|-----|------------------|---|-----------------|---|
| | | corridors have succeeded by growing very | | The W&C concept does not exist in its |
| | | differently from how that plan foresaw | | purest form. The footprint of the |
| | | them. The 1964 plan envisioned high- | | development today is a hybrid of the |
| | | density urbanized centers built on | | original W&C concept and |
| | | greenfields outside the Beltway. Downtown | | subsequent amendments. It is a |
| | | Bethesda and Silver Spring were to remain | | reality that cannot be denied. Figure |
| | | low-density commercial districts serving the | | 1 on page 10 of the draft Plan reflects |
| | | surrounding neighborhoods. | | that reality. Just as the '93 Plan |
| | | | | reflected where the county was in |
| | | Despite verbal nods to transit, the plan | | '93, the "web of corridors" map |
| | | foresaw a county designed around | | proposed by the draft Plan reflects |
| | | automobile travel. The corridor cities are | | where we are in 2020. |
| | | pictured like denser versions of Tysons | | |
| | | Corner, built with wide streets around | | |
| | | expressways. The plan needs to explicitly | | |
| | | acknowledge the failures that we inherit | | |
| | | from that orientation. One of them is office | | |
| | | parks along I-270 that are full of empty | | |
| | | space. | | |
| | | Our vision for 2050 is a County that has | Kenneth Bawer | |
| | | maintained the green Wedges & Corridors | for West | |
| | | structure from the current General Plan | Montgomery | |
| | | rather than being "disappeared" from the | County Citizens | |
| | | current draft document. It is stated that | Association | |
| | | "Thrive Montgomery 2050 proposes to | | |
| | | reinforce this web of centers and corridors | | |
| | | by focusing growth around transit stations | | |
| | | and along the major corridors." | | |
| | | | | |
| | | Where exactly are the corridors and | | |
| | | centers? The first time that specific roads | | |
| | | are identified as being corridors is on p.76, | | |
| | | but it is unclear if these are all the proposed | | |
| | | corridors. | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|---|--------------|----------------|
| | | | | |
| | | It appears that we are doomed to a County | | |
| | | of all corridors and no Wedges. So, what | | |
| | | happened to the green Wedges? If the | | |
| | | wedges have disappeared, does that mean | | |
| | | that the County completely disregarded the | | |
| | | principles of the existing General Plan? | | |
| | | Does this mean that, no matter what is said | | |
| | | in the Thrive Montgomery 2050 plan, the | | |
| | | County will disregard this plan as well? We | | |
| | | need to go back to the Wedges & Corridors | | |
| | | concept which more clearly delineates | | |
| | | areas of development. | | |
| | | The 1964 Wedges and Corridors General | Marilyn | |
| | | Plan had a profound effect on the growth of | Balcombe for | |
| | | both Gaithersburg and Germantown, as did | Germantown | |
| | | the creation of the Agricultural Reserve. | Chamber of | |
| | | Those planning decisions created the | Commerce | |
| | | Upcounty as a great place to live and raise | | |
| | | a family. The 1964 General Plan and | | |
| | | subsequent area Master Plans envisioned a | | |
| | | strong commercial corridor along with a | | |
| | | balance of residential and retail land use. | | |
| | | While the residential and retail components | | |
| | | have come to fruition, the balance of | | |
| | | commercial enterprise is still lacking. | | |
| | | Given the new direction of the THRIVE | | |
| | | General Plan to focus on urban areas with | | |
| | | ready access to transit, the question | | |
| | | remains as to how the suburban | | |
| | | communities in the upper areas of | | |
| | | Montgomery County will "thrive". | | |

|-----|---|---|---|---|
| | | | | inform the development of the Working draft Plan released in September. |
| | Requests NOT to delay the project due to the Coronavirus pandemic | we cannot delay the work that this document details If COVID has taught us anything, it is the need to remain flexible and nimble. I would urge you to not chain yourself to a long list of prescriptions. Trust the sector plan process, and the hearings that follow, to do what they are designed to do. I certainly do at this point. Let the planners that come after you in the ensuing decades be inspired by concepts and ideals. Don't shackle them to tightly prescribed parameters We need to get started now. There is no sense in waiting until some perfect moment arrives and an encyclopedia-like document has been completed. Let's go, let's dig in. Let's begin to THRIVE right now. | Alison Gillespie | Staff concurs |
| | Relationship to the '93 Plan | There are numerous similarities between the 1993 plan refinements and the Public Hearing Draft Plan, but many important protections have been dropped from the PH Draft Plan. The new plan promotes many more desirable paths forward than its predecessors and if implemented take pressure off sensitive and strategic protected areas. Promoting preferred practices is not enough. Harmful practices must be banned or required to meet | Scott Plumer for Darnestown Civic Association | Thrive Montgomery 2050 articulates a long-term vision and a set of goals and polices to achieve that vision. It emphasizes the discontinuance and mitigation of past land use practices that created a pattern of sprawl. The detailed controls and guidelines to prohibit undesirable practices are contained in the regulatory framework including the Zoning Ordinance and other parts of the County Code. Thrive Montgomery |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|---|---|
| | | extremely difficult hurdles to be approved. Promoting infill and compaction near transit is not enough, you also have to protect against sprawl where it is likely to occur. | | contains multiple actions to update these regulations to help address a number of issues resulting from earlier land use practices. |
| | Provision of infrastructure to support new growth | With the passage of the new Subdivision Staging Policy on Monday, November 16 (now called the Growth and Infrastructure Policy), development may proceed without assuring adequate public facilities. Absent a timing or staging requirement to coordinate new infrastructure with new development, we have no way of assuring that public facilities will keep pace with future growth. | County Executive | Thrive Montgomery 2050 recommendations will be implemented through subsequent area master plans, countywide functional master plans and related sectional map amendments, district map amendments, zoning text amendments or other mechanisms approved by the County Council. Developments will be subject to local area master plan compliance and the Growth and Infrastructure Policy (GIP) requirements and guidelines, as amended by future Council Councils. Any specific assurances for timely provision of infrastructure and public services should be analyzed and included in the future master plans and GIP updates. |
| | Lack of discussion of the suburbs or rural areas. | The draft does not explain why this plan omits any discussion of the suburbs or rural areas. Will suburban and large lot rural areas still exist in 30 years, or is this plan proposing that for the next 30 years all development will be compact and dense? In the next draft, please clarify whether this plan still supports the geographic areas of Suburban Communities and the Rural Wedge as part of the future of this County. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Thrive Montgomery 2050 proposes to direct all future growth to transit station nodes along major corridors that have the infrastructure and other amenities to support this growth, instead of to rural and other low density areas of the county. See the "web of corridors" graphic on page 10 of the draft Plan. All other suburban and rural residential areas |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|---|---|---|
| | | If not, what does the plan support for those geographic areas? The plan should include a schematic map. | | beyond the 15-minute walking distance of these transit nodes will continue to exist. The idea of compact development applies to any new construction or redevelopment (upgrade of a strip shopping center, e.g.) in order to better utilize the limited land available for infill development outside of rural and other constrained parts of the county. The Planning Board draft Plan will further elaborate on what is envisioned for suburban and rural areas. |
| | Provide a map of future growth areas | The plan should include a schematic map to clarify whether this plan still supports the geographic areas of Suburban Communities and the Rural Wedge as part of the future of this County. A map that spotlights which proportion of urban, suburban and rural communities are to become Complete Communities with Missing Middle housing would be helpful. | County Executive, Jane Lyons, East Bethesda Citizens Association | These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft Plan. |
| | Identify new policies v current policies | The draft needs to clearly identify new policies originating in this draft. Right now, it is difficult to tell whether a policy recommendation is brand new or already being implemented. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Thrive Montgomery 2050 will incorporate best practices in planning policies reflected in recent master plans such as the Bicycle Master Plan as well as brand new innovative policies and action recommendations. |

|-----|---|--|---|---|
| | Need for an advisory committee | Support the Thrive draft Plan, especially the goals of compact growth, inclusion, and the corridors. More compact growth will allow for the population increase and support 15-minute living. The 15-minute living concept promotes the growing senior population, reduces auto use, and can be executed in all areas. Inclusion in diversifying neighborhoods is the key to promoting equity, and we should promote a range of housing types to accommodate that. Growth corridors are good for transit and density. Living, working, and going to school with people from different backgrounds is an advantage. In this time of a pandemic, however, it is difficult to have an interactive dialogue | Tina Slater Melanie Rose White, Chair | Staff concurs Staff believes that the outreach and engagement process employed to get |
| | | about such issues that deeply impact our communities. Perhaps there could be an advisory committee formed to discuss specific issues that would affect those neighborhoods where Thrive Montgomery would have the greatest impact? | Citizens Coordinating Committee on Friendship Heights | community feedback for Thrive Montgomery reached a large and diverse audience, especially those who are typically not involved in land use planning. The Plan's detailed impacts on local communities will be discussed during the subsequent master plans which will be main vehicle for implementation of the Plan's recommendations. |
| | Possibility of severely constrained budget in the near future | The Plan should design for the likelihood that the County's budget will be severely constrained for some years to come – something that no number of PPPs will remedy. | Irene N. Lane, Councilmember, Town of Chevy Chase, Todd Hoffman for Coalition of Incorporated | The implementation of this 30-year Plan over multiple decades will need to adjust to economic and fiscal realities of the current and future disruptions and growth cycles. Thrive Montgomery 2050 already anticipates that new funding sources |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|---|--|
| No. | Plan's relationship to underlying master plans. | What is the relationship of the new General Plan to the underlying previously adopted functional plans, master plan, and sector plans? Does the draft Plan supersede the underlying plan's goals, policies, and actions? If so, it may be helpful to citizens and the development community to explain this relationship. | Municipalities and Community Organizations Maryland Department of Planning (MDP) | will need to be identified to help implement its policies and includes several action recommendations to explore those opportunities. The plan's implementation chapter recognizes that the Capital Improvements Program, facility planning and other implementation tools will manage decisions about funding availability at the time of implementation. Thrive Montgomery 2050 is an amendment to the county's current General Plan of 1969 as amended by all subsequent master plans. However, as a long-term policy document it does not amend any of the specific recommendations of the underlying master plans already in place. The "Abstract" on page 2 of the draft Plan states, "None of the plan's zoning-related recommendations can be implemented without a sectional map amendment, district map amendment, or a zoning text |
| | All suburban areas to become urban? | The plan seems intent on transforming | Robert Oshel, | amendment approved by the County Council." Thrive Montgomery 2050 does not |
| | , sasa. san areas to secome arban. | Montgomery County, except for the Agricultural Reserve, into a more dense urban area rather than the suburban environment that led us to decide to live in Montgomery County. | Silver Spring | recommend eliminating suburban and rural areas. | No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|---|---|
| | Overall density caps for master plans | The concept of overall density caps for master plans should be done away with within the general plan. Markets already regulate density, a cap set by available infrastructure gives legislators an avenue to prevent population growth. If infrastructure becomes overburdened then the solution is to improve the infrastructure rather than limit the ability of new residents to move to an area. | Michael Dutka | equity, and environmental sustainability goals. Thrive Montgomery also recommends providing neighborhood amenities within suburban and rural areas closer to residents' homes to increase access to these services and reduce driving for suburban and rural residents. Staff believes that the draft Plan should not constrain underlying master plans from determining the most appropriate tools for planning and managing the county's growth. The determination of maximum growth in each master plan area is a useful tool to direct growth in desirable locations and help estimate the long-term needs for infrastructure and public services to support that amount of growth. The county's Growth and Infrastructure Policy is another tool to manage interaction between desirable growth |
| | Need for updates of the Four Corners Master Plan and the Kemp Mill Master Plans | An in-depth planning effort to evaluate community-specific issues and update the Four Corners Master Plan and the Kemp Mill Master Plan, in our view, is a critical predicate to the TM 2050 planning exercise. | Sharon Canavan for Northwood Four Corners Civic Association (NFCCA) | and the provision of infrastructure. Thrive Montgomery 2050 will serve as the foundation to inform future master plan updates. Its role is to provide high-level policy direction that will be implemented in a more detailed way by master plans that respond to the needs of specific communities. |

| available land built out, we need to accommodate the projected new population growth of 200,000 people over the next 30 years. The way we think about growth needs to change. We need to reconsider sites where growth was previously not deemed possible. We need to use new growth and redevelopment to create places with greater social capital and connectedness among residents from different backgrounds. (P. 6) available land built out, we need to good people over the next 30 years. The way we think about growth needs to change. We need to reconsider sites where growth was previously not deemed possible. We need to use new growth and redevelopment to create places with greater social capital and connectedness among residents from different backgrounds. (P. 6) accommodate the projected new population growth of 200,000 people over the next 30 years. This is presented without evidence. Who is projecting this population growth, and what are the underlying assumptions for this projection? The plan treats population growth as an expectation, rather than as either a desired goal or a potential problem. The plan assumes we have no control over our own destiny. If it is assumed that population growth will occur, then it is reasonable to plan to limit sprawl and concentrate growth. Were residents surveyed on their opinion? Would a higher population lead to a lower quality of life, regardless of where in the County they live? Would current residents prefer to set goals of sustainable growth including sustainable prowth, sustainable growth including sustainable prowth, sustainable growth including sustainable prowth, sustainable growth is neither desirable for a nure provided to a lower quality of life? WMCCA recommends gathering citizen input on this issue, perhaps with a county-wide survey of residents. And, of course, a approximately 200 2045 is based on to Motor (MMCCO) long-te Mobilization Montgomery. County Chapter Mobilization Montgomery. PLANNING CONTEXT

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|---|--|
| | Trends and Challenges | | | |
| | Incomplete information | In the discussion that follows, the portrait of Montgomery County is not always complete, and the identified problems are without context, even though these problems are found throughout the country. It would be helpful to know whether the County is doing better or worse than the rest of Maryland, the region, and/or comparable counties throughout the country. This introduction needs more context and more facts, so that the County can more easily assess its weaknesses and strengths, and then address them. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Trends and challenges section is based on a series of other reports and documents (see the 2019 Montgomery County Trends: A Look at People, Housing and Jobs Since 1990, January 2019, Also see a summary presentation of the Trends report and the February 2020 Thrive Montgomery 2050 Issues Report) that provide more detailed data and references to support the statements in the draft Plan. |
| | Need to identify the financial challenges posed by the recommendations of this Plan | It is essential that Thrive Montgomery 2050 identify the financial challenges posed by the recommendations of this Plan. During the last 12 years, growth was supposed to accompany the massive up-zoning of the County – and nothing happened. There is no analysis here of what the impediments are to businesses locating here. We are zoned for millions of square feet of new office, we have at least 10 million square feet of vacant commercial that's been sitting here since the onset of the last recession so space is not the problem, rents are not out of line regionally, and taxes on new development are possibly the lowest in the region. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Montgomery Planning has conducted research and studies to document the economic challenges facing the county (Montgomery County Trends: A Look at People, Housing and Jobs Since 1990, January 2019; Montgomery County Retail Strategy, September 2017; and Office Market Assessment, Montgomery County, MD, June 2015) Thrive Montgomery 2050 highlights challenges the county faces that have been identified in earlier studies and proposes broad policy recommendations to set the stage for the next detailed level of analyses |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|--|---|---|
| | | | | and actions, including the financial implications of implementation. For example, Thrive Montgomery 2050 includes a policy about reusing underutilized office space; this policy will shape further work to determine specific solutions. |
| | Affordable housing needs to be balanced by better paying jobs | The Argument for Change section characterizes the General Plan update as residential and transit environmental oriented, without adequately addressing the critical need to integrate employment planning in order to address the income side of the housing cost/burden challenge. The focus on residential identifies the challenges and solutions as: i) limited land available for production due to current zoning; ii) cost burdens and equitable access to ownership and amenities as a function of supply limitations, and iii) increasing the younger population for economic vibrancy. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | The draft Plan includes a dedicated chapter focused on improving the county's economy and growing job opportunities for county residents. |
| | How the Plan will be funded | All prior plans have recognized that their recommendations should be considered within the County's ability to provide the necessary funding, albeit over a long period of time—30 years. Funding will be addressed in the financial impact statement that the County Executive is required to prepare within 60 days of the Planning Board's transmittal of its draft to the District Council. It is difficult for OMB to quantify the fiscal impact of this General Plan. It is not clear if | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Thrive Montgomery 2050 does not specify its implementation costs because the full range of actions to implement its recommendations cannot be determined today. Other tools and actions will be added to the list as more detail plans are developed to flesh out its recommendations. Therefore, any attempt to determine the full cost of the plan now will be an incomplete exercise |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|---|--|
| | | the implementation plan will have more detail. The fiscal analysis of this draft appears to involve both additional costs as well as some possible revenue impacts. | | |
| | Need for more data | It's unclear why the median household income declined (e.g. are more people retiring, are more lower income households moving into the County, has household size declined?). Understanding the answers to these questions might lead to different definitions of problems to be solved. Have the incomes of County residents over the last 10-20 years skewed in a different direction from incomes in surrounding counties? What is the mismatch between jobs available and the skill level of residents? | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Montgomery Planning has conducted research and studies to document the existing conditions and trends. See <u>Montgomery County Trends: A Look at People, Housing and Jobs Since 1990, January 2019</u> and other studies available on the <u>R&SP Division website</u> . |
| | The county's overall diversity is not reflected at the neighborhood level. Our neighborhoods are largely separated along income and racial lines (ATTACHMENT 1), which has far-reaching implications for people of color at the lower-income levels as well as the county as a whole. This geographic separation also keeps people of different ethnic/racial and economic backgrounds from interacting with each other as neighbors on a daily basis outside of work. (Trends and challenges, from the 6-11-20 staff report, page 6) | Is this different from any place else in the region? How do we compare? How do Park and Planning and zoning policies which focus on expensive high-rise development around metros continue to foster economic and racial segregation? (OMB: It would be useful to have maps that show income distributions) | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Thrive Montgomery 2050 acknowledges that past planning practices have contributed to current state of inequity and geographic segregation of the county's neighborhoods along racial and income lines. This is a problem throughout the DC region and other parts of the United States. Thrive Montgomery 2050 elevates equity as one of three of the Plan's major outcomes, and proposes to address racial justice and inequity through a number of goals and policies. |
| | The county's demographics are changing in other ways as well. For example, the percentage of householders living alone | How much of this is rooted in the millennial wave having hit strong economic headwinds that studies show have delayed | County Executive, 8-14- 20 (This | Please see <u>Montgomery County</u> <u>Trends: A Look at People, Housing</u> <u>and Jobs Since 1990, January 2019,</u> |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|---|---|---|
| | has increased from 7% in 1960 to 25% in 2018 (ATTACHMENT 2). This trend has huge implications for the kind of housing that is needed in the future as well as services and amenities to support a different mix of household types in the past. (Trends and challenges, from the 6-11-20 report, page 6) | marriage or other committed relationships and child-bearing? It's not safe to extrapolate the increased percentage of people living alone as a permanent condition, when it may only reflect a delay in family formation. | comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Also see a summary presentation of the Trends report at https://www.arcgis.com/apps/Cascade/index.html?appid=f02d34e190f54db4bd1d584b94a8482c |
| | 1. The county is growing at a slower rate then in the past, but it will still add more than 200,000 residents in the next 25-30 years. (P. 13) | Trend 1. It should be explained why the first identified trend (adding 200,000 residents over the next 25-30 years) is happening, as well as make the argument for why it is good for our economy and climate goals that this trend is happening in Montgomery County. | Jane Lyons for Coalition for Smarter Growth | These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft Plan. |
| | 2. The amount of unconstrained land available for growth is very limited. The county must shift its focus to redevelopment and reuse of underdeveloped land, which requires a different set of public policies and approaches to growth than those that have guided the county over the past decades. | WMCCA Comment: What does "underdeveloped" land mean? As written, the implication is that it is a mistake to have lower density land because there is money to be made by overdevelopment. We disagree with that premise. The county must shift its focus from growth which benefits primarily developers to only allowing growth either 1) in those areas where more environmental damage (e.g. to stream water quality) will not be inflicted, or 2) in areas which are designated as stormwater control zones which require, for example, containment of stormwater from 100 year (or greater) storm events | Kenneth Bawer for West Montgomery County Citizens Association | The Plan states that there is less land available for development today than in the past, so future development will need to occur as infill and redevelopment of existing sites. Underdeveloped land means the land is already developed under current zoning but could accommodate additional development. Redevelopment of already developed land is generally considered more sustainable and therefore more desirable than development of virgin land. |
| | 5. The county is becoming older. The aging population may put downward pressure on household incomesAn | WMCCA Comment: The baby boom bubble of older people is a temporary phenomenon. Expenses such as "retirement | Kenneth Bawer for West Montgomery | Please see the 2019 Montgomery County <u>Trends Report</u> ; <u>Older Adults</u> <u>Housing Study</u> , 2018; and the |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|--|---|---|
| | aging population, without a commensurate increase in younger workers, means lower average household incomes and changing needs for social services. | programs for old people" may be more than offset by the lower need for public education expenses. | County Citizens Association | February 2020 Thrive Montgomery 2050 <u>Issues Report</u>) that provide more detailed data and references to support the statements in the draft Plan. |
| | 7. We are not producing enough housing in accessible locations to meet our needs. (Page 21.) | The MDOT MTA supports the inclusion that the development of a new bus rapid transit network should be complemented by land use and zoning changes to create more attainable and affordable housing along those corridors. Additionally, identifying and referencing the relationship between reliable and efficient transit and affordable housing is significant. | MDOT | Comment noted, no response needed. |
| | 8. Recent sluggish economic growth requires that the county strengthen its competitive advantages in the global economy. | WMCCA Comment: The emphasis should not be on job growth, but rather sustainability and quality of life. Fairfax County emphasized attracting more businesses for job growth (to "broaden the tax base") and look at what happened. Taxes never went down, and the only ones who benefitted were landowners, realtors, and builders, not the average citizen. | Kenneth Bawer for West Montgomery County Citizens Association | Thrive Montgomery 2050 contains numerous goals, policies and actions focused on increasing sustainability and quality of life, in chapters such as Complete Communities, Sustainable Environment and Adaptable Growth. |
| | 11. Declining trends in public health and well-being indicate a growing need for a healthier more active lifestyle. (Page 24) | The MDOT MTA supports the attention paid to the intersection of public health and transit. | MDOT | Comment noted, no response needed. |
| | 12. Climate change threatens all aspects of life. (P. 24.) | Page 23, Trend 12. It would be helpful to identify which climate change impacts Montgomery County is projected to be the most at-risk for. | Jane Lyons for Coalition for Smarter Growth | The County's Draft Climate Action Plan, to be released in December, will identify the climate change hazards for which Montgomery County is most at risk. This information can be incorporated into Thrive Montgomery. Thrive Montgomery 2050 lays out long-term adaptation |

A PLAN TO THRIVE

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|------|--|---|---|--|
| Rati | onale and Context | | | |
| | Ag Reserve must benefit the entire county | The walkable, bikeable, transit-oriented "15 minute living" advocated for in the Thrive Montgomery 2050 plan where racial and social equity, economic competitiveness and environmental sustainability are all paramount makes eminent sense and has my full support. My primary criticism of the draft Plan is that it doesn't sufficiently acknowledge the Ag Reserve must benefit the entire county and not just those who live there. One reasonable and necessary use of the Ag | Brian Ditzler. Silver Spring | Staff concurs with the comment about acknowledging that the Ag Reserve is for the benefit of the entire county. The proposed solar farm zoning text amendment is undergoing a separate review process outside of the scope the General Plan Update process. |
| | | Reserve is to accommodate commercial solar farms that comply with appropriate restrictions and requirements such as contained in a text amendment now under consideration by the County Council. | | |
| | Figure 20: Pike & Rose in White Flint, before and after redevelopment. (P. 34) | WMCCA Comment: The redevelopment of the 8.78-acre shopping center site with housing, shops, offices and open spaces reduced its stormwater runoff by 77%." This is a misleading "victory", since the Pike and Rose site before development was mostly just a large parking lot. The implication is that we need higher density development to reduce stormwater runoff. What is needed is more stringent stormwater control regulations and elimination of waivers. | Kenneth Bawer for West Montgomery County Citizens Association | Staff disagrees. The graphic is provided to illustrate the benefits of redevelopment, which can provide more up to date stormwater management improvements where none existed before. |

| | | natural and infrastructure systems as resilient as possible by climate proofing homes, businesses, and all public and private natural and constructed systems and property. The county will support a wide variety of peer, professional and community support and connectedness services to minimize the physical, social, economic and psychological harms resulting from increasingly severe direct | | |
| | Complete Communities through compact form of development and urbanism. (P. 37) | and indirect climate impacts. Dense development with ready access to Metro stops makes a great deal of sense. But value of such property is so great; how do you incorporate parks, trails and open space? And by the way, how much of that is coming into existence as a result of the incredibly dense development occurring in downtown Bethesda? | Harold Pfohl, Sumner Village | The need for local parks, trails and other public amenities is determined during the local master plan update process, which will be guided by the updated General Plan. Open space is also a part of the requirements during the development process. |
| | Page 37. "This additional density will require change in existing single-family neighborhoods through the introduction of 'missing middle' housing, such as duplexes, triplexes, townhouses, live-work units and small multi-family structures in areas where a moderate degree of intensification is appropriate." | In addition to small multi-family structures, this section should also identify mid-rise multi-family structures as desirable along major transit corridors and high-capacity transit centers. | Jane Lyons for Coalition for Smarter Growth | Staff concurs. The scale of new construction in each location along major transit corridors will be determined through a more detailed analysis of its location, context and transition to the surrounding residential neighborhoods during subsequent local master plan amendments. |
| | Corridors are the place for new growth. (P. 38) | We don't agree that there should be a lot of growth between these communities along the corridors (page 37). The existing single family housing between the centers will largely remain unchanged since large numbers of individual homeowners will not | Dan Wilhelm for Greater Colesville Civic Association | Thrive Montgomery 2050 is a 30-year plan, and in some cases, its policies will continue to affect the change even after 30 years. It may not be feasible to redevelop single-family houses along major transit corridors |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|---|---|---|
| | | be converting them. The redevelopment will largely occur in existing retail centers or older multifamily housing. Since these locations today are of varying sizes, the centers will need to be of different sizes. The bulk of the redevelopment should occur in the larger centers. The number of illustrations (pages 38-40) should be reduced. | | in the near future. But the market dynamics may change over the long run creating opportunities and tools that are not available or hard to imagine today. |
| | The graphic on page 39—possible future scenario of Rt 29 corridor at New Hampshire Avenue. | Page 39 - The "possible future" should eliminate the cloverleaf. | Benjamin Ross | These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft Plan. |
| | Eradicate greenhouse gases emissions. (P. 42) | change "eradiate" to "reduce". This needs to include improved building standards. This theme needs to be expanded to include other environment elements. | Dan Wilhelm for Greater Colesville Civic Association | Montgomery County has adopted a goal of zero GHG emissions by 2035 and is developing the Climate Action Plan with strategies to meet this goal, including building standards. Thrive Montgomery 2050 is a complementary plan that will support the county's GHG elimination goal. |
| | Walkable communities. | I realize that my area of Montgomery County is very different from other areas, and I appreciate that Thrive 2050 must take into account all of our different needs, but walkable communities that allow for people of all incomes to live well and for people to age in place with dignity need to be a priority. Population growth is not going away. We need to build for the future that is coming, not the suburban ideal of 1950 that proved to be unsustainable. | Elizabeth Merlo, Silver Spring | Staff concurs |

|------|---|---|---|---|
| 1301 | Safety, walkability and connectivity in less urban areas. | As it pertains to Live Work Space, and the ability to create functional community synergy in areas where it is less urban, it is equally important to ensure the connectivity of those neighborhoods as well, where there are safe walking and biking paths, that will allow residents to commute without a vehicle to the grocer, coffee shops or local restaurants within the community. In doing this, it will encourage a boost in small business development within those communities, created by the residents of those communities. The ability to safely walk to recreational spaces, and schools is also one that is key in the redevelopment of areas that do not fall into the Urban plan. | Charisse Callender-Scott | Staff concurs |
| | Racial justice and equity. (P. 44) | Support "Racial justice and equity" as a theme. Other comments on equity should be included or referenced here. | Dan Wilhelm for Greater Colesville Civic Association | These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft Plan. |
| | Racial justice and equity | But we also need to make racial equity and economic justice priorities for our future. I currently live in downtown Silver Spring, but for the seven years prior I lived on Flower Avenue where it intersects with Piney Branch Road. Every time I passed the Purple Line stop construction, I wondered whether Universal Supermarket, where I got most of my groceries, would get replaced by a 7-11; whether Beijing Delight would get replaced with a Panda Express. I worried that gentrification would drive out my | Katie Nolan, Silver Spring, | Staff concurs. |

PLAN ELEMENTS

Affordability and Attainability (Revised--Theme #4: Affordable and attainable housing: more of everything)

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|---|---|--|
| | | The title of section 5 must include the word "Housing." The title "Affordability and Attainability" is not sufficient for statements about housing | League of Women Voters of Montgomery | Title has been revised to "affordable and attainable housing" in the revised draft of the Plan. |
| | Missing Middle Housing is not affordable housing. It could occur before schools and transportation are built | Thrive Montgomery 2050 is in essence a plan for more market rate housing, more specifically Missing Middle housing. Because there are no prerequisites for this additional housing, the rezoning and building of compact dense housing could occur much before schools and transportation are built. And it is unlikely the housing will be affordable to the residents who need it most—those in the lowest income ranges. Furthermore, the housing may not be affordable for those with moderate incomes in the areas of the County where land is the most expensive, thus negating the equity goals that are a central tenet of this plan. This plan needs to explain how it will achieve the admirable goals it strives for, and focus more attention on the housing needs of our most vulnerable residents. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Staff disagrees. All new housing development, including Missing Middle Housing, will have to pay impact taxes and other fees per the County's Growth and Infrastructure Policy to ensure adequate infrastructure. The draft Plan contains several goals, policies and actions that pertain to meeting the housing needs for those in the lowest income ranges — including strengthening the MPDU program to allow income averaging and expanding LIHTC resources. The Affordability & Attainability chapter encompasses broad ranges of housing recommendations to meet diverse needs, not only for our lowest |
| | | | | income households, but also for our middle-income households who are unable to find attainable housing. |
| | Increased production of all types of housing | I am open to all housing types, market rate or otherwise, but the focus should be on housing for those with the greatest need. I do not agree with MNCPPC that merely | County Executive, 8-14- 20 (This comment was | Staff believes there is adequate focus on housing for those with the greatest need. As noted in the Housing Needs Assessment, the |

| | | building more market rate housing will let the County achieve its Equity goals. I am committed to achieving Equity in housing, education, and jobs through a variety of funding and planning tools. These goals have been at the core of my public service. | made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | county has a housing supply gap, creating more demand for more affordable housing and putting pressure on the on the cost of existing housing. Building more market rate housing is one tool the plan recommends to help put pressure on the existing cost of housing. |
| | Need for retention of single-family houses and creation of more family-sized units | A zoning policy that prefers the creation of small units unsuitable for raising children exacerbates pressure on the existing housing stock if young families seek larger homes as their family grows. Simultaneously acting to reduce the supply of single-family homes only further adds to the competition for what remains in that portion of the housing stock. Evidence is that families leave the County to find single-family homes and townhouses in more affordable areas and if there is market demand for 3 or 4 bedroom apartment units it is not evident given the lack of new supply. In fact, 3 and 4 bedroom apartments in new development are more expensive than buying a house with a yard in most of the County. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Staff concurs with the need to incentivize the creation of family sized units. Policies included in the draft chapter address this. |
| | The high cost of housing makes it challenging to attract younger workers to replace the baby boomers who are leaving the workforce. | Our zoning policies preclude affordable housing for young workers, particularly those who are not in the higher paid professions, and we require only MPDUs which don't address the most pressing housing needs. As a result, households with incomes below 65% of AMI wind up | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, | Staff concurs and believes that MPDUs are only one part of the county's affordability strategy. Coupled with other types of policies and innovations as recommended in Thrive, MPDUs and other affordable housing will help to increase and |

|-----|--|---|---|--|
| | | occupying the lowest priced housing available, often the MPDU priced housing (though most is market affordable rather than controlled). They compete for these units, often spending 50% or more of their income, with households that can afford that price range. | Policies and Actions) | preserve affordable housing. Beyond the policies in Thrive, please review the recently completed <u>Preservation</u> of Affordable Housing for preservation related policies. |
| | The car-oriented land use pattern of the past few decades reinforced the suburban pattern of neighborhoods separated and defined by income, limiting diversity in our interactions. Knowing your neighbors and having a diverse and robust social network with opportunity for interaction contribute to a feeling of welcome, safety and support. | Montgomery County seems like every other area in the region (if not the country). The problems identified with "built environments" exist in both DC and Baltimore, true cities, despite being far more urban and less car-oriented than we are. Home prices and rental costs remain the great dividers today, long after we've eliminated the discriminatory housing practices of the past. That said, we have many diverse mixed income single-family neighborhoods, both in areas built in the 1950s and since then. They should be valued not only for their diversity but also for their relative affordability. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Staff concurs that we have many areas of diversity (both demographic and housing) and believe the recommendations of Thrive Montgomery 2050 celebrate this diversity. Additionally, the policies will encourage additional housing development across the county further encouraging diversity through housing access. |
| | 85% of the County's land area is constrained by environmental and human-made factors | The statistic that 85% of the County's land area is constrained by environmental and human-made factors is confusing. What are human-made factors? It appears to be single family homes, attached and detached, town houses, and the roads that serve them. This land is not constrained in the true sense. In fact, much of it is being redeveloped with new single family homes—at least 848 new homes have been built to replace teardowns in the down county. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Staff will share the methodology and results of an updated analysis of the built environment, including zoning capacity and market assumptions, at a future work session for the Residential Development Capacity Analysis. |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|--|---|---|
| | Need to create more opportunities for diverse housing | No analysis of existing zoning. The capacity to house people already exists and is primarily along existing and planned transit lines – both rail and BRT. One ought to look at the market and what it's telling you. First zoning was the problem so we up-zoned. Up-zoning drove up land costs, higher land costs drove the need for higher yields and made building smaller, less expensive units undesirable given that the land cost is based on the zoned potential and won't get adjusted if one decides to build less than the maximum. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Staff will discuss with the Planning Board the methodology and results of the Residential Development Capacity Analysis—an estimate of the total potential residential development that may be built in the county under existing zoning and certain assumptions and constraints. |
| | Attainable housing v affordable housing | Attainable housing is market rate housing. (The County has tried the "trickle down" approach to housing supply, and that has not worked.) | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Increasing attainable housing expands the supply of available housing, thus facilitating strategies to create more affordable housing to work. Staff believes that housing affordability has to be addressed through both market rate and subsidized housing strategies. |
| | Housing affordability is one of the biggest issues facing Montgomery County. As previously mentioned, median household income is slowly recovering from the Great Recession of 2008. Annual growth in construction costs increased in the range of 3% to 4% per year during the past five years. Annual building permits issued since 2015 continue to drop below 4,200 permitted units, approaching | What is driving the high construction costs, and how feasible is it to help bring these costs down? Are costs tied into materials transport, and expanding local production sources might assist? Or are costs a result of fitting within limited right-of-way in dense areas, or a lack of staging areas? How do regulations and the time from submittal to approval affect costs? How much has zoning contributed to rising | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Rising construction costs in both material and labor for residential and commercial development are occurring not only in Montgomery County, but also across the region and the nation in communities with a variety of zoning and densities; the increase in construction costs are driven by external factors. The reasons for increases in the cost of |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|------|--|---|---|--|
| 140. | recession levels. This combination of stagnant income growth, high construction costs, lack of new housing supply, and the high cost of housing has impacted cost burden and homeownership rates. (P. 6 of the 6-11-20 staff report) | construction costs, by encouraging developers to defer utilization of land until prices support this more expensive development model. The increase in land prices that flows from increasing the development potential of land, leads to more expensive construction techniques and ultimately higher consumer prices, which in turn fosters economic segregation. There is no balance in the kind of housing stock we try to create in urban areas when the singular focus is on density. | | housing construction are multiple and complex, some of them within the county's areas of influence and others driven by larger market forces. Thrive Montgomery 2050 proposes to use all possible tools and strategies to bring down the cost as much as possible. |
| | Plan should emphasize the County's commitment to providing housing for those most in need throughout the County, rather than relying on market rate Missing Middle Housing to produce equity | The objectives of ensuring available housing in walkable compact development for our full range of incomes (price points) is important. The challenge of ensuring that availability is how to ensure our full range of incomes and workers will be accommodated. The developments will need more than current MPDU level incomes and required distribution of 12.5-15%. The development of market rate midrise and smaller multi-unit buildings will be lower cost development and provides the potential for a lower starting point for the subsidies that are needed to address the full range of incomes represented by our employment distribution. The goal of ensuring a full range of incomes having access and opportunity in these compact developments needs affirmation. Market rate "missing middle" housing is not affordable to the lowest range of incomes in Montgomery County. The plan | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | The Affordability & Attainability section of the Public Hearing Draft goes beyond just the provision of Missing Middle or market rate housing to support equity. It emphasizes the need to create housing affordable and attainable at all incomes levels and includes specific policies and actions to protect existing and create new affordable housing. Additionally, Thrive Montgomery includes goals and policies related to creating mixed-income communities, and reducing gentrification, displacement, segregation and concentration of poverty. |

| | | Please do not discriminate against residents who choose to live in single family homes and choose to own automobiles. | | is to add Missing Middle housing in our single-family neighborhoods near high-capacity transit to create more diverse housing options near transit corridors. |
| | More protections for renters, less emphasis on homeownership. | We need better protections for renters, less of an obsession with home-ownership, more housing stock diversity, better rates of unit growth, and a policy of reviewing (perhaps every 5 years) the practices governing these things to keep pace with changes on the ground. Feeding back into the "connectedness" dimension, there need to be channels for people to express concerns, make observations, comment on changes, etc; that are utilized by a representative slice of the affected populations. | Edmund Morris | These comments will be considered and discussed further during the Planning Board worksessions to inform revisions and reorganization of the draft Plan. |
| | Rezoning the single-family zones | Rezoning the single-family zones in the entire county to allow market-rate townhouses, duplexes, triplexes, and apartment buildings by right throughout the single-family neighborhoods does not give residents the diversity to live in neighborhoods of their choice. When purchasing a home residents consider many factors including schools, commuting distance to employment, nearness to shopping, living close to friends and family, and many other issues. | Quentin Remein, Michele Albornoz, Linda and Gay Mullings | The Plan does not propose rezoning of single-family areas throughout the county and would not eliminate single family housing. The draft Plan proposes to add Missing Middle housing such as duplexes and triplexes in single-family zoned neighborhoods near high-capacity transit corridors only, in order to provide more housing type options near transit. |
| | —More market rate housing will not address affordable housing issue. | Nothing is proposed to deal with the specific shortfalls in affordable housing, instead it's a version of the market will solve this – the DC region has been talking | County Executive, 8-14- 20 (This comment was | Thrive Montgomery already includes several goals, policies, and actions to address the specific shortfalls in affordable housing – including |

| | | about a crisis in affordable housing since the 1980s, and no amount of building in any or all jurisdictions has succeeded in stemming the loss of affordable housing. | made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | increasing our share of the low- income housing tax credit, allowing income averaging for MPDUs, and working with mission driven developers to build capacity and streamline the affordable housing |
| | Need for more affordable housing | Montgomery County is in the midst of a severe affordable housing crisis, and unless housing supply of all shapes and sizes is added in great number, Moderately Priced Dwelling Units (MPDUs) and other affordable housing support are continued and expanded, and existing affordable housing stock preserved to the greatest extent that is economically feasible, this county will continue to become unaffordable for all but the most fortunate. That said, I am happy to see many of the wonderful ideas and proposals laid out in the current Thrive 2050 draft, particularly the acknowledgement of the affordable housing crisis, and the support for adding needed supply, including missing middle housing. If you take away only one thing from my testimony, either in writing or in person, let it be that the final draft of this plan absolutely must maintain this strong focus and expand upon it, otherwise this will cease to be the wonderful and welcoming county I have come to love. I would also like to stress that both renter and owner supply must be added. Even in DTSS, condo buildings, and other ownership | Michael English, Silver Spring | development process. Staff concurs. |

|-----|---|---|---|---|
| | | opportunities near downtown that aren't outrageously priced single family homes are relatively rare, so while rental supply must be added, room must be made for those seeking to purchase a home as well. | | |
| | Home ownership | While I understand the concern my fellow homeowners have about "protecting their investment" with increased property values, to me, owning a home is meant to provide some sense of financial and residential stability, and the ability to build forced savings through equity. It is not an entitlement to an ever growing return on investment. | Michael English, Silver Spring | Comment noted. |
| | Historical districts | Historical districts and other types of SFH exclusive zoning are simply the current manifestation of explicitly racist policies such as redlining in the past. Just because people don't mean for something to be racist doesn't mean it isn't so. "Character of the neighborhood" is another way of saying "we don't want 'those kinds of people' living here". It's fear mongering, and it has no place in our country, let alone our progressive county. | Michael English, Silver Spring | Comment noted. |
| | Need for more information about creating more diverse housing types | There needs to be more specificity when suggesting a transformation of single-family neighborhoods. What different housing types, and where? Are the housing types compatible with existing homes? A duplex, for example, might be while a highrise would not. Have you assessed the potential impacts of changes on homeowners who choose to retain their | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | The Planning Department completed a Missing Middle Housing Study in 2018 and also has been exploring the application of this approach in several recently completed or active master plans. Further details can be found here: https://montgomeryplanning.org/pla |

| | Need more information about Missing Middle Housing | In order to add Missing Middle Housing, the plan recommends rezoning parts of the single family neighborhoods without being clear about the location, other than a preference for being near transit. The plan is vague, too vague, not only on location, but also on specifics on how the County resolves the stubborn issue of Equity. There needs to be a bigger conversation than the narrow focus presented in the plan. The plan needs to identify generally where this new housing will be located, and then the County needs to come together to put its resources toward making the Equity goal a reality over the next 30 years. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | These details will be analyzed and shared with the Community during future master plan processes that will be conducted to start implementing Thrive Montgomery's recommendations. Additionally, the Planning Department is currently exploring Missing Middle housing options as part of recent master plans. |
| | Missing Middle Housing should be allowed throughout the County. | While encouraging development along corridors and near transit is key, there also needs to be policies that allow missing middle type housing throughout the County. In order for supply to meet housing demand over the next 30 years, multiple tools and approaches are required. | Stacy Silber | The draft Plan proposes to focus all new growth in transit accessible areas because any significant growth in areas not accessible by transit will have negative impacts for traffic, equity and the environment. |
| | More housing affordable to all | I would like Thrive 2050 to provide a better explanation of incorporating housing affordable to all socioeconomic | Medhini Murali, Germantown | These comments will be considered and discussed further during the Planning Board worksessions to |

| | | in a predominantly white community, and it was rare to see people who looked like me. It is impossible to promote diversity when our county is so segregated by housing. Affordable housing should be available in all parts of the county. | | |
| | Evolution of single family neighborhoods near transit | I have come out to support attainable housing for all income levels and the evolution of single family neighborhoods near transit. My roommates and I don't see a future in Montgomery County without moving up the highway corridor or away from the Metro, getting a car, or changing my career to earn more money. It would take over 25 years just to save for a down payment on houses in our neighborhood, given wages and home prices stay flat. Duplexes and triplexes would open up opportunities to a variety of professionals. More affordable places in the county are a possibility but require a car and leave no savings. | Benjamin Keel, Silver Spring | Staff concurs. |
| | The additional density of Missing Middle Housing will put a strain on already antiquated infrastructure. | The key to Thrive Montgomery seems to be in "missing middle housing" that will create economic growth (and somehow jobs), fix deficits and equalize inequity. Many listening and unable to speak, think this is a simplistic solution that looks like a Global ZTA that will override a General Plan. We already see a ZTA proposed by Councilmember Jawando, which looks to invade the R60 neighborhoods. We know that the Planning Staff is not an author of this ZTA. Though Chair Anderson stated | Patricia Depuy Johnson | Thrive Montgomery 2050, as a General Plan, addresses a wide variety of issues, and Missing Middle housing is only one of its many strategies to address the county's housing needs and support community equity. Any additional density will be implemented and supported by detailed analyses and planning through subsequent local master |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|---|--|
| | | that "missing middle housing" is just a "small piece of it", that doesn't ring true. Those of us that live in single family homes are afraid that we will wake up one day to find a townhouse development, duplex or triplex springing up next door where a single home has been torn down. The impact to infrastructure is real. The additional density of "missing middle housing" puts a strain on already antiquated electrical grids, sewage and water supplies, garbage collection, storm water management, internet capacities, and roads in need of repair | | plans and infrastructure needs will be considered as part of the Board's review of proposed residential development applications. |
| | Over one-third of the county is used for single-family homes (detached and townhouses). A recommendation of Thrive Montgomery is to build on the concept of focusing growth along corridors, even if this may require changes to land use and densities along these corridors. (Page 15 of the Public Hearing Draft) | WMCCA Comment: As written Thrive Montgomery is declaring war on single- family homes. If we follow the money, who stands to profit from this? Not the residents. To meet our objective of sustainable growth, for every up-zoned area, there should be an equal down-zoned area. The down-zoned areas should be given Transfer of Developable Rights (TDRs), similar to what happened in the Ag Reserve, that can be sold to developers in the up-zoned areas. Without a balance between up-zoning and down-zoning, the overall density in the County will continued ratcheting up. | Kenneth Bawer for West Montgomery County Citizens Association | Thrive Montgomery 2050 does not propose a countywide upzoning of single-family neighborhoods. It recommends allowing more diverse housing within walking distance around transit stations, which will require rezoning of these areas. The Plan, including the 2050 Vision statement, anticipates the county will continue to have a robust mix of urban, suburban and rural areas with various densities appropriate to their location and context. |

| | Definition of single-family housing | What housing types will be considered single-family housing? The draft Plan refers to attached single-family, semi-detached single family, and detached single-family housing, but does not define what housing types these terms include. Please add definitions for these to the Glossary. | Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations | The definition will be added to the glossary in the Plan. Single-family detached homes are stand-alone homes that do not share any walls with another housing unit. Duplexes—two side-by-side units with a shared party wall are considered semi-detached single-family units. And townhouses are considered attached single-family homes. All of these are considered single-family because they contain one primary unit on a recorded piece of land. A single-family unit may contain an accessory unit in addition to a primary unit through a conditional use application. Any structure with two or more primary units (as compared to a primary unit and an accessory unit) on a single lot is considered multi-family development. |
| | The exclusionary nature of Euclidean single-family zoning | The plan should highlight the original intent of single family zoning, currently the supreme court case Euclid vs. Ambler is not even mentioned once. Euclidean zoning was created to promote racial/economic segregation. If one of the chief goals of the new general plan is to reduce racial/economic segregation then the plan needs to launch an all out attack on the entire concept of Euclidean zoning and make a strong argument as to why we need to do something different now. | Michael Dutka | Comment noted. |

|-----|---|---|---|---|
| No. | Diversity of housing types in all areas of the county, not just near transit. | Rethink single family zoning, not just around transit: We need to allow and encourage a range of housing types in neighborhoods near transit. However, we should not limit zoning reform to these areas. This has the potential to spark opposition to new transit, if single family homeowners know that new transit goes hand in hand with zoning reform. This also has the potential to leave out areas of the county that are predominantly white and high income — the kinds of places that are still exclusive today due to racist policies of the past, which will not be undone without intentional planning otherwise. While our priority for growth should be near high-capacity transit, we must include other | Jane Lyons for Coalition for Smarter Growth | Staff Response Comment noted. |
| | Evolution of single-family neighborhood near transit | measures to diversify housing options in other neighborhoods while also extending transit. "Evolution of single-family neighborhood" should not be included as a separate theme since it is included in other themes. | Dan Wilhelm for Greater Colesville Civic Association | These comments will be considered and discussed further during the Planning Board work sessions to inform revisions and reorganization of the draft Plan. |
| | Evolution of single-family neighborhood near transit | With the shortage of open, buildable land and affordable housing in the county now, we need to allow (and encourage) a mix of housing types in areas near transit, including areas now zoned for single family homes. | Brian Ditzler. | | | | | Montgomery-2050-FAQs 6-10- 2020.pdf |
| | Use various financing mechanisms to develop affordable housing. | AIM agrees that the MPDU program should be strengthened. In particular, MPDU requirements should be tweaked to incentivize more creation of three bedroom (or more) units. Payments in Lieu of Taxes (PILOTS) should be used where necessary to ensure the development of affordable housing and the HIF should be expanded and leveraged to produce more affordable housing. In that regard, the HIF can be used in conjunction with use of the County's bonding authority both to support new construction and to preserve existing market-rate affordable housing, with particular attention to properties near the Purple Line. The ability of the Housing Opportunities Commission to preserve | James W. Olson, Action in Montgomery | Staff concurs. |
| | | existing market rate affordable housing should also be enhanced. | | |
| | Provide affordable housing throughout the county, not just Missing Middle Housing in single-family neighborhoods. | We are also concerned that the draft Plan also barely mentions, much less includes, specific strategies to achieve much needed affordable housing through the County. Despite its stated goals that focus on "Equity" considerations, affordable housing is given short shrift in the draft Plan. CCCFH has long supported preservation and protection of the "naturally occurring" existing affordable housing units within and surrounding the County's business districts. | Melanie Rose White, Chair Citizens Coordinating Committee on Friendship Heights | The Attainability & Affordability chapter in the draft Plan contains several goals, policies, and actions strategies to support affordable housing, including the preservation of naturally occurring affordable housing. To name a few: strengthening the MPDU program through strategic changes, working with the state on expanding the lowincome housing tax credit, expanding the development capacity of mission |

|-----|--|--|--|---|
| | | aspect of the County's housing needs over the next 30 years is both glaring and inexplicable. | | driven entities, and expanding homeownership opportunities. |
| | | Instead, a major focus and goal of Thrive Montgomery 2050 is to encourage inclusion of market rate "missing middle housing" in the form of multi-unit housing projects, including duplexes, triplexes, townhouses and apartment units, into what are now single-family residential detached zones throughout the County. | | |
| | Consider underutilized public lands, colocation and conversion of vacant commercial space to affordable housing. | AIM also believes that the proposal to create an inventory of all vacant and underutilized public lands (including parking facilities) is long overdue and should be undertaken, with priority being given to considering the use of such land for affordable housing. Public agencies should also be required to consider possibilities for co-location of affordable housing when deciding to build. In addition, the County should develop mechanisms to encourage and support the development of affordable housing by faith-based institutions and other non-profits. Another potentially useful idea is to encourage adaptive reuse of existing high-vacancy retail and office space, with some of that reuse dedicated to affordable housing. | James W. Olson, Action in Montgomery | Staff concurs. |
| | Support creation of diverse housing types. | AIM also supports the draft General Plan's suggestion that zoning should be changed to encourage creative housing options such as multi-generational housing, single-room | James W. Olson, Action in Montgomery | Staff concurs. |

|-----|--|--|--|--|
| | | occupancy units, shared housing, etc. and that the County should look for ways to further support the creation of accessory dwelling units (ADU). | | |
| | Need to end racial, economic, and ethnic segregation to achieve full equity. | Improving conditions in low income and vulnerable communities is not enough. Montgomery County needs to end racial, economic, and ethnic segregation to achieve full equity. This means a mechanism to override NIMBIES who work to keep low-income housing out of their neighborhoods. | Ethan Goffman, Rockville | These comments will be considered and discussed further during the Planning Board worksessions to inform revisions and reorganization of the draft Plan. |
| | Need smaller housing types to drive down prices | A chief goal of the plan should be to make sure the median price of a home should decline. Montgomery county is already unaffordable, this needs to change. This can be accomplished by adding a greater variety of smaller housing types. | Michael Dutka | These comments will be considered and discussed further during the Planning Board worksessions to inform revisions and reorganization of the draft Plan. |
| | Expand Missing Middle Housing options to areas other than transit stations | Increase and Diversify Areas for Missing Middle Housing. We recommend that the draft Plan increase and diversify the areas where Missing Middle Housing could be located. The draft Plan's focus on putting infill development in existing neighborhoods within one half-mile of rail stations and BRT routes is too narrow and, in most places, the land is expensive, which may not achieve the stated goals. Putting Missing Middle Housing in these neighborhoods is likely to result in some additional housing if the market finds it profitable to build this type of housing there, but it is highly unlikely that the new market-rate housing units will be | Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations, Seth Grimes | These comments will be considered and discussed further during the Planning Board worksessions to inform revisions and reorganization of the draft Plan. |

| | | neighborhoods throughout our county, particularly in areas accessible to transit, as they can better handle the density, and will help make transit accessible to those who need it most. | | |
| | Equity Financing instead of Missing Middle Housing for Middle-Income Folks | Thrive Montgomery 2050 poses solutions for low-income residents to live in Montgomery County, but does not address unaffordability for middle-income residents. Municipalities pose that added Missing Middle housing would still be unattainable for middle-income folks. Introducing equity financing, where the risk of depreciation is shared between the lender and borrower. The lender then carries some of the risk but also can gain. However, this could increase the demand for homes without expanding the supply. This could be managed by tying it to new developments. | Robin A. Barr Council member, Town of Somerset | Comment noted. Please refer to the Missing Middle Housing FAQ on more details on Missing Middle housing: https://montgomeryplanning.org/pla nning/housing/missing-middle- housing/ and refer to policies related to unaffordability to middle-income households under Goal 5.1: Provide and produce housing units that meet the diverse household sizes and needs of all Montgomery County residents in terms of type, size, accessibility, affordability, and location. |
| | Consider Community Land Trusts | For the purposes of creating and preserving affordable housing I think our County should consider ways to limit speculation on land value. While the MPDU program is a great step in this direction, preserving properties in perpetuity through Community Land Trusts would be another strategy to consider. Why I find the CLT strategy particularly compelling is that it enables limited-equity in the sale of residential and commercial properties (based on investments) but prevents inflation beyond this (which is | Hannah Sholder | Staff concurs that the CLTs are an important strategy. Please refer to Action 5.1.9.e: Explore establishing a community land trust to create permanent, affordable homeownership opportunities. |

|-----|--|--|--|--|
| | | largely related to proximity to public assets). This would prevent the flipping of properties as we have seen recently, for example, in frequent numbers in the East Silver Spring neighborhood (which has proximity to a permanently preserved urban farm and downtown silver spring shops). | | |
| | Need to address increased racial and economic integration in the County's housing pattern. | More emphasis should be given to the provision of decent housing as a right for all citizens of the County. In addition, the Plan should more explicitly address the need for increased racial and economic integration in the County's housing pattern. As it is today, most areas of the County are highly segregated both racially and by income. One possible step toward remedying this situation would be to amend the zoning code to allow more "missing middle" housing (duplexes, triplexes, fourplexes, cottage courts, courtyard buildings, etc.) to be built throughout the County. The draft General Plan speaks of expanding such housing options near high-capacity transit, but that language should be expanded to reach beyond such zones. | James W. Olson, Action in Montgomery | These comments will be considered and discussed further during the Planning Board worksessions to inform revisions and reorganization of the draft Plan. |
| | Need for more affordable housing, especially for the homeless. | Montgomery County has always been a place where people want to live. We have nice neighborhoods, great parklands, and among the best public schools in the country. Unfortunately, we do not have enough housing, particularly affordable housing, for all the folks who want to live among these amenities. If we continue to | Don Slater, Silver Spring | Staff concurs. |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|---|--|--|
| | | have a housing shortage, those who can least afford to live here will be disproportionally impacted and be forced to live elsewhere, typically further away from jobs and services, adding to the traffic and absorbing the additional commuting costs. As long as we have a homeless population, we are not thriving. The county should be actively searching for properties that can be used as housing for those coming out of homelessness. We need to look at how we can turn surface parking lots and former office space into new forms of residential / retail offerings. The MPDU requirement should be increased. This should be happening across all of our currently developed areas, particularly near transit hubs. | | |
| | Need for more permanent supportive housing | There are a few areas where the plan must give greater attention: shelter space, permanent supportive housing, and rental assistance. Thrive 2050 must ensure sufficient planning is dedicated to shelter capacity. Permanent supportive housing is a critical element of the housing continuum to support residents with no to low incomes. We need to ensure sufficient permanent housing stock for these residents. African Americans, Latinx and other people of color are overrepresented in our shelters and affordable housing. We hope the county's racial equity and social justice program will ensure that those who | Jeffrey Mosley, Montgomery County Coalition for the Homeless, Coalition Homes | These comments will be considered and discussed further during the Planning Board worksessions to inform revisions and reorganization of the draft Plan. |

|-----|---|--|--|--|
| | Naturally Occurring Affordable Housing | In addition, in order to meet the County's affordable and attainable housing goals, we encourage you to increase and diversify the areas for Missing Middle housing as affordable housing is more realistically achievable in areas outside the one-half mile zones around rail and BRT. Also, the Plan should leverage naturally occurring affordable housing options including adaptive re-use of malls and other retail/office buildings which post COVID-19 may no longer be viable for their original and intended use. | Irene Lane, Town of Chevy Chase Councilmember | These comments regarding expanding Missing Middle Housing beyond transit will be considered and discussed further during the Planning Board worksessions to inform revisions and reorganization of the draft Plan. The draft Plan includes policies encouraging the reuse of underutilized commercial properties for housing. Please see Policy 5.1.2 as an example: Increase opportunities for new housing, especially affordable housing, using office parks, shopping centers, and other underutilized properties. |
| | Need for more housing for essential workers and leverage naturally occurring affordable housing options | We encourage the County to consider increasing and diversifying areas for Missing Middle housing as well as provide more housing for essential workers and leverage naturally occurring affordable housing options including adaptive re-use of malls and other retail/office buildings which post COVID-19 may no longer be viable for their original and intended use; however the premise that we will need to house 200,000 more residents is based on pre-COVID-19 assumptions and providing Missing Middle housing is not ipso facto affordable. | Andy O'Hare, President, East Bethesda Citizens Association (EBCA) | These comments regarding expanding Missing Middle Housing beyond transit will be considered and discussed further during the Planning Board worksessions to inform revisions and reorganization of the draft Plan. The draft Plan includes policies encouraging the reuse of underutilized commercial properties for housing. Example: Policy 5.1.2: Increase opportunities for new housing, especially affordable housing, using office parks, shopping centers, and other underutilized properties. |

|-----|---|---|---|--|
| | | | | The Planning Department's FAQ on the Missing Middle housing discusses the question of affordability of this type of housing: https://montgomeryplanning.org/planning/housing/missing-middle-housing/ |
| | | | | Staff notes that the 200k population growth number is from demographic projections done pre-COVID. New projections will be based on 2020 Census numbers when they become available. It's unlikely that this modest rate of growth will change significantly because our population is relatively stable. But if it is reduced, we will still have a housing shortage at various levels of affordability. |
| | Expand MPDU program and affordable housing bonus density, especially near transit | Although we understand that Montgomery County already has an existing MPDU program, we would have liked to see more discussion of how to expand this tool. In particular, we encourage the county to consider raising the 22% bonus density cap for 100% affordable housing projects, particularly those near transit. We would also like to see further discussion on neighborhoods where affordable housing bonus density might be available, such as current low-density areas near transit corridors. Given their complex financing structure, affordable housing projects are difficult and expensive to build no matter | Nina Janopaul, President Arlington Partnership for Affordable Housing | There is no longer a 22% bonus density cap. The bonus density is unlimited and projects that provide 100% MPDUs would receive a 110% bonus density. |

| | Rent stabilization | Actions should be added on rent stabilization and protecting legal rights of tenants. | Andrew Saundry, Jenna Bauer, Berk Ehrmantraut, Frank Fritz | These comments will be considered and discussed further during the Planning Board worksessions to inform revisions and reorganization of the draft Plan. |
| | Goal 5.1: Provide and produce housing units that meet the diverse household sizes and needs of all Montgomery County residents in terms of type, size, accessibility, affordability, and location. (P. 87) | WMCCA Comment: Add: "This will take place primarily through the slow conversion of existing housing units without necessarily increasing the total number of housing units." | Kenneth Bawer for West Montgomery County Citizens Association | Staff disagrees that new housing units are not needed or anticipated. Thrive Montgomery 2050 has multiple policies and actions to support increasing the housing supply through new construction as well as adaptive reuse of underutilized and vacant office and retail properties to make sure our housing supply meet the needs of its residents. |
| | Policy 5.1.1. "Encourage the production of a broad variety of housing types to achieve attainable price ranges." (P. 86) | The actions associated with this policy should not only address breaking down zoning barriers, but also other land use regulations that make middle housing types difficult to build. | Jane Lyons for Coalition for Smarter Growth | Staff concurs. |
| | Action 5.1.1.a. (P. 86) | We urge you to include "small apartment buildings," in addition to "duplexes, triplexes, and quadruplexes." | Jane Lyons for Coalition for Smarter Growth | Small apartment buildings are part of the Missing Middle Housing types and should be considered in appropriate locations. |
| | Action 5.1.2.b: Establish incentives to encourage conversion of existing high-vacancy office and retail sites into residential uses through adaptive reuse or redevelopment of the site. Create flexible zoning incentives for conversion of planned and existing office and retail sites to residential uses, including | WMCCA Comment: We object to the concept of "flexible regulations and zoning controls" and "flexible zoning initiatives". We don't have flexible speed limits for a reason. We don't want an officer to say, "The speed limit is 25, but I'll be flexible and make it 45 for you, Mr. Jones." Regulations and zoning controls should be | Kenneth Bawer for West Montgomery County Citizens Association | Thrive Montgomery 2050 is a 30-year plan with broad policy guidance. Regulatory controls should be flexible enough to address changing conditions and enable innovation in development. Flexible zoning incentives would be adopted as part of the zoning code and would provide |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|---|---|
| | allowing properties to reallocate their nonresidential Floor Area Ratio to residential use. (P. 87) | fixed, not flexible. The implication is that the Planning Board can change regulations and zoning controls based on a whim or developer influence. | | parameters around the conditions in which these incentives can be applied. |
| | Policy 5.1.7: Provide family-sized housing units in new multi-family housing developments. | Policy 5.1.7. The zoning ordinance should be changed to allow increased density when additional bedrooms are built for multifamily units. See the SSP staff report for 10/30/2020 for information that relates number of bedrooms to the revenue the building owner receives. | Dan Wilhelm for Greater Colesville Civic Association | All zoning and other regulatory changes needed to implement the recommendations of the draft Plan will be discussed through subsequent detailed studies and master plan amendments. |
| | Regarding Goal 5.2/Policy 5.2.1. Housing for older adults and people with disabilities | The MDOT MTA supports the inclusion of accessible, affordable housing for older adults and people with disabilities near high-capacity transit and encourages Montgomery County to coordinate with the Maryland Department of Disabilities to ensure mutually beneficial efforts. | MDOT | Staff concurs. |
| | Action 5.2.1.b: Provide incentives to encourage county employers and property owners to develop mixed-income housing at employment centers by redeveloping surface parking lots and underutilized property. | Action 5.2.1.b should be expanded beyond just mixed income housing and employment centers. This could apply to the adaptive reuse of office parks such as Rock Spring. | Seth Grimes | Staff concurs and views office parks such as Rock Spring as employment centers. |
| | Goal 5.3. Continue to promote the policy of mixed-income housing development through the implementation of county policies, programs, regulations, and other tools and incentives. (P. 89) | This goal's associated policies and actions are too reliant on the moderately priced dwelling unit (MPDU) program. Montgomery County needs a strategic, targeted approach to intentionally create mixed-income neighborhoods, of which the MPDU program should only be one part. | Jane Lyons for Coalition for Smarter Growth | Comment noted. |
| | Action 5.4.2.a: Explore changes to the zoning code to support the creation of permanent supportive housing units like | The other area of the report we'd like to comment on pertains to the recommendation that the Planning Board | Barry Wides, | These comments will be considered and discussed further during the Planning Board worksessions to |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|--|---|--|
| | Single-Room Occupancy (SRO) or Personal Living Quarter (PLQ) units by- right in all residential and mixed-use zones. | explore changes to the zoning code to support the creation of single room occupancy (SRO) or personal living quarters (PLQ) by-right in all residential zones. Our association has provided input to the county as to how best to regulate and oversee unlicensed single-family rentals, | President, North White Oak Civic Association | inform revisions and reorganization of the draft Plan. |
| | | which these SROs and PLQs would be. The county typically does not license these rentals and has nowhere near the resources today to inspect these properties for which an owner does apply for a license. Major increases in county resources and strengthening of the county's rental housing code would be needed to ensure the health and safety of residents of these units. | | |
| | Goal 5.5. Minimize displacement of people, especially among low-income residents, people of color, people with disabilities and older adults. (P. 90) | This goal should include rent stabilization and just cause eviction in the associated policies and actions. | Jane Lyons for Coalition for Smarter Growth | These comments will be considered and discussed further during the Planning Board worksessions to inform revisions and reorganization of the draft Plan. |
| | Policy 5.5.12: Use the county's Subdivision Staging Policy to monitor the secondary effects of targeted growth policies, including loss of market-rate affordable housing and displacement. | Policy 5.5.12. The SSP is not the correct vehicle for monitoring growth housing trends. | Dan Wilhelm for Greater Colesville Civic Association | SSP, now called the Growth and Infrastructure Policy, will be one of the mechanisms to track the progress of housing and other goals of the Plan. |
| | Goal 5.5: Minimize displacement of people, especially among low-income residents, people of color, people with disabilities and older adults. Goal 5.6: Expand housing access through elimination of fair housing barriers and | Goals 5.5 and 5.6. Move these goals to the proposed equity element. | Dan Wilhelm for Greater Colesville Civic Association | These comments will be considered and discussed further during the Planning Board worksessions to inform revisions and reorganization of the draft Plan. |

| | | county's increasingly aging population | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|-----------|---|
| | | (page 16) will impact the demands on and adaptability of its transportation network. The county should also consider a brief discussion of emerging transportation technologies such as shared transportation, zero emissions vehicles, and connected and automated vehicles. These issues and challenges will also influence the development of transportation goals and | | |
| | | policies. | | |
| | Bus Rapid Transit (BRT), v commuter/express bus service | Page 75 (Goal 4.1): Bus Rapid Transit (BRT), a more frequent bus service for peak and non-peak periods, is different from a commuter/express bus service which focuses on serving peak periods. A commuter or express bus service may be more appropriate for certain potential regional bus services such as to Tysons, VA and Columbia, Howard County. The county may want to add "commuter/express service" in transit policy statements if it is appropriate. | MDP | While staff understands that the operational characteristics of BRT and commuter/express bus service are different, they both can benefit from dedicated transit lanes, which is the focus of Goal 4.1. |
| | Incremental bicycle and pedestrian facility improvements in rural communities | The county may want to develop a policy to address improving walking and biking in rural villages and communities. To assist small towns and rural communities to plan incremental bicycle and pedestrian facility improvements, the Federal Highway Administration published "Small Town and Rural Multimodal Networks," a resource guide for pedestrian and bicycle facility design guidelines and best practices in a rural setting. | MDP | Thrive Montgomery as well as the Bicycle Master Plan and forthcoming Pedestrian Master Plan address walking and bicycling conditions countywide. |

| No. | Issue/Topic Area | pose to others in their nearly complete disregard of traffic laws whether on a street or on a trail. | Commenter | severe injuries). But the focus on the danger that bicyclists pose to others is not borne out in the data. First, studies have shown that the disregard of traffic laws is not unique to bicyclists and that in many instances bicyclists adhere to traffic laws more than other roadway users. Second, the prevalence of pedestrian and bicycle crashes is decreasing nationally. Tuckel et al found that: "The rate of pedestrians injured in collisions with cyclists has decreased over time. This decline has occurred despite the increase in the number of cyclists in these states during this same time period. Two possible explanations for this decline are: (a) less exposure of children to cyclists, and (b) improvements in the cycling |
| | | | | infrastructure." Finally, Gkekas et al found that while physical contact between bicyclists and pedestrians is still common, this contact rarely leads few injuries. |
| | Pedestrian and bicyclists safety and equity should be assigned as a higher priority | Safety and equity should be assigned as a higher priority; currently they are pretty far down the list. Pedestrian and bicycle injuries are up nationwide and disproportionally impact low income and vulnerable populations. These goals should be front and center. | Kristy Daphnis, Montgomery County Pedestrian, Bicycle, and Traffic Safety Advisory Committee | Thrive Montgomery 2050 includes safety and equity goals, specifically in the Safe and Efficient Travel section (Goal 4.4 for safety and Goal 4.6 for equity) but it does not set priorities for any goals. That will be done through subsequent master plans and other implementation mechanisms. |

|-----|--|---|---------------|--|
| | | staged given COVID-19 realities, flexibly plan for traffic and technology advancements, integrate with other regional transportation plans, and accommodate demographics including aging, disabled, and young families that cannot always use public transit; also, coordination with MDOT will be essential along with the recognition that many County residents and visitors will use their cars. | | transportation needs to take these considerations into account. |
| | Transit is unrealistic | This Plan expects that Transit is and will be the main form of transportation and this plan goes so far to claim we must stop planning for the Automobile. While these goals may be notable, I suggest they are unrealistic in a 500 square mile County. While relying on Transit as our ultimate mode of transportation we must acknowledge that according to planning data the best years of transit only 5.6% of commuters over the age of 16 rely on buses. | Cary Lamari | Transit works well when density is located around transit stations. The vision of Thrive Montgomery to construct a network of bus rapid transit corridors and to locate all new future growth around transit stations will result in large increases in transit ridership. |
| | Clarify number of through-lanes | Page 76 and 77 (Refer to Action 4.1.2.a and Action 4.2.2.a): The Draft Plan should add "total" as "the total number of through-lanes" in the action statements, to clarify the accommodation of two through-lanes in each direction of a rail or BRT corridor. | MDP | Staff concurs. These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Eliminate all slip lanes, diverging diamonds, and cloverleafs. | Goal 4.4 - Add new policy 4.4.5: "Eliminate all slip lanes, diverging diamonds, and cloverleafs." | Benjamin Ross | This is a very specific recommendation focused on removing specific types of infrastructure and is too detailed for inclusion in Thrive Montgomery. |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|--|-----------|--|
| | | | | Here is some additional context: |
| | | | | Slips lanes: In general, Montgomery County is no longer building slip lanes and is evaluating removal existing slip lanes. However, slip lanes may continue to be needed in instances where intersections are severely skewed. |
| | | | | Cloverleafs: In some instances, it may make sense to replace cloverleafs with tighter interchange configurations, such as was recently constructed as part of the I-270 / Watkins Mill Rd interchange project. |
| | | | | Diverging Diamonds: There are currently no diverging diamonds in Montgomery County. The Forest Glen Montgomery Hills Sector Plan recommends evaluating a diverging diamond at I-495 / MD 97. |
| | Prioritize BRT corridors for access management planning | Page 78 (Refer to Action 4.4.1.b): Planning suggests that the county prioritize BRT corridors for access management planning. | MDP | Staff concurs. These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Consider Transportation Demand Management (TDM) strategies | Page 78 (Goal 4.5): Planning suggests that the county consider adding a policy to address the needs of teleworkers, ridesharing and park & ride facilities, and other Transportation Demand Management (TDM) strategies. | MDP | Thrive Montgomery 2050 supports transportation demand management. These comments will be considered and discussed to inform revisions and reorganization of the draft Plan. |

| | | unrealistic, not consistent with the | | framework that internalizes these |
| | | transportation realities of other parts of the | | externalities so that the evaluation of |
| | | DMV, and not appropriate or equitable for | | the benefits and costs of planning |
| | | many County businesses and residents. | | decisions can be better measured |
| | | | | and realized. Once such costs are |
| | | | | fully realized, we believe the ambitions set forth in this plan |
| | | | | become much more viable both from |
| | | | | |
| | | | | a financial and societal standpoint. |
| | | | | Furthermore, equity is a central focus |
| | | | | of this plan. In addition to envisioning |
| | | | | a more robust transit network, the |
| | | | | plan addresses the negative |
| | | | | consequences of our sprawling |
| | | | | single-family land use pattern by |
| | | | | making it more affordable for more |
| | | | | people to live closer to regional |
| | | | | centers and along transit corridors. |
| | | | | Reducing the county's emphasis on |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|--|--|--|
| | | | | single occupant vehicle travel is more equitable than the status quo because historically disadvantaged communities are less likely to own a vehicle and therefore more likely to rely on walking, bicycling, and transit to meet their travel needs. |
| | | | | Historically disadvantaged communities are also more likely to bear the brunt of an auto-oriented transportation system with emissions exposure 75% higher among Latino and 61% higher among African American residents respectively than among white residents. Additionally, Hispanic and non-Hispanic Black / African Americans have a 33% higher traffic fatality rates than non-Hispanic White residents. |
| | Focus on developing transit but with a broader approach | The draft Plan focuses on improving mass transit through adding bus rapid transit (BRT) routes and to a lesser degree rail service. Other forms of transit should be considered and incorporated | Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations | Staff concurs. Specifically, Policy 4.1.6 and Policy 4.1.8 focus on improving local and regional bus service and microtransit. |
| | Specify how an evolution from carcentric transportation to transit-centric transportation will be staged and managed | The draft Plan does not adequately consider interim stages between the County's transportation situation as it exists now and as it may become over time. This evolution and its timing for items such as sidewalk and bicycle route installations or improvements as well as ADUs and infill development's demand for on-street | Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations | Staff concurs. Subsequent planning efforts will be needed to transition from a transportation system primarily organized to serve automobiles to one that effectively serves all modes of transportation. We also recommend adding a policy about pilot projects (see above). |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|--|---|---|
| | | parking are of particular interest given the large investment of public funds that would be needed and the uncertainties in obtaining funding. | | |
| | Continue to plan for traffic | The proposed BRT and rail options, even when added to existing Metro and bus lines (and the future Purple Line and planned BRT routes), will not create a transit network sufficient to get most County residents out of cars and hence to reduce traffic. The County's size, current settlement patterns, diverse population, and demographics require continued planning for vehicles and traffic, and the draft Plan should include strategies to do so. The County must maintain policy goals that include the realities of vehicular mobility and support acceptable motor vehicle levels of service. Traffic impacts everyone and planning for motor vehicle traffic still matters. The draft Plan now ignores the vehicular traffic needs of both small businesses and apartment developers, who tell us that they need to provide parking. | Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations | While the intent of the plan is to focus on creating a high-quality walking, bicycling and transit network, we recognize that a large increase in bus service will be needed, and that travel by automobile will continue to be necessary for many trips, especially in the suburban and rural areas of the county. |
| | Transit cannot replace all travel by automobile. | The Thrive Montgomery plan does not take into consideration residents who rely on automobiles for transport to their jobs. While improved commuter transportation is of value, commuter options are not a one size fits all alternative. For example, I often work late hours at my job on Washington, D.C.; I am not comfortable using mass transit late at night and prefer to use my | Patria A. Thomas | While the intent of the plan is to focus on creating a high-quality walking, bicycling and transit network we recognize that a large increase in bus service will be needed, and that travel by automobile will continue to be necessary for many trips, especially in the suburban and rural areas of the county. |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|---|--|--|
| | | own automobile. The plan reduces parking options and limits the use of automobiles for residents who rely on them for a variety of activity. | | |
| | Reevaluate transit needs in light of lessons from the pandemic | The spread of COVID-19 and subsequent changes to all areas of work, retail, delivery services, and family life are an object lesson in changing needs. The information already gleaned from changes to travel and telecommuting patterns should be incorporated into the draft Plan. | Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations | Staff concurs that COVID-19 has accelerated the transition to teleworking and delivery services. These comments will be considered to inform revisions and reorganization of the draft. |
| | Provide flexibility for future developments. | The draft Plan is not poised to accommodate future transportation solutions, which are constantly evolving. The impacts of conversion to electric vehicles over the next 25 years, growth in private multi-passenger services (e.g. Uber and Lyft), and new forms of transportation that are likely to become available soon, such as autonomous vehicles, are not considered. Development in areas near transportation hubs will progress and impose new transportation needs, and the ongoing pandemic will | Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations | In a rapidly changing world, it is difficult to predict the changing ways in which people will travel in coming years. We recommend updating the Plan regularly to ensure it continues to meet the County's needs. Additionally, the recommendations in the Plan are underpinned by transportation analysis that was conducted in support of the Plan where we evaluated several potential future scenarios, including the mass |
| | | change transportation needs in ways that cannot yet be predicted. The draft Plan should exhibit adequate flexibility to respond to current conditions or adapt to changing conditions over its time frame. | | adoption of autonomous vehicles and teleworking. While we acknowledge that the future is uncertain, our analysis has found that the policies in Thrive Montgomery shift us in the right direction. |
| | Integrate with other jurisdictions from the outset | Despite recognizing these realities, the draft Plan does not adequately consider that State and Federal roads crisscross the County and will not be subject to the draft | Todd Hoffman for Coalition of Incorporated Municipalities | MDOT controls many of the roads in Montgomery County, but it is the state's policy to defer to local planning efforts. As with any planning |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|--|--|
| | | Plan, nor the need to integrate the County's transportation modes with other adjacent jurisdictions. It is unclear whether MDOT was consulted with on this draft Plan. Also, County residents and non-residents will still routinely need cars to travel to other parts of the County, to other parts of Maryland, to DC, and to Northern Virginia. Commercial traffic and delivery vehicles will continue to use, and depend, on adequate roadways and traffic control within the County. | and Community Organizations | effort, this plan and subsequent plans and projects will need to be coordinated with our state and federal partners. Maryland Department of Planning was a member of the Technical Advisory Group, and MDOT has commented on the draft Plan. |
| | Accommodate many groups who cannot use mass transit | While the draft Plan focuses on equity, if the County does not plan for cars and insists on 'road diets', one direct consequence would be a significant negative impact on many groups of County residents, for whom the draft Plan would create inequities including: • Low income residents; • Senior citizens; • People with many types of disabilities. | Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations | The intent of the recommendations is not to prevent or even substantially restrict the use of automobiles. We acknowledge that there will always be some trips that must be made by car. Rather, the idea is to make walking, bicycling and transit significantly more competitive as alternatives to driving than they are today. |
| | Exclusive, dedicated lane for BRT | Some municipalities in other states are not exclusively dedicating one lane to BRT; rather the lane becomes dedicated during certain traffic conditions. What novel ways could streets be repurposed for BRT? | Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations | This can be investigated in future planning efforts. |
| | Will lane reductions negatively impact delivery vehicles. | The draft Plan mentions developing a "logistics plan to facilitate increasing volumes of ecommerce-related deliveries." However, downtowns and town centers are slated for more density. How will the increase in delivery vehicles factor into lane | Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations | This will be the focus of the logistics and curbside management planning efforts recommended in the plan. (Action 4.2.2.b and 4.6.1.a) |

|-----|---|--|---|---|
| | | reduction, parking decreases, and zero emissions? | | Additionally, the ongoing "Urban Loading and Delivery Management Study" may be able to answer some of these questions. |
| | Thrive Montgomery 2050 should not promote the use of 5G technology. | The October 2020 draft Plan promotes use of autonomous vehicles and a network of urban sensors, new technologies that would require so-called "5G" radiofrequency cellular networks. The General Plan Update should not promote this highly questionable change. Residents' input on this major change, along with that of public health experts familiar with the international scientific literature on radiofrequency exposures must be sought and thoroughly examined. | TAME Coalition | Thrive Montgomery proposes to use available technologies is an equitable, sustainable and safe manner. |
| | Walkable, bikeable, transit-oriented communities are healthy communities. | A great sidewalk or bikeway that we don't build is a lost opportunity to reduce car traffic. We need to start looking at them the same way we look at trees. Walkable, bikeable, transit-oriented communities are healthy communities. They are good for our hearts, minds, souls, friendships, and our planet. | Ronit Dancis, Alain Norman, Silver Spring | Staff concurs. |
| | Consider congestion pricing tools. | The county should find ways to charge for the many problems associated with car use, such as congestion, traffic accidents, and air pollution. Drivers should pay for the problems they cause. If possible, the county should institute a congestion charge. Another alternative would be a county-wide parking fee, since localities tend to provide free parking to get people to patronize their | Ethan Goffman, Rockville | See Policy 4.5.2: (Use pricing mechanisms to deter the use of single-occupant vehicles and encourage more walking, bicycling, and transit use.) and Action 4.5.2.a: (Conduct a study to determine how to apply congestion pricing in Montgomery County, including how to foster equity and distribute the |

|-----|--|---|----------------------------------|---|
| | | is a necessity in circumstances in which walking and biking are not practical. | | walking, bicycling and transit significantly more competitive as alternatives to driving than they are today. |
| | Need an even stronger emphasis on mass transit, buses, walking, and biking as the highest priority modes of transportation. | When I moved to Montgomery County, I was excited to live near a Metro station. However, we still ended up relying on my car most of the time because necessities like grocery stores, pharmacies, and preschools were not readily accessible. A 10-15 minute car ride can turn into a 1-2 hour public transit trip. I am excited at the prospect of complete communities, and would like to see an even stronger emphasis on mass transit, buses, walking, and biking as the highest priority modes of transportation. | Jessica Bronson, Gaithersburg | Staff concurs. |
| | The need to move high traffic volume through the Four Corners Route 193/US 29 intersection should be balanced against the desire of local residents to enjoy a walkable community. | The goal of more efficiently moving traffic along densely travelled major thoroughfares should not impact the quality of life in nearby communities. One of the primary goals of the TM 2050 planning process is to promote the concept of Connecting Communities so that "Every resident should have the opportunity to live, work, play, exercise, shop, learn, and make use of public amenities and services within a 15-minute walk or bike ride." The need to move high traffic volume through the Four Corners Route 193/US 29 intersection should be balanced against the desire of local residents to enjoy a walkable community. | Northwood Four Corners CA | Staff concurs. |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|--|---|
| | Support public transportation, which tends to be more inclusive of people with physical disabilities than bike or walking pathways | The Food Council also supports the Better Buses Platform, developed by the Coalition for Smarter Growth, which seeks to prioritize buses as the mode of choice, being fare-free and carbon neutral. By ensuring accessibility to critical food access points through public transportation routes, residents will become more likely to rely on public transportation, which tends to be more inclusive of people with physical disabilities than bike or walking pathways. | Catherine Nardi and Heather Bruskin for MC Food Council | Staff concurs. |
| | If most people have to drive to the Metro station or a bus stop to access transit, transit benefits are diminished. (P. 35) Action 4.3.1.a: Eliminate motor vehicle parking minimums for new development projects in downtowns, town centers, and rail and BRT corridors to encourage travel by walking, bicycling, and transit. | That may be, but there is no other easy way to access transit; and using transit is better than driving to distant areasIf the county wants to promote transit use, it should have parking and drop-offs at Metro stations and major bus stops. | Susan Spock and Caldwell Harrop, Bethesda | While staff supports the provision of drop-off locations at Metrorail stations, we believe that providing commercial and residential space around Metro stations and better bus service is a more cost-effective approach to increasing transit ridership on Metrorail than providing park-and-ride lots. Therefore, park-and-ride lots should be minimized. The exception to this may be terminal stations, which have a much larger catchment area to justify park and ride lots. |
| | Start planning for people instead of planning for cars (P. 42) | This sounds catchy, but it is meaningless. People drive cars and will continue to need cars. Planning for people means planning for cars as well as planning for walking and bikes. Traffic congestion after Covid may return, sucking economic prosperity out of the county. | Susan Spock and Caldwell Harrop, Bethesda | The intent of the statement is not to heavily restrict travel by automobile or even ignore the needs of motorists. Staff acknowledges that there will always be trips that will need to be made by car and we recognize that technologies such as autonomous vehicles will require |

| No. | Goal 4.1: Get people out of their cars and transform Montgomery County into a community of walkable, people-centric places. Make public transit, walking, and bicycling the preferred travel mode for daily trips and substantially reduce the need for personal vehicles. (P. 76) Goal 4.1: Get people out of their cars and transform Montgomery County into a community of walkable, people-centric places. Make public transit, walking, and bicycling the preferred travel mode for daily trips and substantially reduce the need for personal vehicles. (P. 76) | Goal 4.1 Delete the first sentence since it is not a goal, but rather an objective. The second sentence is a goal but reword it something like: Plan, design and implement the transportation system to encourage people to use public transit, walking and biking rather than the need to drive. Instead, the goal should be to facilitate all transportation options so that residents can choose the one that works best for them in any given situation. Cars are not the enemy. They are simply a tool for transportation, as are shoes, bikes, buses, and trains. We should not favor one mode of transportation over the others in the plan, especially if doing so requires increasing density in single family neighborhoods to support public transportation. | Commenter Dan Wilhelm for Greater Colesville Civic Association Robert E. Oshel, Silver Spring | These comments will be considered to inform revisions and reorganization of the draft. The intent of the statement is not to heavily restrict travel by automobile or even ignore the needs of motorists. Staff acknowledges that there will always be trips that will need to be made by car and we recognize that technologies such as autonomous vehicles will require future planning for automobiles. Rather, the statement is intended to shift the focus to planning for people, regardless of whether they travel by walking, bicycling, transit or |
| | Policy 4.1.1: Change the primary function of streets from moving automobiles to moving people and creating great places that are accessible and safe for all roadway users, environmentally sustainable and economically competitive. All rules and regulations regarding how we approve growth should support this approach. (P. 76) | Policy 4.1.1. There needs to be a balanced approach to using roads. Some roads will be primarily for vehicles and transit and others will also be used equally by all modes. | Dan Wilhelm for Greater Colesville Civic Association | automobile, and not to continue the planning of the past that was largely focused on travel by automobile. Staff concurs. Subsequent amendments to the Master Plan of Highways and local master plans will define the functions of county streets and provide guidance to achieve that balance. |

|-----|--|---|---|--|
| | Action 4.1.4.a. Provide dedicated transit lanes as part of the replacement of the American Legion Bridge. (P. 77) | In accordance with the County Council's most recent position, this action should also include engineering the new American Legion Bridge to be able to accommodate heavy rail. | Jane Lyons for Coalition for Smarter Growth | Staff concurs. These comments will be considered to inform revisions and reorganization of the draft. |
| | Action 4.1.1.b: Update the Master Plan of Highways and Transitways to consider whether to remove master-planned but unbuilt highways and road widenings. (P. 77) | This is a noteworthy incorporation of iterative planning that allows the County to revisit previous plans and ensure they are considerate of current conditions and context. | MDOT | Comment noted. |
| | Action 4.1.1.b. | WMCCA Comment: Change to "Update the Master Plan of Highways and Transitways to remove master-planned but unbuilt highways and road widenings, especially the M-83 highway." M-83 is unneeded, would be environmentally destructive, and takes funds away from mass transit projects. | Kenneth Bawer for West Montgomery County Citizens Association | Staff disagrees. As a 30-year policy guiding document, the draft Plan does not comment on specific projects. |
| | Action 4.1.1.b. (P. 7 | Action 4.1.1b - Delete "consider whether to". | Benjamin Ross | Staff disagrees. The purpose of the effort would be to determine whether it is appropriate to remove master planned but unbuilt highways from the Master Plan of Highways and Transitways. |
| | Remove master planned but unbuilt highways and road widenings, especially the M-83 highway. | Stop planning for cars and emphasize transit, walking and biking. Agreed! And in support of this, update the Master Plan of Highways and Transitways to remove master planned but unbuilt highways and road widenings, especially the M-83 highway. | Roberta (rg) Steinman | As a 30-year policy guiding document, the draft Plan does not comment on specific projects. |
| | Remove M-83 | [R]remove the proposed M83 Highway, from the Master Plan of Highways and Transitways and other master plans | TAME coalition | As a 30-year policy guiding document, the draft Plan does not comment on specific projects. |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|--|---|--|
| | M-83 and Montrose Parkway East extension | The Plan calls for examining the potential removal of highways from the Master Plan of Highways and Transitways. The Mid-County Highway extension known as M-83 should be highlighted as an example of why we need to revise the master plan. This highway is a relict of poor planning that would devastate streams, forests, biodiversity and communities. Likewise, the Montrose Parkway East extension from Rockville Pike to Veirs Mill Road should be abandoned and the road right-of-way designated as a greenway park. | John Parrish | As a 30-year policy guiding document, the draft Plan does not comment on specific projects. |
| | Policy 4.1.2: Plan and implement a high quality transit network that seamlessly connects the county's downtowns and town centers and regional destinations. Make transit the fastest and most reliable way to get between downtowns, town centers, and rail and BRT corridors. (P. 77) | Policy 4.1.2. High quality transit is not defined. The correct term is premium transit. Transit goes between places, not between places and itself. | Dan Wilhelm for Greater Colesville Civic Association | Staff concurs and will add this definition to the Glossary: "High-Quality Transit: Includes rail and bus rapid transit service that is reliable, frequent, fast and comfortable. Generally, the transit service should be so frequent that passengers do not need to consult a schedule." |
| | Action 4.1.2.b: Develop a strategy to expand commuter rail capacity on the MARC Brunswick Line to provide additional station locations in Montgomery County and provide bidirectional all-day service, seven days a week. (p. 77) | Action 4.1.2b - Delete "Develop a strategy to". | Benjamin Ross | Staff disagrees. This was intended to guide the prerequisite analysis needed to make the full recommendation to expand the MARC Brunswick line in the county. |
| | Action 4.1.2.b. | Action 4.1.2.b – Note – expanded commuter rail capacity on the MARC | Marilyn Balcombe for Germantown | Comment noted. |

| | new growth near rail and BRT. (P. 77) | | Association | |
| | Remove microtransit as it consistently fails. | Policy 4.1.8 - Delete microtransit. Microtransit is geometrically unworkable and consistently fails in practice. | Benjamin Ross | While staff acknowledges that some microtransit systems are more successful than others, we do not agree that they are geometrically unworkable. |
| | Goal 4.2: Redesign street systems in downtowns and town centers to be active, people-centric places. Most travel to, from and within these areas will occur via walking, bicycling, and transit. | Goal 4.2 and its policies. The points here are already covered in Goal 4.1 and its policies. | Dan Wilhelm for Greater Colesville Civic Association | While there is some overlap between Goal 4.1 and 4.2, Goal 4.2 and its policies should be preserved because they expand on the transportation vision for the County's Downtowns and Town Centers. |
| | Policy 4.2.1, Policy 4.2.2, Policy 4.2.3, (P. 78) | | | |
| | Policy 4.2.1: Expand the street grid in downtowns, town centers, rail and BRT corridors, and suburban communities to create shorter blocks, improve access and transportation system redundancy, and slow the speed of traffic. Use development projects and roadway modifications to provide new street connections. | WMCCA Comment: This is not a good idea. This will result in more miles of impervious roadway, leading to more stormwater runoff, leading to more degradation of stream valleys. | Kenneth Bawer for West Montgomery County Citizens Association | Staff disagrees. Completing the street grid is the key to making transportation systems around Downtowns, Town Centers and transit corridors work effectively. A grid street network is more efficient and walkable than a non-grid network and therefore is more sustainable in the long run. |
| | Action 4.2.2.a: Update the Master Plan of Highways and Transitways to limit the number of through-lanes in downtowns and town centers to a maximum of four general purpose lanes and repurpose space for transit lanes, wider sidewalks, bikeways, trees, and stormwater management. Discourage new turn | WMCCA Comment: Add: Bikeways must be separated from motorized vehicles by solid barriers such as jersey walls, not simply low curbs. | Kenneth Bawer for West Montgomery County Citizens Association | Staff agrees with providing adequate protection to bicyclists but would prefer landscape buffers to jersey barrier type of solutions. |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |

| | lanes in downtowns and town centers. (P.78) | | | |
| | (F.70) | Action 4.3.1.a applies to downtown areas, but it should be extended to adjacent areas as well, perhaps with the same 15-minute criteria. | Seth Grimes | Staff concurs. These comments will be considered to inform revisions and reorganization of the draft. |
| | Market-based parking rates | Page 77 (Refer to Policy 4.3.2): The Draft Plan could include other parking management tools such as on- or off-site shared parking and connecting adjacent retail and business establishments to help manage parking effectively. | MDP | Staff concurs. These comments will be considered to inform revisions and reorganization of the draft. |
| | Market-based parking rates | Action 4.3.2a - Rather than market rates, which are depressed by parking subsidies embedded in past policies, parking charges should be at rates sufficient to support the cost of construction and operation. | Benjamin Ross | The particular form this action takes can be addressed when parking rates are studied. |
| | Market-based parking rates | Please clarify how the General Plan's Action 4.3.2.a regarding market-based parking rates can be reconciled with the equity provisions of the Public Hearing Draft. | Josh Silverstein, President, Randolph Civic Association | This would have to be studied in detail as part of the implementation of this action through a subsequent master plan amendment. |
| | Prioritize places with high fatality rates for pedestrian safety measures. | Policy 4.4.3 - The priority for pedestrian safety should be the places with high fatality rates (mostly high-speed arterials), not places with high crash rates (mostly downtowns with heavy foot traffic, slow vehicle speeds, and less serious injuries). | Benjamin Ross | Staff concurs. These comments will be considered to inform revisions and reorganization of the draft. |
| | Best practices and guidance to work toward Vision Zero. | Regarding Policy 4.4.1 and Policy 4.4.3 with respect to transportation-related fatalities and severe injuries and crash locations analysis: The MDOT SHA is advancing plans and policies and implementing best practices and guidance to work toward Vision Zero, especially, since the April 2019 | MDOT | Comment noted. |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|--|---|--|
| | | adoption of House Bill 885 that established Maryland as a Vision Zero state. For MDOT, Vision Zero is the umbrella under which numerous safety strategies are housed. One of those strategies at MDOT SHA is Context Driven, which includes the Context Guide, a draft of which was published in September 2019. | | |
| | Regarding Action 4.4.1.b: Develop an Access Management Plan. | Please consider adding more detail to this action step. Also consider incorporating a requirement that local developers implement context sensitive design solutions into the County's local area transportation reviews (LATR). | MDOT | Montgomery County has incorporated context sensitive design solutions into its projects and regulatory controls such as Local Area Transportation Review (LATR) for some time. Our draft Complete Street Design Guide will update these standards. |
| | Policy 4.5.1: Incentivize the use of modes other than single-occupant vehicles by providing high quality transit, walking, and bicycling networks. (P. 79) | WMCCA Comment: Change to: Incentivize the use of modes other than single occupant vehicles by providing high quality transit, and safe walking and bicycling networks, both of which are separated from motorized vehicles by solid barriers such as jersey walls, not simply low curbs. | Kenneth Bawer for West Montgomery County Citizens Association | These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Action 4.5.2.a: Conduct a study to determine how to apply congestion pricing in Montgomery County, including how to foster equity and distribute the revenue to promote walking, bicycling, and transit. (P. 79) Action 4.6.1.a: Conduct a study to reexamine the travel needs of vulnerable users of the transportation system and create strategies to improve their access to jobs, food centers, age | Please clarify what MDOT's role will be with these studies, if any. Is the County seeking technical assistance or participation? | MDOT | Comment noted. These comments will be considered to inform revisions and reorganization of the draft Plan. |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|--|---|---|
| | restricted housing, health care, and other services. Prepare an Aging Readiness Functional Master Plan to support safe transportation options for the county's aging population and address topics such as transit use, curbside management, and street infrastructure. (P. 80) | | | |
| | Goal 4.6: Create an equitable transportation system that provides affordable and accessible travel options to jobs, education, and services. (P. 80) | Goal 4.6. Eliminate since actions dealing with funding priorities and fares don't belong in this document. | Dan Wilhelm for Greater Colesville Civic Association | These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Goal 4.7: Convert auto-centric transportation corridors into safe, people-centric multimodal streets with rail and BRT. Most travel to, from and within transportation corridors will occur via walking, bicycling, and transit. (P. 80) | Goal 4.7. Eliminate since it is already covered under Goal 4.1 | Dan Wilhelm for Greater Colesville Civic Association | Staff disagrees. While there is some duplication, the idea was to provide a specific goal about transportation corridors, as this is a major theme of Thrive Montgomery. |
| | Goal 4.7. | Goal 4.7:Most travel to, from and within transportation corridors will occur via walking, bicycling, and transit – This is an "urban-centric" goal that doesn't meet the reality of our existing communities. | Marilyn Balcombe for Germantown Chamber of Commerce | Staff concurs that this doesn't meet the reality of many existing communities. Thrive Montgomery proposes changes both to the transportation network and the land use along transit corridors. |
| | Policy 4.7.1: Prioritize implementing safe and connected low-stress bicycle and pedestrian networks in rail and BRT corridors over projects that increase traffic capacity. | This only makes sense if enough people can live near their jobs – which is not feasible for at least some significant subset of the population. Mass Transit projects require viable roads and are most efficient in transporting more people. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Staff disagrees. If all future growth is going to be in transit corridors, we will need to increase investment in safe and connected low-stress bicycle and pedestrian networks to make them more attractive than private car travel. |

|-----|--|---|---|---|
| | | traffic and congestion, while the narrowing of roadways will make turns more difficult for large fire-rescue apparatus. Similarly, the proposal for "a grid of streets and alleys" and smaller blocks with more crosswalks could also hinder response times. | Vision, Goals, Policies and Actions) | and bicycle traffic safely can be done without negatively impacting fire and rescue operations. |
| | Goal 4.1: Get people out of their cars and transform Montgomery County into a community of walkable, people-centric places. Make public transit, walking, and bicycling the preferred travel mode for daily trips and substantially reduce the need for personal vehicles. (P. 76) | The priority goal of the public transportation system is to get residents to their jobs and schools. There is interest in including schools in the Complete Communities by repurposing office buildings, but no clear plans for jobs. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Complete communities, including the characteristics and elements of urban, suburban and rural complete communities, will be considered and discussed further during the Planning Board work sessions to inform revisions to the draft Plan. |
| | Policy 4.1.2: Policy 4.1.2: Plan and implement a high quality transit network that seamlessly connects the county's downtowns and town centers and regional destinations. Make transit the fastest and most reliable way to get between downtowns, town centers, and rail and BRT corridors. | Should we be capitalizing on our Amtrak access more? Do our Amtrak stations have significant needs? Are there positions we can advocate for toward improving the Capitol Limited service? Even if the plan ultimately doesn't suggest significant changes to the County's Amtrak access, it should at least acknowledge that it exists. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | At this time we do not see an intercity travel via Amtrak along the Capitol Limited corridor as a significant benefit to Montgomery County. |
| | Policy 4.1.2 | Need to ensure this recognizes the need for bus depots & transit centers (particularly in locating & acquiring ROW). This should establish that a future Transit Functional Plan will identify these locations, for inclusion into future area master plans. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | This could be addressed in an update to the Master Plan of Highways and Transitways. |

| | Policy 4.5.3: Facilitate the mass adoption of zero emission vehicles. | Should include an action item for electric charging infrastructure. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and | The Healthy and Sustainable Environment chapter includes this action: "Action 6.2.2.b: Expand the inclusion of electric vehicle charging stations for all new development and redevelopment." |
| | Action 4.5.3.b: Update all county fleets and contracted fleet providers to zero emission vehicles. | The Executive supports the goals of reducing emissions and currently has several initiatives underway including EV vehicles towards meeting 2040 climate goals. Updating public and private fleets to zero emission vehicles is an aggressive objective that may not be feasible. | Actions) County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Staff concurs that this is an aggressive objective. We note that the Draft Climate Action Plan also supports this recommendation with its target of "100% electrification of transportation options, including all private and public vehicles (for example, cars, trucks, buses) by 2035." |
| | Action 4.6.1.e: Provide low-cost transportation for low-income populations through transit fare and toll policies. | Unclear what level of subsidy is to be considered. Would need to know that to adequately provide fiscal information. | County Executive, 8-14- 20 (This comment was made on the 6- 11-20 draft of Vision, Goals, Policies and Actions) | Thrive Montgomery is a high-level policy plan that does not estimate costs because that would be part of subsequent planning and other implementation efforts. |
| | State should be a partner for county's transportation needs. | Page 80 (Goal 4.8): o Please add "the state" in policy statements to indicate the state should be a | MDP | Staff concurs. These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Address existing interstate highways | partner for county's transportation needs. | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|--|---|---|
| | | o The Draft Plan could include a policy to address existing interstate highways. Although the system is operated and maintained by the state, a county policy would help the state to develop plans for future improvements. Since the county is shifting its transportation focus on transit and non-single occupancy vehicle transportation, perhaps, the county will promote a multimodal transportation system and emphasize people, instead of the vehicle, throughout the interstate | | |
| | Goal 4.8: Create a seamlessly integrated regional transportation system by coordinating transportation planning within the region and between neighboring jurisdictions. (P. 81) | highway system in the county. The MDOT MTA supports the focus on integration between systems and throughout the region. | MDOT | Comment noted |
| | Goal 4.8 | Goal 4.8. This goal is saying to form another COG, but it already exists. Are you proposing to create another COG? Coordination is also needed with Howard County and others counties north of Montgomery County. | Dan Wilhelm for Greater Colesville Civic Association | The Plan does not recommend creating another COG; it recommends M-NCPPC and Montgomery County to be more active in transportation planning in the region. |
| | Action 4.8.2.a: Form a subregional transportation or transit authority, such as the Northern Virginia Transportation Authority, that would include Montgomery County and Prince George's County, among others. (P. 81) | Action 4.8.2a - Delete. This already exists in the Washington Suburban Transit Commission. Creation of a regional roadbuilding authority would be directly contrary to the plan's aim of shifting transportation priorities. | Benjamin Ross | These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Policy 4.8.3: Assemble a regional coalition of jurisdictions and other stakeholders to guide transportation | MDOT leads the statewide Maryland Connected and Automated Vehicle (CAV) Working Group, where all stakeholders can | MDOT | Comment noted. |

Diverse and Adaptable Growth (Revised-- Theme #1: Compact growth: corridor-focused development)

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|--|---|--|
| | Coordination with MDP on implementation of food related policies. | Planning [MDP] is interested in following the implementation of the Draft Plan's goals, policies, and actions for the Agricultural Reserve and the food system, because the county's experience could provide best practices for other counties to emulate. | MDP | Montgomery Planning welcomes the opportunity to collaborate with the Maryland Department of Planning through the implementation of Thrive Montgomery 2050. |
| | Include a reference to Growth Tiers Map. | Since this is a full comprehensive up-date to the general plan, and explicit incorporation of the Growth Tier Map into comprehensive plan is unclear, Planning [MDP] suggests that a sentence be added under Other Regulations (page 127), that says "The official map displaying the Growth Tier areas is included in Chapter 50, Section 50.4.3 of the Subdivision Regulations and is adopted by reference into Thrive 2050 in accordance with the Maryland Sustainable Growth and Agricultural Preservation Act of 2012." | MDP | Comment noted. The draft Plan addresses Senate Bill 236 (SB 236), which requires local jurisdictions to map and adopt specified growth tier, on page 130. |
| | The need to accommodate new growth. | WMCCA Comment: There is too much emphasis on the need for new growth. It is never explained why growth is good for existing residents. What kind of growth are we talking about: jobs, population, number of buildings, etc.? The emphasis should be on sustainable growth. | Kenneth Bawer for West Montgomery County Citizens Association | Montgomery County along with other jurisdictions in the region proactively plan for the expected future growth to make sure it is done in a sustainable manner consistent with the jurisdiction's vision and aspirations. Putting artificial limits on growth is neither practical nor desirable for a number of reasons. For example, since we cannot stop people from coming to this region, limiting growth in the county will make housing increasingly more |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|--|---|--|
| | | | | expensive and exacerbate inequities and other issues. Additionally, communities with population decline also typically experience economic decline. |
| | Reorganization of the report and the section on Agricultural Reserve. | This chapter, placed toward the end of the plan, doesn't add much that hasn't already been said. We believe it would be most beneficial for this section to focus on the policies that support diverse and adaptable growth — including the county's tax regime, review/permitting processes, and adequate public facilities ordinance — in addition to the Agricultural Reserve. Moreover, most of this chapter is focused on the Agricultural Reserve without making a strong argument about how it should be used in the future. How can the Agriculture Reserve best help us meet our environmental, health, land use, economic, and food production goals, and balance those interests? | Jane Lyons for Coalition for Smarter Growth | Based on feedback from both the Planning Board and the public, the draft Plan will be significantly reorganized. These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Limit the number of parking spaces in building garages. | If the County is to grow and traffic to be limited, the areas around Metro stations and other mass-transit facilities must be built up in a manner that encourages people to live, work, shop and entertain themselves within walking distance. The above idea can be implemented by limiting the number of parking spaces in building garages. | Bruce Shulman | Staff concurs. Goal 4.3, as well as Policies 4.3.1 and 4.3.2 in the Public Hearing Draft specifically seek fewer parking spaces and effectively managing the spaces that remain. |
| | VisionFlexible. | WMCCA Comment: We object to the concept of "flexible regulations and zoning | Kenneth Bawer for West | Staff disagrees. As a 30-year plan, there will be unexpected |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|--|--|
| NO. | Residents have a variety of choices when selecting their preferred community setting and housing type. The bulk of new residents live in more dense, urban areas. Concentrating new growth in already developed areas makes the best use of the county's available land and infrastructure, and helps to protect the environment. Flexible regulations and zoning controls result in a vibrant mix of | controls." We don't have flexible speed limits for a reason. We don't want an officer to say, "The speed limit is 25, but I'll be flexible and make it 45 for you, Mr. Jones." Regulations and zoning controls should be fixed, not flexible. The implication is that the Planning Board can change regulations and zoning controls based on a whim or developer influence. | Montgomery County Citizens Association | opportunities and challenges, such as the current COVID-19 pandemic or the effects of climate change. Due to the long-term nature of the plan, some level of flexibility will be necessary to harness opportunities and address challenges as they arise. |
| | residential and commercial uses. (P. 47) Need more data based on an updated Demographic Projections Round 9.1 from COG to assess water and sewer needs. | Throughout the Plan, reference is made to focusing on infill and redevelopment. WSSC Water cannot comment on the impact that this policy will have on the capacity of the water and sewer systems which serve the County without specific data provided. This data would need to include an update from the latest COG Demographic Projections Round 9.1, broken down by Transportation Area Zones that reflect the increase in business and housing proposed from the latest 2045 Round 9.1 projections. Piecemeal Sector plans do not allow for a comprehensive county-wide analysis required. If such data is available, please know that it will take several months for us to analyze using our computerized hydraulic models of the water and sewer systems if our budget allows. | WSSC Water | Comment noted. Montgomery County participates in the COG forecasting process, which periodically updates the region's growth forecasts to reflect all factors affecting growth including master plan amendments. As a county-wide, long-range plan, Thrive Montgomery will not include detailed data on households and jobs by TAZs. This data will be provided with subsequent master and sector plans and reflected in the future COG comprehensive forecasts. |
| | Goal 7.1: Focus growth on infill development and redevelopment | Goals 7.1, 7.2 and 7.3 should be deleted since the subject is already covered in under the Complete Communities element. | Dan Wilhelm for Greater Colesville Civic Association | Based on feedback from both the Planning Board and the public, the draft Plan will be significantly |

| | | | | Complete Communities. These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Divers and Adaptable Growth Chapter | Title. The title for this element needs to be changed to Agriculture Reserve. | Dan Wilhelm for Greater Colesville Civic Association | These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Apply a food system lens to each of the plan elements. | Food is a basic human right, and the food system is deeply connected to all aspects of a resident's life. Thrive 2050 should reflect this, by applying a food system lens to each of the plan elements, and by drawing insight from diverse County stakeholders when considering health equity and food justice, economic opportunity, and environmental resilience. | Catherine Nardi and Heather Bruskin for MC Food Council | Staff concurs and has included many of the Food Council's suggestions in the draft Plan. |
| Loca | tion of growth | I | T.,,,,,,, | I = 1 |
| | List some of the transit stations where growth will be focused | It may be valuable to explicitly list some of the transit stations where growth will be focused, the connections between them, and the existing network of major corridors. | MDOT | The exact location of transit stations will be determined through subsequent master plan amendments. |
| | Concentrating all new growth along transit corridors could diminish housing and employment choices. | The one question we raise, is the statement at page 38 referring to concentrating "all new growth" along transit corridors. This seems to be a bit of an overstatement given the diversity of housing and employment choices affected by societies since the beginning of time. While there have been ebbs and flows with respect to interest levels in urban, suburban and rural locations, each has its followers, and all are necessary. | Griffin Benton, MBIA | Thrive Montgomery 2050 seeks to accommodate future growth in urban, suburban and rural locations, but proposes to direct this growth to transit station nodes along major corridors served by infrastructure and amenities. This will add to the diversity of housing and employment choices in the county, not diminish them as many suburban and rural communities will not be affected by |

| | | upper levels. | | |
| Agric | cultural Reserve | | | |
| | Commercial solar in the Ag Reserve | While the October draft Plan has strengthened the support for the Agricultural Reserve overall, there remains the need for much greater review and input from producers in the Ag Reserve. The Council's and Planning Board's support for commercial solar in the Ag Reserve must be reversed, since solar developers are offering tenfold and greater land rents, and farmers are being priced off of the land they now farm. | TAME Coalition | The proposed solar farm zoning text amendment is undergoing a separate review process outside of the scope the Thrive Montgomery 2050 development process. |
| | Policy 7.4.3: Increase public awareness of the agricultural, environmental, and economic benefits of the Agricultural Reserve and better connect communities throughout the county to this vital resource through public education and outreach, school programs, and fostering agritourism and ecotourism. | Policy 7.4.3 The government should not be in the business of increasing public awareness, except as part of MCPS education. | Dan Wilhelm for Greater Colesville Civic Association | Staff disagrees. The Agricultural Reserve has successfully preserved farming, farmland and rural open space as well as protected natural resources and provided opportunities for local food production and carbon sequestration. Increasing awareness of this valuable resources is necessary to its retention and enhancement in the next several decades. |
| | Need more emphasis and specificity in protecting the Agricultural Reserve. | The plan lacks a complete analysis and policy recommendations on the pros and cons of continuing or changing the systems in place in the Agricultural Reserve. Reserve stakeholders have frequently expressed concern regarding the absence of specificity in long-term commitments to protect the Reserve in the | Denisse Guitarra for Audubon Naturalist Society | Thrive Montgomery 2050 is a long-range plan that defines the basic land use setting and context for the next 30 years. More detailed analysis and specific recommendations to implement the broad policy guidance for the Agricultural Reserve should be included in a subsequent amendment |

Design, Arts and Culture (Revised Theme #5: Design, arts and culture: adding value and building community)

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|---|---|---|
| | | | | |
| | Need a final round of editing. | In general, while we respect that these introductory sections were written through a highly collaborative process and reflect many voices, we feel a final round of editing might result in a more cohesive statement. | Todd Bressi for Arts and Humanities Council | Based on feedback from both the Planning Board and the public, the draft Plan will be significantly reorganized. These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Suggested edits to the text. | Issues and ChallengesThis is a series of ideas that might better be bullet points, if that style is allowable here. | Todd Bressi for Arts and Humanities Council | These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Need for local design guideline panels. | Planning Director Wright in her speeches seems to rely quite a bit on "great design." However, our county doesn't have a form based zoning code or any other mechanism that requires a builder to build anything other than to the envelope (height, setback, FAR) defined. Establish local design guideline panels (implemented through master and sector plans, not the general plan) that have more teeth than the Bethesda model has, or we won't get "great design." | Jean Cavanaugh, Silver Spring | Planning staff believes that "great design" can be achieved through better public engagement, strong design guidelines, appointment of review panels in some areas and the introduction of form-based recommendations in our master and sector plans. |
| | Update the Locational Atlas of Historic Resources | The draft Plan currently requires a program to periodically catalog "building types in the county with a high risk of obsolescence," but it does not currently include a requirement for a systematic review and updated survey of the County's historic, and potentially historic, resources. | Deborah Chalfie, Board member Art Deco Society of Washington | Comment noted. These comments will be considered to inform revisions and reorganization of the draft Plan. |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|-------------------------------------|--|
| | | ADSW believes it is absolutely critical for the Planning Board to add an Action Step under Goal 8 that would require more regular and systemic maintenance of the Atlas by the Historic Preservation staff to avoid a piecemeal approach and help prevent regrettable oversights until it is too late. Adequate funds need to be appropriated and allocated to enable them to document and inventory the list of historic resources for the Locational Atlas and Index. The Atlas must include midcentury buildings that are now of such as age as to be considered historic. | | |
| | Public spaces as gathering spaces, | We need to rethink public spaces to make them gathering spaces, which can be done by neighborhoods doing their own placemaking events. | Sebastian Smoot, Burtonsville | Staff concurs. Public spaces should be focused, well defined, and central within communities with primary uses focused toward people. These spaces should also be flexible to allow for various neighborhood gatherings, uses and programs as well as neighborhood placemaking events. |
| | Make art and culture part of the regulatory review. | As with green space, recreation, and commerce, art and culture (i.e.: performances) should be interwoven into everything. Consider it as a lens for development approval: is the development within range of a venue? Does it have opportunities for local artists to put their stamp on it? Does it leave room for purely aesthetic and recreational engagement? | Edmund Morris | Planning staff agree that there is a significant relationship between culture, arts, and the programming of space and their nexus with commerce and the economy. |

| | | | | |
| | Goal 8.1: Use design to shape Montgomery County as a collection of world-class towns, cities and rural villages, with neighborhoods that celebrate their history, geography, and culture. Goal 8.5: Sustain an arts and culture ecosystem that enriches the lives of county residents and the vitality of its communities, supporting <i>Thrive Montgomery 2050's</i> strategic goals for economic health, community equity, and environmental resilience. | Goals 8.1 and 8.5. The county can encourage art and culture in new development but it should not be part of the regulatory process. The way to do this is create a guide that developers could use if they desire. What is attractive for one person may not be for someone else. Also tastes change over time so regulating it would lock in something that will get dated. | Dan Wilhelm for Greater Colesville Civic Association | Thrive Montgomery is a long-term policy document that sets goals for shared future outcomes. Land development regulation is one tool among many that may be used to implement goals. However, the county will continue explore various implementation strategies, including strengthening multi-stakeholder partnerships to develop the necessary tools to achieve and sustain a lively art and culture ecosystem. |
| | Suggest adding a new policy. | Add a new policy: Policy 8.1.2: Use public art tools to strengthen the involvement of artists in planning and design of county facilities and private development, and to recognize the diverse cultures of communities throughout the county. | Todd Bressi for Arts and Humanities Council | These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Goal 8.2: Create and preserve great places with attractive streets and public spaces, inspired urban design, and high-quality architecture that delivers lasting beauty. | Goal 8.2. This largely deals with parks and that entire subject needs to be part of the Healthy and Sustainable Environment element. | Dan Wilhelm for Greater Colesville Civic Association | These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Policy 8.2.1: Ensure high quality design for all public and private architecture, infrastructure, and open space projects using design guidelines, design advisory | Should "Use design competitions for major new civic facilities to create the highest-quality public structures that are a source of civic pride." be an action? | Todd Bressi for Arts and Humanities Council | These comments will be considered to inform revisions and reorganization of the draft Plan. |

| | | | | establish specific numeric goals or deadlines. The proposed edits are more appropriate to be included in the county's Climate Action Plan. |
| | Regarding Action 8.3.3.c. | Consider expanding the street tree-planting program to include all infrastructure improvements, not just bicycle and pedestrian facility improvements. | MDOT | Comment noted. These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Action 8.4.1. Partner with DPS and other county agencies to update the County Code to fast track and create incentives for projects that adaptively reuse at least 50% of an existing structure or preserve at least 50% of all existing building materials on site. (P. 120). | Mitigation and offsets are also welcome. However, also within this same action step is permission to "fast track" projects that may demolish up to 50% of an existing structure or building materials, and the floor of protection is incentivized, but not required. ADSW is concerned that the 50% standard could lead to façadism and mismatched hybrids that technically meet the standard but violate the integrity of the original building and satisfy no one. We urge the Planning Board to strengthen the adaptive reuse action steps to reference the importance of taking a holistic view of projects, and to require the preservation standard to be higher when a lesser standard would undermine the integrity of the original building or the end product as a whole. | Deborah Chalfie, Boardmember Art Deco Society of Washington | Comment noted. These comments will be considered to inform revisions and reorganization of the draft Plan. |
| | Goal 8.4: Make buildings in the county more resilient to disruption through flexible design and high adaptive reuse potential. | Goals 8.4 and 8.6. The design is a function of the private sector not the regulatory public sector and thus needs to be deleted from this document. | Dan Wilhelm for Greater Colesville Civic Association | Staff disagrees. Design is a product of both the public and private sector actions and influences. There is always a need for public sector guidance and input to make sure |

|-----|------------------|---|--------------------|----------------|
| | | The 15-minute Complete Community is not | Lloyd Guerci | |
| | | adequately described and fleshed out | | |
| | | across the County. | | |
| | | the description of Complete Communities | | |
| | | is in part unacceptable vague, which | | |
| | | viewed another way, amounts to a lack of | | |
| | | reasonable transparency on what is | | |
| | | proposed. | | |
| | | The Thrive Montgomery 2050 Draft Plan | | |
| | | fails to show that Complete Communities | | |
| | | are likely to be viable and workable across | | |
| | | the County. | | |
| | | The Thrive Montgomery 2050 Draft Plan | | |
| | | fails to justify a core premise that there | | |
| | | will be sufficient employment in Complete | | |
| | | Communities to make them viable. | | |
| | | The Thrive Montgomery 2050 Draft Plan | | |
| | | fails to justify an economic assumption | | |
| | | that Complete Communities will have | | |
| | | viable commercial elements. | | |
| | | The notion of local schools that children | | |
| | | can walk to in Complete Communities is | | |
| | | both wholly unrealistic and potentially | | |
| | | socially problematic. | | |
| | | As to zoning, if the Complete Communities | | |
| | | are to be successful, they must have real | | |
| | | public space and real open space. The | | |
| | | Planning Board should recommend | | |
| | | changes to the Zoning Ordinance on what | | |
| | | counts as public use space and open space. | | |
| | | The land would fall into one of two | Dan Wilhelm for | |
| | | categories: CBDs, Metro Policy areas, and | Greater Colesville | |
| | | town centers (which we just call town | Civic Association | |
| | | centers); and areas between them. There | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|---|---|----------------|
| | | are many acres in urban and suburban areas that are not within a town center. The text reads as if everything is in a town center. The text needs to be changed to correct that impression. | | |
| | Healthy environments equal healthy communities, 15-minute living | We support the approach and emphasis given in the plan to connect people to their environment and promote healthy and active lifestyles as stated in the "15-minute living" policy recommendation. We support increasing access to green spaces for all people while simultaneously working to eliminate structural barriers that prevent individuals from accessing nature. | Denisse Guitarra for Audubon Naturalist Society | |
| | | The idea of Complete Communities with 15-minute living is the land use answer to many of the issues we are facing today including the racial and economic segregation of our communities, housing affordability, and increased greenhouse gas emissions from vehicle miles traveled. This is a remarkably sweeping assertion, yet one looks in vain for evidence or argument to support this statement. How many of the one million plus residents now experience 15-minute living, how many residents does Thrive aim to have 15-minute living, and what will it take to make it happen? Absent some even order of magnitude estimates, the 15-minute concept is little more than a planning slogan. | Herb Simmens | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|--|---|----------------|
| | | Think of complete communities as investments in public health and public safety – communities that have access to quality services, recreation, diverse modes of transportation and economic opportunities, and can support people across income levels promote healthier, safer, and more trusting people. It's the communal experience that creates community, after all, not just the colocation. I want to explicitly highlight enthusiastic support for a transit-first planning ethos, and the abandonment of car-centric design. Likewise for the recognition that diversity in housing types is essential, and should not be limited to new development but ought to focus on making existing | Edmund Morris | |
| | Do walkable complete communities near transit bring jobs to the area? | communities more adaptable. The goal for Thrive Montgomery is to produce more housing that is affordable and attainable with the idea that the ability to live equitably will attract businesses and will bring jobs to the area. The idea is that Complete Communities with mass transit and walkability will attract young people who will come and jobs will follow. It doesn't work that way. | | |
| | | b. Page 32-34. In general, the concept of Complete Communities needs more work. There is no standard definition and no explanation of how 15-minute living will be different in urban, suburban, and rural communities. There are certain | Jane Lyons for Coalition for Smarter Growth | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|--|----------------|
| | | critical amenities that are not mentioned, such as healthy food. We also believe it should be explicitly stated that no community is "complete" unless it is racially and economically diverse. There should be no enclaves of whiteness, wealth, or poverty in Montgomery County. | | |
| | The goal is to create Complete Communities that are diverse and can provide most essential services within a 15-minute walk, bike ride, or drive. (P. 33) | We urge you to remove driving from this definition of 15-minute living. The vast majority of county residents already live a 15-minute drive from their daily needs, rendering the Complete Communities a meaningless argument for embracing a more compact, mixed use, sustainable built environment. Moreover, the worldwide concept of the 15-minute neighborhood is specifically focused on walking and biking. changes that grow the pie and result in a higher quality of life for all. | Jane Lyons for Coalition for Smarter Growth | |
| | | The draft Plan should also reflect the diversity of communities and neighborhoods that exist throughout the County by defining the different ways in which different types of neighborhoods can achieve the goals of Complete Communities. Montgomery County is not "one size fits all," and the draft Plan should recognize the County's differences by establishing separate parameters for determining what is a "Complete Community" in the urban, suburban, and rural parts of the County. | Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations; Melanie Rose White, Chair Citizens Coordinating Committee on Friendship Heights | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |

| | | available for delivery, so people do not | | |
| | | even have to live near them. They can | | |
| | | choose the type of exercise and play that | | |
| | | they choose rather than being forced to | | |
| | | accept walking and bike riding. | | |
| | | | | |
| | | Again people can make their own choices | | |
| | | for places for social gathering rather than | | |
| | | being restrained by what is in their | | |
| | | neighborhood. | | |
| | | | | |
| | | We are submitting a comment in respect | Mark Quinn | |
| | | of the Montgomery County Thrive 2050 | President, | |
| | | initiative. We support a thoughtful | Heritage Walk | |
| | | approach to the issues outlined in the plan, | Home | |
| | | but we represent a single family HOA | Corporation | |
| | | community where people have invested | (Windermere) | |
| | | themselves and their money in the belief | HOA | |
| | | that the commitment to that style of | | |
| | | housing for our neighborhood was clear | | |
| | | and absolute. Thus, we expect that any | | |
| | | County honor that commitment to us and | | |
| | | respect the community's status and | | |
| | | authority as an HOA. | <u> </u> | |
| | | The Plan should specify the parameters for | Irene Lane, Town | |
| | | the diverse urban, suburban, and rural | of Chevy Chase | |
| | | "Complete Communities" that exist | Councilmember | |
| | | throughout the County. | Dalam Internet | |
| | | Unclear if and how complete communities | Deborah Ingram, | |
| | | will be executed across the county, they | Chevy Chase | |
| | | seem better suited for small areas. | | |
| | | Complete communities are still undefined | | |
| | | which makes them difficult to assess. | | |
| | | Urban, suburban, and rural complete | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|--|-----------------|----------------|
| | | communities should be defined better and | | |
| | | specified where they will be located. | | |
| | | Focusing on transit hubs seems | | |
| | | inequitable since these areas are already | | |
| | | populated with amenities, underserved | | |
| | | areas should be improved first. | | |
| | | There is concern around how Complete | Amy Medd for | |
| | | Communities will be implemented in rural | Sandy Spring | |
| | | communities such as Ashton. Projects are | Ashton Rural | |
| | | already being built that diminish Ashton's | Preservation | |
| | | rural character, such as townhouse | Consortium | |
| | | developments. Where does Ashton fit into | (SSARPC), | |
| | | the rural end of the transect? | President of | |
| | | | Sandy Spring | |
| | | | Ashton Rural | |
| | | | Preservation | |
| | | | Consortium | |
| | | [We] applaud the Plan's highlighting the | Peter Gray, | |
| | | trend/challenge number 9 (page 22), that | Washington Area | |
| | | the County needs to stop planning for cars | Bicyclist | |
| | | and should emphasize transit, walking and | Association | |
| | | biking. As we emerge from the COVID | | |
| | | crisis, it is even more clear that we will not | | |
| | | thrive, transportation-wise, if we do not | | |
| | | emphasize non-auto alternatives to get | | |
| | | around the County. | | |
| | | to addition the death and also the section is | | |
| | | In addition, the plan's emphasis on equity, | | |
| | | means we should be planning and | | |
| | | implementing ideas that allow County | | |
| | | residents who cannot afford to use cars, to | | |
| | | have reasonable and safe alternatives to | | |
| | | the automobile. Moreover, WABA | | |
| | | wholeheartedly endorses the Plan's | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|---|------------------------|----------------|
| | | commitment to a compact form of | | |
| | | development which will facilitate the use | | |
| | | of non-auto modes of transportation by | | |
| | | placing more jobs and commercial | | |
| | | activities in easier reach of County residents. | | |
| | | residents. | | |
| | | As a resident of the Forest Estates | | |
| | | neighborhood in Silver Spring, I am very | | |
| | | fortunate to be a 10 minute walk from a | | |
| | | metro station. But my neighbors and I still | | |
| | | lack truly walkable commercial amenities, | | |
| | | such as groceries and restaurants which | | |
| | | development adjacent to the Forest Glen | | |
| | | metro might bring. We also suffer from a | | |
| | | lack of safe, walkable and bikeable | | |
| | | connections from our neighborhood to the | | |
| | | Silver Spring and Wheaton CBDs which are | | |
| | | both only a few miles away. The | | |
| | | neighborhood's children should also have a | | |
| | | safe route to get to the public schools that | | |
| | | they attend. These problems could be | | |
| | | resolved by a fulsome implementation of | | |
| | | Goal 4, including a full buildout of the | | |
| | | County Bike Master Plan and BRT | | |
| | | implemented along Georgia Avenue. | Juana N. Jana | |
| | | We strongly recommend that Thrive | Irene N. Lane, Town | |
| | | Montgomery provide equal weight to the importance of job creation, transit, and | Councilmember, | |
| | | housing and include strategies for how | Town of Chevy | |
| | | public revenue will substantially increase | Chase | |
| | | in order to fund the Complete Community | Cilase | |
| | | concept with its decentralized public | | |
| | | facilities, small local schools, and transit | | |
| | | Jucinities, sitium locui scribois, unu trunsit | | |

|-----|---------------------------------------|---|------------------|----------------|
| | | infrastructure projects. Essentially, there | | |
| | | needs to be a plan for how the County will | | |
| | | thrive economically by attracting new | | |
| | | industries, companies and small | | |
| | | businesses to the County. | | |
| | | The Chamber supports compact | Marilyn | |
| | | development and complete communities. | Balcombe, | |
| | | The 1964 Wedges & Corridors plan | Gaithersburg- | |
| | | envisioned strong commercial corridor | Germantown | |
| | | with residential and retail components. | Chamber of | |
| | | The commercial enterprise component is | Commerce | |
| | | still lacking. We don't see how 15-minute | | |
| | | communities can be executed in | | |
| | | decentralized suburbs that depend on | | |
| | | cars. | | |
| | | The complete communities vision and | | |
| | | details need to be extended for suburban | | |
| | | and rural communities. There are areas of | | |
| | | the county that cannot meet our current | | |
| | | transportation needs without increased | | |
| | | road capacity. | | |
| | | | | |
| | | A major solution to housing, | | |
| | | transportation, and jobs challenges to | | |
| | | bring more jobs upcounty; more jobs in | | |
| | | Germantown mean shorter commutes, | | |
| | | less congestion, less emissions and the | | |
| | | plan needs to explicitly support that goal. | | |
| | Define Amenities and Features of Each | The draft Plan should spell out the minimal | Todd Hoffman | |
| | Type of Complete Community. | basic and specialized services and | for Coalition of | |
| | | amenities that each of the three types of | Incorporated | |
| | | Complete Communities (urban, suburban, | Municipalities | |
| | | and rural) should contain. | and Community | |

|-----|---|--|----------------|----------------|
| | | does the draft Plan provide any examples | | |
| | | of how this might work here, or the likely | | |
| | | differences in complete communities in our | | |
| | | rural, suburban, or urban areas (actually | | |
| | | semi-urban in contrast to those places, like | | |
| | | Paris, Barcelona, and Houston TX already | | |
| | | applying complete communities to land | | |
| | | use plans). Without this information the | | |
| | | plan's vision is blurred and there is no way | | |
| | | to measure success contextually. | | |
| | The draft does not pay enough attention | This is a serious flaw, given the goals of | Naomi Spinrad, | |
| | to improving disadvantaged | the plan. By improving I mean providing | Chevy Chase | |
| | neighborhoods. | quality attainable housing to broaden the | West | |
| | | economic base of such communities, as | | |
| | | well as convenient, reliable, affordable, | | |
| | | and convenient transit so that it's possible | | |
| | | for residents to get to jobs more than 15 | | |
| | | minutes away. While the challenge of | | |
| | | gentrification must be addressed, | | |
| | | enhancing the appeal of lower income | | |
| | | communities to both potential residents | | |
| | | and businesses should be as important as | | |
| | | diversifying established communities. | | |
| | | East County is receiving a lot of attention | Christopher | |
| | | (FDA consolidation, White Oak Master | Bolton | |
| | | Plan, Science Gateway Master Plan) and | | |
| | | gentrification is a real possibility for these | | |
| | | residents, especially since it is a high- | | |
| | | minority population. More needs to be | | |
| | | done to protect these residents from | | |
| | | being displaced. | | |
| | | The investment of areas that have been | Robert | |
| | | underfunded, like East County for over | Stubblefield | |
| | | forty years is long overdue. The creation of | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------------------|---|--------------------|----------------|
| | | walkable areas as well as bike transit I feel | | |
| | | is pivotal for helping meet environmental | | |
| | | goals as well as the creation of affordable | | |
| | | housing. That being said, I feel that this | | |
| | | plan needs to have a racial impact analysis | | |
| | | of how this will help benefit the | | |
| | | communities that for too long have been | | |
| | | left on the margins. Those closest to the | | |
| | | pain are the ones that need to be in power | | |
| | | and those close to the problem are the | | |
| | | ones close to the solution. | | |
| | Retain Historic Preservation | The draft Plan should include a policy that | Todd Hoffman | |
| | | requires that historic designations for | for Coalition of | |
| | | commercial and residential properties | Incorporated | |
| | | located in Complete Communities will | Municipalities | |
| | | continue under current Historic | and Community | |
| | | Preservation laws and rules. | Organizations | |
| | | | | |
| | | The 15 –minute walk applies to larger | Dan Wilhelm for | |
| | | town centers but not the areas between | Greater Colesville | |
| | | them. | Civic Association | |
| | | Consider modifying the definition of 15- | Todd Hoffman | |
| | | minute living. Fifteen-minute living figures | for Coalition of | |
| | | prominently throughout the draft Plan as a | Incorporated | |
| | | benefit of achieving Complete | Municipalities | |
| | | Communities. However, many areas of the | and Community | |
| | | County cannot realistically expect to | Organizations | |
| | | experience this ill-defined conceptIt is | | |
| | | unclear [] how this concept can be | | |
| | | applied to rural, suburban, and urban | | |
| | | Complete Communities. | 1 | 1 |
| | | I suggest adding a 15 minute bus ride to | Jean Cavanaugh, | |
| | | complete community definition. I do not | Silver Spring | |
| | | support adding a 15 minute car ride. | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|---|--------------------|----------------|
| | | A fatal flaw in the Thrive Montgomery | David S. Forman | |
| | | 2050 plan is its goal of achieving "15- | | |
| | | minute" cities. Although in vogue among | | |
| | | city planners, 15-minute cities are simply | | |
| | | inappropriate for most of Montgomery | | |
| | | County. The idea originated in Paris, | | |
| | | where it makes some sense. People in Paris | | |
| | | already live in densely populated multi- | | |
| | | story apartment buildings in | | |
| | | neighborhoods with streets that can't | | |
| | | handle all the automobile traffic, and there | | |
| | | are no supermarkets but instead people | | |
| | | walk every day to the boulangerie on their | | |
| | | block for their daily fresh baguette. But | | |
| | | trying to recreate this in Montgomery | | |
| | | county except in a few limited locations | | |
| | | would be astronomically expensive, | | |
| | | disruptive, and unwanted. | | |
| | | The concept of 15-minute living also is not | Deborah Ingram, | |
| | | adequately defined and developed. We are | Chevy Chase | |
| | | offered 15-minute living by walking, | | |
| | | cycling, driving, and transit. This is all very | | |
| | | vague and confusing. Many of the goals | | |
| | | specifically talk about a 15-minute walk for | | |
| | | all county residents which clearly is | | |
| | | impractical. As for complete communities, | | |
| | | the concept of 15-minute living does not | | |
| | | appear to be a realistic one for a county as | | |
| | | large and as sparsely settled as | | |
| | | Montgomery County | | |
| | | Montgomery County is a large, | Don Slater, Silver | |
| | | geographically diverse area. We have well | Spring | |
| | | defined urban spaces, several large | | |
| | | suburban swathes, conventional small | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|--|------------------|----------------|
| | | towns, and a significant agricultural | | |
| | | expanse. 15-minute living will not look the | | |
| | | same in Aspen Hill as it does in Chevy | | |
| | | Chase. The county can change the nature | | |
| | | of the suburbs and get people out of their | | |
| | | cars by creating town centers on transit | | |
| | | lines. Small towns have always had a level | | |
| | | of self-sufficiency that supports 15-minute | | |
| | | living. The plan should acknowledge the | | |
| | | differences in the existing communities | | |
| | | and work within their boundaries | | |
| | | Car is the only way I can get around, my | Sebastian Smoot, | |
| | | commute is five miles and takes seven | Burtonsville | |
| | | minutes; public transit would take three | | |
| | | hours and biking would take one hour. I | | |
| | | do hope that we can execute 15-minute | | |
| | | communities. This concept should maybe | | |
| | | include housing for essential employees | | |
| | | that currently rely on their cars for work. It | | |
| | | should also go beyond to make sure | | |
| | | there's a variety of housing options in | | |
| | | every neighborhood. | | |
| | | The county needs to work aggressively | Ethan Goffman, | |
| | | with the state to build schools in transit- | Rockville, Wendy | |
| | | oriented areas to facilitate smart growth. | Calhoun | |
| | | Lack of school capacity should not be a | | |
| | | reason to stop dense, diverse, walkable, | | |
| | | transit-oriented neighborhoods. | | |
| | | The key to 15-minute living and better | Andrew Saundry, | |
| | | schools is the construction of more | Alain Norman, | |
| | | schools in disadvantaged areas. An action | Silver Spring | |
| | | should be added on building new schools. | | |
| | | Fifteen Minute Complete Communities has | Patricia Depuy | |
| | | to be specifically redefined. As Chair | Johnson | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|---|---|----------------|
| NO. | issue/Topic Area | Anderson said: "Fifteen minutes can mean many things in Montgomery County." It can mean walking to a neighborhood store, biking 5 miles or driving 15. It can mean "walking to the end of one's driveway." In bad weather (hot, cold, rain, snow) it can mean getting in a car to do simple errands. When buying a week's groceries it also means driving. As far as old people are concerned. We are not about to give up driving and move into a condo even "at 81" as Chair Anderson suggested. You underestimate the 'baby boomers'. We are independent, mobile, like to walk and bike, but depend on a car for vital necessities as well as entertainment. This Plan waves off a | Commenter | Stall Response |
| | | significant population in the county. It is not a representative plan. The services will exist in larger town centers, but few if any would exist between them. The area between centers is largely made up of single family housing and that will change little over the life of the plan | Dan Wilhelm for Greater Colesville Civic Association | |
| | | The town centers should largely be along premium transit corridors (Metrorail, Purple Line or BRT). The few town centers elsewhere will have limited transit and much fewer services. Please modify or, better yet, delete the | Dan Wilhelm for Greater Colesville Civic Association Dan Wilhelm for | |
| | | apparent value statement on the bottom of page 51. It is presumptuous to assume "most older adults" do or do not need or | Greater Colesville Civic Association | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|---|----------------|
| | | want "larger houses", or they are "forced" to live there. | | |
| | Zoning techniques like minimum lot size requirements in single-family neighborhoods created uniform housing, which resulted in neighborhoods defined primarily by income. (P. 52) | WMCCA Comment: It would be more accurate to include the fact that minimum lot size requirements was used to protect drinking water supplies in some areas. | Kenneth Bawer for West Montgomery County Citizens Association | |
| | The lack of housing diversity by unit type and size is also a significant burden for the county's older adults. Most would continue to live in the same neighborhood where they raised their families if there were options to downsize. However, the current pattern of development forces them to continue to stay in larger houses they don't need or move to locations away from their families and social support network. (P. 52) | WMCCA Comment: What is the evidence to support the above statements? What is the average distance from existing homes of older adults to the closest retirement community? | Kenneth Bawer for West Montgomery County Citizens Association | |
| | Today there are few remaining vacant properties to accommodate new growth. Approximately 85% of the county's land area is constrained by existing development, environmental constraints and other factors, leaving only 15% of land available to accommodate growth (see Issues Report for details). | WMCCA Comment: There is too much emphasis on the need for new growth. It is never explained why growth is good for existing residents. What kind of growth are we talking about: jobs, population, number of buildings, etc.? The emphasis should be on sustainable growth. | Kenneth Bawer for West Montgomery County Citizens Association | |
| | Policy 1.1.1. Every resident should have the opportunity to live, work, play, exercise, shop, learn, and make up of | This is contrary to the statement made about Complete Communities on page 32, which included driving. We prefer this definition. | Jane Lyons for Coalition for Smarter Growth | |

|-----|------------------|---|----------------|----------------|
| | | We support connectedness objectives of | Josh | |
| | | accessibility, transparency, and plain | Silverstein, | |
| | | language. We support expansion of | Randolph Civic | |
| | | communications infrastructure in | Association | |
| | | underserved parts of the county. | | |
| | | By supporting diverse and adaptable | Maria | |
| | | growth, you can impact young student | Salmeron | |
| | | leaders like me that immigrated from their | Melendez, | |
| | | native country in Latin America to pursue | Silver Spring | |
| | | the American Dream. Yet students like me | | |
| | | are stunted by the segregation in MCPS | | |
| | | schools and neighborhoods. My family | | |
| | | made the decision to move from Bethesda | | |
| | | to Silver Spring, which I am extremely | | |
| | | thankful for. I wish to continue to challenge | | |
| | | the status quo and realize Montgomery | | |
| | | County should be for all, and Thrive 2050 | | |
| | | should be for all. | | |
| | | I wish to live in a future where people of | Avery Smedley, | |
| | | different races, backgrounds, and incomes | Silver Spring | |
| | | can live together, when it is not a threat to | | |
| | | see black people in a white neighborhood. | | |
| | | The Plan is cavalier in its depiction of | Patricia Depuy | |
| | | restrictions and is an incomplete story. My | Johnson | |
| | | community has not had restrictive | | |
| | | covenants since the 1960's. In fact, it has | | |
| | | organically grown diverse over the years. I | | |
| | | also find it curious that the Planning Staff | | |
| | | refers to racism and zoning at this time, | | |
| | | when earlier, they consciously overlooked | | |
| | | an African American cemetery buried | | |
| | | beneath cement in their haste to give | | |
| | | developers one more piece of property to | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|--|---|----------------|
| | | build on. | | |
| | | I'm sorry that many people have suffered from racism, segregation, and lack of inclusion. But plans cannot change these problems. These are matters of the heart of individual residents. I hope residents can work together to make real changes using love and respect of other and look forward—our community looks forward to continuing to serve others in our | | |
| | | community. Over the years we have made strides in equity, but we have a long way to go, especially in providing equal and high quality education for all county students. But improving equity, which we must do, does not require increasing density in single family neighborhoods and forcing people to use less convenient modes of transportation to get to where they need to go. | Robert Oshel, Silver Spring | |
| | | There is a statement that we need to make neighborhoods more diverse. In east county, are you saying that we need more white people? People are going to move where they decide and we don't think the government should be in the business of telling people where they should live. We recommend removing that statement. The implementation of complete communities will provide the interaction this element is after. | Dan Wilhelm for Greater Colesville Civic Association | |
| | | Equity – in housing, transportation, education, access to public spaces both | Phyllis Edelman | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|-----------------|----------------|
| | | built and green – is a very important issue | | |
| | | for our County, but in many specific areas, | | |
| | | it's unclear how this plan provides that for | | |
| | | all residents of our Montgomery | | |
| | | County community. | | |
| | | Equity : get baselines so we can measure | Edmund Morris | |
| | | how much we've improved, and gauge the | | |
| | | difference between perceived disparities | | |
| | | and structural ones. Remember there is a | | |
| | | critical difference between "equal" | | |
| | | (nominally the same) and "equitable" | | |
| | | (proportionate). Remember there may be | | |
| | | differences in the way a need must be | | |
| | | satisfied, based on those being served. Use | | |
| | | qualitative parameters and feedback, not | | |
| | | just quantitative service metrics, in | | |
| | | evaluation. | | |
| | | One key element that needs to be | Edmund Morris | |
| | | highlighted over and over again is the need | | |
| | | to ensure network connectivity as an | | |
| | | infrastructure priority . Digital | | |
| | | communications are great, but if there is | | |
| | | not widespread access, it becomes a driver | | |
| | | of inequity. Information access | | |
| | | is the most critical element of our modern | | |
| | | society, and is becoming more so. Ensuring | | |
| | | every resident can actually access the | | |
| | | internet regardless of where they are in the | | |
| | | county should be a consideration. | | |
| | Inclusive. | WMCCA Comment: While it sounds nice to | Kenneth Bawer | |

Resilient Economy

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|--|------------------|----------------|
| | | The discussion on page 5 of stagnant wages | County | |
| | | is the only reference in this Introduction to | Executive, 8-14- | |
| | | the Diverse Economy goals and policies | 20 (This | |
| | | addressed later in the document. This | comment was | |
| | | section should discuss in greater detail the | made on the 6- | |
| | | Diverse Economy goals and policies to | 11-20 draft of | |
| | | clearly establish that wage and | Vision, Goals, | |
| | | employment growth have equal priority | Policies and | |
| | | with the other goals of this Plan. | Actions) | |
| | | In the Resilient Economy chapter, Planning | MDP | |
| | | [MDP] recommends that the economic | | |
| | | contribution of agriculture be included. | | |
| | | Economic Health: the age of having enough | Edmund Morris | |
| | | major employers to spread around is | | |
| | | ending; consolidation in the most durable | | |
| | | industries is eroding the ability of smaller | | |
| | | players to expand. Focus less on attracting | | |
| | | whales and more on nourishing minnows | | |
| | | and trout. Being a diverse, vibrant place | | |
| | | where people want to live will take care of | | |
| | | enticing the big companies. Everyone | | |
| | | else actually needs the investment. | | |
| | | I cannot separate these two elements | Edmund Morris | |
| | | [Adaptable growth and Resilient Economy] | | |
| | | as cleanly as the draft Plan does, because | | |
| | | they are intrinsically intertwined in a way | | |
| | | many of the other elements are not (quite). | | |
| | | The popular notion that growth drives | | |
| | | economic success misses the fact that | | |
| | | growth is also a product of the success, and | | |
| | | that courting businesses is less important | | |
| | | than creating spaces in which people with | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---------------------|--|---|----------------|
| | | options want to live - and in which everyone who lives feels like they have opportunity. Thus investing in artisanship, freelancers, pop-up retail, mobile service (including food trucks and the like) and building institutional architecture that allows for diversity of uses (and information architecture that allows for diversity of income). | | |
| | Name of the Chapter | Change the name to "Strong Economy". Strong is substantially different than resilient and that is what we need. | Dan Wilhelm for Greater Colesville Civic Association | |
| | | it is clear that there is an understanding that economic health and economic disruption need to be drivers to effect change. The Plan identifies many issues and challenges that should be solved over the years. We submit that without the influx of private economic investment and public investment in infrastructure, the County will not be able to fully solve and address these issues. As such, the Thrive Plan must prioritize economic health for such will serve as a catalyst for attracting investment and in turn provide the necessary ingredients for the County to achieve its other goals of environmental resilience and community equity. | Stacy Silber | |
| | | With construction costs continuing to rise and rents remaining flat, developers and investors no longer just evaluate whether to invest in Montgomery, Fairfax or DC. | Stacy Silber | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|---|-----------------|----------------|
| | | Rather, they consider places like Charlotte | | |
| | | and Atlanta that also have great needs for | | |
| | | housing and the policies in place to | | |
| | | attract businesses. | | |
| | | Thus, to ensure economic investment in the | | |
| | | County, the Plan needs to set a hierarchy of | | |
| | | priorities so that Policies, which encourage | | |
| | | investment in housing and commercial | | |
| | | growth, are not inadvertently negated by | | |
| | | other costly Policies and Actions that act as | | |
| | | deterrents. To that end, certain Policies | | |
| | | and/or Actions may need to be removed. | | |
| | Food Economy | As climate and health emergencies | Catherine Nardi | |
| | · | continue to impact global food production | and Heather | |
| | | and distribution, the local food supply will | Bruskin for MC | |
| | | be increasingly important to feed our | Food Council | |
| | | County and region; strengthening and | | |
| | | supporting our local food production | | |
| | | capacity should be a long-term goal. In | | |
| | | addition to the goals set forth in the Thrive | | |
| | | 2050 report, we recommend the following | | |
| | | to further bolster our local food economy: | | |
| | | Shared use kitchens, cut and wash | | |
| | | facilities and processing equipment for farm | | |
| | | produce, meat, and grains, and | | |
| | | aggregation and distribution infrastructure, | | |
| | | as well as long-term access to affordable | | |
| | | farmland and protected land leases, | | |
| | | particularly for BIPOC and historically | | |
| | | disadvantaged farmers, are needed for | | |
| | | local businesses to meet these expanding | | |
| | | market opportunities and address future | | |
| | | crises. | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|---|----------------|----------------|
| | | County institutions, including | | |
| | | government-facility food service | | |
| | | operations, hospitals, and academic | | |
| | | institutions, should prioritize a percentage | | |
| | | of food procurement from hyperlocal | | |
| | | sources, while balancing affordability for | | |
| | | local consumers and the true value of the | | |
| | | product to ensure economic sustainability | | |
| | | for the producers. The Montgomery County | | |
| | | Farm to Food Bank Program serves as a | | |
| | | model for these sourcing partnerships to | | |
| | | follow. | | |
| | | Free programming and resources should | | |
| | | be made available to all County residents in | | |
| | | accordance with the recommendations of | | |
| | | the Food Literacy Assessment , to increase | | |
| | | awareness of the food production | | |
| | | capabilities that lie within the 93,000 acre | | |
| | | Agricultural Reserve and beyond, in various | | |
| | | parts of the County and at various levels. | | |
| | | Page 69 (Refer to Action 3.4.1.a): Planning | MDP | |
| | | [MDP]suggests that the county coordinate | | |
| | | with the Maryland Department of | | |
| | | Transportation in the county-wide freight | | |
| | | plan development process. The need for | | |
| | | freight truck parking as it relates to I-270 | | |
| | | and I-495 should also be addressed. | | |
| | | Page 70 (Refer to Action 3.7.1.b): The | MDP | |
| | | county may want to add | | |
| | | "commuter/express bus" to the action | | |
| | | statement [see the comment above re: | | |
| | | Page 75 (Goal 4.1)]. | | |
| | | With respect to housing and economic | Harold Pfohl, | |
| | | development the plan takes the position | Sumner Village | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|---|----------------|----------------|
| | | that if affordable housing is available then | | |
| | | business will come to Montgomery County. | | |
| | | The County most certainly needs affordable | | |
| | | housing, but insofar as attracting business | | |
| | | is concerned and insofar as employment is | | |
| | | concerned transportation is far and away | | |
| | | the most important consideration. Finish | | |
| | | the purple line and radically improve bus | | |
| | | service, thereby improving access to jobs | | |
| | | and correspondingly, improved income. | | |
| | | There are four cornerstones to strategy: | Harold Pfohl, | |
| | | people, assets, time, and money. The | Sumner Village | |
| | | County is suffering severe revenue shortfall | | |
| | | as a result of the economic collapse due to | | |
| | | Covid 19. Additionally there has been | | |
| | | virtually no net new business formation | | |
| | | over the past decade and hence very little | | |
| | | increase in public revenue from business | | |
| | | and little in the way of new job | | |
| | | opportunities. The plan ignores the costs | | |
| | | and at the end states that this will be dealt | | |
| | | with on an individual project basis, and | | |
| | | secondly that new resources and new | | |
| | | solutions will be found. | | |
| | | The authors posit that Thrive Montgomery | Harold Pfohl, | |
| | | 2050 is a necessary plan to deal with the | Sumner Village | |
| | | unprecedented uncertainties we face. If so, | | |
| | | where is the section dealing with the | | |
| | | possibility of significant increase in | | |
| | | population with no meaningful increase in | | |
| | | employment/business? With long term | | |
| | | diminished revenue? Proceeding with the | | |
| | | assumption that uncertainties are limited to | | |
| | | whether conditions will improve greatly, or | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|--|-----------------|----------------|
| | | moderately ignores the possibility that | | |
| | | things will get worse. If the plan must be | | |
| | | adopted now, then the plan must consider | | |
| | | how to proceed if negative conditions are | | |
| | | prolonged. | | |
| | | This chapter needs more about protecting | Jane Lyons for | |
| | | and encouraging small businesses, as well | Coalition for | |
| | | as allowing and supporting neighborhood | Smarter Growth | |
| | | retail. | | |
| | | In order for small business to Thrive, and | Charisse | |
| | | boost the economic development of our | Callender-Scott | |
| | | County's communities, it is pertinent that | | |
| | | some reigns be put on commercial property | | |
| | | management to allow or incentivize | | |
| | | creative use of their spaces, and help | | |
| | | bolster community engagement. | | |
| | | One major solution for the housing / | Marilyn | |
| | | transportation / jobs conundrum that exists | Balcombe for | |
| | | County-wide is to bring more jobs to the | Germantown | |
| | | Upcounty. If we had more jobs in | Chamber of | |
| | | Germantown, we would have much shorter | Commerce | |
| | | commute times, less traffic congestion, and | | |
| | | much less greenhouse gas emissions. I don't | | |
| | | necessarily agree with the idea that | | |
| | | "Priority should be given to placing jobs, | | |
| | | schools, and retail within walking distance | | |
| | | to homes" (p.35), but increasing jobs in the | | |
| | | Upcounty will certainly put jobs closer to a | | |
| | | large employment base. | | |
| | | Economic development is barely addressed, | Naomi Spinrad, | |
| | | particularly as it can improve and diversify | Chevy Chase | |
| | | communities. | West | |
| | | Although the draft Plan speaks of | | |
| | | minimizing the "negative externalities" of | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---------------------------------------|---|--|----------------|
| | | land development, it ignores the issue of locating beneficial economic development in or near communities that may be less attractive initially, but whose appeal can be improved with incentives. | | |
| | | Highlight the opportunities and need for business growth and development north of the Shady Grove Metro – bringing jobs to where people live. Without alternatives in place, "We Must Stop Planning for Cars," disadvantages the Upcounty and other regions which were developed when a different culture and philosophy of growth was at work. | Martha A. Schoonmaker, and Margaret Latimer, | |
| | | Too often, economic growth is given priority above all else. Equity and environmental sustainability should be more important objectives than economic growth. | Ethan Goffman, Rockville | |
| | Bring quality jobs to the east county | The county should strive to bring quality jobs to east county, to help end the eastwest imbalance in jobs and housing. | Ethan Goffman, Rockville | |
| | Prioritize Economic Growth | The draft Plan should recognize economic growth as one of the County's top challenges. The county's sluggish economic growth should be listed in the draft Plan as, at least, one of the top 3 challenges the County is facing and job creation should be included as one of the major goals because good paying jobs will be significant in addressing the County's economic inequities. | Todd Hoffman for Coalition of Incorporated Municipalities and Community Organizations | |
| | | The county should look at market-oriented approaches to solve our problems, and the | Tricia Swanson, Montgomery | |

|-----|---|--|------------------|----------------|
| | | Germantown, MD area. By emphasizing an | | |
| | | expansion of the tax base through | | |
| | | Commercial enterprise, more and more | | |
| | | of Montgomery's publicly-educated finest | | |
| | | can take advantage of the quality of life | | |
| | | that has sustained this region for decades. | | |
| | | Commercial development in the tech sector | | |
| | | should be a primary plank in the vision | | |
| | | for Thrive Montgomery 2050. | | |
| | | The Plan is also fatally flawed without a | Patricia Depuy | |
| | | county wide effort to generate new jobs. To | Johnson | |
| | | pass this plan without an economic or | | |
| | | employment blueprint, that is realistic, | | |
| | | during this time of severe budgetary | | |
| | | deficits, is not in the best interests of its | | |
| | | citizens. | | |
| | Competitive. | WMCCA Comment: Add to this: "only | Kenneth Bawer | |
| | The county retains and attracts large | insofar as they do not negatively impact our | for West | |
| | companies, small businesses, and high | goal of environmental sustainability and | Montgomery | |
| | quality educational institutions. (P. 47) | improved quality of life. This includes | County Citizens | |
| | | having no negative impact on our natural | Association | |
| | | areas, including streams. We will not | | |
| | | sacrifice water and air quality, | | |
| | | overcrowding of roads and schools, or other | | |
| | | indicators of quality of life simply to add | | |
| | | jobs. | | |
| | Issues, first paragraph: | The sentence in the middle of the first | Dan Wilhelm for | |
| | Slow job growth, limited new business | issues paragraph needs to be rewritten | Greater | |
| | formation, wage stagnation, rising | since it indicates that causes and effects are | Colesville Civic | |
| | economic and social inequity, a high cost | the same. Rather say: "The county is | Association | |
| | of living and doing business, and | experiencing slow job growth, limited new | | |
| | increasing traffic congestion negatively | business formation, wage stagnation, rising | | |
| | affect economic activity | economic and social inequity, a high cost of | | |
| | | living and doing business". Page 21 | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|------------------|----------------|
| | | contains information about the slow job | | |
| | | growth and wage decline. It is | | |
| | | uneconomical for businesses to locate here | | |
| | | except in high cost areas like Bethesda. Also | | |
| | | the traffic congestion and the | | |
| | | long/uncertain regulatory approval process | | |
| | | negatively affects businesses ability and | | |
| | | willingness to locate or expand in the | | |
| | | county." | | |
| | All Goals and Policies in this element. | Throughout the policies in this element, | Dan Wilhelm for | |
| | | eliminate reference to a good-paying job. | Greater | |
| | | While that is the desired outcome it is not | Colesville Civic | |
| | | something the county can directly control. | Association | |
| | | Rather, the county can take actions which | | |
| | | should lead to good-paying jobs. | | |
| | Growth | The most important goal is not included. | Dan Wilhelm for | |
| | | That goal/policy is to reduce the cost for | Greater | |
| | | building here. The existing SSP is a good | Colesville Civic | |
| | | start in achieving this goal including: | Association | |
| | | Elimination of the school moratorium | | |
| | | Reducing school impact taxes | | |
| | | Exempting some properties from both | | |
| | | transportation and school impact taxes. | | |
| | | The opportunity zone is the most | | |
| | | important since federal incentives are | | |
| | | provided. The enterprise zone is another | | |
| | | vehicle for economically encouraging | | |
| | | growth. | | |
| | | With all these new developments in the | Danny Chu | |
| | | area, my fear is that businesses and | | |
| | | residents will be displaced due to higher | | |
| | | rents. I want to see more protections for | | |
| | | renters and businesses to regulate how | | |
| | | much owners can charge their tenants. | | |

| | Policy 2.1.3: Design public infrastructure (e.g., streets, pathways, and trails) such that social gathering, recreation, and active living are major priorities. Use public art, seating, historic preservation and other placemaking techniques to create distinctive community-based places. Make these spaces safe, attractive, informative, convenient, and easy to access for all ages and abilities. Promote active lifestyles and social interaction among divers e community members. | Goal 2.1.3. The County streets and roadways will be the primary means of transportation for many years to come and need to be properly maintained and repaired. Poorly maintained streets are a major deterrent to investment and commerce. "Active Living" within a community is promoted when the residents feel pride in their neighborhood appearance, including the streets, and have safe access. | | |
| | Policy 3.1.1 | WMCCA Comment: New Policy: Such efforts will not include the use of subsidies in the form, for example, of tax breaks such as multi-year tax abatements. Tax-payer subsidies of large corporations will no longer be tolerated - these enterprises need to pay their own way and not be subsidized by taxpayers. In addition, new business development will not get ahead of infrastructure and public services. New businesses will contribute funds to the roads, sidewalks, schools, fire departments, community centers, parks, etc., required to support the needs of the new residents that they employ. | Kenneth Bawer for West Montgomery County Citizens Association | |
| | Goal 3.2 | WMCCA Comment: New Policy: The County will not use tax breaks (e.g., payment in lieu of taxes, property tax exemptions, etc.) for any commercial development projects. | Kenneth Bawer for West Montgomery | |

|-----|---|---|------------------|----------------|
| | | people with the desired skills. The needed | | |
| | | skills can shift over time and people | | |
| | | therefore need continuing education. There | | |
| | | are also immigrants who need education in | | |
| | | English, but that idea should not be | | |
| | | included in the plan. | | |
| | Policy 3.3.1 | WMCCA Comment: No! Prioritize | Kenneth Bawer | |
| | | sustainability (e.g. carbon footprint | for West | |
| | | neutrality), quality of life for existing | Montgomery | |
| | | residents, and protection/enhancement of | County Citizens | |
| | | the natural environment in land use | Association | |
| | | planning, including development review | | |
| | | processes, master planning and functional | | |
| | | plans. | | |
| | Action 3.3.1.a | WMCCA Comment: Change to say, | Kenneth Bawer | |
| | | "Complete an Employment Growth and | for West | |
| | | Access Functional Plan to determine if and | Montgomery | |
| | | where land use policies limit growth of and | County Citizens | |
| | | access to a variety of job types. | Association | |
| | | Recommend strategies for addressing | | |
| | | these limits only if they can be | | |
| | | accomplished while maintaining | | |
| | | sustainability (e.g. with a neutral carbon | | |
| | | footprint), quality of life for existing | | |
| | | residents, and the protection/enhancement | | |
| | | of the natural environment." | | |
| | Goal 3.4: Preserve land for Production, | Goal 3.4. This goal should be deleted since | Dan Wilhelm for | |
| | Distribution, and Repair (PDR) activities | land is needed for all enterprise activities, | Greater | |
| | that provide well-paying jobs to those | not just PDR. | Colesville Civic | |
| | without advanced degrees, provide | | Association | |
| | essential goods and services, and propel | | | |
| | economic competitiveness for the | | | |
| | county. | | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|--|------------------|----------------|
| | | The county should reconsider reserving | Salim Furth, | |
| | | land for production distribution and repair. | Takoma Park | |
| | | This keeps land cheaper for those favored | | |
| | | land uses. Those uses could include | | |
| | | manufacturing, but it will most likely be | | |
| | | warehouses, serve and delivery, and big | | |
| | | box retail. Businesses like Amazon should | | |
| | | not have preferential access to land. Small | | |
| | | businesses have enough difficulty | | |
| | | competing without the challenge of land | | |
| | | use regulation. | | |
| | | Action 3.4.1a - Minimize impacts rather | Benjamin Ross | |
| | | than eliminate. Elimination is not feasible | | |
| | | and setting it | | |
| | | as a goal will impede location of needed | | |
| | | industrial sites. | | |
| | | Page 70. 3.4.1.b Include electric and | Herb Simmens | |
| | | conventional cargo bicycles as an integral | | |
| | | part of any freight mobility plan | | |
| | Goal 3.5 | WMCCA Comment: Add this language: This | Kenneth Bawer | |
| | | enhanced job and business growth | for West | |
| | | must only be pursued on a sustainable | Montgomery | |
| | | basis, i.e., only if it can be attained | County Citizens | |
| | | without negatively impacting quality of life | Association | |
| | | (e.g., air quality, traffic, happiness | | |
| | | rating) and environmental quality of our | | |
| | | natural areas (e.g., no stormwater or | | |
| | | other water quality impacts, no ecological | | |
| | | degradation, etc.). | | |
| | Policy 3.5.3: Build connections between | Policy 3.5.3. Move into policy 3.3. | Dan Wilhelm for | |
| | the private sector, the community, | | Greater | |
| | and higher education, and research | | Colesville Civic | |
| | organization, including the Universities at | | Association | |
| | Shady Grove, Montgomery College, and | | | |

| | | with people and naturally-enhanced | | |
| | | environments. | | |
| | | We are a collection of about 30 scientists, | Nanci | |
| | | engineers, sociologists, and concerned | Wilkinson, | |
| | | citizens of Montgomery County who came | Cedar Lane | |
| | | together when the UN Intergovernmental | Ecosystem | |
| | | Panel on Climate Change gave its most dire | Study Group | |
| | | warning. Thrive assumes unlimited fossil | | |
| | | fuels, but oil supply is finite. The plan | | |
| | | should include two more scenarios: one | | |
| | | where the current economy and lifestyle | | |
| | | remains how it is currently, and one where | | |
| | | our economy declines at 6-8% per year and | | |
| | | our lifestyles and policy options become | | |
| | | severely constrained. | | |
| | | Thrive Montgomery 2050 appears to have | Cedar Lane | |
| | | been developed under the assumption that | Ecosystems | |
| | | we have an almost endless supply of fossil | Study Group, | |
| | | fuel and other natural resources on the | Patty McGrath | |
| | | planet for our use. | | |
| | | Review and incorporate the systems | | |
| | | modeling, projection, and | | |
| | | recommendations form the experts and | | |
| | | revise the Plan over the next years by | | |
| | | adding at least two more scenarios: a | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|---|------------------|----------------|
| | | steady state economy; and a declining | | |
| | | economy. | | |
| | | Include a more explicit accounting for the | | |
| | | effects of climate change. | | |
| | | (Numerous studies and resources cited) | | |
| | Food deserts | I would like to see a greater emphasis on | Jessica Bronson, | |
| | | tackling food deserts. | Berk | |
| | | | Ehrmantraut | |
| | Food Security | Food access is innately intertwined with the | | |
| | | various community structures that support | | |
| | | a growing population, such as affordable | | |
| | | housing and workforce development | | |
| | | opportunities. Planning goals in this section | | |
| | | should incorporate food access as an | | |
| | | intrinsic part of fostering an affordable and | | |
| | | attainable lifestyle in Montgomery County. | | |
| | | | | |
| | | Food is not simply an "amenity," but a basic | | |
| | | human necessity, and should be recognized | | |
| | | as such in the planning process. Affordable, | | |
| | | healthy food access considerations should | | |
| | | be incorporated into the General Plan, | | |
| | | focusing on people living below the self- | | |
| | | sufficiency standard, seniors, children, | | |
| | | people with disabilities, and foreign-born | | |
| | | residents. The Food Council welcomes the | | |
| | | opportunity to collaborate with the | | |
| | | Montgomery County Department of | | |
| | | Planning to envision a roadmap to end food | | |
| | | insecurity as a component of the General | | |
| | | Plan and extension of the five year Food | | |
| | | Security Plan , which is entering its fourth | | |
| | | year of implementation. | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|--|-----------|----------------|
| | | We are also in favor of supporting and | | |
| | | sustaining existing farmland whenever | | |
| | | possible in the County. Recent COVID-19 | | |
| | | pandemic experience has shown that the | | |
| | | industrial supply chain may not always | | |
| | | cover periods of high demand. Therefore, | | |
| | | local foods and produce are not only | | |
| | | healthy and flavorful, but also essential in | | |
| | | times of peak demand. | | |
| | | Emphasizing the interrelatedness of the | MDP | |
| | | elements of land use planning, Planning | | |
| | | finds it refreshing that the Draft Plan | | |
| | | provides for a discussion of the climate | | |
| | | change within the Safe and Efficient Travel | | |
| | | chapter. For example, "We simply cannot | | |
| | | be equitable, address climate change, and | | |
| | | support a strong economy by building more | | |
| | | roads." (p. 72) The Draft Plan acknowledges | | |
| | | that transit and walkability are key to | | |
| | | addressing climate change – building more | | |
| | | roads must be avoided. | | |
| | | [T]he Draft Plan, as now constituted, does | MDP | |
| | | not provide the required level of land use | | |
| | | and growth policy detail for Planning to | | |
| | | evaluate water and sewer plans or | | |
| | | amendments for consistency. A | | |
| | | jurisdiction's water and sewer | | |
| | | infrastructure is one of the most effective | | |
| | | tools to facilitate and/or restrict growth; | | |
| | | therefore, Planning [MDP] recommends | | |
| | | including in the Draft Plan explicit | | |
| | | references to the county's master plans for | | |
| | | the intended implementation of water and | | |
| | | sewer service policy and to provide clarity | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|---|-------------------|----------------|
| | | on how plan consistency should be | | |
| | | evaluated in future master plans or | | |
| | | water/sewer plan amendment proposals. | | |
| | | The mineral resources element has not | MDP | |
| | | been addressed. Planning [MDP] | | |
| | | recommends that the county provide | | |
| | | information on current active mining or | | |
| | | other geological resources if the | | |
| | | information is available or add a proposal | | |
| | | to do so in the future within the | | |
| | | Implementation chapter. | | |
| | | Since this is a full comprehensive up-date to | MDP | |
| | | the general plan, and explicit incorporation | | |
| | | of the Growth Tier Map into comprehensive | | |
| | | plan is unclear, Planning suggests that a | | |
| | | sentence be added under Other Regulations | | |
| | | (page 127), that says "The official map | | |
| | | displaying the Growth Tier areas is included | | |
| | | in Chapter 50, Section 50.4.3 of the | | |
| | | Subdivision Regulations and is adopted by | | |
| | | reference into Thrive 2050 in accordance | | |
| | | with the Maryland Sustainable Growth and | | |
| | | Agricultural Preservation Act of 2012." | | |
| | | the proposed new plan has less overarching | Scott Plumer for | |
| | | protections for the environment and | Darnestown | |
| | | against sprawl than the plan it intends to | Civic Association | |
| | | replace. | | |
| | | The Food Council applauds the Department | Catherine Nardi | |
| | | of Planning for addressing the need to | and Heather | |
| | | ensure healthy food access for all residents | Bruskin for MC | |
| | | within this section, and encourages the | Food Council | |
| | | incorporation of additional "Actions" to | | |
| | | accompany the "Policies" that have been | | |
| | | established. Data collection and analysis | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--------------------------|---|-----------------|----------------|
| | | are necessary to gain a better | | |
| | | understanding of, and adequately | | |
| | | address, the "concentration sources of | | |
| | | unhealthy food" within our communities | | |
| | | and work towards establishing more | | |
| | | inclusive, nutritious, locally-produced | | |
| | | offerings. | | |
| | | In recent months, the number of residents | | |
| | | and community-based organizations | | |
| | | exploring food production opportunities | | |
| | | have grown tremendously, and support for | | |
| | | urban and community gardening, as well as | | |
| | | residential agriculture, through zoning and | | |
| | | programming recommendations within the | | |
| | | General Plan, should support the expansion | | |
| | | of local food production efforts and ensure | | |
| | | a sustainable, nutritious local food supply. | | |
| | | The Plan should also include actions to | | |
| | | explore and implement food waste | | |
| | | composting infrastructure within the | | |
| | | County's borders, which will improve the | | |
| | | health of our soils and serve as valuable | | |
| | | resource and economic opportunity for our | | |
| | | farmers, residents, and the government, all | | |
| | | while bringing us closer to meeting the | | |
| | | County's Zero Waste goals in the near term. | | |
| | Tree Canopy Preservation | I would like to see more emphasis on | Jean Cavanaugh, | |
| | | preserving and growing the county's tree | Silver Spring, | |
| | | canopy especially in urban and areas that | Rachel Taylor, | |
| | | are planned for densification. The literature | Clarksburg | |
| | | I have read on 15-minute living applies to | | |
| | | real cities, but regardless, all point to | | |
| | | necessity of having community spaces, | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|---|-----------------|----------------|
| | | significant natural spaces, and trees for all | | |
| | | the reasons we have all discussed ad | | |
| | | nauseam over the years (environmental, | | |
| | | health, agriculture/bees, reduce crime, | | |
| | | manage stormwater, etc). Reduce lot | | |
| | | coverage allowances in order to preserving | | |
| | | and grow the tree canopy especially in | | |
| | | denuded business districts and close in | | |
| | | suburbs. | | |
| | | The role of the Montgomery Parks system | TAME Coalition | |
| | | must be further highlighted, including the | | |
| | | role of Park forests and other Park natural | | |
| | | areas in the health and well-being of | | |
| | | County residents. | | |
| | | TPMEC supports Montgomery Planning's | Nathalie Peter | |
| | | commitment to compact urban | for Takoma Park | |
| | | development. Adopt a strong goal to | Mobilization | |
| | | reduce the additional impacts of compact | Environment | |
| | | urban development, e.g., stormwater | Committee | |
| | | management. | | |
| | | Promote climate friendly policies, goals and | | |
| | | actions. Adopt a county net POSITIVE forest | | |
| | | policy goal that includes actions to protect | | |
| | | and increase, both native forest cover and | | |
| | | overall tree canopy, Adopt a strong goal to | | |
| | | reduce the additional impacts of compact | | |
| | | urban development, e.g., stormwater | | |
| | | management. Plan for higher and more | | |
| | | variable water tables. Adopt a stronger | | |
| | | building GHG reduction policy goal, Provide | | |
| | | guidance on siting renewable energy | | |
| | | projects. Promote adaptable infrastructure | | |
| | | that mitigates the negative impacts of | | |
| | | climate change. Plan for and support | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|---|------------------|----------------|
| | | alternative modes of transportation that | | |
| | | significantly reduce and ultimately | | |
| | | eliminate transportation related emissions. | | |
| | | Existing forests and forest patches should | Galen Tromble, | |
| | | not only be protected and conserved, but | Silver Spring | |
| | | they should be expanded. | | |
| | | New and existing native habitat should be | | |
| | | promoted on private property as well as | | |
| | | public areas, not only adjacent to streams | | |
| | | but in broad corridors across the county – | | |
| | | including down-county. | | |
| | | Building social connections within | | |
| | | neighborhoods is an extremely important | | |
| | | goal but doing so should be done without | | |
| | | fragmentation of natural areas. | | |
| | | The plan should emphasize the importance | | |
| | | of prioritizing native habitat as land cover. | | |
| | | The plan should expressly recognize that | | |
| | | tree canopy and cover over the built | | |
| | | environment do not approximate forests or | | |
| | | native plant communities at all. | | |
| | | it should be a County priority to ensure | | |
| | | that greenways, protected areas, and | | |
| | | conservation easements are healthy | | |
| | | ecological systems and not overrun by | | |
| | | invasive species that can destroy | | |
| | | ecosystem function or unnecessarily | | |
| | | fragmented. | | |
| | | Climate change must be conveyed as an | Herb Simmens, | |
| | | emergency. The plan needs stronger | Climate | |

|-----|------------------|---|------------------|----------------|
| | | I welcome Complete Communities that the | Steven Kraft, | |
| | | plan describes; I live near Flower Hill | Gaithersburg | |
| | | Development and I would love to see more | | |
| | | of the county implement the same. We | | |
| | | must change our housing types and expand | | |
| | | access to transit if we want to meet climate | | |
| | | goals. Climate change poses threats of | | |
| | | financial, physical, and mental hardships, | | |
| | | and close knit, green, walkable | | |
| | | communities will help cope with them. | | |
| | | The other area where our community has | Barry Wides, | |
| | | been shortchanged pertains to the limited | President, North | |
| | | accessibility of the forested areas of the | White Oak Civic | |
| | | nearby Paint Branch and Northwest Branch | Association | |
| | | Parks. While there have been many | | |
| | | recommendations in Master Plans over the | | |
| | | years for improved trails and connectors to | | |
| | | our nearby parks, very few have ever been | | |
| | | implemented. However, have watched | | |
| | | major trail improvements be made | | |
| | | throughout parts of the county that are | | |
| | | west and northwest of White Oak. | | |
| | | To this point, we are supportive of the | | |
| | | report's recommendation that every | | |
| | | community has a network of inclusive, safe, | | |
| | | and accessible public parks, trails, and | | |
| | | other recreational spaces that connect | | |
| | | neighborhoods, increase opportunities for | | |
| | | social interaction, encourage active | | |
| | | lifestyles. We support the recommendation | | |
| | | that the walking and transit accessibility of | | |
| | | the existing network of parks and trails, | | |
| | | nature centers, and cultural sites be studied | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|---|--------------|----------------|
| | | to identify opportunities to improve | | |
| | | accessibility to parks and trails for all | | |
| | | residents. | | |
| | Climate change | Climate change is the smothering 800 | M. Allen | |
| | | lbs. elephant in the room. Not only does it | | |
| | | have the potential to be a perennial "black | | |
| | | swan", it also has the potential to spin off | | |
| | | other potential "black swan" events, such | | |
| | | as devastation to our watershed | | |
| | | stormwater management and the | | |
| | | encroachment we've seen on the endemic | | |
| | | flora and fauna of our varied environmental | | |
| | | landscape. COVID-19 can be seen to be | | |
| | | related to a considerable Environmental | | |
| | | encroachment and deterioration of | | |
| | | undeveloped areas. | | |
| | | Section 6 – Healthy and Sustainable | Marilyn | |
| | | Environment – Embracing urbanism is a | Balcombe for | |
| | | worthy, sustainable goal, but where is the | Germantown | |
| | | suburban and rural context referred to in | Chamber of | |
| | | Goal 1.1. Having a compact form of | Commerce | |
| | | development with a variety of non-auto | | |
| | | transportation modes does not fit the | | |
| | | reality of existing development. | | |
| | | rethinking how businesses, institutions, and | Solid Waste | |
| | | households use resources and manage | Advisory | |
| | | wastes is necessary to achieve the goals | Committee | |
| | | outlined in the Thrive report. However, this | (SWAC) | |
| | | topic is largely ignored in the Plan, with no | | |
| | | details for how the County could realize the | | |
| | | vision of economic health, equity, and | | |
| | | environmental resilience. | | |
| | | All plans adopt zero-waste strategies at | | |
| | | local community and countywide levels, | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|--|--------------|----------------|
| | | including decentralized infrastructure and | | |
| | | institutions for residents to reduce | | |
| | | waste, reuse, repair, and recycle/compost - | | |
| | | without reliance on a private | | |
| | | vehicle. | | |
| | | Our County aim to contain wastes produced | | |
| | | here within the boundaries of our own | | |
| | | county, to the greatest extent possible. | | |
| | | As a matter of equity, we should not | | |
| | | burden poor communities locally or abroad, | | |
| | | nor can we use the atmosphere, | | |
| | | waterways, or soils for waste management | | |
| | | unless strictly and transparently | | |
| | | regulated, with careful assessment of | | |
| | | public health and local ecologic impacts. | | |
| | | Reduction of materials use, whether | | |
| | | through a shift away from disposability to | | |
| | | durability, or simply buying less and buying | | |
| | | better designed and less resource | | |
| | | intensive goods, should be the primary | | |
| | | strategy to minimize waste. | | |
| | | All of the goals, objectives and strategies | John Parrish | |
| | | outlined in the Environment section (pgs. | | |
| | | 66-73) of the 1993 General Plan should be | | |
| | | retained and strengthened in the Thrive | | |
| | | update. The Thrive draft Plan departs | | |
| | | greatly from natural resource protection. | | |
| | | Instead, the Thrive focus has become | | |
| | | strongly anthropocentric in a time where an | | |
| | | eco-centric approach is the most urgent | | |
| | | need if our civilization is to survive through | | |
| | | the end of this century. | | |

| | | February 2020 Issues Report on Healthy | | |
| | | and Sustainable Environment, | | |
| | | Environmental Concerns, Climate change, | | |
| | | Water and sewer, and The Agricultural | | |
| | | Reserve. | | |
| | | The Healthy and Sustainable Environment | | |
| | | section needs to strongly emphasize forest | | |
| | | preservation, water quality, preservation of | | |
| | | the Agricultural Zone, and sustaining native | | |
| | | biodiversity. | | |
| | | The Thrive plan needs to incorporate and | | |
| | | strengthen language from the 1993 | | |
| | | General Plan (Objective 8, pg. 72) calling | | |
| | | for increasing and conserving the County's | | |
| | | forests. The Plan should call for | | |
| | | improvements to laws, master plans, and | | |
| | | environmental guidelines to overcome any | | |
| | | shortcomings of the 1993 plan. | | |
| | Forest preservation | The Thrive plan needs to incorporate and | John Parrish | |
| | | strengthen language from the 1993 | | |
| | | General Plan (Objective 8, pg. 72) calling | | |
| | | for increasing and conserving the County's | | |
| | | forests. The Plan should call for | | |
| | | improvements to laws, master plans, and | | |
| | | environmental guidelines to overcome any | | |
| | | shortcomings of the 1993 plan. | | |
| | Water Quality | The Thrive plan needs to recognize the | John Parrish | |
| | | short comings of the previous General Plan | | |
| | | and address the short comings by calling | | |
| | | for stronger protections for streams and | | |
| | | water quality if we and our streams are to | | |
| | | really thrive. | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|-------------------------------------|---|--------------|----------------|
| | Agricultural Zone | The Agricultural Zone continues to be | John Parrish | |
| | | threatened by large lot developments, | | |
| | | industrial solar and by the applications of | | |
| | | toxic pesticides and herbicides to grow | | |
| | | crops. The Thrive plan needs to encourage | | |
| | | sustainable organic-based agriculture and | | |
| | | promote better policies to prohibit land | | |
| | | uses that undermine agriculture and public | | |
| | | health. Industrial solar should not be | | |
| | | permitted and harmful crop herbicides and | | |
| | | pesticides should be banned. | | |
| | Biodiversity | We are now living amid a sixth great | John Parrish | |
| | | extinction event where species are rapidly | | |
| | | disappearing from our planet due to | | |
| | | massive human caused habitat destruction. | | |
| | | The Thrive plan needs to incorporate | | |
| | | language calling for preservation and | | |
| | | enhancement of native biodiversity, | | |
| | | specifically the ecological systems that | | |
| | | support our native plant and animal | | |
| | | communities. Objective 6 (pg. 71) of the | | |
| | | 1993 General Plan should be retained and | | |
| | | strengthened in the updated plan. | | |
| | Climate Change and a paradigm shift | It is good that the Thrive plan | John Parrish | |
| | | acknowledges climate change as a | | |
| | | significant threat to our human and | | |
| | | natural communities. However, it does not | | |
| | | offer a plan that has the ability to | | |
| | | withstand the disruptions forecast by a | | |
| | | consensus of the scientific community to | | |
| | | occur within the 2050 timeframe. The Plan | | |
| | | needs to shift to a radically different | | |
| | | paradigm where humans are encouraged | | |
| | | to live more simply, and with, a deeper | | |

| | | global warming. To lessen the burden on | | |
| | | the County's financial resources, a Thrive | | |
| | | 2050 goal should be to enact more | | |
| | | stringent stormwater control requirements | | |
| | | for new build homes and home renovations | | |
| | | (i.e., much more than the current 1 inch or | | |
| | | so of rain in 24 hours). For the huge number | | |
| | | of existing homes, there should be a new | | |
| | | regulation that properties must be | | |
| | | retrofitted to control storm water to "new | | |
| | | build standards" upon property transfer – | | |
| | | who pays the cost could be negotiated | | |
| | | between buyer and seller. For commercial | | |
| | | property, stormwater control to "new build | | |
| | | standards" should be required upon sale. | | |
| | | Grandfathering for commercial property | | |
| | | should not be allowed. | | |
| | Montgomery County is a leader in | WMCCA Comment: Change, "Montgomery | Kenneth Bawer | |
| | protecting and enhancing the natural | County is a leader in protecting and | for West | |
| | environment through a broad range of | enhancing the natural environment" to | Montgomery | |
| | planning initiatives, policies, and | "Montgomery County's vision is to become | County Citizens | |
| | regulations to protect sensitive | a leader in protecting and enhancing the | Association | |
| | environmental resources. But many | natural environment" There is no way we | | |
| | indicators such as stream water quality, | can claim to be a leader when, for example, | | |
| | forest loss, loss of plant and animal | we are trashing our natural areas by doing | | |
| | species, and increased imperviousness | so-called "stream restorations" which | | |
| | point to greater stewardship challenges. | convert natural (although not always | | |
| | As the population expands and the region | pristine) areas into engineered stormwater | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|---|-----------------|----------------|
| | continues to develop, pressures on our | conveyances (with some exceptions such as | | |
| | natural systems increase. (P. 97) | "daylighting" piped streams and concrete | | |
| | | culvert removal). We are not a leader in | | |
| | | protecting our natural environment when | | |
| | | overdevelopment is degrading the water | | |
| | | quality in Little Seneca Lake, our emergency | | |
| | | drinking water supply. | | |
| | | Our vision for 2050 is a County in which the | Kenneth Bawer | |
| | | creation of wildlife and plant corridors has | for West | |
| | | the same priority as development corridors. | Montgomery | |
| | | The need for safe passage for wildlife | County Citizens | |
| | | between protected areas is critical to | Association | |
| | | ensuring the healthy genetic diversity of | | |
| | | animal and plant populations to withstand | | |
| | | the challenges of habitat fragmentation | | |
| | | and climate change. Residents will be | | |
| | | encouraged to replace traditional turf | | |
| | | lawns with conservation landscaping using | | |
| | | native plants to support native pollinators | | |
| | | and birds and control stormwater runoff. | | |
| | | County codes will be revised so that | | |
| | | residents do not get citations from a | | |
| | | Housing Code Inspector that they are | | |
| | | violating Chapter 58 of the Montgomery | | |
| | | County Code by permitting weeds and grass | | |
| | | to grow in excess of 12 inches when, in fact, | | |
| | | they have replaced their turf grass with an | | |
| | | area of conservation landscaping. | | |
| | Vision for Healthy and Sustainable | WMCCA Comment: We need a goal and | Kenneth Bawer | |
| | Environment (P. 97) | policy to require returnable bottles. The | for West | |
| | | Northeast has done this for decades. We | Montgomery | |
| | | need to stand up to the retail stores who | County Citizens | |
| | | have pushed back on this forever. | Association | |
| | | | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|--|-----------|----------------|
| | | WMCCA Comment: We need a goal and | | |
| | | policy that retailers can only sell products in | | |
| | | packaging that can be recycled by the | | |
| | | County. | | |
| | | | | |
| | | WMCCA Comment: We need conservation | | |
| | | measures to be enacted to conserve water | | |
| | | (for example, an "excessive use" charge | | |
| | | which would a higher charge that kicks in | | |
| | | when the "standard" per person daily | | |
| | | usage is exceeded – to discourage lawn watering, for example). | | |
| | | watering, for example). | | |
| | | WMCCA Comment: We need a County-wide | | |
| | | education program about the need to | | |
| | | conserve water. | | |
| | | | | |
| | | WMCCA Comment: We need to change the | | |
| | | code to allow grey-water systems and | | |
| | | composting toilets. | | |
| | | | | |
| | | WMCCA Comment: We need to change | | |
| | | how WSSC sewage overflows are reported | | |
| | | and how the public is notified | | |
| | | WMCCA Comment: The county must get | | |
| | | serious and honest about reporting true air | | |
| | | quality conditions to residents. Currently, | | |
| | | Montgomery County's has a single air | | |
| | | quality monitoring station in the middle of | | |
| | | an open field near Lake Frank surrounded | | |
| | | by forest - not exactly where most people | | |
| | | breathe the air. The county needs a | | |
| | | network of near-road air quality monitoring | | |

|-----|--|--|-----------------|----------------|
| | | stations to accurately enable assessments | | |
| | | of public health and to daylight equity | | |
| | | issues. | | |
| | | Considering the urgency of climate change | Kenneth Bawer | |
| | | and other environmental issues in the | for West | |
| | | County, we believe that strong actions with | Montgomery | |
| | | certain goals are necessary to achieve | County Citizens | |
| | | sustainability, even as the many details of | Association | |
| | | implementing these actions will be left to | | |
| | | the future. | | |
| | | Our vision for 2050 is a County in which low | Kenneth Bawer | |
| | | density and rural areas in the County | for West | |
| | | (those areas outside the Sewer Envelope) | Montgomery | |
| | | are afforded special protection since these | County Citizens | |
| | | areas contain watersheds which contribute | Association | |
| | | drinking water to millions of people in the | | |
| | | DC area from the WSSC Water Filtration | | |
| | | Plants and the Little Seneca Lake | | |
| | | emergency drinking water reservoir. | | |
| | | Astonishingly, the County water supply is | | |
| | | mentioned in only one paragraph (Policy | | |
| | | 6.2.3) on page 101. Our drinking water | | |
| | | sources need to be protected by new | | |
| | | Drinking Water Special Protection Areas, | | |
| | | downzoning, purchase of land outright or | | |
| | | via eminent domain, enhanced tax credit | | |
| | | for conservation easements, etc. | | |
| | This pattern of sustainable growth and | WMCCA Comment: This is unrealistic. With | Kenneth Bawer | |
| | development creates multiple benefits | compact development comes more | for West | |
| | for Montgomery County and results in a | impervious surfaces which leads to | Montgomery | |
| | future county that is: | degraded stream water quality. Unless | County Citizens | |
| | Urban. | compact (read more dense) development is | Association, | |
| | Compact form of development, coupled | balanced by down-zoning of other areas, | David | |
| | with conservation of the Agricultural | the amount of impervious surface in the | Blockstein, | |

|-----|--|---|--|----------------|
| | Reserve, has proven to be better for the environment resulting in improved stream water quality. (P. 46) | county will increase. We call for down-zoning and increased protections in the low density and rural areas outside of the sewer envelope to balance the proposed increased density areas. Plus, conservation of the Ag Reserve is already under attack with the proposal for commercial solar. | Clean Energy Working Group, Takoma Park Mobilization Environment Committee | |
| | Reuse, recycling and composting of food and yard waste results in very little municipal solid waste generation. (P.97) | WMCCA Comment: With respect to reuse, county solid waste transfer stations must allow residents to remove items (such as electronics, metal items, etc.) for reuse instead of shipping it away. Home hobbyists can repair electronics, and do it yourselfers can find uses for metal scraps and perfectly good metal filing cabinets, for example. This will, presumably, require signing of liability waivers, but this is already routinely done at Parks events. | Kenneth Bawer for West Montgomery County Citizens Association | |
| | Active. County residents enjoy an active, healthy lifestyle. Connecting to the outdoors and their neighbors boosts their physical and mental health. Every resident has walkable access to opportunities for social engagement, physical activity, and quiet contemplation, whether in parks or other public spaces. The county's built and natural resources are designed to encourage physical activity. Fewer vehicles using clean energy, have resulted in drastically reduced greenhouse gas emissions. (P. 46) | WMCCA Comment: Increased housing density will probably not lead to increased physical health. Most urbanized areas suffer from reduced air quality due to more vehicular traffic. Assuming a gradual conversion to all electric vehicles, increased urbanization will hurt the health of residents within the time span of Thrive 2050. | Kenneth Bawer for West Montgomery County Citizens Association | |

|-----|-----------------------------------|---|------------------|----------------|
| | | I'd like to urge the county to consider | Matteo | |
| | | developing more purpose-built facilities for | | |
| | | playing soccer on hard courts in urban | | |
| | | areas. While soccer is traditionally played | | |
| | | on grass, in many urban environments, | | |
| | | soccer is played on any flat open surface | | |
| | | available, most often on concrete. In fact, | | |
| | | globally, a specific form of soccer has even | | |
| | | been formalized and called "Futsal" due to | | |
| | | the prevalence of playing the game on | | |
| | | concrete. Here in Montgomery County, | | |
| | | because of the availability of lights and the | | |
| | | low barriers to entry (no permitting | | |
| | | necessary), soccer is often played on tennis | | |
| | | courts throughout the county. I'd propose | | |
| | | the county take two routes: | | |
| | | 1. Convert underutilized tennis courts into | | |
| | | soccer courts | | |
| | | 2. Develop shared, multi-purpose facilities | | |
| | | that include concrete spaces for soccer | | |
| | Urbanism and Complete Communities | The emphasis on urbanism as a strategy to | Denisse Guitarra | |
| | (P. 33) | protect natural spaces and reduce sprawl, | for Advocate | |
| | | while concentrating development around | Audubon | |
| | | transit corridors is a balanced approach to | Naturalist | |
| | | sustainable development. Urbanism will | Society | |
| | | ensure that county residents can easily | | |
| | | access basic needs within a short distance | | |
| | | and prioritize affordable and attainable | | |
| | | housing. However, we would like to see an | | |
| | | increase protection on stormwater | | |
| | | management that not only meets but | | |
| | | exceeds our current stormwater regulatory | | |
| | | requirements in order to accommodate the | | |

|-----|------------------|---|-----------------|----------------|
| | | Our vision for 2050 is a County that has | Kenneth Bawer | |
| | | taken stronger actions to achieve | for West | |
| | | sustainability. We believe that | Montgomery | |
| | | sustainability should be a prerequisite for | County Citizens | |
| | | economic growth. Even as Thrive | Association | |
| | | Montgomery 2050 is a conceptual plan, | | |
| | | actions to protect and remediate the | | |
| | | environment such as "conduct a study" and | | |
| | | "develop a plan" are so general as to be | | |
| | | potentially ineffective. | | |
| | | Furthermore, the residents in these rural | Kenneth Bawer | |
| | | and low-density areas that have well water | for West | |
| | | need to have their groundwater supplies | Montgomery | |
| | | protected. To protect our drinking water | County Citizens | |
| | | supply, these areas should be accorded | Association | |
| | | policies such as severe limitations on sewer | | |
| | | line extensions (including closing loopholes | | |
| | | and backdoors in the Water & Sewer Plan | | |
| | | such as the abutting mains policy and the | | |
| | | Potomac peripheral sewer service policy) | | |
| | | coupled with education for septic system | | |
| | | owners on proper care and maintenance of | | |
| | | their systems. Our vision for 2050 is for a | | |
| | | County that is no longer totally negligent | | |
| | | on this issue - to date there are no required | | |
| | | septic inspections, no required pump-outs, | | |
| | | and no proactive education programs. | | |
| | | The county is forcing our 30,000 septic | Kenneth Bawer | |
| | | system owners to go it alone until their | for West | |
| | | systems fail and the County can | Montgomery | |
| | | recommend sewer line extensions as the | County Citizens | |
| | | only option. | Association | |
| | | | | |

|-----|------------------|--|-----------------|----------------|
| | | Currently, there is little protection for well | | |
| | | water quality in Montgomery County and | | |
| | | the state. Our vision is that the County ask | | |
| | | our legislators to support the Maryland | | |
| | | Private Well Safety Program bill (once | | |
| | | finalized) | | |
| | | Our vision is for the County to help fund | Kenneth Bawer | |
| | | research for new, innovative septic systems | for West | |
| | | at the University of Maryland. Also, in the | Montgomery | |
| | | rural and low-density areas, our vision is for | County Citizens | |
| | | severe limitations on new road construction | Association | |
| | | and road widening, and stricter | | |
| | | requirements to control stormwater and | | |
| | | impervious surfaces than within the sewer | | |
| | | envelope. And our vision is that the County | | |
| | | reaffirm its opposition to a second Potomac | | |
| | | River crossing in western Montgomery | | |
| | | County. | | |
| | | Our vision for 2050 is a County where all | Kenneth Bawer | |
| | | decisions and policies are informed by | for West | |
| | | science. Decisions will be based on the fact | Montgomery | |
| | | that any amount of impervious surface | County Citizens | |
| | | degrades our water quality (as exemplified | Association | |
| | | by the continuing battle for Ten Mile | | |
| | | Creek). | | |
| | | Our vision is that, if stormwater runoff is | Kenneth Bawer | |
| | | mandated to be controlled outside of | for West | |
| | | stream valleys, there would be no reason | Montgomery | |
| | | for stream construction work. | County Citizens | |
| | | | Association | |
| | | Our vision for 2050 is a County where the | | |
| | | use of synthetic turf fields is prohibited. | | |
| | | Our vision for 2050 is a County that is | Kenneth Bawer | |
| | | finally honest about air and water quality | for West | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|--|-----------------|----------------|
| | | conditions. The county must commit to | Montgomery | |
| | | honestly reporting true air quality | County Citizens | |
| | | conditions to residents. Currently, we have | Association | |
| | | a single air quality monitoring station in the | | |
| | | middle of an open field near Lake Frank | | |
| | | surrounded by forest - not exactly where | | |
| | | most people breathe the air. Our vision is | | |
| | | for a network of near-road air quality | | |
| | | monitoring stations to accurately enable | | |
| | | assessments of public health and to | | |
| | | daylight equity issues. | | |
| | | Our vision for 2050 concurs with the need | Kenneth Bawer | |
| | | to concentrate density along transportation | for West | |
| | | corridors to encourage the use of mass | Montgomery | |
| | | transit. However, our vision also balances | County Citizens | |
| | | any up-zoning along development corridors | Association | |
| | | and centers with downzoning in other | | |
| | | areas. | | |
| | | This includes the protection of our low- | | |
| | | density and rural areas outside of the sewer | | |
| | | envelope from creeping sewer sprawl (and | | |
| | | resulting development pressure to increase | | |
| | | zoning density once sewer lines are | | |
| | | extended). | | |
| | | Public health should be incorporated by | David Helms, | |
| | | emphasizing priority areas determined by | Pedestrian, | |
| | | obesity, behavioral health, diabetes, and | Bicycle, | |
| | | cardiovascular disease. The plan should | Transportation | |
| | | include policies that establish partnerships | Safety Advisory | |
| | | such as the Healthy Montgomery | Committee | |
| | | Transforming Communities Initiative. The | | |
| | | plan should also include descriptors of a | | |
| | | healthy environment such as clean water, | | |
| | | value of clean air, value of parks and health | | |

|-----|--|--|------------------|----------------|
| | | water supply is mentioned in only one | | |
| | | paragraph (Policy 6.2.3) on page 101. Our | | |
| | | drinking water sources need to be | | |
| | | protected by new Drinking Water Special | | |
| | | Protection Areas, downzoning, purchase of | | |
| | | land outright or via eminent domain, | | |
| | | enhanced tax credit for conservation | | |
| | | easements, etc. | | |
| | | Policy 6.2.3 - Reword: "Integrate climate | WSSC Water | |
| | | change with the planning efforts on the | | |
| | | County's water supply to | | |
| | | ensure that an adequate and safe supply of | | |
| | | drinking water will be available to meet | | |
| | | current and future | | |
| | | needs." | | |
| | Goal 6.3: Improve health and well-being | Goal 6.3. Improving health is not something | Dan Wilhelm for | |
| | for all Montgomery County residents and | that belongs in this document. It is handled | Greater | |
| | address the health disparities that | by private industry and much of the | Colesville Civic | |
| | currently exist. | regulation is undertaken by FDA and other | Association | |
| | | federal agencies. Congress is the one who | | |
| | | would establish policy. The plan should talk | | |
| | | about parks and recreation facilities. | | |
| | Goal 6.3: Improve health and well-being | WMCCA Comment: Add: Increase access to | Kenneth Bawer | |
| | for all Montgomery County residents and | parks by asking for (possibly in exchange | for West | |
| | address the health disparities that | for a tax credit) or purchasing (via eminent | Montgomery | |
| | currently exist. | domain) public access points (i.e., short | County Citizens | |
| | | connector trails between homes from a | Association, | |
| | Policy 6.3.5: Promote active and healthy | road or sidewalk to parks. There are miles | | |
| | lifestyles and active transportation | of parkland that is not easily accessible | | |
| | including walking and biking for all | within neighborhoods because there are | | |
| | segments of the population in all parts of | extremely limited access trails. Examples | | |
| | the county, by maintaining and improving | include both Muddy Branch and Watts | | |
| | built and natural environments. Ensure | Branch SVPs. | | |
| | that all county residents in urban and | | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|---|---|----------------|
| | suburban communities have access to a park or open space within walking distance from their homes. Enhance and protect our park system of natural and built elements to promote and increase opportunities for healthy active lifestyles and physical fitness. Foster human-to-human and human-to-nature connections. (P. 102) | WMCCA Comment: Add: One way the County will protect our park system of natural elements is to ban so-called "stream restorations" which convert natural (although not necessarily pristine) areas into engineered stormwater conveyances (with some exceptions such as "daylighting" piped streams and concrete culvert removal). | | |
| | Policy 6.3.7: Achieve nighttime light levels near natural areas that protect wildlife and enhance our ability to enjoy the night sky. (P. 102) | WMCCA Comment: Change to read, "Achieve nighttime light levels near natural areas and residential areas" | Kenneth Bawer for West Montgomery County Citizens Association | |
| | Goal 6.4: Provide all residents with safe, convenient access to affordable, healthy foods. | Goal 6.4. Delete this goal since it is federal responsibility to regulate food safety. | Dan Wilhelm for Greater Colesville Civic Association | |
| | Goal 6.4. (P. 101) | Creating mixed-income communities should be considered a key strategy for eliminating food deserts and providing access to healthy foods. | Jane Lyons for Coalition for Smarter Growth | |
| | Goal 6.5: Preserve, restore, enhance, expand, and sustainably manage natural and other green areas to support human life and a diversity of animal and plant life. Provide appropriate and accessible outdoor recreation opportunities for all. (P. 103) | WMCCA Comment: New Action: Create private—public partnerships to align the profit motives of individuals to the environmental sustainability of the County. | Kenneth Bawer for West Montgomery County Citizens Association | |
| | | Nature seems like a sidebar, with thin language. Section 6.5 has more study than specific actions. Forest protection is listed as something to be studied but it should | David Blockstein, Clean Energy Working Group, Takoma Park | |

Thrive Montgomery 2050 – Planning Board Worksession Summary of Public Hearing Testimony

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|-----------------------|---|-----------------|----------------|
| | | This chapter, placed toward the end of the | Jane Lyons for | |
| | | plan, doesn't add much that hasn't | Coalition for | |
| | | already been said. We believe it would be | Smarter Growth | |
| | | most beneficial for this section to focus | | |
| | | on the policies that support diverse and | | |
| | | adaptable growth — including the county's | | |
| | | tax regime, review/permitting processes, | | |
| | | and adequate public facilities ordinance — | | |
| | | in addition to the Agricultural Reserve. | | |
| | | Moreover, most of this chapter is focused | | |
| | | on the Agricultural Reserve without making | | |
| | | a strong argument about how it should be | | |
| | | used in the future. How can the Agriculture | | |
| | | Reserve best help us meet our | | |
| | | environmental, health, land use, economic, | | |
| | | and food production goals, and balance | | |
| | | those interests? | | |
| | | In general, while we respect that these | Todd Bressi for | |
| | | introductory sections were written through | Arts and | |
| | | a highly collaborative process and reflect | Humanities | |
| | | many voices, we feel a final round of | Council | |
| | | editing might result in a more cohesive | | |
| | | statement. | | |
| | Issues and challenges | This is a series of ideas that might better be | Todd Bressi for | |
| | | bullet points, if that style is allowable here. | Arts and | |
| | | | Humanities | |
| | | | Council | |
| | | Numerous edits in the narrative section of | Todd Bressi for | |
| | | the chapter. | Arts and | |
| | | | Humanities | |
| | | | Council | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|--|------------------|----------------|
| | | Planning Director Wright in her speeches | Jean Cavanaugh, | |
| | | seems to rely quite a bit on "great design." | Silver Spring | |
| | | However, our county doesn't have a form | | |
| | | based zoning code or any other mechanism | | |
| | | that requires a builder to build anything | | |
| | | other than to the envelope (height, | | |
| | | setback, FAR) defined. Establish local | | |
| | | design guideline panels (implemented | | |
| | | through master and sector plans, | | |
| | | not the general plan) that have more teeth | | |
| | | than the Bethesda model has, or we won't | | |
| | | get "great design." | | |
| | Update the Locational Atlas of Historic | The draft Plan currently requires a program | Deborah Chalfie, | |
| | Resources | to periodically catalog "building types in | Board member | |
| | | the county with a high risk of | Art Deco Society | |
| | | obsolescence,"6 but it does not currently | of Washington | |
| | | include a requirement for a systematic | | |
| | | review and updated survey of the County's | | |
| | | historic, and potentially historic, resources. | | |
| | | ADSW believes it is absolutely critical for | | |
| | | the Planning Board to add an Action Step | | |
| | | under Goal 8 that would require more | | |
| | | regular and systemic maintenance of the | | |
| | | Atlas by the Historic Preservation staff to | | |
| | | avoid a piecemeal approach and help | | |
| | | prevent regrettable oversights until it is too | | |
| | | late. Adequate funds need to be | | |
| | | appropriated and allocated to enable them | | |
| | | to document and inventory the list of | | |
| | | historic resources for the Locational Atlas | | |
| | | and Index. The Atlas must include | | |
| | | midcentury buildings that are now of such | | |
| | | as age as to be considered historic. | | |

It should be noted that Montgomery County has a Sustainable Community Action Plan. As part of the Sustainable Community designation, quality of life, environment, economy, transportation, housing and local planning and land use are all subjects of the Action Plan. Planning [MDP] suggests the county review the Action Plan for consistency with the Draft Plan and consider if any of the actions support implementation of the Draft Plan. Staff and commissioners have stated the plan will give them tools they do not now have – these tools need to be explicitly |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|--|----------------|----------------|
| | | should state clearly what additional tools | | |
| | | are necessary and why, and how they will | | |
| | | be used. | | |
| | | Utilize Master & Sector Plans for | Andy O'Hare, | |
| | | implementation as well as design | President EBCA | |
| | | excellence standards; and update the | | |
| | | Implementation Plan so that it reflects the | | |
| | | realities of COVID-19. | | |
| | Need for metrics to assess implantation | Because this plan is moving forward despite | Naomi Spinrad, | |
| | and success of the Plan | the fact that it is based on pre-Covid-19 | Chevy Chase | |
| | | data and assumptions, there must be a | West | |
| | | point early in the plan – at 3-5 years in – to | | |
| | | reevaluate whether the underlying | | |
| | | assumptions and policies flowing from | | |
| | | them are still valid. The plan should include | | |
| | | a section listing all the elements that might | | |
| | | be affected and what adjustments might | | |
| | | need to be made as a result of this | | |
| | | reevaluation. | | |
| | | As important, timelines and signposts need | | |
| | | to be included for everything. How many | | |
| | | additional housing units in how many | | |
| | | years, located where. Priorities for transit | | |
| | | routes, to be completed in what period. | | |
| | | Eliminating food deserts, by what means, | | |
| | | where, how soon. Restoration of tree | | |
| | | canopy, by numbers of trees or acreage and | | |
| | | locations as well as timing. And so on. Every | | |
| | | metric allows for adjustment depending on | | |
| | | success, so the measurement intervals must | | |
| | | be clear. | | |
| | | Metrics and Implementation: We | Denisse | |

| | | Create implementation metrics now: We | Jane Lyons for | |
| | | should not wait until two years have passed | Coalition for | |
| | | after the completion of Thrive to establish | Smarter | |
| | | metrics for measuring the plan's success. | Growth | |
| | | Our itemized comments below offer | | |
| | | recommendations for high-level metrics. | | |
| | Without economic analysis, it is difficult if | Metrics play a role as well in economic | Naomi Spinrad, | |
| | not impossible to set priorities | analysis. It is possible to estimate what | Chevy Chase | |
| | | creating a particular BRT route will cost | West | |
| | | given conditions along the route and the | | |
| | | level of sophistication in the buses and | | |
| | | service. Different types of housing can be | | |
| | | costed out in different locations. Figures | | |
| | | may vary depending on how quickly goals | | |
| | | are to be achieved. But in the absence of | | |
| | | metrics and economic analysis, we are | | |
| | | provided with nothing more than a vision. | | |
| | | And without metrics, the executive cannot | | |
| | | do its required economic analysis. And | | |
| | | without both metrics and economic | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|---|---|----------------|
| | | analysis, setting realistic priorities is impossible. | | |
| | | Statements in this section about specific decisions that may or not be made in the future don't belong here. | Dan Wilhelm for Greater Colesville Civic Association | |
| | For example, implementing some of the transportation goals and policies may require the transfer of control of major roadways from the State Highway Administration (SHA) to Montgomery County to give the county more control over road design and function. (P. 126) | Page 125. The text in the next to last paragraph about state roads needs to be deleted. The County should not take over control of state roads. The County is unable to adequately fund repair of county roads and adding state roads would require a major tax increase. | Dan Wilhelm for Greater Colesville Civic Association | |
| | Connectedness Chapter Action 2.2.2b calls for the development of a civic engagement toolkit to guide the civic engagement plan for each master plan. Resilient Economy Action 3.3.2 calls for an update to the master planning process to include the development of employment objectives and the assessment of plan scenario employment impacts. Different areas of the county support different levels of employment, so the employment objectives will need to be considered specifically for each master plan. | Page 126. The two bullets under master plans need to be deleted since our recommendation is to move all actions to an appendix as possible work programs. Employment objectives don't belong in master plans since the government can't control them. | Dan Wilhelm for Greater Colesville Civic Association | |
| | Tools to Implement the General Plan. (P. 128). | The county's adequate public facilities ordinance, the Growth and Infrastructure Policy, should be listed here. | Jane Lyons for Coalition for Smarter Growth | |

|-----|--|--|------------------|----------------|
| | Performance Measures. The Plan | We strongly disagree with this. What gets | Jane Lyons for | |
| | recommends developing baseline | measured gets done, and Montgomery | Coalition for | |
| | performance measures as a Montgomery | County cannot wait for two years to get | Smarter | |
| | Planning work program item within two | started on Thrive's implementation. | Growth | |
| | years of Plan adoption. (P. 129-130) | Therefore, we encourage you to create | | |
| | | baseline performance measures in the next | | |
| | | draft of Thrive. In our testimony on the | | |
| | | draft vision, goals, policies, and actions, we | | |
| | | recommended emphasizing the following | | |
| | | when selecting metrics: | | |
| | | i. life outcomes of residents — the | | |
| | | Montgomery of 2050 should not be a place | | |
| | | where income, race, ethnicity, gender | | |
| | | identity, or zip code are determinative | | |
| | | of health, wealth, or educational outcomes; | | |
| | | of nearth, wearth, or educational outcomes, | | |
| | | ii. vehicle miles traveled and average | | |
| | | residential distance from high-frequency | | |
| | | transit; | | |
| | | · | | |
| | | iii. greenhouse gas and carbon emissions, | | |
| | | by sector; and | | |
| | | | | |
| | | iv. integration — whether our | | |
| | | neighborhoods and communities include | | |
| | | residents of different incomes, races, | | |
| | | ethnicities, ages, etc. | 5 460 | |
| | Tools to implement the General Plan. (P. | Pages 126/127/132-134. These sections | Dan Wilhelm | |
| | 126-127) | need to be deleted and placed in an | for Greater | |
| | | appendix. | Colesville Civic | |
| | Action examples: Additional data | | Association | |
| | collection and studies. | | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|---|---|----------------|
| | Action examples: New plans, updates to existing plans and Zoning Ordinance Action examples: Creation of new tools and guidelines Action examples: New programs (P. 132-134) | | | |
| | Facilities plans: Thrive Montgomery 2050 includes guidance that applies specifically to the design, placement, and funding of public facilities. Future planning for public facilities, including county government facilities, park facilities, public schools, and Montgomery College, should reflect this guidance and direction in order to ensure they are compatible with and help implement the goals of Thrive Montgomery 2050. | Page 128. The discussion on facility plans needs to be deleted since the Planning Board reviews them under mandatory review when public facilities are getting ready to be implemented. Master Plans provide guidance before that. | Dan Wilhelm for Greater Colesville Civic Association | |
| | As a document whose primary function is to guide land use the draft Plan is very short on information about how to identify sites for parks and green space, schools, and other public facilities and services. | Do you envision eliminating adequate public facilities requirements? If not, more attention must be paid in the plan to how to provide for these. | Naomi Spinrad, Chevy Chase West | |
| | | The plan does not provide that the infrastructure enhancements are completed before the plan is enacted. Public transportation, adequate public facilities, and schools need to be in place before the plan is enacted. The Council recently approved legislation that allows new development to proceed without needed infrastructure improvements. We need this infrastructure to be completed first! | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---|--|-----------------|----------------|
| | | How will the county pay for all of the | Phyllis Edelman | |
| | | elements of this plan and in particular the | | |
| | | Complete Communities when estimates of | | |
| | | lost revenue for the county have | | |
| | | grown increasing larger as this year has | | |
| | | progressed? | | |
| | Funding for schools | First, having attended public schools in the | Alain Norman, | |
| | | County, I know that maintaining an | Silver Spring | |
| | | excellent public school system is crucial to | | |
| | | the ensuring that people can thrive in | | |
| | | this County, and in the face of global | | |
| | | competition. So, I applaud the | | |
| | | plan for repeatedly emphasizing the need | | |
| | | to facilitate access to schools at all levels. I | | |
| | | might urge the County to ensure that | | |
| | | funding goes to build as many schools as | | |
| | | possible to avoid overcrowding and – given | | |
| | | current trends – to take all relevant | | |
| | | steps necessary to ensure students have | | |
| | | access to computers and the Internet to be | | |
| | | able to receive excellent education virtually. | | |
| | | The draft Plan will be expensive to | Andy O'Hare, | |
| | | implement so the County should specify | President EBCA | |
| | | payment plans for public facilities, pay | | |
| | | more attention to how existing | | |
| | | disadvantaged and low-income | | |
| | | communities specifically will gain better | | |
| | | access to transit and other amenities, | | |
| | | coordinate with MCPS, Police and Fire & | | |
| | | Rescue, and build in equity so that | | |
| | | Complete Communities are available | | |
| | | throughout the entire County. | | |
| | Specify Payment Plans for Public Facilities | The Plan should address how the County | Todd Hoffman | |
| | | will pay for decentralized public facilities. | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---------------------------------------|---|------------------|----------------|
| | | Throughout the draft Plan there is lack of | for Coalition of | |
| | | clarity regarding 15-minute living in general | Incorporated | |
| | | and 15-minute access to public facilities in | Municipalities | |
| | | particular. The draft Plan encourages co- | and | |
| | | location of "essential services such as | Community | |
| | | schools, medical clinics, daycare centers, | Organizations | |
| | | libraries and recreation centers within | | |
| | | communities". While the County in some | | |
| | | instances does currently provide for | | |
| | | co-location, it has an extensive range of | | |
| | | centralized facilities, including swim | | |
| | | centers, sports centers, motor vehicle | | |
| | | offices, and immersion programs in schools. | | |
| | | The draft Plan appears to be reversing this | | |
| | | centralization and sharing of public | | |
| | | facilities by calling for decentralizing these | | |
| | | services so that residents have 15-minute | | |
| | | access. Regardless of how the Plan | | |
| | | ultimately defines 15-minute living, building | | |
| | | and operating these decentralized facilities | | |
| | | will add significant costs to the County's | | |
| | | budget and should be addressed as part of | | |
| | | the draft Plan. | | |
| | Coordinate with School Facilities and | We recommend that the Planning Board | Todd Hoffman | |
| | Programs | work closely with MCPS and the Board of | for Coalition of | |
| | | Education to determine if decentralization | Incorporated | |
| | | of middle and high schools, plus the | Municipalities | |
| | | possible termination of magnet and | and | |
| | | immersion programs, is in the best interest | Community | |
| | | of the County and its students. | Organizations | |
| | Prioritize Equity | Public facilities are not equitably distributed | Todd Hoffman | |
| | | throughout the county. The draft Plan | for Coalition of | |
| | | should prioritize adding missing public | Incorporated | |
| | | facilities to disadvantaged neighborhoods | Municipalities | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|---------------------------------|---|------------------|----------------|
| | | and upgrading the facilities currently in | and | |
| | | those neighborhoods. Transforming existing | Community | |
| | | single-family neighborhoods near rail and | Organizations | |
| | | BRT transit into Complete Communities will, | | |
| | | in many places, involve improving access to | | |
| | | public facilities such as libraries, recreation | | |
| | | centers, schools, parks, government offices, | | |
| | | and natural green spaces, among other | | |
| | | things. This improved access may | | |
| | | necessitate construction of new facilities. | | |
| | | Transforming existing neighborhoods near | | |
| | | transit into Complete Communities appears | | |
| | | to be the draft Plan's priority. However, | | |
| | | some of these neighborhoods are already | | |
| | | more amenity rich than many of the | | |
| | | County's disadvantaged neighborhoods. | | |
| | | Given budgetary constraints, it seems | | |
| | | unlikely that improvements can be made in | | |
| | | all neighborhoods simultaneously. To better | | |
| | | serve those with greatest need in the | | |
| | | County, the priority should be to make | | |
| | | improvements in the neighborhoods with | | |
| | | the greatest socioeconomic needs and the | | |
| | | poorest access to those services. | | |
| | Coordinate with Police and Fire | We recommend that the Planning Board | Todd Hoffman | |
| | Protection Services | work closely with representatives of MCPD, | for Coalition of | |
| | | County and local Fire Departments to | Incorporated | |
| | | ensure that the Plan does not adversely | Municipalities | |
| | | impact public safety and fire protection | and | |
| | | services. Historically, there is a strong | Community | |
| | | relationship between population density | Organizations | |
| | | and the need for police and fire and | | |
| | | emergency services. Decentralization may | | |
| | | require expenditures for land acquisition | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|-----------------------------------|--|------------------|----------------|
| | | and construction; how it might affect | | |
| | | staffing is unclear. We believe extensive | | |
| | | additional input is needed from MCPD, | | |
| | | MCFRS, and private fire departments | | |
| | | regarding urban, suburban, and rural | | |
| | | Complete Communities and the most | | |
| | | effective, cost-efficient deployment of these | | |
| | | services. | | |
| | | Page 131. Delete the "getting started" | Dan Wilhelm | |
| | | discussion since it is setting actions. The | for Greater | |
| | | previous discussion indicated the Thrive | Colesville Civic | |
| | | plan sets the vision and not actions. | Association | |
| | | It would be helpful to explain the | League of | |
| | | evaluation process, albeit briefly, in the | Women Voters | |
| | | main document as well as having an | of | |
| | | extensive explanation in a separate | Montgomery | |
| | | document. The public needs to know how | County | |
| | | the county is tracking progress toward its | | |
| | | goals and what the timetable is for | | |
| | | evaluation. | | |
| | Use Master Plans and Sector Plans | We strongly urge that zoning changes be | Todd Hoffman, | |
| | | established through a Master Plan or Sector | for Coalition of | |
| | | Plan approach and not through a global | incorporated | |
| | | ZTA approach. Implementing changes to | municipalities | |
| | | housing and uses in neighborhoods through | and community | |
| | | a Master Plan or Sector Plan is more | organizations | |
| | | appropriate than other approaches because | | |
| | | the County's neighborhoods have such | | |
| | | varied characteristics – one size does not fit | | |
| | | all. This approach also allows communities | | |
| | | and planners to have a dialog based on the | | |
| | | actual experience of living and/or working | | |
| | | in a neighborhood as decisions are made | | |
| | | about changes to the physical | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--|---|------------------|----------------|
| | | characteristics of the neighborhoods (see | | |
| | | item 5 in the Complete Communities | | |
| | | section). | | |
| | Move Design Excellence Criteria to Other | Design excellence should be addressed | Todd Hoffman | |
| | Plans | in Master and Sector Plans rather than in | for Coalition of | |
| | | Thrive Montgomery. The promotion of | Incorporated | |
| | | design excellence in public buildings is a | Municipalities | |
| | | commendable goal but is beyond the scope | and | |
| | | of a general plan such as Thrive | Community | |
| | | Montgomery. This goal is not clearly | Organizations | |
| | | defined in the draft Plan and can be subject | | |
| | | to changing trends and individual opinion; | | |
| | | for these reasons we urge that it not be | | |
| | | imposed on a community through the Plan. | | |
| | | Within each Master or Sector Plan, a panel | | |
| | | including relevant experts and community | | |
| | | representatives, with input from | | |
| | | neighboring properties, should be part of | | |
| | | the design excellence process. Also, design | | |
| | | guidelines should not be used in place of | | |
| | | zoned density, but rather to enhance the | | |
| | | aesthetic appearance of allowed density. | | |
| | Improve Implementation Timeline | The implementation timeline should reflect | Todd Hoffman | |
| | | the realities of obtaining financing to build | for Coalition of | |
| | | the new mass transit, bicycle routes, | Incorporated | |
| | | sidewalks, parks, greenways, and | Municipalities | |
| | | decentralized public facilities that will be | and | |
| | | needed to create Complete Communities | Community | |
| | | across the county and make the Plan a | Organizations | |
| | | success. The timeline must include metrics | | |
| | | to measure progress and success. | | |
| | | The Plan should explain the impact its | | |
| | | adoption will have on existing Master Plans | | |
| | | and Sector Plans. Will recently adopted | | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|--------------------------------------|---|------------------|----------------|
| | | Master and Sector Plans be revised to | | |
| | | reflect the Goals, Policies, and Action | | |
| | | items in the Plan? | | |
| | Timeline | Add a five-year checkup to review the | Jean | |
| | | impact of the pandemic on long term plans | Cavanaugh, | |
| | | | Silver Spring | |
| | | | resident | |
| | Fiscal Impacts/Tax Burdens | The plan suggests increasing the | Naomi Spinrad, | |
| | | recordation tax, something already | Chevy Chase | |
| | | included in the Growth Policy. It also | West resident | |
| | | recommends split-rate property taxes but | | |
| | | does not explain whether or how that | | |
| | | might affect owners of single-family | | |
| | | properties if there is ultimately any | | |
| | | rezoning of such properties. These and any | | |
| | | other revenue-raising considerations need | | |
| | | to be addressed. | | |
| | Add Financing Strategies | We recommend that the draft Plan include | Todd Hoffman | |
| | | high-level fiscal analyses or associated | for Coalition of | |
| | | financing and investment strategies that | Incorporated | |
| | | address how amenities will be added to all | Municipalities | |
| | | communities around the County so that | and | |
| | | they become Complete Communities | Community | |
| | | | Organizations | |
| | | The document does not include financing | Peter Rizik | |
| | | or a revenue model. I'd like to see a | | |
| | | breakdown of our tax bases in the coming | | |
| | | decades. Identify what will we promote, | | |
| | | protect, or grow. | | |
| | Share the Costs Between Developers & | The draft Plan should indicate how the | Todd Hoffman | |
| | Residents | costs of achieving the goals of the Plan will | for Coalition of | |
| | | be shared between developers and | Incorporated | |
| | | residents. | Municipalities | |
| | | | and | |

| No. | Issue/Topic Area | Comment | Commenter | Staff Response |
|-----|------------------|--|---------------|----------------|
| | | Constructing Complete Communities will | Community | |
| | | put a great burden on the public treasury to | Organizations | |
| | | provide (duplicative but equitable) public | | |
| | | facilities for all communities. It is unclear | | |
| | | where the vast sums that will be needed to | | |
| | | fund the many capital improvement | | |
| | | projects called for in the draft Plan will | | |
| | | come from. | | |
| | | Complete communities is an attractive idea | Salim Furth, | |
| | | but it is not feasible. Instead, planning | Takoma Park | |
| | | should focus on reviewing development | | |
| | | regulations to provide developers with | | |
| | | certainty and clarity, the duration of the | | |
| | | process, what is and isn't allowed, and all | | |
| | | the monetary costs they should expect (like | | |
| | | school impact fee schedules). Community | | |
| | | input should be primarily at the planning | | |
| | | phase, and not be required for projects | | |
| | | that fit into planning vision for an area. | | |
| | | Perhaps most significantly, the draft Plan | Melanie Rose | |
| | | fails to recognize that the County is | White, Chair | |
| | | suffering from severe constraints on its | Citizens | |
| | | operating and capital budgets, likely for | Coordinating | |
| | | many years to come. According to the | Committee on | |
| | | County Executive's office, a \$1 billion deficit | Friendship | |
| | | in the County budget is projected by the | Heights | |
| | | end of the next six years. The County has | | |
| | | also had sluggish job growth over the last | | |
| | | 15 years, which has stood at 5% annually. | | |
| | | By comparison, job growth in similar | | |
| | | counties has grown by 21%. Maryland has | | |
| | | lagged Virginia in job growth and as of | | |
| | | early this year, Prince George's County | | |

|-----|------------------|---|-----------|----------------|
| | | exceeded Montgomery County in job | | |
| | | growth. | | |
| | | | | |
| | | We also question how the County will be | | |
| | | able to afford retrofitting existing | | |
| | | established neighborhoods with the | | |
| | | infrastructure and amenities that they | | |
| | | currently lack to turn them into "Complete | | |
| | | Communities." The draft Thrive | | |
| | | Montgomery Plan will require a great deal | | |
| | | of capital investment in new or existing | | |
| | | County communities to achieve the Plan's | | |
| | | goals. These funds, however, are not now | | |
| | | available, and are unlikely to be available in | | |
| | | the near or mid-term future, without | | |
| | | substantial County tax increases. | | |
| | | | | |
| | | Finally, we note that the draft Plan assumes | | |
| | | that "If you build it, they will come." This | | |
| | | assumption won't work, however, unless a | | |
| | | significant number of new jobs are created. | | |
| | | In view of its staggering costs, which | | |
| | | businesses would not want to absorb, there | | |
| | | is a significant likelihood that this plan will | | |
| | | exacerbate Montgomery County's failures | | |
| | | in job growth. This County, with its low job | | |
| | | growth rate and looming revenue deficits, | | |
| | | needs to focus on incentives and incubator | | |
| | | policies that will bring industry and | | |
| | | business to the County. Fill those empty | | |
| | | office buildings with businesses and | | |
| | | startups. | | |

|-----|------------------|--|----------------|----------------|
| | | From an economic standpoint, | Deborah | |
| | | establishment of complete communities | Ingram, Chevy | |
| | | and 15-minute living in the next 30 years | Chase | |
| | | seems not just visionary, but fantastical. | | |
| | | Currently, the County does not have | | |
| | | sufficient funds to update its schools, | | |
| | | libraries, recreation centers, much less build | | |
| | | new ones. Nor does the County have | | |
| | | sufficient funds to build the sidewalks and | | |
| | | bike lanes currently needed (e.g., sidewalks | | |
| | | to get passengers to Purple Line stations). | | |
| | | There also are no funds to significantly | | |
| | | expand our transit system. The County has | | |
| | | finally managed to open the BRT route on | | |
| | | Rt. 29, but that took years and there is no | | |
| | | money to implement other BRT routes that | | |
| | | have been on the list for years, to expand | | |
| | | MARC service, etc. We cannot expect | | |
| | | Montgomery County to thrive under this | | |
| | | new general plan if it does not have a | | |
| | | sound economic footing. | | |
| | | There is a lack of acknowledgement of | Andy O'Hare, | |
| | | COVID-19's impact on our economy, public | President EBCA | |
| | | revenue deficits, transit use changes, work | | |
| | | preferences and lifestyle; in addition, there | | |
| | | appears to be an unsupported premise that | | |
| | | increased Missing Middle housing stock | | |
| | | creates Complete Communities and no | | |
| | | attempt in giving equal weight to the | | |
| | | importance of job creation, transit, and | | |
| | | housing; furthermore, there is a glaring | | |
| | | omission of strategies for how public | | |
| | | revenue will substantially increase in order | | |
