I would like to confirm that the DNR letter indicating that this plan is not subject to Forest Conservation Law satisfies this requirement. No exemption is needed because DNR indicated that the plan is not subject to the law.

Thank you, Amy:

To complete the MR Intake Process for the MD 390-Woodside, I need to address the following comment:

“Please upload the Natural Resources Inventory plan approved by the planning department. If you do not have an approved NRI, make sure to upload the FCP Exemption plan approved by the planning department. Without either an NRI OR an FC Exemption, we cannot proceed with the MR.”

I'm unsure whether the above comment refers to the SHA Planning Department or the Montgomery County Planning Department. Please confirm that the final step in completing the MR Intake process is for me to upload the DNR letter stating that this project does not require compliance with FCA.

_Thank you in advance for your help.

Good morning, All:

I received the DNR letter indicating that this project does not require compliance with FCA. I have uploaded the letter to ePlans.

Please provide me with your concurrence to finalize the MR Intake Process.

_Thanks

Hi Mariefrance,

Many thanks for reaching out to us. Please find the approval letter that we usually see during the State project file for FC exemption and MR. Also, I would encourage you to review one of the most recent files, [FC exemption](#) and [Mandatory Referral](#) that we processed, which is very similar to your file.

As I mentioned, you could file for the FC exemption while you update the NDR letter approval memo. I believe this will help you save some time.

Please let me know if you have any issues accessing the files or opening the PDF.

Best regards,
