[REVISED PRESENTATION - Andi Adams Historic Preservation Presentation June 22 2022\(4594328.2\).pdf](#)

Thanks, this is helpful. I think it's ok as is. I did hear from Bob Harris yesterday that he plans to be the only speaker on behalf of the property owners and that the others (Andi Adams, Julie Uhar, Dan Estrada) don't have planned testimony but will be there to answer questions as needed. In that case it could skip over Andi (who is signed up virtually) and move directly to the in person public testimony. Let me know if we need to do anything to clarify all that for the meeting.

Andi Adams also requested that the slides she previously presented at the HPC be included as part of the record, so I wanted to attach those and confirm that's the case.

Thanks!

Hi Kacy,

There are no time limits. Since we started with virtual meetings, we have removed the timer all together. Typically, testimony is usually around 3-5 minutes. The Chair doesn't look to cut anyone off and allows as much time needed to state their case, we just ask comments are kept as succinct as possible. Of course, this is all per the Chair's discretion.

If you prefer, I can move Al Muller under "Applicant/External Attendee" so that he isn't lumped with the other community members, and would be able to engage during discussion rather than waiting for testimony. Otherwise, he will be second on the list for public testimony (virtual testimony goes first, then in person—we have one person signed up virtually).

Thanks,
Catherine
