## RECOMMENDATION

The Planning Board will receive public testimony on the *Master Plan of Highways and Transitways – 2024 Technical Update*.

## DESCRIPTION

A technical update to the Master Plan of Highways and Transitways (MPOHT) is necessitated by the County Council's approval of two bills in 2022 (Bill 24-22 and 34-22) that revised the street types identified in Chapter 49 of the County Code, also known as the "Road Code," to conform to the county's Complete Streets Design Guide. While the updated county code provides an interim translation from the previous "functional" classification system to the new "complete streets" classification system, adjustments to these default translations are needed for various road segments in the county. Master plan recommendations are presented in the Public Hearing Draft to street classifications, master planned target speeds, number of planned travel lanes, transitway removals and additions, transit station removals and additions, and the identification of a new Growth Corridor street type.

The Public Hearing Draft Plan is available online at: <https://montgomeryplanning.org/mpoht2024>

The purpose of the public hearing is to provide an opportunity for all interested persons to express their views.

Planning Staff presented the Working Draft of *the Master Plan of Highways and Transitways – 2024 Technical Update* to the Planning Board on June 26, 2024. The Planning Board authorized Planning Staff to prepare the Public Hearing Draft and scheduled a public hearing for September 12, 2024 in the second floor auditorium of the M-NCPPC Wheaton Headquarters building at 2425 Reedie Drive, Wheaton, MD. The public hearing was advertised in the Washington Times on August 5, 2024.

The public hearing record will remain open until Thursday, September 26, 2024 at 5p.m. for additional testimony to be submitted to the Planning Board. Planning Staff will summarize the testimony and conduct the first work session with the Planning Board on October 17, 2024.
