COUNCIL DECISION POINTS & COMMITTEE RECOMMENDATION

- To introduce agenda item – no vote expected

DESCRIPTION/ISSUE

ZTA 25-13 will make several technical, clarifying, and other amendments to the Zoning Ordinance, such as:

- amending the height restrictions for a regional shopping center in the RSC Overlay Zone;
- placing a gross floor area cap on household living in the Employment zones;
- clarifying the gross floor area cap on non-residential uses for Commercial to Residential Reconstruction;
- clarifying the applicable conditional use standards for Townhouse Living;
- require setbacks for limited outdoor storage of items such as vehicles and boats; and
- correcting outdated cross-references to expedited approval plans.

SUMMARY OF KEY DISCUSSION POINTS

- Under the current Zoning Ordinance, regional shopping centers in the Regional Shopping Center (RSC) Overlay Zone with a gross leasable area that is greater than or will be greater than 1,200,000 square feet may increase building height for a theater complex, hotel or motel, apartment building or multi-use building with residential use, or a freestanding building for retail sales and service, structured parking, or health clubs and facilities. ZTA 25-13 will remove the restriction that a regional shopping center in the RSC Overlay Zone must have a gross leasable area that is greater than or will be greater than 1,200,000 square feet in order to increase building height for those listed uses. A regional shopping center is defined as being 600,000 square feet, so compatibility will be retained while allowing for more flexible development.
- ZTA 25-13 will place a gross floor area cap of 30% on household living uses in the Employment zones (GR, NR, and EOF) to preserve existing retail spaces.

- ZTA 25-13 will add the phrase “notwithstanding [Section 4.1.3.D](#)” to the gross floor area language for the Commercial to Residential Reconstruction use. This will clarify that the decision the Council made to allow up to 30% of the gross floor area on the subject site as non-residential for office-to-residential conversions supersedes the language in the apartment building definition that says “An apartment may contain up to 10% of the gross floor area as Retail/Service Establishment uses, otherwise it is a multi use building.”
- ZTA 25-13 will clarify that for Townhouse Living in the residential detached zones, an applicant may choose between either the Design for Life standards or the standards from [ZTA 24-01, Household Living – Civic and Institutional Uses](#), which allowed Multi-Unit Living and Townhouse Living on properties with a Religious Assembly or Educational Institution (Private) use in certain zones.
- ZTA 25-13 will require large items such as vehicles and boats to be stored within the accessory structure setbacks of the underlying zone, to create a buffer for neighboring properties.
- ZTA 25-13 will correct outdated references to expedited approval plans by removing references to Section 7.3.7, [which no longer exists](#).
- A public hearing is tentatively scheduled for November 18, 2025.
