Gentlemen,

The Patuxent Watershed Protective Association (PWPA) has review the submitted plans for the Sandy Spring Missing Middle Pilot Project (Project numbers 120220050 and 820220090). We have no environmental objections to the proposed plans. We also find the stormwater management plans and the tree variance request to be acceptable, as is the Forest Conservation Plan together with its off-site reforestation and Patuxent feeder stream protection provisions

If you have any questions, please feel free to contact me.

Donald E. Chamberlin, Representative  
***Patuxent Watershed Protective Association***
