Emily,

The Department of General Services has conferred with the Department of Recreation on the matter. Upon review, the Department of Recreation has confirmed that Parcel M was never used for recreational uses as intended. Furthermore, it is our understanding that the original intended use for Parcel M as a 'recreation center' was subsequently relocated to Wall Park in conjunction with the White Flint Master Plan. DGS has further confirmed that the County has not actively maintained or utilized Parcel M for another public use since the dedication.

I hope this information is helpful. Please contact me directly if you have any questions.

Greg Ossont
Deputy Director
Department of General Services
