ul style="list-style-type: none"> <li><i>• Elimination of the school moratorium</i></li> <li><i>• Reducing school impact taxes</i></li> <li><i>• Exempting some properties from both transportation and school impact taxes.</i></li> </ul> <i>The opportunity zone is the most important since federal incentives are provided. The enterprise zone is another vehicle for economically encouraging growth.</i>	Dan Wilhelm for Greater Colesville Civic Association	
		With all these new developments in the area, my fear is that businesses and residents will be displaced due to higher rents. I want to see more protections for	Danny Chu

	discourage vacant and underutilized properties.			
	Policy 3.2.2: Improve transportation connections between existing commercial and employment centers and transit hubs to connect Montgomery County businesses to workers and the rest of the region, nation, and world.	<i>Policy 3.2.2 Move this to the transportation element. What about other major employment centers, including White Oak?</i>	Dan Wilhelm for Greater Colesville Civic Association	
	Action 3.2.2.a	<i>WMCCA Comment: Use less jargon. Aren't taxis a one-seat transit service?</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Page 69. 3.2.2 a. Establish a one-seat transit service from major employment centers to at least one of the three international airports in the region (Baltimore-Washington International, Dulles International, or Reagan National Airport).	<i>This recommendation flies in the face of the county's commitment to eliminating 80% of GHG's by 2027. We need to be thinking about phasing out airports over the next 30 years, not increasing access to them.</i>	Herb Simmens	
		<i>Action 3.2.2b - Add White Flint.</i>	Benjamin Ross	
		<i>Goal 3.2/ Policy 3.2.2 / Action 3.2.2.b: Both Germantown and the I-270 Corridor were envisioned to be is supposed to be major employment centers and should continue to be included as such. While it's great to have the Great Seneca Science Corridor included, but that does not capture the biotech expansion along the entire I270 corridor.</i>	Marilyn Balcombe for Germantown Chamber of Commerce	
	Goal 3.3.: Increase the number of well-paying jobs for all education and skill levels. Encourage the expansion of job training and other professional	<i>Goal 3.3. The idea of the second sentence is good so delete the first sentence. The result of training and education can be better paying jobs and in some cases retaining a</i>	Dan Wilhelm for Greater Colesville Civic Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	development opportunities to encourage economic mobility.	<i>job at the same income level. The focus needs to be on education, especially college and adult education. Employers need people with the desired skills. The needed skills can shift over time and people therefore need continuing education. There are also immigrants who need education in English, but that idea should not be included in the plan.</i>		
	Policy 3.3.1	<i>WMCCA Comment: No! Prioritize sustainability (e.g. carbon footprint neutrality), quality of life for existing residents, and protection/enhancement of the natural environment in land use planning, including development review processes, master planning and functional plans.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Action 3.3.1.a	<i>WMCCA Comment: Change to say, "Complete an Employment Growth and Access Functional Plan to determine if and where land use policies limit growth of and access to a variety of job types. Recommend strategies for addressing these limits only if they can be accomplished while maintaining sustainability (e.g. with a neutral carbon footprint), quality of life for existing residents, and the protection/enhancement of the natural environment."</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Goal 3.4: Preserve land for Production, Distribution, and Repair (PDR) activities that provide well-paying jobs to those without advanced degrees, provide essential goods and services, and propel	<i>Goal 3.4. This goal should be deleted since land is needed for all enterprise activities, not just PDR.</i>	Dan Wilhelm for Greater Colesville Civic Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	economic competitiveness for the county.			
		The county should reconsider reserving land for production distribution and repair. This keeps land cheaper for those favored land uses. Those uses could include manufacturing, but it will most likely be warehouses, serve and delivery, and big box retail. Businesses like Amazon should not have preferential access to land. Small businesses have enough difficulty competing without the challenge of land use regulation.	Salim Furth, Takoma Park	
		<i>Action 3.4.1a - Minimize impacts rather than eliminate. Elimination is not feasible and setting it as a goal will impede location of needed industrial sites.</i>	Benjamin Ross	
		<i>Page 70. 3.4.1.b Include electric and conventional cargo bicycles as an integral part of any freight mobility plan</i>	Herb Simmens	
	Goal 3.5	<i>WMCCA Comment: Add this language: This enhanced job and business growth must only be pursued on a sustainable basis, i.e., only if it can be attained without negatively impacting quality of life (e.g., air quality, traffic, happiness rating) and environmental quality of our natural areas (e.g., no stormwater or other water quality impacts, no ecological degradation, etc.).</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Policy 3.5.3: Build connections between the private sector, the community, and higher education, and research	<i>Policy 3.5.3. Move into policy 3.3.</i>	Dan Wilhelm for Greater

		steady state economy; and a declining economy. Include a more explicit accounting for the effects of climate change. (Numerous studies and resources cited)		
	Food deserts	I would like to see a greater emphasis on tackling food deserts.	Jessica Bronson, Berk Ehrmantraut	
	Food Security	<i>Food access is innately intertwined with the various community structures that support a growing population, such as affordable housing and workforce development opportunities. Planning goals in this section should incorporate food access as an intrinsic part of fostering an affordable and attainable lifestyle in Montgomery County.</i>  <i>Food is not simply an “amenity,” but a basic human necessity, and should be recognized as such in the planning process. Affordable, healthy food access considerations should be incorporated into the General Plan, focusing on people living below the self-sufficiency standard, seniors, children, people with disabilities, and foreign-born residents. The Food Council welcomes the opportunity to collaborate with the Montgomery County Department of Planning to envision a roadmap to end food insecurity as a component of the General Plan and extension of the five year Food Security Plan , which is entering its fourth year of implementation.</i>		

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>We are also in favor of supporting and sustaining existing farmland whenever possible in the County. Recent COVID-19 pandemic experience has shown that the industrial supply chain may not always cover periods of high demand. Therefore, local foods and produce are not only healthy and flavorful, but also essential in times of peak demand.</i>		
		<i>Emphasizing the interrelatedness of the elements of land use planning, Planning finds it refreshing that the Draft Plan provides for a discussion of the climate change within the Safe and Efficient Travel chapter. For example, “We simply cannot be equitable, address climate change, and support a strong economy by building more roads.” (p. 72) The Draft Plan acknowledges that transit and walkability are key to addressing climate change – building more roads must be avoided.</i>	MDP	
		<i>[T]he Draft Plan, as now constituted, does not provide the required level of land use and growth policy detail for Planning to evaluate water and sewer plans or amendments for consistency. A jurisdiction’s water and sewer infrastructure is one of the most effective tools to facilitate and/or restrict growth; therefore, Planning [MDP] recommends including in the Draft Plan explicit references to the county’s master plans for the intended implementation of water and sewer service policy and to provide clarity</i>	MDP	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>on how plan consistency should be evaluated in future master plans or water/sewer plan amendment proposals.</i>		
		<i>The mineral resources element has not been addressed. Planning [MDP] recommends that the county provide information on current active mining or other geological resources if the information is available or add a proposal to do so in the future within the Implementation chapter.</i>	MDP	
		<i>Since this is a full comprehensive up-date to the general plan, and explicit incorporation of the Growth Tier Map into comprehensive plan is unclear, Planning suggests that a sentence be added under Other Regulations (page 127), that says "The official map displaying the Growth Tier areas is included in Chapter 50, Section 50.4.3 of the Subdivision Regulations and is adopted by reference into Thrive 2050 in accordance with the Maryland Sustainable Growth and Agricultural Preservation Act of 2012."</i>	MDP	
		<i>the proposed new plan has less overarching protections for the environment and against sprawl than the plan it intends to replace.</i>	Scott Plumer for Darnestown Civic Association	
		<i>The Food Council applauds the Department of Planning for addressing the need to ensure healthy food access for all residents within this section, and encourages the incorporation of additional "Actions" to accompany the "Policies" that have been established. Data collection and analysis</i>	Catherine Nardi and Heather Bruskin for MC Food Council

		<i>protected areas is critical to their migration and to ensuring the healthy genetic diversity of animal and plant populations to withstand the challenges of habitat fragmentation and climate change.</i>		
		<b>Prohibit use of plastic synthetic turf.</b> <i>The plastic turf contains toxic chemicals that pose a hazard to public health and the environment.</i>	Roberta (rg) Steinman	
		<b>Preserve the Agricultural Reserve.</b> <i>It is important that agricultural use be viewed as a valued and permanent land use. Agricultural land preservation in the Agricultural Wedge is not a holding use for future development.</i>	Roberta (rg) Steinman	
	impervious reduction	<i>Implement County-wide impervious reduction and address run-off at its upstream sources.</i>	Roberta (rg) Steinman	
	<b>Preserve and restore forests.</b>	<i>We are losing our high-quality interior forests in Montgomery County due to a number of factors, including fragmentation. We must take care of, and strive to restore, and over the longer horizon re-grow more interior forest, to begin to replace the interior forest we've lost and destroyed over the decades. Strengthen the longstanding MNCPPC-Montgomery Parks policy of protecting at least 2/3 of our regional parks, as Conservation land (per the Ten-Year PROS plan).</i>	Roberta (rg) Steinman	
	Trends and Challenges 12. Climate change threatens all aspects of life.	<i>WMCCA Comment: Upgrades to our infrastructure to handle weather conditions have been woefully inadequate for decades. Therefore, to only point the finger</i>	Kenneth Bawer for West Montgomery	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	We will need significant investments in upgrading our infrastructure to withstand the threats of extreme weather and other disruptions. These improvements will put extra burden on the county's financial resources.	<i>at climate change is highly disingenuous. Some of our stream valleys are highly degraded due to decades of inadequate stormwater control regulations - yes, this will be made worse by climate change. We expect more intense storms caused by global warming. To lessen the burden on the County's financial resources, a Thrive 2050 goal should be to enact more stringent stormwater control requirements for new build homes and home renovations (i.e., much more than the current 1 inch or so of rain in 24 hours). For the huge number of existing homes, there should be a new regulation that properties must be retrofitted to control storm water to "new build standards" upon property transfer – who pays the cost could be negotiated between buyer and seller. For commercial property, stormwater control to "new build standards" should be required upon sale. Grandfathering for commercial property should not be allowed.</i>	County Citizens Association	
	Montgomery County is a leader in protecting and enhancing the natural environment through a broad range of planning initiatives, policies, and regulations to protect sensitive environmental resources. But many indicators such as stream water quality, forest loss, loss of plant and animal species, and increased imperviousness point to greater stewardship challenges. As the population expands and the region	<i>WMCCA Comment: Change, "Montgomery County is a leader in protecting and enhancing the natural environment..." to "Montgomery County's vision is to become a leader in protecting and enhancing the natural environment..." There is no way we can claim to be a leader when, for example, we are trashing our natural areas by doing so-called "stream restorations" which convert natural (although not always pristine) areas into engineered stormwater</i>	Kenneth Bawer for West Montgomery County Citizens Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	continues to develop, pressures on our natural systems increase. (p. 97)	<i>conveyances (with some exceptions such as “daylighting” piped streams and concrete culvert removal). We are not a leader in protecting our natural environment when overdevelopment is degrading the water quality in Little Seneca Lake, our emergency drinking water supply.</i>		
		<i>Our vision for 2050 is a County in which the creation of wildlife and plant corridors has the same priority as development corridors. The need for safe passage for wildlife between protected areas is critical to ensuring the healthy genetic diversity of animal and plant populations to withstand the challenges of habitat fragmentation and climate change. Residents will be encouraged to replace traditional turf lawns with conservation landscaping using native plants to support native pollinators and birds and control stormwater runoff. County codes will be revised so that residents do not get citations from a Housing Code Inspector that they are violating Chapter 58 of the Montgomery County Code by permitting weeds and grass to grow in excess of 12 inches when, in fact, they have replaced their turf grass with an area of conservation landscaping.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Vision for Healthy and Sustainable Environment (p. 97)	<i>WMCCA Comment: We need a goal and policy to require returnable bottles. The Northeast has done this for decades. We need to stand up to the retail stores who have pushed back on this forever.</i>	Kenneth Bawer for West Montgomery County Citizens Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<p><i>WMCCA Comment: We need a goal and policy that retailers can only sell products in packaging that can be recycled by the County.</i></p> <p><i>WMCCA Comment: We need conservation measures to be enacted to conserve water (for example, an “excessive use” charge which would a higher charge that kicks in when the “standard” per person daily usage is exceeded – to discourage lawn watering, for example).</i></p> <p><i>WMCCA Comment: We need a County-wide education program about the need to conserve water.</i></p> <p><i>WMCCA Comment: We need to change the code to allow grey-water systems and composting toilets.</i></p> <p><i>WMCCA Comment: We need to change how WSSC sewage overflows are reported and how the public is notified</i></p> <p><i>WMCCA Comment: The county must get serious and honest about reporting true air quality conditions to residents. Currently, Montgomery County's has a single air quality monitoring station in the middle of an open field near Lake Frank surrounded by forest - not exactly where most people breathe the air. The county needs a network of near-road air quality monitoring</i></p>		

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>stations to accurately enable assessments of public health and to daylight equity issues.</i>		
		<i>Considering the urgency of climate change and other environmental issues in the County, we believe that strong actions with certain goals are necessary to achieve sustainability, even as the many details of implementing these actions will be left to the future.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
		<i>Our vision for 2050 is a County in which low density and rural areas in the County (those areas outside the Sewer Envelope) are afforded special protection since these areas contain watersheds which contribute drinking water to millions of people in the DC area from the WSSC Water Filtration Plants and the Little Seneca Lake emergency drinking water reservoir. Astonishingly, the County water supply is mentioned in only one paragraph (Policy 6.2.3) on page 101. Our drinking water sources need to be protected by new Drinking Water Special Protection Areas, downzoning, purchase of land outright or via eminent domain, enhanced tax credit for conservation easements, etc.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	This pattern of sustainable growth and development creates multiple benefits for Montgomery County and results in a future county that is: <b>Urban.</b> Compact form of development, coupled with conservation of the Agricultural	<i>WMCCA Comment: This is unrealistic. With compact development comes more impervious surfaces which leads to degraded stream water quality. Unless compact (read more dense) development is balanced by down-zoning of other areas, the amount of impervious surface in the</i>	Kenneth Bawer for West Montgomery County Citizens Association, David Blockstein,	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Reserve, has proven to be better for the environment resulting in improved stream water quality. (p. 46)	<i>county will increase. We call for down-zoning and increased protections in the low density and rural areas outside of the sewer envelope to balance the proposed increased density areas. Plus, conservation of the Ag Reserve is already under attack with the proposal for commercial solar.</i>	Clean Energy Working Group, Takoma Park Mobilization Environment Committee	
	Reuse, recycling and composting of food and yard waste results in very little municipal solid waste generation. (p.97)	<i>WMCCA Comment: With respect to reuse, county solid waste transfer stations must allow residents to remove items (such as electronics, metal items, etc.) for reuse instead of shipping it away. Home hobbyists can repair electronics, and do it yourselves can find uses for metal scraps and perfectly good metal filing cabinets, for example. This will, presumably, require signing of liability waivers, but this is already routinely done at Parks events.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	<b>Active.</b> County residents enjoy an active, healthy lifestyle. Connecting to the outdoors and their neighbors boosts their physical and mental health. Every resident has walkable access to opportunities for social engagement, physical activity, and quiet contemplation, whether in parks or other public spaces. The county's built and natural resources are designed to encourage physical activity. Fewer vehicles using clean energy, have resulted in drastically reduced greenhouse gas emissions. (p. 46)	<i>WMCCA Comment: Increased housing density will probably not lead to increased physical health. Most urbanized areas suffer from reduced air quality due to more vehicular traffic. Assuming a gradual conversion to all electric vehicles, increased urbanization will hurt the health of residents within the time span of Thrive 2050.</i>	Kenneth Bawer for West Montgomery County Citizens Association

		<p><i>I'd like to urge the county to consider developing more purpose-built facilities for playing soccer on hard courts in urban areas. While soccer is traditionally played on grass, in many urban environments, soccer is played on any flat open surface available, most often on concrete. In fact, globally, a specific form of soccer has even been formalized and called "Futsal" due to the prevalence of playing the game on concrete. Here in Montgomery County, because of the availability of lights and the low barriers to entry (no permitting necessary), soccer is often played on tennis courts throughout the county. I'd propose the county take two routes:</i></p> <ol style="list-style-type: none"> <li><i>1. Convert underutilized tennis courts into soccer courts</i></li> <li><i>2. Develop shared, multi-purpose facilities that include concrete spaces for soccer</i></li> </ol>	Matteo	
	Urbanism and Complete Communities (P. 33)	<p><i>The emphasis on urbanism as a strategy to protect natural spaces and reduce sprawl, while concentrating development around transit corridors is a balanced approach to sustainable development. Urbanism will ensure that county residents can easily access basic needs within a short distance and prioritize affordable and attainable housing. However, we would like to see an increase protection on stormwater management that not only meets but exceeds our current stormwater regulatory requirements in order to accommodate the</i></p>	Denisse Guitarra for Advocate Audubon Naturalist Society

		<i>upcoming increase in frequent and heavier rainstorms due to climate change.</i>		
	Integrate Environmental Sustainability	<i>The draft Plan does not integrate the goals of infill development and environmentally sustainable development. We recommend that this integration, with metrics, be fleshed out fully to support the County's goal of climate resilience.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
		<i>Another matter we would like to address is the counties current standards regarding Stream Valley Buffers and the unintended consequences of requiring them on sites that have been previously developed within urban areas. An amendment to the general plan sets the vision for numerous other planning documents and policies, and provides the opportunity to revise or improve upon the existing policies in response to the changes that have evolved over the past several decades. Stream Buffers in Urban Areas Stream buffers contained in the County's Environmental Guidelines were written for a different era when most development occurred on greenfield site that were either wooded or in agriculture. At this time, less was known about pollutant loading rates for Nitrogen and Phosphorous based on different land uses so a surrogate (conservative set aside) was used in the place of actual data or science.</i>	Griffin Benton, MBIA	
	Update Infrastructure Policy	<i>A policy should be added to the draft Plan regarding the need for updated</i>	Todd Hoffman for Coalition of Incorporated	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Policy 6.2.4 calls for infrastructure improvements to meet climate change challenges	<i>infrastructure in each instance infill development is occurring... But the draft Plan lacks a policy that calls for infrastructure improvements to meet added demands placed by infill development on water/sewer lines, electrical lines, communications facilities, stormwater capacity, and other critical infrastructure needs for communities.</i>	Municipalities and Community Organizations	
	Urbanism as Key to True Sustainability Montgomery County has been a pioneer in protecting and preserving its natural environment.(p.97)	<i>WMCCA Comment: Change to, “Montgomery County strives to be a leader in protecting and preserving its natural environment.” Again, there is no way we can claim to be a pioneer or leader when we are trashing our natural areas by doing so-called “stream restorations” which convert natural (although not always pristine) areas into engineered stormwater conveyances (with some exceptions such as “daylighting” piped streams and concrete culvert removal).</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Together, these two land uses and numerous regulatory mechanisms and policy initiatives have put the county in the forefront of environmental protection in the country. (p.97)	<i>WMCCA Comment: Much as we would like, this statement is demonstrably false. Again, there is no way we can claim to be in the forefront of environmental protection in the country when we are trashing our natural - areas by doing so-called “stream restorations” which convert natural (although not always pristine) areas into engineered stormwater conveyances (with some exceptions such as “daylighting” piped streams and concrete culvert removal).</i>	Kenneth Bawer for West Montgomery County Citizens Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Our vision for 2050 is a County that has taken stronger actions to achieve sustainability. We believe that sustainability should be a prerequisite for economic growth. Even as Thrive Montgomery 2050 is a conceptual plan, actions to protect and remediate the environment such as “conduct a study” and “develop a plan” are so general as to be potentially ineffective.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
		<i>Furthermore, the residents in these rural and low-density areas that have well water need to have their groundwater supplies protected. To protect our drinking water supply, these areas should be accorded policies such as severe limitations on sewer line extensions (including closing loopholes and backdoors in the Water &amp; Sewer Plan such as the abutting mains policy and the Potomac peripheral sewer service policy) coupled with education for septic system owners on proper care and maintenance of their systems. Our vision for 2050 is for a County that is no longer totally negligent on this issue - to date there are no required septic inspections, no required pump-outs, and no proactive education programs.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
		<i>The county is forcing our 30,000 septic system owners to go it alone until their systems fail and the County can recommend sewer line extensions as the only option.</i>	Kenneth Bawer for West Montgomery County Citizens Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Currently, there is little protection for well water quality in Montgomery County and the state. Our vision is that the County ask our legislators to support the Maryland Private Well Safety Program bill (once finalized)</i>		
		<i>Our vision is for the County to help fund research for new, innovative septic systems at the University of Maryland. Also, in the rural and low-density areas, our vision is for severe limitations on new road construction and road widening, and stricter requirements to control stormwater and impervious surfaces than within the sewer envelope. And our vision is that the County reaffirm its opposition to a second Potomac River crossing in western Montgomery County.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
		<i>Our vision for 2050 is a County where all decisions and policies are informed by science. Decisions will be based on the fact that any amount of impervious surface degrades our water quality (as exemplified by the continuing battle for Ten Mile Creek).</i>	Kenneth Bawer for West Montgomery County Citizens Association	
		<i>Our vision is that, if stormwater runoff is mandated to be controlled outside of stream valleys, there would be no reason for stream construction work.</i>  <i>Our vision for 2050 is a County where the use of synthetic turf fields is prohibited.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
		<i>Our vision for 2050 is a County that is finally honest about air and water quality</i>	Kenneth Bawer for West	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>conditions. The county must commit to honestly reporting true air quality conditions to residents. Currently, we have a single air quality monitoring station in the middle of an open field near Lake Frank surrounded by forest - not exactly where most people breathe the air. Our vision is for a network of near-road air quality monitoring stations to accurately enable assessments of public health and to daylight equity issues.</i>	Montgomery County Citizens Association	
		<i>Our vision for 2050 concurs with the need to concentrate density along transportation corridors to encourage the use of mass transit. However, our vision also balances any up-zoning along development corridors and centers with downzoning in other areas. This includes the protection of our low-density and rural areas outside of the sewer envelope from creeping sewer sprawl (and resulting development pressure to increase zoning density once sewer lines are extended).</i>	Kenneth Bawer for West Montgomery County Citizens Association	
		Public health should be incorporated by emphasizing priority areas determined by obesity, behavioral health, diabetes, and cardiovascular disease. The plan should include policies that establish partnerships such as the Healthy Montgomery Transforming Communities Initiative. The plan should also include descriptors of a healthy environment such as clean water, value of clean air, value of parks and health	David Helms, Pedestrian, Bicycle, Transportation Safety Advisory Committee	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		living, and the value less road miles to maintain the value of human life.		
		A lot of the material seems to be written before the COVID pandemic. In light of the pandemic, many health officials suggest density may drive higher infection rates, and many of the concepts in the plan push for higher density solutions. As for middle market housing, where will it be built? In already dense areas and create even more density? I want to make sure that public health officials and advisors will have input.	Peter Rizik	
		The Commission should allocate more funds for recreational use of the Agricultural Reserve, especially trails.	Dave Scull, Kathleen Mihm	
	<p>Goal 6.1: Use a compact form of development including a mix of uses and reduced reliance on cars to create and support a variety of urban, suburban and rural places that benefit human health. Encourage active lifestyles to reduce our carbon footprint, mitigate climate change, and protect natural resources.</p> <p>Policy 6.1.1: Accommodate growth through a compact, bikeable, walkable, mixed-use form of infill and redevelopment to create long-term sustainability for both human and environmental health.</p> <p>Policy 6.1.2: Develop compact development strategies suitable for different parts of the county to more</p>	<i>Goal 6.1 and polices 6.1.1, 6.1.2 and 6.1.4. These have already been covered in the complete communities element and thus should be deleted from this element.</i>	Dan Wilhelm for Greater Colesville Civic Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	<p>efficiently use or redevelop sites as much as possible and create walkable, bikeable neighborhoods. Use smart growth principles and best practices to increase open spaces for active recreation.</p> <p>Policy 6.1.4: Direct new development and redevelopment to areas with existing or master-planned infrastructure to support the concepts of compact form of development and Complete Communities, and to avoid sprawl.</p>			
	<p>Policy 6.1.3: Plan in three dimensions. Creatively integrate and use different building levels, from below ground to rooftops, to provide sustainability benefits in densely developed areas. Examples include using underground spaces for stormwater, utilities, and soil volume for trees; using terraces, building step-backs, and rooftops for gathering spaces and vegetation; and using building faces and rooftops for solar energy generation.</p>	<p><i>Policy 6.1.3. This policy is a mix of ideas that are poorly explained and those ideas should be moved into goal 6.2.</i></p>	<p>Dan Wilhelm for Greater Colesville Civic Association</p>	
	<p>Policy 6.1.4</p>	<p><i>Add: Proposed Addition to 6.1.4 and in the introductory pages of the general plan: Expansion of the current sewer envelope should be extremely restricted. Mitigate current and prevent future highway and arterial level non-transit traffic in areas outside the current sewer envelope.</i></p>	<p>Scott Plumer for Darnestown Civic Association</p>	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	<p>Goal 6.2: Mitigate, reduce, and adapt to climate change through land use and infrastructure that is more resilient to climate change and moves the county to a climate positive future.</p> <p>Action 6.2.1.a: Develop guidelines and standards for climate-sensitive design principles and materials for new public and private development projects. Ensure these standards include strategies to maximize greenhouse gas reductions in the built environment, including approaches for generating clean renewable energy and reducing heat island effect.</p>	<p><i>Goal 6.2. This goal and its policies contain multiple poorly written ideas. Many of the ideas are covered under Complete Communities; and Safe and Efficient Travel. Accordingly they should be deleted from here.</i></p> <p><i>The idea of action 6.2.1.a should be made into a policy, and maybe a goal to increase the building designs to use less energy, less water, and less light and noise pollution. A policy also is needed to deal with reducing the amount of stormwater run-off and the negative effects from it (water temperature, and volume of run-off in a storm). The standards need to address 100 year storms since we are having them several times a decade. There needs to be a policy about retrofitting streams undergoing severe erosion. The other items in this goal should be deleted since they are not something the county can effect (redesign the electrical, and communications utility infrastructure)</i></p>	<p>Dan Wilhelm for Greater Colesville Civic Association</p>	
	<p>Policy 6.2.3: Upgrade the county's water supply and distribution systems to withstand the effects of climate change and continue to meet the county's current and long-term needs for safe and adequate drinking water supply. (p. 101)</p>	<p><i>WMCCA Comment: Our vision for 2050 is a County in which low density and rural areas in the County (those areas outside the Sewer Envelope) are afforded special protection since these areas contain watersheds which contribute drinking water to millions of people in the DC area from the WSSC Water Filtration Plants and the Little Seneca Lake emergency drinking water reservoir. Astonishingly, the County</i></p>	<p>Kenneth Bawer for West Montgomery County Citizens Association</p>	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>water supply is mentioned in only one paragraph (Policy 6.2.3) on page 101. Our drinking water sources need to be protected by new Drinking Water Special Protection Areas, downzoning, purchase of land outright or via eminent domain, enhanced tax credit for conservation easements, etc.</i>		
		<i>Policy 6.2.3 - Reword: "Integrate climate change with the planning efforts on the County's water supply to ensure that an adequate and safe supply of drinking water will be available to meet current and future needs."</i>	WSSC Water	
	Goal 6.3: Improve health and well-being for all Montgomery County residents and address the health disparities that currently exist.	<i>Goal 6.3. Improving health is not something that belongs in this document. It is handled by private industry and much of the regulation is undertaken by FDA and other federal agencies. Congress is the one who would establish policy. The plan should talk about parks and recreation facilities.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	Goal 6.3: Improve health and well-being for all Montgomery County residents and address the health disparities that currently exist.  Policy 6.3.5: Promote active and healthy lifestyles and active transportation including walking and biking for all segments of the population in all parts of the county, by maintaining and improving built and natural environments. Ensure that all county residents in urban and	<i>WMCCA Comment: Add: Increase access to parks by asking for (possibly in exchange for a tax credit) or purchasing (via eminent domain) public access points (i.e., short connector trails between homes from a road or sidewalk to parks. There are miles of parkland that is not easily accessible within neighborhoods because there are extremely limited access trails. Examples include both Muddy Branch and Watts Branch SVPs.</i>	Kenneth Bawer for West Montgomery County Citizens Association,

	suburban communities have access to a park or open space within walking distance from their homes. Enhance and protect our park system of natural and built elements to promote and increase opportunities for healthy active lifestyles and physical fitness. Foster human-to-human and human-to-nature connections. (p. 102)	<i>WMCCA Comment: Add: One way the County will protect our park system of natural elements is to ban so-called “stream restorations” which convert natural (although not necessarily pristine) areas into engineered stormwater conveyances (with some exceptions such as “daylighting” piped streams and concrete culvert removal).</i>		
	Policy 6.3.7: Achieve nighttime light levels near natural areas that protect wildlife and enhance our ability to enjoy the night sky. (p. 102)	<i>WMCCA Comment: Change to read, “Achieve nighttime light levels near natural areas and residential areas....”</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Goal 6.4: Provide all residents with safe, convenient access to affordable, healthy foods.	<i>Goal 6.4. Delete this goal since it is federal responsibility to regulate food safety.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	Page 101, Goal 6.4	<i>Creating mixed-income communities should be considered a key strategy for eliminating food deserts and providing access to healthy foods.</i>	Jane Lyons for Coalition for Smarter Growth	
	Goal 6.5: Preserve, restore, enhance, expand, and sustainably manage natural and other green areas to support human life and a diversity of animal and plant life. Provide appropriate and accessible outdoor recreation opportunities for all. (p. 103)	<i>WMCCA Comment: New Action: Create private–public partnerships to align the profit motives of individuals to the environmental sustainability of the County.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
		Nature seems like a sidebar, with thin language. Section 6.5 has more study than specific actions. Forest protection is listed as something to be studied but it should	David Blockstein, Clean Energy Working Group, Takoma Park	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		recommend a net increase of native forests.	Mobilization Environment Committee	
		We must encourage healthy lifestyles and parks can really help. The mindset that parks can be good stewards of the land and strongly support active recreation is really a key element of the plan. An area that didn't come across as strongly is that we have an opportunity to build a really strong regional trail network. Put parks near as many neighborhoods as possible with trails or exercise features and connections wherever possible.	David Magill, Mid-Atlantic Off-Road Enthusiasts,	
	Policy 6.5.1: Minimize imperviousness by limiting and removing unnecessary impervious surfaces while respecting goals, needs, and conditions in different parts of the county. (p. 103)	<i>WMCCA Comment: New Action: Prioritize limiting and removal of unnecessary impervious surfaces to achieve related goals, especially for MS4 permits.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Policy 6.5.2: Protect, enhance, and increase the coverage, connectivity, and health of natural habitats such as forests, non-forest tree canopy, wetlands, and meadows through land acquisition, easements, habitat restoration, and ecosystem management. (p. 103)	<p><i>WMCCA Comment: Add: One way the county will accomplish this is by banning so-called "stream restorations" which convert natural (although not necessarily pristine) areas into engineered stormwater conveyances.</i></p> <p><i>WMCCA Comment: New Action: Perform educational outreach and provide incentives to cultivate private land by sustainable methods including organic lawns, native plants, meadow restoration, and zero-emission electric tools.</i></p>	Kenneth Bawer for West Montgomery County Citizens Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>WMCCA Comment: The need for safe passage for wildlife between protected areas is critical to ensuring the healthy genetic diversity of animal and plant populations to withstand the challenges of habitat fragmentation and climate change.</i>		
	<p>Action 6.5.2.a: Conduct a study to identify forests and other natural areas with high value for climate mitigation, resilience, and biological diversity. Establish appropriate forest and non-forest canopy goals and strategies to protect plant and wildlife diversity and human health.</p> <p>Action 6.5.2.b: Conduct a study of the Special Protection Area (SPA) program law, regulations and implementation and determine what changes are needed to achieve the original SPA program goals and objectives.</p>	<i>WMCCA Comment: Our drinking water sources need to be protected by new Drinking Water Special Protection Areas that may include down-zoning, purchase of land outright or via eminent domain, enhanced tax credit for conservation easements, lower impervious surface caps, greater stormwater management requirements, etc.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Action 6.5.2.c: Study the County Forest Conservation Law and regulations intended to preserve specimen and champion trees. Identify improvements to the law and regulation's effectiveness and efficiency, including guidelines of native trees for inclusion in development and natural area protection projects that are resilient to climate change and support native wildlife, including pollinators.	<i>WMCCA Comment: New Action: Perform outreach and develop incentives to conserve forests on private lands. Increase accountability and penalties for violations.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Action 6.5.2.d: Develop a long-range forest quality management plan to	<i>WMCCA Comment: New Action: Create a million-tree initiative for Montgomery</i>	Kenneth Bawer for West	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	address fragmentation, deer pressure, invasive threats, and the forest’s capacity to withstand and mitigate climate impacts.	<i>County. Plant 1,000,000 native trees on public and private lands by 2030.</i>	Montgomery County Citizens Association	
	Policy 6.5.3: Design and construct transportation and other infrastructure improvements using environmentally sensitive methods.  Policy 6.5.4: Preserve and enhance privately owned forest land through incentives and other approaches such as easements, forest mitigation bank programs, or transfer of development rights.	<i>WMCCA Comment: New Action: Perform educational outreach and develop incentives for partial and total conservation easements on private forest land.</i>  <i>WMCCA Comment: New Action: Develop incentives to cultivate native trees that are robust to climate change on private forest land</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Policy 6.5.5: Reduce and manage invasive and other problem species to levels that pose no significant threats to green areas.	<i>WMCCA Comment: New Action: Perform educational outreach and develop incentives to reduce invasive and other problem species to insignificant levels by 2030.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
	Policy 6.5.6: Protect watersheds and aquifers and improve water quality and stream conditions through enhancements and retrofits such as green streets, increased tree canopy, and green stormwater management.	<i>WMCCA Comment: Add: One way the county will protect streams is by banning so-called “stream restorations” which convert natural (although not necessarily pristine) areas into engineered stormwater conveyances.</i>  <i>WMCCA Comment: New Action: Create a County–State partnership to improve the integration of wetlands management and enforcement into County operations.</i>	Kenneth Bawer for West Montgomery County Citizens Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>WMCCA Comment: Actively work with WSSC to propose and implement watershed protection plans for those watersheds that feed into WSSC Water Filtration Plants (for example, as an alternative to the previously proposed mid-Potomac River intake extension). This will NOT include so-called “stream restorations” which convert natural (although not necessarily pristine) areas into engineered stormwater conveyances.</i>		
	Action 6.5.6.a: Develop incentives for developers to restore existing streams and daylight piped streams during the redevelopment process.	<i>WMCCA Comment: No, no, no. Reword to say, “Develop incentives for developers to daylight piped and cement culvert-bound streams during the redevelopment process.” Other than that, most so-called “stream restorations” convert sections of natural stream valleys into artificial, engineered stormwater conveyances</i>	Kenneth Bawer for West Montgomery County Citizens Association	

## Diverse and Adaptable Growth

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Planning [MDP] is interested in following the implementation of the Draft Plan's goals, policies, and actions for the Agricultural Reserve and the food system, because the county's experience could provide best practices for other counties to emulate.</i>	MDP	
		<i>Since this is a full comprehensive up-date to the general plan, and explicit incorporation of the Growth Tier Map into comprehensive plan is unclear, Planning [MDP] suggests that a sentence be added under Other Regulations (page 127), that says "The official map displaying the Growth Tier areas is included in Chapter 50, Section 50.4.3 of the Subdivision Regulations and is adopted by reference into Thrive 2050 in accordance with the Maryland Sustainable Growth and Agricultural Preservation Act of 2012."</i>	MDP	
		<i>This chapter, placed toward the end of the plan, doesn't add much that hasn't already been said. We believe it would be most beneficial for this section to focus on the policies that support diverse and adaptable growth — including the county's tax regime, review/permitting processes, and adequate public facilities ordinance — in addition to the Agricultural Reserve. Moreover, most of this chapter is focused on the Agricultural Reserve without making a strong argument about how it should be</i>	Jane Lyons for Coalition for Smarter Growth	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>used in the future. How can the Agriculture Reserve best help us meet our environmental, health, land use, economic, and food production goals, and balance those interests?</i>		
		<i>If the County is to grow and traffic to be limited, the areas around Metro stations and other mass-transit facilities must be built up in a manner that encourages people to live, work, shop and entertain themselves within walking distance. The above idea can be implemented by limiting the number of parking spaces in building garages.</i>	Bruce Shulman	
	<b>Vision--Flexible.</b> Residents have a variety of choices when selecting their preferred community setting and housing type. The bulk of new residents live in more dense, urban areas. Concentrating new growth in already developed areas makes the best use of the county's available land and infrastructure, and helps to protect the environment. Flexible regulations and zoning controls result in a vibrant mix of residential and commercial uses. (p. 47)	<i>WMCCA Comment: We object to the concept of "flexible regulations and zoning controls." We don't have flexible speed limits for a reason. We don't want an officer to say, "The speed limit is 25, but I'll be flexible and make it 45 for you, Mr. Jones." Regulations and zoning controls should be fixed, not flexible. The implication is that the Planning Board can change regulations and zoning controls based on a whim or developer influence.</i>	Kenneth Bawer for West Montgomery County Citizens Association	
		Throughout the Plan, reference is made to focusing on infill and redevelopment. WSSC Water cannot comment on the impact that this policy will have on the capacity of the water and sewer systems which serve the County without specific data provided. This data would need to include an update from the latest COG Demographic Projections	WSSC Water	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		Round 9.1, broken down by Transportation Area Zones that reflect the increase in business and housing proposed from the latest 2045 Round 9.1 projections. Piecemeal Sector plans do not allow for a comprehensive county-wide analysis required. If such data is available, please know that it will take several months for us to analyze using our computerized hydraulic models of the water and sewer systems if our budget allows.		
	<p>Goal 7.1: Focus growth on infill development and redevelopment concentrated around rail and BRT.</p> <p>Goal 7.2: Transform land uses surrounding rail and BRT corridors to accommodate future population growth and varied lifestyle preferences in attractive, walkable, and mixed-use communities.</p> <p>Goal 7.3: Manage growth and development as a mature, built-out county by maximizing use of constrained land and identifying innovative solutions to deliver public facilities and infrastructure.</p>	<i>Goals 7.1, 7.2 and 7.3 should be deleted since the subject is already covered in under the Complete Communities element.</i>	Dan Wilhelm for Greater Colesville Civic Association	
		<i>Goal 7.2 – Urban-centric doesn’t address the reality of existing neighborhoods. Action 7.2.2.c – How?</i>	Marilyn Balcombe for Germantown Chamber of Commerce	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Changing the plan for development into an urban county does not recognize the single-family land uses, small business and commercial land use, the agricultural land uses, and the open space spaces land uses. The plan needs to provide for all land uses in Montgomery County.</i>	Quentin Remein, Michele Albornoz, Linda and Gay Mullings	
		<i>Title. The title for this element needs to be changed to Agriculture Reserve.</i>	Dan Wilhelm for Greater Colesville Civic Association	
		<i>Food is a basic human right, and the food system is deeply connected to all aspects of a resident's life. Thrive 2050 should reflect this, by applying a food system lens to each of the plan elements, and by drawing insight from diverse County stakeholders when considering health equity and food justice, economic opportunity, and environmental resilience.</i>	Catherine Nardi and Heather Bruskin for MC Food Council	
	Regarding "Location of Growth."	<i>It may be valuable to explicitly list some of the transit stations where growth will be focused, the connections between them, and the existing network of major corridors.</i>	MDOT	
		<i>The one question we raise, is the statement at page 38 referring to concentrating "all new growth" along transit corridors. This seems to be a bit of an overstatement given the diversity of housing and employment choices affected by societies since the beginning of time. While there have been ebbs and flows with respect to interest</i>	Griffin Benton, MBIA	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>levels in urban, suburban and rural locations, each has its followers, and all are necessary.</i>		
	Regarding “an aging readiness functional master plan.”	<i>The MDOT MTA supports the focus on planning for the transportation needs of older adults</i>	MDOT	
		<i>Silver Spring is at the hub of Metrorail, numerous buses, MARC, and the future Purple Line. This means that it should be the focus of future attempts to bring major projects, such as the bid to bring Amazon to Montgomery County. For instance, MARC would make it easy to live in Baltimore and work in Silver Spring, a strong selling point for future projects.</i>	Ethan Goffman, Rockville	
	Growth around metro stations and mass-transit facilities	<p><i>If the County is to grow and traffic to be limited, the areas around Metro stations and other mass-transit facilities must be built up in a manner that encourages people to live, work, shop and entertain themselves within walking distance.</i></p> <p>Limit the number of parking spaces in multifamily buildings very close to transit, construct multi-purpose buildings containing retail on the lower floors, offices in the middle and housing at the upper levels.</p>	Bruce Shulman	
		<i>While the October draft plan has strengthened the support for the Agricultural Reserve overall, there remains the need for much greater review and input</i>	TAME Coalition	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>from producers in the Ag Reserve. The Council's and Planning Board's support for commercial solar in the Ag Reserve must be reversed, since solar developers are offering tenfold and greater land rents, and farmers are being priced off of the land they now farm.</i>		
	Policy 7.4.3: Increase public awareness of the agricultural, environmental, and economic benefits of the Agricultural Reserve and better connect communities throughout the county to this vital resource through public education and outreach, school programs, and fostering agritourism and ecotourism.	<i>Policy 7.4.3 The government should not be in the business of increasing public awareness, except as part of MCPS education.</i>	Dan Wilhelm for Greater Colesville Civic Association	
		<i>The plan lacks a complete analysis and policy recommendations on the pros and cons of continuing or changing the systems in place in the Agricultural Reserve. Reserve stakeholders have frequently expressed concern regarding the absence of specificity in long-term commitments to protect the Reserve in the Thrive 2050 update, and Planning should address that need proactively.</i>  Also net zero forest loss, net zero buildings, stronger climate change policies, and metrics and implementation.	Denisse Guitarra for Audubon Naturalist Society	
	Rustic roads	<i>While it is understandable that the focus of the Draft is on corridors linking the developed areas of the County, the committee believes that rustic roads deserve mention in the Draft as they</i>	Robert J. Tworowski, Chair	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>provide access to and links between the rural areas of the County, most notably the Agricultural Reserve.</i>	Rustic Roads Advisory Committee	
	Add:	<i>Add the following action: 7.4.3.1: Promote the County's rustic roads as the primary means for the public to access the Agricultural Reserve and thereby not only achieve the desired awareness of its agricultural, environmental, and economic benefits through direct experience, but also come to appreciate the many opportunities for personal benefits from access to health-enhancing nature, outside recreation, and artistic experiences.</i>	Robert J. Tworkowski, Chair, Rustic Roads Advisory Committee	

## Design, Arts and Culture

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>This chapter, placed toward the end of the plan, doesn't add much that hasn't already been said. We believe it would be most beneficial for this section to focus on the policies that support diverse and adaptable growth — including the county's tax regime, review/permitting processes, and adequate public facilities ordinance — in addition to the Agricultural Reserve. Moreover, most of this chapter is focused on the Agricultural Reserve without making a strong argument about how it should be used in the future. How can the Agriculture Reserve best help us meet our environmental, health, land use, economic, and food production goals, and balance those interests?</i>	Jane Lyons for Coalition for Smarter Growth	
		<i>In general, while we respect that these introductory sections were written through a highly collaborative process and reflect many voices, we feel a final round of editing might result in a more cohesive statement.</i>	Todd Bressi for Arts and Humanities Council	
	Issues and challenges	<i>This is a series of ideas that might better be bullet points, if that style is allowable here.</i>	Todd Bressi for Arts and Humanities Council	
		Numerous edits in the narrative section of the chapter.	Todd Bressi for Arts and Humanities Council	
		Planning Director Wright in her speeches seems to rely quite a bit on "great design."	Jean Cavanaugh, Silver Spring	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		However, our county doesn't have a form based zoning code or any other mechanism that requires a builder to build anything other than to the envelope (height, setback, FAR) defined. Establish local design guideline panels (implemented through master and sector plans, not the general plan) that have more teeth than the Bethesda model has, or we won't get "great design."		
	Update the Locational Atlas of Historic Resources	<i>The draft plan currently requires a program to periodically catalog “building types in the county with a high risk of obsolescence,” but it does not currently include a requirement for a systematic review and updated survey of the County’s historic, and potentially historic, resources. ADSW believes it is absolutely critical for the Planning Board to add an Action Step under Goal 8 that would require more regular and systemic maintenance of the Atlas by the Historic Preservation staff to avoid a piecemeal approach and help prevent regrettable oversights until it is too late. Adequate funds need to be appropriated and allocated to enable them to document and inventory the list of historic resources for the Locational Atlas and Index. The Atlas must include midcentury buildings that are now of such as age as to be considered historic.</i>	Deborah Chalfie, Board member Art Deco Society of Washington	
		We need to rethink public spaces to make them gathering spaces, which can be done	Sebastian Smoot, Burtonsville

		by neighborhoods doing their own placemaking events.		
		<i>As with green space, recreation, and commerce, art and culture (i.e.: performances) should be interwoven into everything. Consider it as a lens for development approval: is the development within range of a venue? Does it have opportunities for local artists to put their stamp on it? Does it leave room for purely aesthetic and recreational engagement?</i>	Edmund Morris	
	page 33 of the public hearing draft: “Whether in urban, suburban or rural settings, the density and scale of compact development can vary to reflect the desired community character.”	<i>it is interesting to see the guidance for rural communities and to reflect on what it means for Ashton’s rural village center. The plan espouses the compact form of development. The SSARPC certainly doesn't want sprawl in Ashton, but we would like the Planning Board and the County Council to heed what is written on page 33 of the public hearing draft: “Whether in urban, suburban or rural settings, the density and scale of compact development can vary to reflect the desired community character.”</i>  <i>We believe that the design guidelines and maximum height and density proposed in the Ashton Village Center Sector Plan could reflect such a character. However, what the land owner and developer of the southeast quadrant requests will not look or feel rural.</i>	Amy Medd for Sandy Spring Ashton Rural Preservation Consortium (SSARPC) for Sandy Spring Ashton Rural Preservation Consortium (SSARPC)	
	8.1: Use design to shape Montgomery County as a collection of world class	<i>Our question to you and your staff is where is the rural end of the transect? The kind of suburban development that has been</i>	Amy Medd for Sandy Spring Ashton Rural	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	towns, cities and rural villages with neighborhoods that celebrate their history, geography, and culture.” Action 8.1.1.a: Create a countywide urban design vision and guidelines for growth using a rural-to-urban transect.	<i>happening in Sandy Spring at Thomas Village and Porter Road in Ashton do not fit a rural definition of design. Is the whole county going to become one monolithic townhouse development after another?</i>	Preservation Consortium (SSARPC)	
	Goal 8.1: Use design to shape Montgomery County as a collection of world-class towns, cities and rural villages, with neighborhoods that celebrate their history, geography, and culture.  Goal 8.5: Sustain an arts and culture ecosystem that enriches the lives of county residents and the vitality of its communities, supporting <i>Thrive Montgomery 2050's</i> strategic goals for economic health, community equity, and environmental resilience.	<i>Goals 8.1 and 8.5. The county can encourage art and culture in new development but it should not be part of the regulatory process. The way to do this is create a guide that developers could use if they desire. What is attractive for one person may not be for someone else. Also tastes change over time so regulating it would lock in something that will get dated.</i>	Dan Wilhelm for Greater Colesville Civic Association	
		<i>Add a new policy: Policy 8.1.2: Use public art tools to strengthen the involvement of artists in planning and design of county facilities and private development, and to recognize the diverse cultures of communities throughout the county.</i>	Todd Bressi for Arts and Humanities Council	
	Goal 8.2: Create and preserve great places with attractive streets and public spaces, inspired urban design, and high-quality architecture that delivers lasting beauty.	<i>Goal 8.2. This largely deals with parks and that entire subject needs to be part of the Healthy and Sustainable Environment element.</i>	Dan Wilhelm for Greater Colesville Civic Association	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Policy 8.2.1: Ensure high quality design for all public and private architecture, infrastructure, and open space projects using design guidelines, design advisory panels, and other tools. Make design excellence a priority, even when cost saving measures are considered. Use design competitions for major new civic facilities to create the highest-quality public structures that are a source of civic pride.	<i>Should “Use design competitions for major new civic facilities to create the highest-quality public structures that are a source of civic pride.” be an action?</i>	Todd Bressi for Arts and Humanities Council	
		<i>Add a new action: Action 8.2.1.c: Collaborate with the Public Art Trust to improve coordination for public art in county construction and to develop standardized public art interventions for basic infrastructure elements.</i>	Todd Bressi for Arts and Humanities Council	
	Page 117, Policy 8.2.1. “Make design excellence a priority, even when cost saving measures are considered.”	<i>We strongly disagree with this prioritization of values. Affordability and sustainability should be prioritized before subjective design considerations.</i>	Jane Lyons for Coalition for Smarter Growth	
		Modify the text as follows: <i>Policy 8.2.5: Use <b>public art and placemaking activities tools</b> to engage residents in higher levels of social interaction in public spaces. Create public spaces that <del>are welcoming and encourage all residents to gather and interact in ways that build a sense of community.</del> <b>support the cultural and social practices of the people will use them, provide for equitable access and use, and generates respect for diversity while building community.</b></i>	Todd Bressi for Arts and Humanities Council	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>Add a new action: Action 8.2.6.b: Expand access to professional resources in anthropology, ethnography, public history and related fields to support community placemaking projects.</i>	Todd Bressi for Arts and Humanities Council	
	Goal 8.3: Use design as a tool to avoid and mitigate the negative effects of climate change.	<i>Goal 8.3. This goal talks about the environment and it needs to be part of Healthy and Sustainable Environment element.</i>	Dan Wilhelm for Greater Colesville Civic Association	
		<i>In 8.3.3 a. Add “most all buildings and projects should be net-zero by 2027, consistent with the county goal of an 80% reduction in GHG emissions by that year.”</i>	Herb Simmens	
	Regarding Action 8.3.3.c.	<i>Consider expanding the street tree-planting program to include all infrastructure improvements, not just bicycle and pedestrian facility improvements.</i>	MDOT	
	Action 8.4.1.a urges the creation of “incentives for projects that adaptively reuse at least 50% of an existing structure or preserve at least 50% of all existing building materials on site”	<i>Mitigation and offsets are also welcome. However, also within this same action step is permission to “fast track” projects that may demolish up to 50% of an existing structure or building materials, and the floor of protection is incentivized, but not required. ADSW is concerned that the 50% standard could lead to façadism and mismatched hybrids that technically meet the standard but violate the integrity of the original building and satisfy no one. We urge the Planning Board to strengthen the adaptive reuse action steps to reference the importance of taking a holistic view of projects, and to require the preservation</i>	Deborah Chalfie, Boardmember Art Deco Society of Washington	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>standard to be higher when a lesser standard would undermine the integrity of the original building or the end product as a whole.</i>		
	Goal 8.4: Make buildings in the county more resilient to disruption through flexible design and high adaptive reuse potential.  Goal 8.6: Ensure all communities benefit equitably from good design, regardless of their location or demographics.	<i>Goals 8.4 and 8.6. The design is a function of the private sector not the regulatory public sector and thus needs to be deleted from this document.</i>	Dan Wilhelm for Greater Colesville Civic Association	
		<i>Added text highlighted in red: Action 8.5.1.c: Create a new Public Art <b>Trust</b> Master Plan that guides the provision of public art and better aligns it with planning processes, development review, capital project budgeting, <del>and</del> county services <b>and Thrive Montgomery 2050 policies regarding the design of county facilities. The plan should also examine the applicability of an expansive view of public art practice — including civic practice, social practice and creative placemaking — and consider the management of the county’s expansive legacy public art collection.</b></i>	Todd Bressi for Arts and Humanities Council	
		<i>This element needs to be deleted since after the above changes, there is nothing remaining.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	Page 123, Action 8.5.6.c “Amend the Zoning Ordinance to make public art a prerequisite of receiving incentive density within the Commercial/Residential and	Density, given its core importance in achieving the county’s vision of future growth, should not be held as a bargaining chip for public art.	Jane Lyons for Coalition for Smarter Growth	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
	Employment Zones.”			
	Update the Locational Atlas of Historic Resources	<i>The draft plan currently requires a program to periodically catalog “building types in the county with a high risk of obsolescence,” but it does not currently include a requirement for a systematic review and updated survey of the County’s historic, and potentially historic, resources. ADSW believes it is absolutely critical for the Planning Board to add an Action Step under Goal 8 that would require more regular and systemic maintenance of the Atlas by the Historic Preservation staff to avoid a piecemeal approach and help prevent regrettable oversights until it is too late. Adequate funds need to be appropriated and allocated to enable them to document and inventory the list of historic resources for the Locational Atlas and Index. The Atlas must include midcentury buildings that are now of such as age as to be considered historic.</i>	Deborah Chalfie, Boardmember Art Deco Society of Washington	
	Action 8.5.2.c	Add the text in red: <i>Action 8.5.2.c: Develop strategies, in collaboration with arts advocacy partners, for building arts capacity as a component of economic development, housing, social service and other community-based organizations.</i>	Todd Bressi for Arts and Humanities Council	
	Action 8.5.4.a	Addition in red and deletions in strike through. <i>Action 8.5.4.a: Create an “arts space bank” of underused spaces and a non-profit entity that will facilitate the use of these spaces</i>	Todd Bressi for Arts and Humanities Council	

No.	Issue/Topic Area	Comment	Commenter	Staff Response
		<i>by artists and allow arts and culture organizations to manage them via an arts and culture non-profit. The “arts space bank” could include new or existing county facilities (such as community centers, libraries, and schools) and as well as underused commercial (office, retail) and institutional buildings.</i>		
	Policy 8.5.5	<i>Policy 8.5.5: Include recommendations promoting public art, cultural spaces, and cultural hubs in all future sector plans and, when applicable, functional plans.</i>	Todd Bressi for Arts and Humanities Council	
	Action 8.5.6.b	<i>Action 8.5.6.b: Develop a policy, in collaboration with arts advocacy partners, for allocating funds from the Public Art Trust into county construction projects, such as buildings, parks, transportation infrastructure, public schools and Montgomery College.</i>	Todd Bressi for Arts and Humanities Council	
	Policy 8.5.8: Implement recommendations of the county’s Public Art Roadmap in partnership with arts advocacy organizations.	<i>Should this be an action, under Policy 8.5.6?</i>	Todd Bressi for Arts and Humanities Council	

## Implementation

No.	Issue/Topic Area	Comment	Commenter	
		With slow job growth and reduced revenues project for many years to come, how will the county fund improvements and provide <i>reliable and efficient transit, schools, utilities, healthcare facilities, parks, libraries, athletic fields, and community centers among other facilities that would be necessary to support new “Complete Communities” featuring “Fifteen Minute Living.”</i> ... how the County will be able to afford retrofitting existing established neighborhoods with the infrastructure and amenities that they currently lack to turn them into “Complete Communities.”	Melanie Rose White, Chair Citizens Coordinating Committee on Friendship Heights	
		<i>Page 128 (Partnership for implementation): The Draft Plan should include “cities and municipalities in Montgomery County” in the list of the partnership entities. The Draft Plan may also include a brief discussion on the need for the interjurisdiction coordination to help with Plan implementation.</i>	MDP	
		<i>What are the expectations for “partners” in the implementation of Thrive Montgomery? We noticed that municipalities were not listed among the potential partners.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
		The following comments relate to the actions listed in the Implementation Guide published as a separate document:	MDP	

No.	Issue/Topic Area	Comment	Commenter	
		<ul style="list-style-type: none"> <li><i>o Page 5 (refer to 3.4.1.a) could include MDOT Agency Roles</i></li> <li><i>o Page 5 (Refer to Action 4.5.3.a): Could include ZEEVIC in Agency Roles.</i></li> <li><i>o Page 6 (Refer to Action 4.5.1.a): Could include BRTB in Agency Roles.</i></li> <li><i>o Page 7 (Refer to Action 6.2.2.a): Could include MDE in Agency Roles.</i></li> <li><i>o Page 7 (Refer to Action 6.5.2.a): Could include the Maryland Department of Natural Resources (DNR) in Agency Roles.</i></li> <li><i>o Page 8 (Refer to Action 6.5.2.d): Could include DNR in Agency Roles.</i></li> <li><i>o Page 7 (Refer to Action 6.2.2.b): Could include ZEEVIC in Agency Roles.</i></li> <li><i>o Page 11 (Refer to Action 4.8.2.a): Could include the Maryland CAV Working Group in Agency Roles.</i></li> </ul>		
		<p><i>It should be noted that Montgomery County has a Sustainable Community Action Plan. As part of the Sustainable Community designation, quality of life, environment, economy, transportation, housing and local planning and land use are all subjects of the Action Plan. Planning [MDP] suggests the county review the Action Plan for consistency with the Draft Plan and consider if any of the actions support implementation of the Draft Plan.</i></p>	MDP	
		<p><i>Staff and commissioners have stated the plan will give them tools they do not now have – these tools need to be explicitly identified. For full transparency, the plan</i></p>	Naomi Spinrad, Chevy Chase West	

No.	Issue/Topic Area	Comment	Commenter	
		<i>should state clearly what additional tools are necessary and why, and how they will be used.</i>		
		<i>Utilize Master &amp; Sector Plans for implementation as well as design excellence standards; and update the Implementation Plan so that it reflects the realities of COVID-19.</i>	Andy O'Hare, President EBCA	
	Need for metrics to assess implantation and success of the Plan	<p><i>Because this plan is moving forward despite the fact that it is based on pre-Covid-19 data and assumptions, there must be a point early in the plan – at 3-5 years in – to reevaluate whether the underlying assumptions and policies flowing from them are still valid. The plan should include a section listing all the elements that might be affected and what adjustments might need to be made as a result of this reevaluation.</i></p> <p><i>As important, timelines and signposts need to be included for everything. How many additional housing units in how many years, located where. Priorities for transit routes, to be completed in what period. Eliminating food deserts, by what means, where, how soon. Restoration of tree canopy, by numbers of trees or acreage and locations as well as timing. And so on. Every metric allows for adjustment depending on success, so the measurement intervals must be clear.</i></p>	Naomi Spinrad, Chevy Chase West	
		Metrics and Implementation: We recommend that the plan incorporates	Denisse Guitarra	

No.	Issue/Topic Area	Comment	Commenter	
		clear and more specific metric requirements to ensure that the policies and actions stated in the plan are enforced.	for Audubon Naturalist Society, David Helms, Pedestrian, Bicycle, Transportation Safety Advisory Committee, Rachel Taylor, Katherine Lucas McKay, Silver Spring	
		<i>Create implementation metrics now: We should not wait until two years have passed after the completion of Thrive to establish metrics for measuring the plan's success. Our itemized comments below offer recommendations for high-level metrics.</i>	Jane Lyons for Coalition for Smarter Growth	
	Without economic analysis, it is difficult if not impossible to set priorities	<i>Metrics play a role as well in economic analysis. It is possible to estimate what creating a particular BRT route will cost given conditions along the route and the level of sophistication in the buses and service. Different types of housing can be costed out in different locations. Figures may vary depending on how quickly goals are to be achieved. But in the absence of metrics and economic analysis, we are provided with nothing more than a vision. And without metrics, the executive cannot do its required economic analysis. And without both metrics and economic</i>	Naomi Spinrad, Chevy Chase West	

No.	Issue/Topic Area	Comment	Commenter	
		<i>analysis, setting realistic priorities is impossible.</i>		
		<i>Statements in this section about specific decisions that may or not be made in the future don't belong here.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	For example, implementing some of the transportation goals and policies may require the transfer of control of major roadways from the State Highway Administration (SHA) to Montgomery County to give the county more control over road design and function. (P. 126)	<i>Page 125. The text in the next to last paragraph about state roads needs to be deleted. The County should not take over control of state roads. The County is unable to adequately fund repair of county roads and adding state roads would require a major tax increase.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	<ul style="list-style-type: none"> <li>• Connectedness Chapter Action 2.2.2b calls for the development of a civic engagement toolkit to guide the civic engagement plan for each master plan.</li> <li>• Resilient Economy Action 3.3.2 calls for an update to the master planning process to include the development of employment objectives and the assessment of plan scenario employment impacts. Different areas of the county support different levels of employment, so the employment objectives will need to be considered specifically for each master plan.</li> </ul>	<i>Page 126. The two bullets under master plans need to be deleted since our recommendation is to move all actions to an appendix as possible work programs. Employment objectives don't belong in master plans since the government can't control them.</i>	Dan Wilhelm for Greater Colesville Civic Association	
	Page 126-128, Tools to Implement the General Plan.	<i>The county's adequate public facilities ordinance, the Growth and Infrastructure Policy, should be listed here.</i>	Jane Lyons for Coalition for Smarter Growth	

No.	Issue/Topic Area	Comment	Commenter	
	<p>Page 129-130, Performance Measures. “The Plan recommends developing baseline performance measures as a Montgomery Planning work program item within two years of Plan adoption.”</p>	<p><i>We strongly disagree with this. What gets measured gets done, and Montgomery County cannot wait for two years to get started on Thrive’s implementation. Therefore, we encourage you to create baseline performance measures in the next draft of Thrive. In our testimony on the draft vision, goals, policies, and actions, we recommended emphasizing the following when selecting metrics:</i></p> <p><i>i. life outcomes of residents — the Montgomery of 2050 should not be a place where income, race, ethnicity, gender identity, or zip code are determinative of health, wealth, or educational outcomes;</i></p> <p><i>ii. vehicle miles traveled and average residential distance from high-frequency transit;</i></p> <p><i>iii. greenhouse gas and carbon emissions, by sector; and</i></p> <p><i>iv. integration — whether our neighborhoods and communities include residents of different incomes, races, ethnicities, ages, etc.</i></p>	<p>Jane Lyons for Coalition for Smarter Growth</p>	
	<p>Pages 126/127: Tools to implement the General Plan</p> <p>Pages 132-134: Action examples: Additional data collection and studies</p>	<p><i>Pages 126/127/132-134. These sections need to be deleted and placed in an appendix.</i></p>	<p>Dan Wilhelm for Greater Colesville Civic Association</p>	

No.	Issue/Topic Area	Comment	Commenter	
	<p>Action examples: New plans, updates to existing plans and Zoning Ordinance</p> <p>Action examples: Creation of new tools and guidelines</p> <p>Action examples: New programs</p>			
	<p>Facilities plans:</p> <p>Thrive Montgomery 2050 includes guidance that applies specifically to the design, placement, and funding of public facilities. Future planning for public facilities, including county government facilities, park facilities, public schools, and Montgomery College, should reflect this guidance and direction in order to ensure they are compatible with and help implement the goals of Thrive Montgomery 2050.</p>	<p><i>Page 128. The discussion on facility plans needs to be deleted since the Planning Board reviews them under mandatory review when public facilities are getting ready to be implemented. Master Plans provide guidance before that.</i></p>	<p>Dan Wilhelm for Greater Colesville Civic Association</p>	
	<p>As a document whose primary function is to guide land use the draft plan is very short on information about how to identify sites for parks and green space, schools, and other public facilities and services.</p>	<p><i>Do you envision eliminating adequate public facilities requirements? If not, more attention must be paid in the plan to how to provide for these.</i></p>	<p>Naomi Spinrad, Chevy Chase West</p>	
		<p><i>The plan does not provide that the infrastructure enhancements are completed before the plan is enacted. Public transportation, adequate public facilities, and schools need to be in place before the plan is enacted. The Council recently approved legislation that allows new development to proceed without needed infrastructure improvements. We need this infrastructure to be completed first!</i></p>		

No.	Issue/Topic Area	Comment	Commenter	
		<i>How will the county pay for all of the elements of this plan and in particular the Complete Communities when estimates of lost revenue for the county have grown increasing larger as this year has progressed?</i>	Phyllis Edelman	
	Funding for schools	<i>First, having attended public schools in the County, I know that maintaining an excellent public school system is crucial to the ensuring that people can thrive in this County, and in the face of global competition. So, I applaud the plan for repeatedly emphasizing the need to facilitate access to schools at all levels. I might urge the County to ensure that funding goes to build as many schools as possible to avoid overcrowding and – given current trends – to take all relevant steps necessary to ensure students have access to computers and the Internet to be able to receive excellent education virtually.</i>	Alain Norman, Silver Spring	
		<i>The draft Plan will be expensive to implement so the County should specify payment plans for public facilities, pay more attention to how existing disadvantaged and low-income communities specifically will gain better access to transit and other amenities, coordinate with MCPS, Police and Fire &amp; Rescue, and build in equity so that Complete Communities are available throughout the entire County.</i>	Andy O'Hare, President EBCA	
	Specify Payment Plans for Public Facilities	<i>The Plan should address how the County will pay for decentralized public facilities.</i>	Todd Hoffman	

No.	Issue/Topic Area	Comment	Commenter	
		<i>Throughout the draft Plan there is lack of clarity regarding 15-minute living in general and 15-minute access to public facilities in particular. The draft Plan encourages co-location of “essential services such as schools, medical clinics, daycare centers, libraries and recreation centers within communities”. While the County in some instances does currently provide for co-location, it has an extensive range of centralized facilities, including swim centers, sports centers, motor vehicle offices, and immersion programs in schools. The draft Plan appears to be reversing this centralization and sharing of public facilities by calling for decentralizing these services so that residents have 15-minute access. Regardless of how the Plan ultimately defines 15-minute living, building and operating these decentralized facilities will add significant costs to the County’s budget and should be addressed as part of the draft Plan.</i>	for Coalition of Incorporated Municipalities and Community Organizations	
	Coordinate with School Facilities and Programs	<i>We recommend that the Planning Board work closely with MCPS and the Board of Education to determine if decentralization of middle and high schools, plus the possible termination of magnet and immersion programs, is in the best interest of the County and its students.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
	Prioritize Equity	<i>Public facilities are not equitably distributed throughout the county. The draft Plan should prioritize adding missing public facilities to disadvantaged neighborhoods</i>	Todd Hoffman for Coalition of Incorporated Municipalities	

No.	Issue/Topic Area	Comment	Commenter	
		<p><i>and upgrading the facilities currently in those neighborhoods. Transforming existing single-family neighborhoods near rail and BRT transit into Complete Communities will, in many places, involve improving access to public facilities such as libraries, recreation centers, schools, parks, government offices, and natural green spaces, among other things. This improved access may necessitate construction of new facilities. Transforming existing neighborhoods near transit into Complete Communities appears to be the draft Plan’s priority. However, some of these neighborhoods are already more amenity rich than many of the County’s disadvantaged neighborhoods. Given budgetary constraints, it seems unlikely that improvements can be made in all neighborhoods simultaneously. To better serve those with greatest need in the County, the priority should be to make improvements in the neighborhoods with the greatest socioeconomic needs and the poorest access to those services.</i></p>	<p>and Community Organizations</p>	
	<p>Coordinate with Police and Fire Protection Services</p>	<p><i>We recommend that the Planning Board work closely with representatives of MCPD, County and local Fire Departments to ensure that the Plan does not adversely impact public safety and fire protection services. Historically, there is a strong relationship between population density and the need for police and fire and emergency services. Decentralization may require expenditures for land acquisition</i></p>	<p>Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations</p>	

No.	Issue/Topic Area	Comment	Commenter	
		<i>and construction; how it might affect staffing is unclear. We believe extensive additional input is needed from MCPD, MCFRS, and private fire departments regarding urban, suburban, and rural Complete Communities and the most effective, cost-efficient deployment of these services.</i>		
		<i>Page 131. Delete the “getting started” discussion since it is setting actions. The previous discussion indicated the Thrive plan sets the vision and not actions.</i>	Dan Wilhelm for Greater Colesville Civic Association	
		It would be helpful to explain the evaluation process, albeit briefly, in the main document as well as having an extensive explanation in a separate document. The public needs to know how the county is tracking progress toward its goals and what the timetable is for evaluation.	League of Women Voters of Montgomery County	
	Use Master Plans and Sector Plans	<i>We strongly urge that zoning changes be established through a Master Plan or Sector Plan approach and not through a global ZTA approach. Implementing changes to housing and uses in neighborhoods through a Master Plan or Sector Plan is more appropriate than other approaches because the County’s neighborhoods have such varied characteristics – one size does not fit all. This approach also allows communities and planners to have a dialog based on the actual experience of living and/or working in a neighborhood as decisions are made about changes to the physical</i>	Todd Hoffman, for Coalition of incorporated municipalities and community organizations	

No.	Issue/Topic Area	Comment	Commenter	
		<i>characteristics of the neighborhoods (see item 5 in the Complete Communities section).</i>		
	Move Design Excellence Criteria to Other Plans	<i>Design excellence should be addressed in Master and Sector Plans rather than in Thrive Montgomery. The promotion of design excellence in public buildings is a commendable goal but is beyond the scope of a general plan such as Thrive Montgomery. This goal is not clearly defined in the draft Plan and can be subject to changing trends and individual opinion; for these reasons we urge that it not be imposed on a community through the Plan. Within each Master or Sector Plan, a panel including relevant experts and community representatives, with input from neighboring properties, should be part of the design excellence process. Also, design guidelines should not be used in place of zoned density, but rather to enhance the aesthetic appearance of allowed density.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
	Improve Implementation Timeline	<i>The implementation timeline should reflect the realities of obtaining financing to build the new mass transit, bicycle routes, sidewalks, parks, greenways, and decentralized public facilities that will be needed to create Complete Communities across the county and make the Plan a success. The timeline must include metrics to measure progress and success.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
		<i>The Plan should explain the impact its adoption will have on existing Master Plans and Sector Plans. Will recently adopted</i>		

No.	Issue/Topic Area	Comment	Commenter	
		<i>Master and Sector Plans be revised to reflect the Goals, Policies, and Action items in the Plan?</i>		
	Timeline	<i>Add a five-year checkup to review the impact of the pandemic on long term plans</i>	Jean Cavanaugh, Silver Spring resident	
	Fiscal Impacts/Tax Burdens	<i>The plan suggests increasing the recordation tax, something already included in the Growth Policy. It also recommends split-rate property taxes but does not explain whether or how that might affect owners of single-family properties if there is ultimately any rezoning of such properties. These and any other revenue-raising considerations need to be addressed.</i>	Naomi Spinrad, Chevy Chase West resident	
	Add Financing Strategies	<i>We recommend that the draft Plan include high-level fiscal analyses or associated financing and investment strategies that address how amenities will be added to all communities around the County so that they become Complete Communities</i>	Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations	
		The document does not include financing or a revenue model. I'd like to see a breakdown of our tax bases in the coming decades. Identify what will we promote, protect, or grow.	Peter Rizik	
	Share the Costs Between Developers & Residents	<i>The draft Plan should indicate how the costs of achieving the goals of the Plan will be shared between developers and residents.</i>	Todd Hoffman for Coalition of Incorporated Municipalities and	

No.	Issue/Topic Area	Comment	Commenter	
		<i>Constructing Complete Communities will put a great burden on the public treasury to provide (duplicative but equitable) public facilities for all communities. It is unclear where the vast sums that will be needed to fund the many capital improvement projects called for in the draft Plan will come from.</i>	Community Organizations	
		Complete communities is an attractive idea but it is not feasible. Instead, planning should focus on reviewing development regulations to provide developers with certainty and clarity, the duration of the process, what is and isn't allowed, and all the monetary costs they should expect (like school impact fee schedules). Community input should be primarily at the planning phase, and not be required for projects that fit into planning vision for an area.	Salim Furth, Takoma Park	
		<i>Perhaps most significantly, the draft Plan fails to recognize that the County is suffering from severe constraints on its operating and capital budgets, likely for many years to come. According to the County Executive's office, a \$1 billion deficit in the County budget is projected by the end of the next six years. The County has also had sluggish job growth over the last 15 years, which has stood at 5% annually. By comparison, job growth in similar counties has grown by 21%. Maryland has lagged Virginia in job growth and as of early this year, Prince George's County</i>	Melanie Rose White, Chair Citizens Coordinating Committee on Friendship Heights

		<p><i>exceeded Montgomery County in job growth.</i></p> <p><i>We also question how the County will be able to afford retrofitting existing established neighborhoods with the infrastructure and amenities that they currently lack to turn them into “Complete Communities.” The draft Thrive Montgomery Plan will require a great deal of capital investment in new or existing County communities to achieve the Plan’s goals. These funds, however, are not now available, and are unlikely to be available in the near or mid-term future, without substantial County tax increases.</i></p> <p><i>Finally, we note that the draft Plan assumes that “If you build it, they will come.” This assumption won’t work, however, unless a significant number of new jobs are created. In view of its staggering costs, which businesses would not want to absorb, there is a significant likelihood that this plan will exacerbate Montgomery County’s failures in job growth. This County, with its low job growth rate and looming revenue deficits, needs to focus on incentives and incubator policies that will bring industry and business to the County. Fill those empty office buildings with businesses and startups.</i></p>

		<p><i>From an economic standpoint, establishment of complete communities and 15-minute living in the next 30 years seems not just visionary, but fantastical. Currently, the County does not have sufficient funds to update its schools, libraries, recreation centers, much less build new ones. Nor does the County have sufficient funds to build the sidewalks and bike lanes currently needed (e.g., sidewalks to get passengers to Purple Line stations). There also are no funds to significantly expand our transit system. The County has finally managed to open the BRT route on Rt. 29, but that took years and there is no money to implement other BRT routes that have been on the list for years, to expand MARC service, etc. We cannot expect Montgomery County to thrive under this new general plan if it does not have a sound economic footing.</i></p>	<p>Deborah Ingram, Chevy Chase</p>	
		<p><i>There is a lack of acknowledgement of COVID-19's impact on our economy, public revenue deficits, transit use changes, work preferences and lifestyle; in addition, there appears to be an unsupported premise that increased Missing Middle housing stock creates Complete Communities and no attempt in giving equal weight to the importance of job creation, transit, and housing; furthermore, there is a glaring omission of strategies for how public revenue will substantially increase in order</i></p>	<p>Andy O'Hare, President EBCA</p>

		<i>to fund decentralized public facilities, small local schools, and transit infrastructure projects, and a dearth of strategies that attract new industries, companies and small businesses to the County.</i>
