Staff from the Research and Strategic Projects Division will provide a short briefing on the state of Montgomery County's economy and its progress in recovering from the economic impacts of the pandemic. Key indicators to be covered include:

- Employment levels and labor force participation economy-wide and for key sectors
- Wages
- Consumer spending
- Commuting, auto traffic, and transit ridership
- Real estate trends, and
- Inflation

Indicators will be contextualized within national and regional economies when possible.
